Proxy Statement and Notice of Annual Meeting of Stockholders To Be Held April 7, 2020

SOLICITATION OF PROXIES BY THE BOARD OF DIRECTORS

Dear Stockholder:

On Tuesday, April 7, 2020, we will hold our annual meeting of stockholders at the offices of KBS, 800 Newport Center Drive, First Floor, Suite 140 Conference Center, Newport Beach, California 92660. The annual meeting will begin at 10:00 a.m. Pacific time.

At the annual meeting, we will seek your approval of, among other proposals, two proposals related to our pursuit of conversion to a non-listed perpetual-life “NAV REIT.” We currently believe the best opportunity for us to achieve our objectives to provide attractive and stable cash distributions to our stockholders and provide additional liquidity for our stockholders is to pursue a strategy as a non-listed, perpetual-life “NAV REIT” that offers and sells new shares of our common stock continuously through a number of distribution channels in ongoing public offerings, and seeks to provide increased liquidity to current and future stockholders through an expansion of our current share redemption program and/or periodic self-tender offers. As more thoroughly described in the accompanying proxy statement, if we pursue conversion to an NAV REIT, we would implement a revised advisory fee structure, including a revised management fee and incentive fee structure that put a greater emphasis on our performance. We believe these changes would help further align the interests of our advisor (and its affiliates) and our stockholders in growing our company and performing well. In addition to the revised management fee and incentive fee structure, the new fee structure would eliminate the current transaction-based fees (i.e., the acquisition fee and disposition fee) payable to our advisor.

We believe we are more likely to succeed with a perpetual-life NAV REIT strategy if we revise our charter to remove Section 5.11, which requires that we seek stockholder approval of our liquidation if our shares of common stock are not listed on a national securities exchange by September 30, 2020, unless a majority of our independent directors determines that liquidation is not then in the best interest of our stockholders. We believe that the continued inclusion of Section 5.11 in our charter may create confusion if we are pursuing a perpetual-life NAV REIT strategy and we are proposing that stockholders approve this amendment to our charter.

With respect to the incentive fee structure currently in effect with our advisor, the triggering events for payment of the incentive fee are generally expected to occur, if ever, upon a listing of our shares of stock on a national securities exchange or a significant distribution of cash in connection with a sale of all or a substantial amount of our assets. These triggering events are inconsistent with a perpetual-life NAV REIT. With respect to our historical performance period from inception through the launch of our first public offering as a perpetual-life NAV REIT, we believe it is appropriate to accelerate the payment of the historical incentive fee in the form of restricted shares of our common stock so that it does not depend on the currently-existing triggering events. The acceleration of the payment of the historical incentive compensation to our advisor will not affect the net asset value of our shares of common stock because our net asset value calculation has always included the potential liability related to the incentive fee. Because the acceleration of this fee is not something we intended to do when we launched our initial public offering, we believe it is appropriate to ask the stockholders for their approval of this acceleration. The historical incentive fee would be paid in restricted shares of our common stock and would be subject to certain restrictions as described further in the proxy statement.

We are holding the annual meeting of stockholders for the following purposes:

1. To elect four directors to hold office for one-year terms.

The Board of Directors recommends a vote FOR each nominee.

2. To ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019.

The Board of Directors recommends a vote FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019.

3. To remove Section 5.11 from our charter. Section 5.11 of our charter requires that we seek stockholder approval of our liquidation if our shares of common stock are not listed on a national securities exchange by September 30, 2020, unless a majority of our independent directors determines that liquidation is not then in the best interest of our stockholders. This proposal will not take effect unless Proposal 4 below is also approved.

The Board of Directors recommends a vote FOR this proposal.

4. To approve the acceleration of the payment of incentive compensation to KBS Capital Advisors LLC, our external advisor, in the form of restricted shares of our common stock. This proposal will not take effect unless Proposal 3 above is also approved.

The Board of Directors recommends a vote FOR this proposal.

5. To permit us to proceed with voting on and approval of only the proposals that have received sufficient votes to be approved at the annual meeting, and then subsequently, to adjourn the annual meeting to solicit additional proxies to vote in favor of any proposal that has not received sufficient votes to be approved at the annual meeting.

The Board of Directors recommends a vote FOR this proposal.

6. To attend to such other business as may properly come before the annual meeting and any adjournment or postponement thereof.

The board of directors has selected January 8, 2020 as the record date for determining stockholders entitled to vote at the annual meeting.

The proxy statement, proxy card and our 2018 annual report to stockholders are being mailed to you on or about January 17, 2020.

Whether or not you plan to attend the annual meeting and vote in person, we encourage you to have your vote recorded as early as possible. Stockholders have the following three options for submitting their votes by proxy: (1) via the Internet; (2) by telephone; or (3) by mail, using the enclosed proxy card.

YOUR VOTE IS VERY IMPORTANT! Your immediate response will help avoid potential delays and may save us significant additional expenses associated with soliciting stockholder votes.

IMPORTANT NOTICE REGARDING AVAILABILITY OF PROXY MATERIALS FOR THE ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON APRIL 7, 2020:

Our proxy statement, form of proxy card and 2018 annual report to stockholders are also available at <http://www.proxyvote.com>, and can be accessed by using the 16-digit control number and following the instructions located on the enclosed proxy card.

By Order of the Board of Directors

Jeffrey K. Waldvogel
Secretary

Newport Beach, California
January 9, 2020

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

Q: Why did you send me these materials?

A: You owned shares of record of our common stock at the close of business on January 8, 2020, the record date for the annual meeting and, therefore, are entitled to vote at the annual meeting of stockholders. The board of directors is soliciting your proxy to vote your shares at the annual meeting. Our proxy statement includes information that we are required to provide to you under the rules of the Securities and Exchange Commission (“SEC”) and is designed to assist you in voting. You do not need to attend the annual meeting in person in order to vote.

Q: What is a proxy?

A: A proxy is a person who votes the shares of stock of another person who could not attend a meeting. The term “proxy” also refers to the proxy card or other method of appointing a proxy. When you submit your proxy, you are appointing Charles J. Schreiber, Jr., Jeffrey K. Waldvogel and Stacie K. Yamane, each of whom is one of our executive officers, as your proxies, and you are giving them permission to vote your shares of common stock at the annual meeting. The appointed proxies will vote your shares of common stock as you instruct, unless you submit your proxy without instructions. If you submit your proxy without instructions, they will vote:

- (i) **FOR** all of the director nominees,
- (ii) **FOR** the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019,
- (iii) **FOR** the proposal to amend our charter,
- (iv) **FOR** the proposal to approve the acceleration of the payment of incentive compensation to KBS Capital Advisors LLC, our external advisor (“KBS Capital Advisors”), in the form of restricted shares of our common stock, and
- (v) **FOR** the proposal that would permit us to proceed with voting on and approval of only the proposals that have received sufficient votes to be approved at the annual meeting, and then subsequently, to adjourn the annual meeting to solicit additional proxies to vote in favor of any proposal that has not received sufficient votes to be approved at the annual meeting.

With respect to any other proposals to be voted upon, the appointed proxies will vote in accordance with the recommendation of the board of directors or, in the absence of such a recommendation, in their discretion. It is important for you to submit your proxy via the Internet or by telephone or return your enclosed proxy card to us as soon as possible, whether or not you plan on attending the annual meeting.

Q: When is the annual meeting and where will it be held?

A: The annual meeting will be held on Tuesday, April 7, 2020, at 10:00 a.m. Pacific time at the offices of KBS, 800 Newport Center Drive, First Floor, Suite 140 Conference Center, Newport Beach, California 92660.

Q: Who is entitled to vote at the annual meeting?

A: Anyone who is a stockholder of record at the close of business on January 8, 2020, the record date, or holds a valid proxy for the annual meeting, is entitled to vote at the annual meeting. In order to be admitted to the annual meeting, you must present proof of ownership of our stock on the record date. Such proof can consist of: a brokerage statement or letter from a broker indicating ownership on January 8, 2020; a proxy card; a voting instruction form; or a legal proxy provided by your broker or nominee. Any holder of a proxy from a stockholder must present the proxy card, properly executed, and a copy of the proof of ownership.

Note that our advisor, KBS Capital Advisors, which owned 20,857 shares of our common stock as of the record date, has agreed to abstain from voting any shares it owns in any vote regarding: (i) the removal of our advisor, a director or any of their affiliates or (ii) any transaction between us and our advisor, a director or any of their affiliates. As such, KBS Capital Advisors will not vote on Proposals 3 or 4 in this proxy statement due to the interests of KBS Capital Advisors and its principals in the Proposed Net Asset Value REIT Conversion, as defined and described in “Proposed NAV REIT Conversion.”

Q: Will my vote make a difference?

A: Yes. Your vote could affect the proposals described in this proxy statement. Moreover, your vote is needed to ensure that the proposals described herein can be acted upon. Because we are a widely held company, **YOUR VOTE IS VERY IMPORTANT! Your immediate response will help avoid potential delays and may save us significant additional expenses associated with soliciting stockholder votes.**

Q: How many shares of common stock are outstanding?

A: As of January 8, 2020, there were 181,338,858 shares of our common stock outstanding and entitled to be cast at the annual meeting. See also, “Who is entitled to vote at the annual meeting?” above.

Q: What constitutes a quorum?

A: A quorum consists of the presence in person or by proxy of stockholders entitled to cast 50% of all the votes entitled to be cast at the annual meeting on any matter. There must be a quorum present in order for the annual meeting to be a duly held meeting at which business can be conducted. No business may be conducted at the annual meeting if a quorum is not present. If you submit your proxy, even if you abstain from voting, then you will still be considered part of the quorum.

If a quorum is not present at the annual meeting, the chairman of the meeting may adjourn the annual meeting to another date, time or place, not later than 120 days after the original record date of January 8, 2020. Notice need not be given of the new date, time or place if announced at the annual meeting before an adjournment is taken.

Q: How many votes do I have?

A: You are entitled to one vote for each share of common stock you held as of the record date.

Q: Why is the board in favor of a perpetual-life “NAV REIT” strategy?

A: Our board of directors and management team regularly monitor the real estate and equity markets in order to find the best opportunities possible to continue to provide attractive and stable cash distributions to our stockholders and provide additional liquidity for our stockholders. We currently believe the best opportunity for us to achieve these objectives is to pursue a strategy as a non-listed, perpetual-life “NAV REIT” that offers and sells new shares of our common stock continuously through a number of distribution channels in ongoing public offerings, and seeks to provide increased liquidity to current and future stockholders through an expansion of our current share redemption program and/or periodic self-tender offers. We have seen significant appreciation in the portfolio to date and we believe there are still many opportunities in the marketplace to achieve strong stockholder returns through a combination of providing strong cash distributions and timing asset sales to maximize value. Therefore, we believe it is in the company’s and

stockholders' interests to raise additional capital and make new investments. Furthermore, we believe a number of our existing investments are still in the process of maturing and therefore may not yet have reached their maximum value. With respect to liquidity, we believe that a number of sources of capital (including, but not limited to, cash flow from operations, revolving credit facilities, a portion of the proceeds from ongoing offerings and proceeds from asset sales) can be used to offer additional liquidity to stockholders that desire it through an expanded share redemption program and/or periodic tender offers. See "Proposed NAV REIT Conversion" for more information.

Q: How is conversion to a perpetual-life, NAV REIT expected to provide additional liquidity to stockholders?

A: As an NAV REIT, we believe we can (a) offer an expanded share redemption program, (b) have additional capital to fund redemptions, and (c) provide more frequent net asset value or "NAV" per share calculations, which will provide stockholders with more information when making liquidity decisions and also allow more frequent and representative pricing under our share redemption program. As an NAV REIT, we intend to revise our share redemption program to allow us to make monthly redemptions with an aggregate value of up to 5% of our NAV per calendar quarter. This would be a significant increase in maximum capacity compared to our current share redemption program, which limits redemptions of shares during any calendar year to no more than 5% of the weighted average number of shares outstanding during the prior calendar year. Our current share redemption program is also limited by funding restrictions that prevent us from redeeming the maximum number of shares permitted under the program, unless increased by our board of directors. While we are soliciting stockholders with respect to Proposals 3 and 4, the board of directors has determined to suspend ordinary redemptions under our share redemption program. Ordinary redemptions are all redemptions that do not qualify for the special provisions for redemptions sought in connection with a stockholder's death, "Qualifying Disability" or "Determination of Incompetence" (each as defined in the share redemption program). Because the actual level of redemptions under our share redemption program as an NAV REIT would also depend on our ability to fund redemptions and our other capital needs, we may not be able to make redemptions up to the maximum capacity permitted by the program. However, our intention is to increase our stockholders' access to liquidity through an expansion of our current share redemption program and/or through self-tender offers. See "Proposed NAV REIT Conversion" for more information.

Q: How will the Singapore Transaction affect the Proposed NAV REIT Conversion?

A: As we have previously disclosed, on July 18, 2019, we sold 11 of our properties (the "Singapore Portfolio") to various subsidiaries of Prime US REIT (the "SREIT"), a newly formed Singapore real estate investment trust that listed on the Singapore Stock Exchange on July 19, 2019 (the "Singapore Transaction"). The sale price of the Singapore Portfolio was \$1.2 billion, before third-party closing costs and excluding disposition fees payable to our external advisor. In connection with the Singapore Transaction, we repaid \$613.1 million of outstanding debt secured by the properties in the Singapore Portfolio. Pursuant to a set-off agreement, as amended, \$271.0 million of the consideration payable by the SREIT under the purchase agreement for the Singapore Portfolio was set-off against our indirect wholly owned subsidiary's ("REIT Properties III") payment obligations for its two subscriptions for units in the SREIT. As such, on July 19, 2019, REIT Properties III acquired 307,953,999 units in the SREIT at an aggregate price of \$271 million representing a 33.3% ownership interest in the SREIT. On August 21, 2019, REIT Properties III sold 18,392,100 of its units in the SREIT for \$16.2 million pursuant to an over-allotment option granted by REIT Properties III to the underwriters of the SREIT's offering, reducing REIT Properties III's ownership in the SREIT to 31.3% of the outstanding units of the SREIT. As of September 30, 2019, the SREIT does not own any properties other than the Singapore Portfolio. For more information, please see "Certain Information About Management—The Conflicts Committee—Certain Transactions with Related Persons—Singapore Transaction."

Although we can offer no assurances, we expect that the Singapore Transaction will improve our chances to successfully raise capital as an NAV REIT. The Singapore Transaction has made additional capital available to us that we have and intend to continue to use to offer additional liquidity to our stockholders through our share redemption program and/or tender offers or through special distributions to stockholders after our stockholders have had an opportunity to vote on Proposals 3 and 4 at the annual meeting or any adjournment or postponement thereof. We believe we will have greater success as an NAV REIT if we are able to eliminate any pent-up demand for redemptions prior to the conversion.

Q: What may I vote on?

A: You may vote on:

- (1) the election of the nominees to serve on the board of directors;
 - (2) the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019;
 - (3) the removal of Section 5.11 from our charter (this proposal will not take effect unless Proposal 4 below is also approved);
 - (4) the approval of the acceleration of the payment of incentive compensation to our advisor, in the form of restricted shares of our common stock (this proposal will not take effect unless Proposal 3 above is also approved);
 - (5) the proposal that would permit us to proceed with voting on and approval of only the proposals that have received sufficient votes to be approved at the annual meeting, and then subsequently, to adjourn the annual meeting to solicit additional proxies to vote in favor of any proposal that has not received sufficient votes to be approved at the annual meeting; and
 - (6) such other business as may properly come before the annual meeting and any adjournment or postponement thereof.
-

Q: How does the board of directors recommend I vote on the proposals?

A: The board of directors recommends that you vote:

- (1) FOR each of the nominees for election as director who is named in this proxy statement;
 - (2) FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019;
 - (3) FOR the removal of Section 5.11 from our charter;
 - (4) FOR the proposal to approve the acceleration of the payment of incentive compensation to our advisor, in the form of restricted shares of our common stock; and
 - (5) FOR the proposal that would permit us to proceed with voting on and approval of only the proposals that have received sufficient votes to be approved at the annual meeting, and then subsequently, to adjourn the annual meeting to solicit additional proxies to vote in favor of any proposal that has not received sufficient votes to be approved at the annual meeting.
-

Q: What does Section 5.11 of the charter provide and why is the board recommending that stockholders approve its removal from the charter?

A: Section 5.11 of our charter requires that, if we do not list our shares of common stock on a national securities exchange by September 30, 2020, we either:

- seek stockholder approval of the liquidation of the company; or
- if a majority of the conflicts committee determines that liquidation is not then in the best interests of our stockholders, postpone the decision of whether to liquidate the company.

This section further states that if a majority of the conflicts committee does determine that liquidation is not then in the best interests of our stockholders, the conflicts committee must revisit the issue of liquidation at least annually. The conflicts committee is a committee of our board of directors consisting solely of all of our independent directors, that is, all of our directors who are not affiliated with KBS Capital Advisors, our external advisor.

As described further herein, we believe that the continued inclusion of Section 5.11 in our charter may create confusion for existing and new investors if we are pursuing a perpetual-life company strategy. We believe that its continued inclusion may create doubts as to our long-term commitment to the perpetual-life strategy. In addition, complying with Section 5.11 is likely to create an annual burden on the time and focus of our board of directors and conflicts committee and may create significant additional expenses, in particular if the board of directors or conflicts committee solicits input from advisors regarding the charter determination required by Section 5.11. For these reasons, our board of directors believes we are more likely to succeed with a perpetual-life strategy if we remove Section 5.11 from the charter and has proposed its removal. **In order to remove Section 5.11 from the charter, we need the approval of our stockholders. This proposal will not take effect unless the proposal to approve the acceleration of the payment of incentive compensation to our advisor is also approved.**

Q: Why is the board recommending that stockholders approve the acceleration of the payment of incentive compensation to our advisor?

A: The triggering events for the incentive fee structure currently in effect with our advisor are generally expected to occur, if ever, upon a listing of our shares of stock on a national securities exchange or a significant distribution of cash in connection with a sale of all or a substantial amount of our assets. These triggering events are inconsistent with a perpetual-life NAV REIT that intends to provide liquidity to its stockholders through a share redemption program and/or periodic self-tender offers. Therefore, in order to properly align our advisor's and its affiliates' incentive fee compensation structure with our proposed perpetual-life strategy, we intend to revise the incentive fee structure. Commencing with the launch of our first public offering as a perpetual-life NAV REIT, we intend to implement an annual incentive fee formula that would require us to pay our advisor (or its affiliate) an incentive fee for any given year if certain performance thresholds were met for that year. We expect that this incentive may be payable in cash or units of KBS Limited Partnership III (the "Operating Partnership"), which our advisor or its affiliate could request to be repurchased at a later date. With respect to our historical performance period from inception through the launch of our first public offering as a perpetual-life NAV REIT, we believe it is appropriate to accelerate the payment of the historical incentive fee so that it does not depend on the currently-existing triggering events. See "Proposed NAV REIT Conversion" for more information. Because the acceleration of this fee is not something we intended to do when we launched our initial public offering, we believe it is appropriate to ask the stockholders for their approval of this acceleration. **Therefore, we are asking our stockholders to approve the acceleration of the payment of incentive compensation to our advisor. This proposal will not take effect unless the proposal to amend our charter is also approved.**

We expect this acceleration payment would be made in the form of restricted shares of our common stock ("Restricted Shares") with terms that are still under consideration, but are currently expected to be structured as follows:

- Each Restricted Share would be one share of our common stock.
- The Restricted Shares would be awarded in connection with the launch of a public offering as an NAV REIT.
- The number of Restricted Shares awarded would equal the number of our shares of common stock, valued at the then-current NAV per share at the time of the award (i.e., the NAV per share at the time of our conversion to an NAV REIT), with a value equal to the estimated value of the Subordinated Participation in Net Cash Flows based on a hypothetical liquidation of our assets and liabilities at their then-current estimated values used in the NAV calculation at the time of conversion to an NAV REIT, after considering the impact of any potential closing costs and fees related to the disposition of real estate properties. The foregoing would be calculated by our advisor (or its affiliate) in its good faith and approved by the conflicts committee, which is composed of all our independent directors.
- The Restricted Shares awarded would vest after two years, provided the advisor or its affiliate is not terminated for "cause" during that time (where "cause" means fraud, criminal conduct if the advisor or its affiliate would have reasonable cause to believe that the conduct was unlawful, willful misconduct, or an

uncured material breach of the advisory agreement). Both we and the advisor would have certain rights to accelerate vesting in certain situations, such as a change of control of our company.

- We would agree with the advisor prior to the award of the Restricted Shares to repurchase 50% of the Restricted Shares upon vesting, with the repurchase price determined based on the then-current value of our shares. The main reason we would agree to repurchase 50% of the Restricted Shares upon vesting is to allow the advisor to have cash to pay its taxes.
- The Restricted Shares would be entitled to dividends and have the same voting rights as all other shares of common stock.
- After vesting and excluding the initial repurchase of 50% of the Restricted Shares upon vesting, the shares the advisor receives pursuant to this agreement would not be eligible for redemption under our share redemption program unless the company has satisfied all redemption requests from other stockholders received at that time; this restriction may be lifted in certain situations, such as upon a change of control of our company.

Under our charter, we are required to limit our total operating expenses to the greater of 2% of our average invested assets or 25% of our net income for the four most recently completed fiscal quarters, as these terms are defined in our charter, unless the conflicts committee has determined that such excess expenses were justified based on unusual and non-recurring factors. Because the award of Restricted Shares would be deemed an operating expense under our charter, such award may cause us to exceed the charter limitation on total operating expenses. We expect that any agreement to award Restricted Shares to our advisor would provide that (i) the conflicts committee has determined that the expense to us as a result of such award is justified based on unusual and non-recurring factors and (ii) the advisor will not be required to reimburse us any expenses under this charter provision to the extent that we exceed the limit on total operating expenses as a result of the expense incurred in connection with the award of Restricted Shares. Though the award of Restricted Shares is an expense under our charter and generally accepted accounting principles, the award would not reduce our cash flow from operations.

Q: Will the acceleration of the payment of incentive compensation to our advisor affect the net asset value of my shares?

A: No. The acceleration of the payment of incentive compensation to our advisor will not affect the net asset value of our shares of common stock because our net asset value calculation has always included the potential liability related to the incentive fee. Therefore, the acceleration of the incentive compensation to our advisor will not impact the net asset value per share compared to what the value would be if this payment was not accelerated.

Q: Apart from the proposed acceleration of incentive compensation to the advisor, how will the conversion to an NAV REIT affect the fee structure with the advisor and its affiliates?

A: The new fee structure puts a greater emphasis on our performance and, accordingly, could result in greater compensation to our advisor and its affiliates as a percentage of our NAV if we perform sufficiently well. Furthermore if we succeed in raising additional capital and growing our company, we would expect the fees paid to our advisor and its affiliates to increase because of our larger size. We believe these changes help further align the interests of our advisor (and its affiliates) and our stockholders in growing our company and performing well. The actual future impact to our stockholders of the proposed compensation changes is difficult to predict because it is subject to a number of factors, such as the amount of capital we raise in our public offerings, the size or value of the portfolio, and our performance. In addition to the revised management fee and incentive fee structure, the new fee structure would eliminate the current transaction-based fees (i.e., the acquisition fee and disposition fee) payable to our advisor. See “Proposed NAV REIT Conversion—Terms of Proposed NAV REIT Conversion—Revised Advisory Fee Structure” for more information.

Q: Does elimination of Section 5.11 of the charter and pursuit of a perpetual-life NAV REIT strategy mean you will never seek a liquidity event or consider other strategies to create value for stockholders, or sources of stockholder liquidity other than the share redemption program and/or periodic self-tender offers?

A: No. With or without Section 5.11 of the charter, our board of directors regularly considers our various strategic alternatives and accordingly would expect to consider changing strategies if it concludes that it is in the best interests of our stockholders to do so. These strategic alternatives can consist of any number of options including a public listing of our shares on a national stock exchange, selling assets individually, and /or selling the entire portfolio in a single transaction.

Q: If the stockholders vote against either Proposal 3 (the removal of Section 5.11 from the charter) or Proposal 4 (the acceleration of the payment of incentive compensation to the advisor), will the company still pursue a perpetual-life NAV REIT strategy?

A: Removal of Section 5.11 from the charter is not required in order for the company to pursue a perpetual-life NAV REIT strategy. However, we believe we are more likely to succeed with the strategy if we remove Section 5.11 of the charter. Similarly, stockholder approval of acceleration of the payment of incentive compensation to our advisor is not required in order for the company to pursue a perpetual-life NAV REIT strategy. However, we believe the change is appropriate in connection with the pursuit of a perpetual-life NAV REIT strategy. For this reason, neither Proposal 3 nor Proposal 4 will take effect unless both are approved by our stockholders. If our stockholders vote against either Proposal 3 or Proposal 4, our board of directors will meet to determine whether to continue with a perpetual-life NAV REIT strategy or what other reasonably available alternatives to pursue in the best interest of the company and our stockholders, including, without limitation, continuing to operate under the current business plan. As previously discussed, the Singapore Transaction has made additional capital available to us that we have and intend to continue to use to offer additional liquidity to our stockholders through our share redemption program and/or tender offers or through special distributions to stockholders after our stockholders have had an opportunity to vote on Proposals 3 and 4 at the annual meeting or any adjournment or postponement thereof.

Q: Have the independent directors approved the pursuit of a perpetual-life NAV REIT, the proposal to remove Section 5.11 of the charter and the proposal to accelerate the payment of incentive compensation to the advisor?

A: The conflicts committee of our board of directors, which is composed of all our independent directors, has approved the pursuit of a perpetual-life NAV REIT, which includes submitting to stockholders for their approval the proposal to remove Section 5.11 of the charter and the proposal to accelerate the payment of incentive compensation to the advisor. However, implementation of the proposed charter amendment and the proposed acceleration of the payment of incentive compensation to the advisor remain subject to further approval of the conflicts committee, after the proposed amount of the accelerated payment of the incentive fee has been determined.

Q: How can I vote?

A: Stockholders can vote in person at the annual meeting, as described above under “Who is entitled to vote at the annual meeting?”, or by proxy. Stockholders have the following three options for submitting their votes by proxy:

- via the Internet, by accessing the website and following the instructions indicated on the enclosed proxy card;
- by telephone, by calling the telephone number and following the instructions indicated on the enclosed proxy card; or
- by mail, by completing, signing, dating and returning the enclosed proxy card.

For those stockholders with Internet access, we encourage you to vote by proxy via the Internet, since it is quick, convenient and provides a cost savings to us. When you vote by proxy via the Internet or by telephone prior to the annual meeting date, your vote is recorded immediately and there is no risk that postal delays will cause your vote to arrive late and, therefore, not be counted. For further instructions on voting, see the enclosed proxy card.

If you elect to attend the annual meeting, you can submit your vote in person as described above under “Who is entitled to vote at the annual meeting?”, and any previous votes that you submitted, whether by Internet, telephone or mail, will be superseded.

Q: What if I submit my proxy and then change my mind?

A: You have the right to revoke your proxy at any time before the annual meeting by:

- (1) notifying Jeffrey K. Waldvogel, our Secretary;
- (2) attending the annual meeting and voting in person as described above under “Who is entitled to vote at the annual meeting?”;
- (3) returning another proxy card dated after your first proxy vote, if we receive it before the annual meeting date; or
- (4) recasting your proxy vote via the Internet or by telephone.

Only the most recent proxy vote will be counted and all others will be discarded regardless of the method of voting. If a broker or other nominee holds your stock on your behalf, you must contact your broker, bank or other nominee to change your vote.

Q: What are the voting requirements to elect the board of directors?

A: With regard to the election of directors, you may vote “FOR” a nominee or you may withhold your vote for a nominee by voting “WITHHOLD.” Under our charter, a majority of the shares present in person or by proxy at an annual meeting at which a quorum is present is required for the election of the directors. This means that, of the shares present in person or by proxy at an annual meeting, a director nominee needs to receive affirmative votes from a majority of such shares in order to be elected to the board of directors. Because of this majority vote requirement, **“withhold” votes and broker non-votes (discussed below) will have the effect of a vote against each nominee for director.** If an incumbent director nominee fails to receive the required number of votes for reelection, then under Maryland law, he or she will continue to serve as a “holdover” director until his or her successor is duly elected and qualified. If you submit a proxy card with no further instructions, your shares will be voted **FOR** each of the nominees.

Q: What are the voting requirements for the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019?

A: With regard to the proposal relating to the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019, you may vote “FOR” or “AGAINST” the proposal, or you may “ABSTAIN” from voting on the proposal. Under our bylaws, a majority of the votes cast at an annual meeting at which a quorum is present is required for the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019. Abstentions will not count as votes actually cast with respect to determining if a majority vote is obtained under our bylaws and will have no effect on the determination of this proposal. Your shares may be voted for this proposal if they are held in the name of a brokerage firm even if you do not provide the brokerage firm with voting instructions. If you submit a proxy card with no further instructions, your shares will be voted **FOR** the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019.

Q: What are the voting requirements to approve the proposals to amend the charter and to approve the acceleration of the payment of incentive compensation to our advisor?

A: With regard to the proposals to amend our charter and to approve the acceleration of the payment of incentive compensation to our advisor, you may vote “FOR” or “AGAINST” the proposals, or you may “ABSTAIN” from voting on the proposals. Approval of the proposals to amend our charter and to approve the acceleration of the payment of incentive compensation to our advisor requires the affirmative vote of the holders of at least a majority of our outstanding shares of common stock entitled to vote thereon. **Abstentions and broker non-votes will have the same effect as votes against the proposals to amend our charter and to approve the acceleration of the payment of incentive compensation to our advisor.** If you submit a proxy card with no further instructions, your shares will be voted **FOR** the proposals to amend our charter and to approve the acceleration of the payment of incentive compensation to our advisor.

Q: What are the voting requirements to approve the adjournment proposal?

A: With regard to the adjournment proposal (which would permit us to proceed with voting on and approval of only the proposals that have received sufficient votes to be approved at the annual meeting, and then subsequently, to adjourn the annual meeting to solicit additional proxies to vote in favor of any proposal that has not received sufficient votes to be approved at the annual meeting), you may vote “FOR” or “AGAINST” the proposal, or you may “ABSTAIN” from voting on the proposal. Approval of this proposal requires the affirmative vote of the holders of at least a majority of the votes cast thereon. **Abstentions and broker non-votes will not have an effect on the outcome of this proposal.** If you submit a proxy card with no further instructions, your shares will be voted FOR this proposal.

Q: What is a “broker non-vote”?

A: A “broker non-vote” occurs when a broker holding stock on behalf of a beneficial owner submits a proxy but does not vote on a particular proposal because the broker does not have discretionary voting power with respect to that particular proposal and has not received instructions from the beneficial owner.

Brokers are precluded from exercising their voting discretion with respect to the approval of non-routine matters, such as the proposal to amend our charter and, as a result, absent specific instructions from the beneficial owner of such shares, brokers will not vote those shares. Broker non-votes will have the effect of a vote AGAINST the election of each nominee for director, AGAINST the proposal to amend our charter and AGAINST the proposal to accelerate the payment of incentive compensation to KBS Capital Advisors but will have no effect on the adjournment proposal. Because brokers have discretionary authority to vote for the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm, in the event they do not receive voting instructions from the beneficial owner of the shares, there will not be any broker non-votes with respect to that proposal.

Your broker will send you information to instruct it on how to vote on your behalf. **If you do not receive a voting instruction card from your broker, please contact your broker promptly to obtain a voting instruction card. Your vote is important to the success of the proposals.** We encourage all of our stockholders whose shares are held by a broker to provide their brokers with instructions on how to vote.

Q: How will voting on any other business be conducted?

A: Although we do not know of any business to be considered at the annual meeting other than the proposals described herein, if any other business is properly presented at the annual meeting, your submitted proxy gives authority to Messrs. Schreiber and Waldvogel and Ms. Yamane, and each of them, to vote on such matters in accordance with the recommendation of the board of directors or, in the absence of such a recommendation, in their discretion.

Q: When are the director nominations and stockholder proposals for the next annual meeting of stockholders due?

A: Any proposals by stockholders for inclusion in our proxy solicitation material for the next annual meeting of stockholders must be received by our Secretary, Mr. Waldvogel, at our executive offices no later than September 19, 2020. However, if we hold the next annual meeting before March 8, 2021 or after May 7, 2021, stockholders must submit proposals for inclusion in our proxy statement within a reasonable time before we begin to print our proxy materials. The mailing address of our executive offices is 800 Newport Center Drive, Suite 700, Newport Beach, California 92660. If a stockholder wishes to present a proposal at the next annual meeting, whether or not the proposal is intended to be included in our proxy materials, our bylaws require that the stockholder give advance written notice to our Secretary by October 19, 2020.

Q: How are proxies being solicited?

A: In addition to mailing proxy solicitation materials, our directors and employees of our advisor or its affiliates may also solicit proxies in person, via the Internet, by telephone or by any other electronic means of communication we deem appropriate. Additionally, we have retained Broadridge Financial Solutions, Inc. (“Broadridge”), a proxy solicitation firm, to assist us in the proxy solicitation process.

Our directors and employees of our advisor or its affiliates will not be paid any additional compensation for soliciting proxies. We will pay all of the costs of soliciting these proxies, including the cost of Broadridge's services. We anticipate that for Broadridge's solicitation services we will pay approximately \$73,500, plus reimbursement of Broadridge's out-of-pocket expenses. We will also reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy and solicitation materials to our stockholders.

Q. What should I do if I receive more than one set of voting materials for the annual meeting?

- A. You may receive more than one set of voting materials for the annual meeting, including multiple copies of this proxy statement and multiple proxy cards or voting instruction forms. For example, if you hold your shares in more than one brokerage account, you will receive a separate voting instruction form for each brokerage account in which you hold shares. If you are a holder of record and your shares are registered in more than one name, you will receive more than one proxy card and voting instruction form. For each and every proxy card and voting instruction form that you receive, please authorize a proxy as soon as possible using one of the following methods:
- (1) via the Internet, by accessing the website and following the instructions indicated on the enclosed proxy card;
 - (2) by telephone, by calling the telephone number and following the instructions indicated on the enclosed proxy card;
or
 - (3) by mail, by completing, signing, dating and returning the enclosed proxy card.
-

Q. What should I do if only one set of voting materials for the annual meeting is sent and there are multiple stockholders in my household?

- A. Some banks, brokers and other nominee record holders may be participating in the practice of "householding" proxy statements and annual reports. This means that only one copy of this proxy statement may have been sent to multiple stockholders in your household. We will promptly deliver a separate copy of this proxy statement to you if you contact Broadridge at 855-643-7458.
-

Q. How can I find out the results of the voting at the annual meeting?

- A. We will file a Current Report on Form 8-K within four business days after the annual meeting to announce voting results. If final voting results are unavailable at that time, we will file an amended Current Report on Form 8-K within four business days of the day the final results are available.
-

Q. Who can help answer my questions?

- A. If you have any questions about the annual meeting, the proposals described herein, how to submit your proxy, or if you need additional copies of this proxy statement or the enclosed proxy card or voting instructions, you should contact Broadridge.

Broadridge Financial Solutions, Inc.

855-643-7458

Q: Where can I find more information?

- A: We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read any reports, statements or other information we file with the SEC on the website maintained by the SEC at <http://www.sec.gov>.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this proxy statement other than historical facts may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We intend for all such forward-looking statements to be covered by the applicable safe harbor provisions for forward-looking statements contained in those acts. Such statements include, in particular, statements about our plans, strategies, and prospects and are subject to certain risks and uncertainties, including known and unknown risks, which could cause actual results to differ materially from those projected or anticipated. Therefore, such statements are not intended to be a guarantee of our performance in future periods. Such forward-looking statements can generally be identified by our use of forward-looking terminology such as “may,” “will,” “expect,” “intend,” “anticipate,” “estimate,” “believe,” “continue,” or other similar words. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date they are made. We make no representations or warranties (expressed or implied) about the accuracy of any such forward-looking statements contained in this proxy statement, and we do not intend to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, unless required by law.

Any such forward-looking statements are subject to risks, uncertainties, and other factors and are based on a number of assumptions involving judgments with respect to, among other things, future economic, competitive, and market conditions, all of which are difficult or impossible to predict accurately. To the extent that our assumptions differ from actual conditions, our ability to accurately anticipate results expressed in such forward-looking statements, including our ability to generate positive cash flows from operations, make distributions to stockholders, maintain the value of our real estate properties and provide liquidity to stockholders, may be significantly hindered. See Part I, Item 1A in our Annual Report on Form 10-K filed with the SEC on March 14, 2019 and Part II, Item 1A in our Quarterly Reports on Form 10-Q filed with the SEC on August 9, 2019 and November 13, 2019 for a discussion of some of the risks and uncertainties, although not all risks and uncertainties, that could cause actual results to differ materially from those presented in our forward-looking statements. See “Proposed NAV REIT Conversion” for risks related to our Proposed NAV REIT Conversion.

PROPOSED NAV REIT CONVERSION

Background

Our board of directors and management team regularly monitor the real estate and equity markets in order to find the best opportunities possible to continue to provide attractive and stable cash distributions to our stockholders and provide additional liquidity for our stockholders. We currently believe the best opportunity for us to achieve these objectives is to pursue a strategy as a non-listed, perpetual-life company that (a) calculates the net asset value or “NAV” per share on a regular basis that is more frequent than annually (i.e., daily, monthly or quarterly), (b) offers and sells new shares of our common stock continuously through a number of distribution channels in ongoing public offerings, and (c) seeks to provide increased liquidity to current and future stockholders through an expansion of our current share redemption program and/or periodic self-tender offers. We refer to a REIT that operates in this manner as an “NAV REIT” and we refer to our proposed conversion to this mode of operation as the “Proposed NAV REIT Conversion.” **As an NAV REIT, we believe we will be able to raise additional equity capital to diversify and grow our portfolio for the benefit of our stockholders, while at the same time providing increased liquidity to our stockholders in excess of what is currently offered. We have seen significant appreciation in the portfolio to date and we believe there are still many opportunities in the marketplace to achieve strong stockholder returns through a combination of providing strong cash distributions and timing asset sales to maximize value.**

Stockholders should carefully read this section of the proxy statement when deciding how to vote on Proposals 3 and 4. If our stockholders vote against those proposals, our board of directors and our advisor will reconsider all aspects of the Proposed NAV REIT Conversion, because we believe its success depends greatly on these proposals, and a decision might be made not to proceed with the NAV REIT Conversion. On the other hand, if our stockholders approve Proposals 3 and 4, we intend to implement the Proposed NAV REIT Conversion substantially as described herein. The Singapore Transaction has made additional capital available to us that we have and intend to continue to use to offer additional liquidity to our stockholders through our share redemption program and/or tender offers or through special distributions to stockholders after our stockholders have had an opportunity to vote on Proposals 3 and 4 at the annual meeting or any adjournment or postponement thereof. We believe we will have greater success as an NAV REIT if we are able to eliminate any pent-up demand for redemptions prior to the conversion. Before voting on Proposals 3 and 4, stockholders should carefully review the description of the Proposed NAV REIT Conversion that is provided below.

Terms of Proposed NAV REIT Conversion

We summarize below our current intentions as to the principal terms of the Proposed NAV REIT Conversion. While we have described in this proxy statement our current intentions with respect to the Proposed NAV REIT Conversion, our board of directors may change any aspect of it without stockholder approval, except the specific matters submitted for stockholder approval in Proposals 3 and 4. Such changes may be deemed appropriate for a variety of reasons, including but not limited to regulatory, capital-raising or business considerations, all of which can change over time. Furthermore, even if Proposals 3 and 4 are approved, our board of directors may delay the implementation of the Proposed NAV REIT Conversion until it deems it appropriate to do so and may decide, in its sole discretion, not to go forward at all with the Proposed NAV REIT Conversion.

More Frequent NAV Calculations

We currently calculate the NAV of our shares once each calendar year. As an NAV REIT, we currently intend to calculate our NAV once per month, though we could decide to calculate it daily or quarterly. We believe more frequent NAV calculations will improve our ability to offer and repurchase our shares at the most representative prices, and also improve visibility and transparency into our performance.

Revised Share Redemption Program

As an NAV REIT, we believe we can (a) offer an expanded share redemption program, (b) have additional capital to fund redemptions, and (c) provide more frequent NAV per share calculations, which will provide stockholders with more information when making liquidity decisions and also allow more frequent and representative pricing under our share redemption program. As an NAV REIT, we intend to revise our share redemption program to allow us to make monthly redemptions with an aggregate value of up to 5% of our NAV per calendar quarter. This would be a significant increase in maximum capacity compared to our current share redemption program, which limits redemptions of shares during any calendar year to no more than 5% of the weighted average number of shares outstanding during the prior calendar year. Our current share redemption program is also limited by funding restrictions that prevent us from redeeming the maximum number of shares permitted under the program, unless increased by our board of directors. While we are soliciting stockholders with respect to Proposals 3 and 4, the board of directors has determined to suspend ordinary redemptions under our share redemption program. Ordinary redemptions are all redemptions that do not qualify for the special provisions for

redemptions sought in connection with a stockholder's death, "Qualifying Disability" or "Determination of Incompetence" (each as defined in the share redemption program). Because the actual level of redemptions under our share redemption program as an NAV REIT would also depend on our ability to fund redemptions and our other capital needs, we may not be able to make redemptions up to the maximum capacity permitted by the program. However, our intention is to increase our stockholders' access to liquidity through an expansion of our current share redemption program and/or through self-tender offers. As an NAV REIT, we expect that redemptions would be made on a monthly basis at a price generally equal to the prior month's NAV per share for the class of stock (which will be our most recently disclosed NAV per share at such time) with two exceptions: (i) shares that have not been outstanding for at least one year will be redeemed at 97.0% of the prior month's NAV per share for the class of stock (an "Early Redemption Deduction") and (ii) all shares that are redeemed during the first year after our conversion to an NAV REIT will be redeemed at 97.0% of the prior month's NAV per share for the class of stock ("Transition Deduction"). The Early Redemption Deduction and Transition Deduction may only be waived in the case of redemption requests arising from the death or qualified disability of the holder.

Distributions and Dividend Reinvestment Plan

Commencing in January 2019, our distributions were based on monthly record and payment dates. As an NAV REIT, we expect that we would continue to pay distributions based on monthly record and payment dates. We expect to revise our dividend reinvestment plan so that we would generally sell shares at our prior month's NAV per share for the class of stock (which will be our most recently disclosed NAV per share at such time), rather than at 95% of the most recent NAV as we do now.

Ongoing Public Offerings Conducted through KBS Capital Markets Group LLC

As an NAV REIT, we expect that we would conduct ongoing primary public offerings of our shares on a continuous basis through our affiliated dealer manager, KBS Capital Markets Group LLC. Such offerings would likely include new classes of common stock, which would allow us to offer different classes of common stock with different combinations of upfront and ongoing commissions and other fees payable to our dealer manager and participating broker-dealers. We believe that having a number of different share classes with different distribution compensation structures will improve our ability to sell shares and raise capital in the current market.

We generally expect that the upfront and ongoing commissions and other fees payable to our dealer manager and participating broker-dealers in connection with these offerings would be borne by the new investors. In addition to upfront and ongoing commissions and other fees borne by new investors, from time to time we may agree to pay certain participating broker-dealers additional primary dealer fees in amounts to be determined by the board of directors. The primary dealer fee would impact all stockholders. We currently estimate that we may sell up to a maximum of \$300 million of shares in primary offerings pursuant to a primary dealer fee arrangement, although in the future we may agree to additional primary dealer fee arrangements. We would also incur other offering expenses in connection with these offerings, which expenses would impact all stockholders. These other offering expenses would include, among other items, our legal, accounting, printing, mailing and filing fees, charges of our transfer agent, reimbursement of bona fide due diligence expenses, legal fees of our dealer manager, costs reimbursement for registered representatives of participating broker-dealers to attend educational conferences sponsored by us or our dealer manager, attendance fees for registered persons associated with our dealer manager to attend seminars conducted by participating broker-dealers, and promotional items. They could also include reimbursement to our dealer manager for wholesaling compensation expenses, though we do not currently intend to reimburse our dealer manager for such expenses.

Revised Advisory Fee Structure

- *Acquisition and Origination Fees and Expenses.* Pursuant to our advisory agreement currently in effect with our advisor, we incur acquisition and origination fees payable to our advisor equal to 1.0% of the cost of investments acquired by us, or the amount to be funded by us to acquire or originate loans, including the sum of the amount actually paid or allocated to the purchase, development, construction or improvement of such investments, acquisition and origination expenses and any debt attributable to such investments. We intend to eliminate this fee as part of the Proposed NAV REIT Conversion. This may represent significant savings, depending on our future investment activity. We intend to continue to reimburse our advisor for customary acquisition and origination expenses, whether or not we ultimately acquire the asset.
- *Fixed Asset Management Fee.* Pursuant to our advisory agreement currently in effect with our advisor, we currently pay the advisor an asset management fee. With respect to investments in real property, the asset management fee is a monthly fee equal to one-twelfth of 0.75% of the sum of the amount paid or allocated to acquire the investment, plus the costs of any subsequent development, construction or improvements to the property. This amount includes any portion of the investment that was debt financed and is inclusive of acquisition expenses related thereto (but excludes acquisition fees paid or payable to our advisor). In the case of investments made through joint ventures, the asset management fee is determined based on our proportionate

share of the underlying investment (but excluding acquisition fees paid or payable to our advisor). With respect to investments in loans and any investments other than real property, the asset management fee is a monthly fee calculated, each month, as one-twelfth of 0.75% of the lesser of (i) the amount actually paid or allocated to acquire or fund the loan or other investment (which amount includes any portion of the investment that was debt financed and is inclusive of acquisition or origination expenses related thereto, but is exclusive of acquisition or origination fees paid or payable to our advisor) and (ii) the outstanding principal amount of such loan or other investment, plus the acquisition or origination expenses related to the acquisition or funding of such investment (excluding acquisition or origination fees paid or payable to our advisor), as of the time of calculation. For the 12 months ended December 31, 2018 and the nine months ended September 30, 2019, asset management fees were \$27.2 million and \$19.4 million, respectively. As of September 30, 2019, we had deferred payment of \$2.9 million of asset management fees under the advisory agreement, and an additional \$0.5 million of asset management fees were payable to the advisor.

With respect to our current asset management fee, our advisor has agreed to defer, without interest, our obligation to pay asset management fees for any month in which our modified funds from operations (“MFFO”) for such month, as such term is defined in the practice guideline issued by the IPA in November 2010 and interpreted by us, excluding asset management fees, does not exceed the amount of distributions declared by us for record dates of that month. We remain obligated to pay our advisor an asset management fee in any month in which our MFFO, excluding asset management fees, for such month exceeds the amount of distributions declared for the record dates of that month (such excess amount, an “MFFO Surplus”); however, any amount of such asset management fee in excess of the MFFO Surplus will also be deferred under the advisory agreement. If the MFFO Surplus for any month exceeds the amount of the asset management fee payable for such month, any remaining MFFO Surplus will be applied to pay any asset management fee amounts previously deferred in accordance with the advisory agreement. Notwithstanding the foregoing, any and all deferred asset management fees that are unpaid will become immediately due and payable at such time as our stockholders have received, together as a collective group, aggregate distributions (including distributions that may constitute a return of capital for federal income tax purposes) sufficient to provide (i) an 8.0% per year cumulative, noncompounded return on such net invested capital (the “Stockholders’ 8% Return”) and (ii) a return of their net invested capital, or the amount calculated by multiplying the total number of shares purchased by stockholders by the issue price, reduced by any amounts to repurchase shares pursuant to our share redemption program. The Stockholders’ 8% Return is not based on the return provided to any individual stockholder. Accordingly, it is not necessary for each of our stockholders to have received any minimum return in order for our advisor to receive deferred asset management fees.

As part of the Proposed NAV REIT Conversion, we currently expect to replace the current asset management fee with a fixed management fee equal to 1.25% of our NAV per annum payable monthly. Additionally, to the extent that our operating partnership, KBS Limited Partnership III (the “Operating Partnership”) issues Operating Partnership units to parties other than us, our Operating Partnership will pay our adviser or its affiliate a management fee equal to 1.25% of the NAV of the Operating Partnership attributable to such Operating Partnership units not held by us per annum payable monthly. In calculating the management fee, we intend to use our NAV before giving effect to accruals for the management fee and the performance participation allocation fee (described below), ongoing fees paid to our dealer manager (all or a portion of which will be paid or reallocated to broker-dealers) with respect to new sales of shares (i.e., ongoing class-specific fees), or distributions payable on our outstanding shares or Operating Partnership units.

The impact of this change will depend on a number of factors, including our leverage and the value of our assets compared to the purchase price (both of which will be taken into account with the new fee structure, unlike the old fee structure), and is therefore impossible to predict over the long term, but we do not expect the change to be significant in the near term. By way of example only, if the aggregate NAV of our company for the nine months ended September 30, 2019 were equal to the estimated net asset value of our company as of September 30, 2019, adjusted to give effect to the October 23, 2019 authorization of a special dividend of \$0.80 per share on our outstanding shares of common stock to the stockholders of record as of the close of business on November 4, 2019 and a change in the estimated value of the Company’s investment in units of the SREIT, calculated in accordance with the estimated value per share approved by our board of directors on December 4, 2019 and then adjusted to exclude the value of our investment in units of the SREIT of \$257.8 million, which is not subject to an asset management fee, this new fixed management fee would have been approximately \$1.9 million per month. By comparison, the existing asset management fee incurred by us for the nine months ended September 30, 2019 was approximately \$2.2 million per month.

The new management fee will not be subject to the deferrals described above with respect to our current asset management fee. This could result in the advisor or its affiliate receiving management fees sooner than it otherwise would under our current asset management fee arrangement, depending on our MFFO relative to our distributions.

The new management fee may be paid, at our advisor's (or its affiliate's) election, in cash, shares of our common stock or units of our Operating Partnership. To the extent that our advisor (or its affiliate) elects to receive any portion of the management fee in shares of common stock or units of our Operating Partnership, we may repurchase such shares or units of our Operating Partnership from our advisor or its affiliate at a later date. Shares of our common stock and units of our Operating Partnership obtained by our advisor or its affiliate will not be subject to the repurchase limits of our share redemption program or any Early Redemption Deduction. The Operating Partnership will repurchase any such Operating Partnership units for cash unless our board of directors determines that any such repurchase for cash would be prohibited by applicable law or our charter, in which case such Operating Partnership units will be repurchased for shares of our common stock with an equivalent aggregate NAV. Our advisor or its affiliates will have registration rights with respect to shares of our common stock.

- *Incentive Fee.* Please see "Revised Incentive Fee" below for a description of our current intentions with respect to the incentive fee payable to our advisor or its affiliate.
- *Disposition Fees.* Pursuant to our advisory agreement currently in effect with the advisor, for substantial assistance in connection with the sale of properties or other investments, we currently pay our advisor or its affiliates 1.0% of the contract sales price of each property or other investment sold; provided, however, that if in connection with such disposition commissions are paid to third parties unaffiliated with our advisor, the fee paid to our advisor and its affiliates may not exceed the commissions paid to such unaffiliated third parties, and provided further that the disposition fees paid to our advisor, its affiliates and unaffiliated third parties may not exceed 6.0% of the contract sales price.

We intend to eliminate this fee as part of the Proposed NAV REIT Conversion.

- *Operating Expenses.* Pursuant to our advisory agreement currently in effect with the advisor, our advisor and its affiliates have the right to seek reimbursement from us for all costs and expenses they incur in connection with their provision of services to us, including our allocable share of our advisor's overhead, such as rent, employee costs, utilities, accounting software and cybersecurity costs. With respect to employee costs, at this time our advisor and its affiliates only expect to seek reimbursement for our allocable portion of the salaries, benefits and overhead of internal audit department personnel providing services to us. In the future, our advisor and its affiliates may seek reimbursement for additional employee costs. We will not reimburse our advisor and its affiliates for the salaries and benefits our advisor or its affiliates may pay our executive officers. In addition, we reimburse our advisor and its affiliates for certain of our direct costs incurred from third parties that were initially paid by our advisor or its affiliates on our behalf.

We have also entered into a fee reimbursement agreement with our dealer manager pursuant to which we agreed to reimburse our dealer manager for certain fees and expenses it incurs for administering our participation in the Depository Trust Clearing Corporation ("DTCC") Alternative Investment Product Platform with respect to certain accounts of our investors serviced through the platform.

We do not expect any change to the foregoing in connection with the Proposed NAV REIT Conversion.

Revised Incentive Fee

Description of Current Incentive Fee

Pursuant to our advisory agreement currently in effect with the advisor, the advisor is due a subordinated participation in our net cash flows (the "Subordinated Participation in Net Cash Flows") upon meeting certain performance goals. After our stockholders have received, together as a collective group, aggregate distributions (including distributions that may constitute a return of capital for federal income tax purposes) sufficient to provide (i) a return of their net invested capital, or the amount calculated by multiplying the total number of shares purchased by stockholders by the issue price, reduced by any amounts to repurchase shares pursuant to our share redemption program, and (ii) an 8.0% per year cumulative, noncompounded return on such net invested capital, the advisor is entitled to receive 15.0% of our net cash flows, whether from continuing operations, net sale proceeds or otherwise. Net sales proceeds means the net cash proceeds realized by us after deduction of all expenses incurred in connection with a sale, including disposition fees paid to the advisor. The 8.0% per year cumulative, noncompounded return on net invested capital is calculated on a daily basis. In making this calculation, the net invested capital is reduced to the extent distributions in excess of a cumulative,

noncompounded, annual return of 8.0% are paid (from whatever source), except to the extent such distributions would be required to supplement prior distributions paid in order to achieve a cumulative, noncompounded, annual return of 8.0% (invested capital is only reduced as described in this sentence; it is not reduced simply because a distribution constitutes a return of capital for federal income tax purposes). The 8.0% per year cumulative, noncompounded return is not based on the return provided to any individual stockholder. Accordingly, it is not necessary for each of our stockholders to have received any minimum return in order for our advisor to participate in our net cash flows. In fact, if the advisor is entitled to participate in our net cash flows, the returns of our stockholders will differ, and some may be less than an 8.0% per year cumulative, noncompounded return. This fee is payable only if we are not listed on an exchange.

Alternatively, pursuant to our advisory agreement currently in effect with the advisor, the advisor is due a subordinated incentive listing fee (the “Subordinated Participation Listing Fee”) upon a listing of our common stock on a national securities exchange equal to 15.0% of the amount by which (i) the market value of our outstanding stock plus distributions paid by us (including distributions that may constitute a return of capital for federal income tax purposes) prior to listing exceeds (ii) the sum of our stockholders’ net invested capital, or the amount calculated by multiplying the total number of shares purchased by stockholders by the issue price, reduced by any amounts to repurchase shares pursuant to our share redemption program, and the amount of cash flow necessary to generate an 8.0% per year cumulative, noncompounded return on such amount. The 8.0% per year cumulative, noncompounded return on net invested capital is calculated on a daily basis. In making this calculation, the net invested capital is reduced to the extent distributions in excess of a cumulative, noncompounded, annual return of 8.0% are paid (from whatever source), except to the extent such distributions would be required to supplement prior distributions paid in order to achieve a cumulative, noncompounded, annual return of 8.0% (invested capital is only reduced as described in this sentence; it is not reduced simply because a distribution constitutes a return of capital for federal income tax purposes). The 8.0% per year cumulative, noncompounded return is not based on the return provided to any individual stockholder. Accordingly, it is not necessary for each of our stockholders to have received any minimum return in order for our advisor to receive the listing fee. In fact, if our advisor is entitled to the listing fee, the returns of our stockholders will differ, and some may be less than an 8.0% per year cumulative, noncompounded return.

Neither the Subordinated Participation in Net Cash Flows nor the Subordinated Participation Listing Fee are currently payable to our advisor, and there is no guarantee that they will ever be payable. Most likely, we would need to list our shares on a national securities exchange or liquidate substantially all of our assets for one of these fees to be payable, and we would have to have met the requisite threshold for payment of the fee. Solely for purposes of determining the estimated net asset value of our company as of September 30, 2019, adjusted to give effect to the October 23, 2019 authorization of a special dividend of \$0.80 per share on our outstanding shares of common stock to the stockholders of record as of the close of business on November 4, 2019 and a change in the estimated value of the Company’s investment in units of the SREIT, calculated in accordance with the estimated value per share approved by our board of directors on December 4, 2019, the advisor calculated the potential liability related to the Subordinated Participation in Net Cash Flows based on a hypothetical liquidation of the assets and liabilities at their estimated fair values, after considering the impact of any potential closing costs and fees related to the disposition of real estate properties. The advisor estimated the fair value of this liability to be \$29.8 million or \$0.17 per share as of the valuation date, and included the impact of this liability in its calculation of our estimated value per share.

Reasons for Proposing Changes to Incentive Fee Structure

The triggering events for the incentive fee structure currently in effect with our advisor are generally expected to occur, if ever, upon a listing of our shares of stock on a national securities exchange or a significant distribution of cash in connection with a sale of all or a substantial amount of our assets. These triggering events are inconsistent with a perpetual-life NAV REIT that intends to provide liquidity to its stockholders through a share redemption program and/or periodic self-tender offers. Therefore, in order to properly align our advisor’s and its affiliates’ incentive fee compensation structure with our proposed perpetual-life strategy, we intend to revise the incentive fee structure. Commencing with the launch of our first public offering as a perpetual-life NAV REIT, we intend to implement an annual incentive fee formula that would require us to pay our advisor (or its affiliate) an incentive fee for any given year if certain performance thresholds were met for that year. With respect to our historical performance period from inception through the launch of our first public offering as a perpetual-life NAV REIT, we believe it is appropriate to accelerate the payment of the historical incentive fee so that it does not depend on the currently-existing triggering events. Because the acceleration of this fee is not something we intended to do when we launched our initial public offering, we believe it is appropriate to ask the stockholders for their approval of this acceleration. **Therefore, in Proposal 4, we are asking our stockholders to approve the acceleration of the payment of incentive compensation to our advisor, upon our conversion to an NAV REIT, on terms substantially consistent with those described below under “—Proposed Acceleration of Payment of Current Incentive Fee.”**

Proposed Acceleration of Payment of Current Incentive Fee

We currently intend to accelerate the payment of incentive compensation to the advisor upon our conversion to an NAV REIT by agreeing to pay our advisor, in connection with our conversion to an NAV REIT, an amount equal to the

estimated value of the Subordinated Participation in Net Cash Flows based on a hypothetical liquidation of our assets and liabilities at their then-current estimated values used in our NAV calculation at the time of conversion to an NAV REIT, after considering the impact of any potential closing costs and fees related to the disposition of real estate properties. Following this transaction, our obligation to pay the Subordinated Participation in Net Cash Flows and the Subordinated Participation Listing Fee would be eliminated.

We expect this acceleration payment would be made in the form of restricted shares of our common stock (“Restricted Shares”) with terms that are still under consideration, but are currently expected to be structured as follows:

- Each Restricted Share would be one share of our common stock.
- The Restricted Shares would be awarded in connection with the launch of a public offering as an NAV REIT.
- The number of Restricted Shares awarded would equal the number of our shares of common stock, valued at the then-current NAV per share at the time of the award (i.e., the NAV per share at the time of our conversion to an NAV REIT), with a value equal to the estimated value of the Subordinated Participation in Net Cash Flows based on a hypothetical liquidation of our assets and liabilities at their then-current estimated values used in the NAV calculation at the time of conversion to an NAV REIT, after considering the impact of any potential closing costs and fees related to the disposition of real estate properties. The foregoing would be calculated by our advisor (or its affiliate) in its good faith and approved by the conflicts committee, which is composed of all our independent directors.
- The Restricted Shares awarded would vest after two years, provided the advisor or its affiliate is not terminated for “cause” during that time (where “cause” means fraud, criminal conduct if the advisor or its affiliate would have reasonable cause to believe that the conduct was unlawful, willful misconduct, or an uncured material breach of the advisory agreement). Both we and the advisor would have certain rights to accelerate vesting in certain situations, such as a change of control of our company.
- We would agree with the advisor prior to the award of the Restricted Shares to repurchase 50% of the Restricted Shares upon vesting, with the repurchase price determined based on the then-current value of our shares. The main reason we would agree to repurchase 50% of the Restricted Shares upon vesting is to allow the advisor to have cash to pay its taxes.
- The Restricted Shares would be entitled to dividends and have the same voting rights as all other shares of common stock.
- After vesting and excluding the initial repurchase of 50% of the Restricted Shares upon vesting, the shares the advisor receives pursuant to this agreement would not be eligible for redemption under our share redemption program unless the company has satisfied all redemption requests from other stockholders received at that time; this restriction may be lifted in certain situations, such as upon a change of control of our company.

Under our charter, we are required to limit our total operating expenses to the greater of 2% of our average invested assets or 25% of our net income for the four most recently completed fiscal quarters, as these terms are defined in our charter, unless the conflicts committee has determined that such excess expenses were justified based on unusual and non-recurring factors. Because the award of Restricted Shares would be deemed an operating expense under our charter, such award may cause us to exceed the charter limitation on total operating expenses. We expect that any agreement to award Restricted Shares to our advisor would provide that (i) the conflicts committee has determined that the expense to us as a result of such award is justified based on unusual and non-recurring factors and (ii) the advisor will not be required to reimburse us any expenses under this charter provision to the extent that we exceed the limit on total operating expenses as a result of the expense incurred in connection with the award of Restricted Shares. Though the award of Restricted Shares is an expense under our charter and generally accepted accounting principles, the award would not reduce our cash flow from operations.

In Proposal 4 of this proxy statement, we are asking our stockholders to approve the acceleration of the payment of incentive compensation to our advisor, upon our conversion to an NAV REIT, on terms substantially consistent with the paragraphs above. This proposal will not take effect unless Proposal 3 (the proposed charter amendment) is also approved. Please see “Proposal 4. Acceleration of Incentive Compensation” for more information.

Proposed Incentive Fee Going Forward

In addition, going forward, commencing upon our conversion to an NAV REIT, we currently intend to replace the incentive fees described above with a new annual performance allocation. We expect that the advisor or one of its affiliates (the “Special Limited Partner”) will own a special limited partner interest in the Operating Partnership. So long as the

advisory agreement with our advisor or its affiliate has not been terminated (including by means of non-renewal), the Special Limited Partner will hold a performance participation interest in the Operating Partnership that will entitle it to receive an allocation from our Operating Partnership equal to 12.5% of the Total Return, subject to a 6% Hurdle Amount and a High Water Mark, with a partial Catch-Up (each term as defined below). Such allocation will be made annually and accrue monthly.

Specifically, the Special Limited Partner will be allocated a performance participation in an amount equal to:

- *First*, if the Total Return for the applicable period exceeds the sum of (i) the Hurdle Amount for that period and (ii) the Loss Carryforward Amount (any such excess, “Excess Profits”), 100% of such Excess Profits until the total amount allocated to the Special Limited Partner equals 5.0% of the sum of (x) the Hurdle Amount for that period and (y) any amount allocated to the Special Limited Partner pursuant to this clause (this is commonly referred to as a “Catch-Up”); and
- *Second*, to the extent there are remaining Excess Profits, 12.5% of such remaining Excess Profits.

“Total Return” for any period since the end of the prior calendar year shall equal the sum of:

- (i) all distributions accrued or paid (without duplication) on the Operating Partnership units outstanding at the end of such period since the beginning of the then-current calendar year *plus*
- (ii) the change in aggregate NAV of such units since the beginning of the year, before giving effect to (x) changes resulting solely from the proceeds of issuances of Operating Partnership units, (y) any allocation/accrual to the performance participation interest and (z) applicable distribution fee expenses (including any payments made to us for payment of such expenses).

For the avoidance of doubt, the calculation of Total Return will (i) include any appreciation or depreciation in the NAV of units issued during the then-current calendar year but (ii) exclude the proceeds from the initial issuance of such units.

“Hurdle Amount” for any period during a calendar year means that amount that results in a 6% annualized internal rate of return on the NAV of the Operating Partnership units outstanding at the beginning of the then-current calendar year and all Operating Partnership units issued since the beginning of the then-current calendar year, taking into account the timing and amount of all distributions accrued or paid (without duplication) on all such units and all issuances of Operating Partnership units over the period and calculated in accordance with recognized industry practices. The ending NAV of the Operating Partnership units used in calculating the internal rate of return will be calculated before giving effect to any allocation/accrual to the performance participation interest and applicable distribution fee expenses, provided that the calculation of the Hurdle Amount for any period will exclude any Operating Partnership units repurchased during such period, which units will be subject to the performance participation allocation upon repurchase as described below.

Except as described in Loss Carryforward Amount below, any amount by which Total Return falls below the Hurdle Amount will not be carried forward to subsequent periods.

“Loss Carryforward Amount” shall initially equal zero and shall cumulatively increase by the absolute value of any negative annual Total Return and decrease by any positive annual Total Return, provided that the Loss Carryforward Amount shall at no time be less than zero and provided further that the calculation of the Loss Carryforward Amount will exclude the Total Return related to any Operating Partnership units repurchased during such year, which units will be subject to the performance participation allocation upon repurchase as described below. The effect of the Loss Carryforward Amount is that the recoupment of past annual Total Return losses will offset the positive annual Total Return for purposes of the calculation of the Special Limited Partner’s performance participation. This is referred to as a “High Water Mark.”

The Special Limited Partner will also be allocated a performance participation with respect to all Operating Partnership units that are repurchased at the end of any month (in connection with redemptions or repurchases of our shares in our share redemption program or otherwise) in an amount calculated as described above with the relevant period being the portion of the year for which such unit was outstanding, and proceeds for any such unit repurchase will be reduced by the amount of any such performance participation.

Distributions on the performance participation interest may be payable in cash or units of our Operating Partnership at the election of the Special Limited Partner. If the Special Limited Partner elects to receive such distributions in Operating Partnership units, the Special Limited Partner may request the Operating Partnership to repurchase such Operating Partnership units from the Special Limited Partner at a later date. Any such repurchase requests will not be subject to the Early Repurchase Deduction but will be subject to the same repurchase limits that exist under our share redemption program.

The Operating Partnership will repurchase any such Operating Partnership units for cash unless our board of directors determines that any such repurchase for cash would be prohibited by applicable law or our charter, in which case such Operating Partnership units will be repurchased for shares of our common stock with an equivalent aggregate NAV.

The NAV of the Operating Partnership calculated on the last trading day of a calendar year shall be the amount against which changes in NAV are measured during the subsequent calendar year. In our first calendar year of operations as an NAV REIT, the performance participation will be prorated for the portion of the calendar year in which we operate as an NAV REIT.

The measurement of the foregoing net assets change is also subject to adjustment by our board of directors to account for any unit dividend, unit split, recapitalization or any other similar change in the Operating Partnership's capital structure or any distributions made after our conversion to an NAV REIT that the board of directors deems to be a return of capital (if such changes are not already reflected in the Operating Partnership's net assets).

The Special Limited Partner will not be obligated to return any portion of the performance participation paid based on our subsequent performance.

Changes in our Operating Partnership's NAV per unit of each class will generally correspond to changes in our NAV per share of the corresponding class of our common stock. Distributions with respect to the performance participation interest are calculated from the Operating Partnership's Total Return over a calendar year. As a result, the Special Limited Partner may be entitled to receive compensation under the performance participation for a given year even if some of our stockholders who purchased shares during such year experienced a decline in NAV per share. Similarly, stockholders whose shares are repurchased during a given year may have their shares repurchased at a lower NAV per share as a result of an accrual for the estimated performance participation at such time, even if no performance participation allocation for such year is ultimately payable to the Special Limited Partner at the end of such calendar year.

In the event the advisory agreement is terminated, the Special Limited Partner will be allocated any accrued performance participation with respect to all Operating Partnership units as of the date of such termination.

Charter Amendment

As part of the Proposed NAV REIT Conversion, we are also proposing the deletion of Section 5.11 of our charter, which we believe is inconsistent with the pursuit of a perpetual-life strategy as an NAV REIT. This proposal will not take effect unless Proposal 4 (the proposal to approve the acceleration of the payment of incentive compensation to the advisor) is also approved. Please see "Proposal 3. Charter Amendment" for more information.

Risks of the Proposed NAV REIT Conversion

The following are the principal risks associated with the Proposed NAV REIT Conversion.

Our NAV REIT strategy may not result in increased liquidity for our stockholders.

Although we intend, as part of our NAV REIT strategy, to adopt a revised share redemption program that allows us to redeem a greater percentage of our shares each year than our current share redemption program, we cannot provide assurances that we will do so. We may decide for market, regulatory or other reasons to have a more limited share redemption program or conduct periodic self-tender offers on terms that we believe are appropriate.

We will not be required to purchase any particular number of shares, at any particular frequency or at any particular pricing, pursuant to our share redemption program or pursuant to periodic self-tender offers. Our board of directors will be permitted to modify, suspend or terminate our share redemption program at any time.

We may not have sufficient funding to satisfy the demand for liquidity. One of our primary sources for funding is currently expected to be a portion of the net proceeds from our new ongoing public offerings, but we cannot guarantee that the net proceeds raised will be sufficient to satisfy the demand for liquidity and our other capital needs, such as capital expenditures and funds for new investments. Under our current share redemption program, during any calendar year, we may redeem (i) only the number of shares that we could purchase with the amount of net proceeds from the sale of shares under our dividend reinvestment plan during the prior calendar year unless our board of directors authorizes additional funds for redemption, provided that once we have received requests for redemptions, whether in connection with Special Redemptions (defined below) or otherwise, that if honored, and when combined with all prior redemptions made during the calendar year, would result in the amount of remaining funds available for the redemption of additional shares in such calendar year being \$10.0 million or less, the last \$10.0 million of available funds shall be reserved exclusively for Special Redemptions and (ii) no more than 5% of the weighted average number of shares outstanding during the prior calendar year. Based on the amount of net proceeds raised from the sale of shares under our dividend reinvestment plan during 2018, we had an aggregate of \$56.1 million available for redemptions in 2019, including the reserve for redemptions sought in connection with a stockholder's death, "Qualifying Disability" or "Determination of Incompetence" (each as defined in the share redemption

program and together with redemptions sought in connection with a stockholder's death, "Special Redemptions"; all redemptions that do not meet the requirements for a Special Redemption are "Ordinary Redemptions"). As a result of the above-referenced limitations on the number of shares we can purchase pursuant to the share redemption program, as of March 1, 2019, we had exhausted all funds available for Ordinary Redemptions in 2019. On August 8, 2019, our board of directors approved an increase of the funding available for Ordinary Redemptions for calendar year 2019 by up to an additional \$40.0 million, which including redemptions fulfilled to date and the remaining amount reserved for Special Redemptions, increased the share redemption program to the maximum amount for 2019. On October 23, 2019, as a result of the pending issuance of shares as a result of a special dividend to be paid in December 2019, our board of directors approved a delay of processing redemptions that would otherwise occur on the last business day of November 2019 under the share redemption program until the last business day of December 2019. As of December 1, 2019, we had \$2.2 million available for Special Redemptions for the remainder of 2019. As of November 30, 2019, we had a total of \$30.9 million of outstanding and unfulfilled redemption requests, representing 2,703,907 shares, including \$0.6 million of outstanding and unfulfilled Special Redemption requests that would have otherwise been processed on the last business day of November 2019 but will now be processed on the last business day of December 2019. While we are soliciting stockholders with respect to Proposals 3 and 4, the board of directors has determined to suspend Ordinary Redemptions under our share redemption program.

Although the Singapore Transaction made additional capital available to us that we have and intend to continue to use to offer additional liquidity to our stockholders through our share redemption program and/or tender offers or through special distributions to stockholders after our stockholders have had an opportunity to vote on Proposals 3 and 4 at the annual meeting or any adjournment or postponement thereof, we cannot predict future redemption demand with any certainty. If future redemption requests exceed the amount of funding available under our share redemption program and any additional funding made available under one or more self-tender offers, the number of rejected redemption or repurchase requests will increase over time.

You will be dependent on the board of directors to adopt and oversee valuation procedures to determine the NAV of our shares; the prices at which we sell and redeem our shares will be based on the NAV per share determined in accordance with these valuation procedures plus, in the case of our offering price, applicable upfront selling commissions and dealer manager fees.

In connection with our NAV REIT strategy, our board of directors intends to adopt valuation procedures to determine a monthly NAV per share. However, we may compute the NAV less frequently than monthly, such as quarterly. In addition, the procedures, methods and assumptions used to determine the NAV will be solely in our discretion and subject to change, will not be subject to U.S. Generally Accepted Accounting Principles ("GAAP") and will not be subject to independent audit. No rule or regulation requires that we calculate our NAV in a certain way. Our board of directors has not finalized these procedures and once they do, our board of directors may adopt changes to the valuation procedures. The valuation procedures we adopt may be different from those used in our prior estimated value per share calculations.

The prices at which we sell shares in our offerings and redeem or repurchase shares under our share redemption program and/or self-tender offers will not be market-based prices. We currently intend for those prices to be based on the NAV per share of the applicable class of stock as of the last calendar day of the prior month (which will be our most recently disclosed NAV per share at such time) plus, in the case of the offering price, applicable upfront selling commissions and dealer manager fees. If our NAV calculations are too high, we may overpay for shares that we redeem, which would harm our remaining stockholders. If our NAV calculations are too low, we may dilute our existing stockholders when we sell new shares and we may underpay stockholders that sell their shares to us. Moreover, the NAV per share as of the date on which a subscription request or redemption request is made may be significantly different than the offering price paid or the redemption price received. There will be no market prices for our shares and you will be entirely dependent on us to determine an appropriate monthly NAV per share, which may not correspond to realizable value upon a sale of our assets.

Our NAV REIT strategy will result in additional expenses.

Our NAV REIT strategy will involve continuous, ongoing public offerings that will require registration with the SEC under federal securities laws and with each state in which we offer shares. Maintaining such offerings will result in offering fees and expenses such as those described under "Proposed NAV REIT Conversion – Terms of Proposed NAV REIT Conversion – Ongoing Public Offerings Conducted through KBS Capital Markets Group LLC." We also expect to incur additional expenses in connection with calculating a monthly NAV per share. We have and intend to continue to use a substantial portion of the net proceeds from the Singapore Transaction to offer additional liquidity to our stockholders through our share redemption program and/or tender offers or through special distributions to stockholders after our stockholders have had an opportunity to vote on Proposals 3 and 4 at the annual meeting or any adjournment or postponement thereof, which has and will reduce the size of our company and therefore make ongoing expenses as an NAV REIT more burdensome.

New investors in our new offerings may have divergent interests from investors in our initial public offering.

We conducted our initial public offering of common stock from October 2010 through July 2015. Investors in the initial public offering have now held their shares between approximately four and nine years. When (and if) we launch a new public offering as an NAV REIT, they will have held their shares for an even longer period. New investors in our company may place a greater priority on funding for new investments than for liquidity or other purposes. They may be more supportive of our NAV REIT strategy than our original investors. Divergent interests of our stockholders may affect decisions by our board of directors or management, and may impact stockholder votes on various matters.

We may not raise a meaningful amount of capital in our ongoing offerings as an NAV REIT.

We currently intend to use the proceeds from our offerings as an NAV REIT, net of the fees and other expenses we pay in connection with the offerings: (1) to provide increased liquidity to our stockholders in excess of what is currently offered; (2) to make additional investments in accordance with our investment strategy and policies with the intention of growing the portfolio; and (3) for other general corporate purposes (which may include repayment of our debt or any other corporate purposes we deem appropriate). However, we may not raise a meaningful amount of capital in our ongoing offerings as an NAV REIT, which would mean that we would not have as much money for any of these purposes. In particular, we may face challenges raising additional capital if we are not able to satisfy our stockholders' redemption requests on a regular basis.

We intend to retain KBS Capital Markets Group, an affiliate of our advisor, to conduct our ongoing offerings as an NAV REIT. The success of our offerings, and our ability to implement our business strategy, will be dependent upon the ability of KBS Capital Markets Group to build and maintain a network of broker-dealers to sell our shares to their clients. If KBS Capital Markets Group is not successful in establishing, operating and managing a network of broker-dealers, our ability to raise proceeds through future offerings will be limited and we may not have adequate capital to implement our NAV REIT strategy. Moreover, these offerings would be conducted on a "best efforts" basis, which means that KBS Capital Markets Group must only use its best efforts to sell the shares in the offerings and no underwriter, broker-dealer or other person would have any firm commitment or obligation to purchase any shares or to obtain any subscriptions on our behalf. We cannot assure you that any minimum number of shares of common stock would be sold. The past performance of KBS Capital Markets Group cannot be relied upon as predictive of KBS Capital Markets Group's future performance.

We may suffer from delays in locating suitable investments with the capital we raise in our ongoing offerings as a perpetual-life company.

As described above, we intend to use a portion of the net proceeds from our offerings as an NAV REIT to make additional investments in accordance with our investment strategy and policies with the intention of growing the portfolio. However, we could suffer from delays in locating suitable investments. The more shares we sell in our offerings, the more difficult it may be to invest the net offering proceeds promptly and on attractive terms. Our reliance on our advisor and the real estate and debt finance professionals that our advisor retains to identify suitable investments for us at times when such persons are simultaneously seeking to identify suitable investments for other KBS-sponsored programs or KBS-advised investors could also delay the investment of the proceeds from our offerings. KBS Realty Advisors LLC ("KBS Realty Advisors"), an affiliate of our advisor, acts as the U.S. asset manager for the SREIT. Currently, KBS Growth & Income REIT, Inc. ("KBS Growth & Income REIT") and the SREIT are also in their acquisition stages, and our sponsor and its affiliates may also sponsor or advise public or private programs or accounts in the future while our offerings as an NAV REIT are ongoing.

In connection with the Singapore Transaction, our advisor, KBS Capital Advisors, and KBS Realty Advisors proposed that our conflicts committee and board of directors adopt an asset allocation policy (the "Allocation Process") among us, KBS Real Estate Investment Trust II, Inc. ("KBS REIT II") and KBS Growth & Income REIT (collectively, the "Core Strategy REITs") and the SREIT. The board of directors and conflicts committee adopted the Allocation Process as proposed. The Allocation Process provides that, in order to mitigate potential conflicts of interest that may arise among the Core REITs and the SREIT, upon the listing of the SREIT (which occurred on July 19, 2019), potential asset acquisitions that meet all of the following criteria would be offered first to the SREIT:

- (i) Class A office building;
- (ii) Purchase price of at least \$125.0 million;
- (iii) Average occupancy of at least 90% for the first two years based on contractual in-place leases; and
- (iv) Stabilized property investment yield that is generally supportive of the distributions per unit of the SREIT.

To the extent the SREIT does not have the funds to acquire the asset or to the extent the external manager of the SREIT decides to forego the acquisition opportunity, such asset may then be offered to the Core Strategy REITs at the discretion of KBS Capital Advisors.

For so long as we are externally advised, our charter provides that it shall not be a proper purpose of the company for us to make any significant investment unless our advisor has recommended the investment to us. Thus, the real estate and debt finance professionals of our advisor could direct attractive investment opportunities to other KBS-sponsored programs or KBS-advised investors. Such events could result in us investing in properties that provide less attractive returns, which would reduce the level of distributions we may be able to pay our stockholders. Delays we encounter in the selection, acquisition and development of income-producing properties or the acquisition or origination of other real estate investments would likely limit our ability to pay distributions to our stockholders and may reduce their overall returns.

We may pay lower dividends as an NAV REIT than we otherwise would.

As an NAV REIT, we may pay lower dividends than we otherwise would, because as a perpetual-life NAV REIT (1) we may have a greater interest in retaining the capital for new investments, increased liquidity or other general purposes and (2) we may have a greater interest in keeping our NAV stable or rising.

Our NAV REIT strategy may increase the compensation to our advisor and its affiliates.

As described above, we intend to accelerate the payment of the Subordinated Participation in Net Cash Flows to our advisor, and implement a new annual performance allocation for our advisor or its affiliate. Our advisor will benefit from these changes because (a) the value of the current incentive fee could go down in the future and (b) there is value in receiving compensation sooner rather than later. The new fee structure also puts a greater emphasis on our performance and, accordingly, would result in greater compensation to our advisor or its affiliates as a percentage of our NAV if we perform sufficiently well. Furthermore if we succeed in raising additional capital and growing our company, we would expect the fees paid to our advisor and its affiliates to increase because of our larger size. We believe these changes help further align the interests of our advisor (and its affiliates) and our stockholders in growing our company and performing well. The actual future impact to our stockholders of the proposed compensation changes is difficult to predict because it is subject to a number of factors, such as the amount of capital we raise in our public offerings, the size or value of the portfolio, and our performance.

Our advisor and its affiliates, including all of our executive officers, our affiliated director and other key real estate and debt finance professionals at our advisor, face conflicts of interest in the pursuit of an NAV REIT strategy.

All of our executive officers, our affiliated director and other key real estate and debt finance professionals at our advisor are also officers, directors, managers, or key professionals of and/or holders of a direct or indirect controlling interest in our advisor, KBS Capital Markets Group LLC, who we intend to hire as our dealer manager for our future public offerings, and other affiliated KBS entities. Charles J. Schreiber, Jr. is the Chairman of our Board, our Chief Executive Officer, our President and our affiliated director. Our advisor is owned and controlled by KBS Holdings LLC (“KBS Holdings”), our sponsor. Charles J. Schreiber, Jr. indirectly controls KBS Holdings and KBS Capital Advisors. Our advisor is also the external advisor to other public KBS-sponsored programs. In addition, Mr. Schreiber and the team of real estate professionals at KBS Capital Advisors are also key real estate professionals at KBS Realty Advisors and its affiliates, the advisors to the private KBS-sponsored programs, the investment advisors to KBS-advised investors and the U.S. asset manager for the SREIT. In addition, Mr. Schreiber is an executive officer and director of other public KBS-sponsored programs and he is the Chairman of the Board and a director of the external manager of the SREIT. KBS Holdings, KBS Capital Advisors and KBS Realty Advisors and the KBS team of real estate and debt finance professionals may also sponsor or advise programs or accounts in the future. Some of the material conflicts that our advisor and its affiliates face in connection with our pursuit of a perpetual-life strategy include the following:

- As described above, we intend to accelerate the payment of the Subordinated Participation in Net Cash Flows to our advisor, and implement a new annual performance allocation for our advisor or its affiliate. Our advisor will benefit from these changes because (a) the value of the current incentive fee could go down in the future and (b) there is value in receiving compensation sooner rather than later. The new fee structure also puts a greater emphasis on our performance and, accordingly, would result in greater compensation to our advisor or its affiliates as a percentage of our NAV if we perform sufficiently well. Furthermore if we succeed in raising additional capital and growing our company, we would expect the fees paid to our advisor and its affiliates to increase because of our larger size. We may implement other fee changes that are favorable to our advisor and its affiliates. In addition, a perpetual-life strategy is likely to extend the period in which our advisor and its affiliates may earn fees from us, in various forms, whether related to overall asset management or otherwise.
- The compensation payable by us to our advisor and its affiliates may not be on terms that would result from arm’s-length negotiations, may be payable whether or not our stockholders receive distributions, and may be based on our NAV, the procedures for determining which our advisor will likely assist our board of directors in developing, overseeing, implementing and coordinating.

- The team of real estate and debt finance professionals at our advisor and its affiliates must determine which investment opportunities to recommend to us and the other KBS-sponsored programs that are raising funds for investment for whom KBS serves as an advisor as well as any programs KBS affiliates may sponsor in the future. Because investment opportunities that are suitable for us may also be suitable for other KBS-sponsored programs or KBS-advised investors, our advisor and its affiliates face conflicts of interest relating to the purchase of properties and other investments. Currently, KBS Growth & Income REIT and the SREIT are also in their acquisition stages. In addition, in connection with the Singapore Transaction, our board of directors and conflicts committee adopted the Allocation Process (described above) among certain KBS-sponsored programs.
- Our sponsor and its team of professionals at our advisor and its affiliates (including KBS Capital Markets Group LLC, the expected dealer manager of our offerings) have to allocate their time between us and other programs and activities in which they are involved.

CERTAIN INFORMATION ABOUT MANAGEMENT

The Board of Directors

We operate under the direction of the board of directors. The board of directors oversees our operations and makes all major decisions concerning our business. During 2018, the board of directors held 13 meetings and acted by unanimous written consent on 6 occasions. Each director who was a director in 2018 attended at least 75% of the meetings of our board. For biographical information regarding our directors, see “– Executive Officers and Directors.”

There are two committees of the board of directors: the audit committee and the conflicts committee. Information regarding each of these committees is set forth below.

Board Leadership Structure

The board of directors currently is composed of Mr. Schreiber, who indirectly controls our sponsor and our advisor and who is one of our executive officers, and three independent directors that meet the independence criteria as specified in our charter. Our charter provides that the number of directors on the board of directors is five. On April 25, 2019, Peter M. Bren, our then President and one of our former affiliated directors, as well as one of the indirect owners of KBS Holdings LLC, our sponsor and the parent entity of our advisor, passed away. We have nominated fewer director candidates for election at the annual meeting than the number provided in our charter while the board of directors considers whether to fill the vacant position or reduce the size of the board. Stockholders may not vote for a greater number of persons than the number of nominees named.

Unless otherwise specified, all references to independent directors in this proxy statement refer to compliance with the independent director criteria as specified in our charter, as set forth under “– Director Independence” below. Our charter provides that a majority of the seats on the board of directors will be for independent directors. The board composition and the corporate governance provisions in our charter ensure strong oversight by independent directors. The board of directors’ two committees, the audit committee and the conflicts committee, are composed entirely of independent directors. Our company is led by Mr. Schreiber, who has served as Chairman of the Board and our Chief Executive Officer since our inception in 2009. Although the board of directors has not established a policy on whether the role of Chairman of the Board and Chief Executive Officer should be combined, in practice the board of directors has found that having a combined Chairman of the Board and Chief Executive Officer role allows for more productive board meetings. As Chairman of the Board, Mr. Schreiber is responsible for leading board meetings and meetings of stockholders, generally setting the agendas for board meetings (subject to the requests of other directors) and providing information to the other directors in advance of meetings and between meetings. Mr. Schreiber’s direct involvement in our operations makes him best positioned to lead strategic planning sessions and determine the time allocated to each agenda item in discussions of our short- and long-term objectives. As a result, the board of directors currently believes that maintaining a structure that combines the roles of Chairman of the Board and Chief Executive Officer is the appropriate leadership structure for our company. We do not currently have a policy requiring the appointment of a lead independent director as all of our independent directors are actively involved in board meetings.

The Role of the Board of Directors in our Risk Oversight Process

Our executive officers and our advisor are responsible for the day-to-day management of risks we face, while the board of directors, as a whole and through its committees, has responsibility for the oversight of risk management. No less than quarterly, the entire board of directors reviews information regarding our liquidity, credit, operations, regulatory compliance and compliance with covenants in our material agreements, as well as the risks associated with each. In addition, each year the board of directors reviews significant variances between our current portfolio business plan and our original underwriting analysis and each quarter the directors review significant variances between our current results and our projections from the prior quarter, review all significant changes to our projections for future periods and discuss risks related to our portfolio. The audit committee oversees risk management in the areas of financial reporting and internal controls. The conflicts committee manages risks associated with the independence of the independent directors and potential conflicts of interest involving our advisor and its affiliates. Although each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire board of directors is regularly informed through committee reports about such risks as well as through regular reports directly from the executive officers responsible for oversight of particular risks to us.

Director Independence

A majority of our board of directors, Messrs. Dritley, Gabriel and Sturzenegger, meet the independence criteria as specified in our charter. Our charter defines an independent director as a director who is not and has not for the last two years been associated, directly or indirectly, with our sponsor, KBS Holdings, or our advisor, KBS Capital Advisors. A director is deemed to be associated with our sponsor or our advisor if he or she (i) owns an interest in our sponsor, our advisor or any of their affiliates; (ii) is employed by our sponsor, our advisor or any of their affiliates; (iii) is an officer or director of our sponsor, our advisor or any of their affiliates, (iv) performs services, other than as a director, for us; (v) is a director for more than three REITs organized by our sponsor or advised by our advisor; or (vi) has any material business or professional relationship with our sponsor, our advisor or any of their affiliates. A business or professional relationship will be deemed material per se if the annual gross revenue derived by the director from our sponsor, our advisor or any of their affiliates exceeds 5% of (1) the director's annual gross revenue derived from all sources during either of the last two years or (2) the director's net worth on a fair market value basis. An indirect relationship is defined to include circumstances in which the director's spouse, parents, children, siblings, mothers- or fathers-in-law, sons- or daughters-in-law or brothers- or sisters-in-law is or has been associated with us, our sponsor, our advisor or any of their affiliates.

In addition, and although our shares are not listed for trading on any national securities exchange, all of our current independent directors are "independent" as defined by the New York Stock Exchange. The board of directors has affirmatively determined that Jeffrey A. Dritley, Stuart A. Gabriel, Ph.D. and Ron D. Sturzenegger (appointed August 28, 2019) each satisfies the New York Stock Exchange independence standards.

In determining that Professor Gabriel is independent under the New York Stock Exchange independence standards, the board of directors considered that (i) Peter M. Bren, one of our former executive officers and directors, was a member of the UCLA Anderson School of Management Board of Advisors and was a founding member of the Richard S. Ziman Center for Real Estate at the UCLA Anderson School of Management, (ii) Professor Gabriel is a Director of the Richard S. Ziman Center for Real Estate and Professor of Finance and Arden Realty Chair at the UCLA Anderson School of Management and (iii) in March 2012, Mr. Bren pledged a gift of \$1.25 million to the Richard S. Ziman Center for Real Estate at the UCLA Anderson School of Management. The contribution by Mr. Bren was made over five years in the amount of \$250,000 per year. In addition, the board of directors considered that in 2017 Mr. Bren made an additional contribution to the Richard S. Ziman Center for Real Estate at the UCLA Anderson School of Management in the amount of \$250,000. Because these contributions were made to a tax exempt entity and the contributions did not exceed \$250,000 in any year, the board of directors determined that these contributions were not material and Professor Gabriel met the New York Stock Exchange independence standards. Mr. Bren passed away on April 25, 2019.

Barbara R. Cambon, who served as one of our independent directors from September 2010 until her resignation from the board of directors on June 26, 2019, met the independence criteria as specified in our charter. On June 13, 2018, an affiliate of our advisor offered Ms. Cambon the positions of chief executive officer and chief investment officer of KBS US Prime Property Management Pte. Ltd., which is the external manager of Prime US REIT. On June 14, 2018, Ms. Cambon verbally accepted the offer, subject to mutual agreement of written documentation of all terms. As a result of her acceptance of this offer, our board of directors determined that Ms. Cambon was no longer "independent" as defined under the rules of the New York Stock Exchange, and Ms. Cambon resigned from the audit committee. Ms. Cambon resigned from the board of directors and conflicts committee in connection with her appointment as chief executive officer and chief investment officer of KBS US Prime Property Management Pte. Ltd.

The Audit Committee

General

The audit committee's function is to assist the board of directors in fulfilling its responsibilities by overseeing (i) our accounting and financial reporting processes, (ii) the integrity of our financial statements, (iii) our independent registered public accounting firm's qualifications, performance and independence, and (iv) the performance of our internal audit function. The audit committee fulfills these responsibilities primarily by carrying out the activities enumerated in the audit committee charter. The audit committee charter is available on our website at www.kbsreitiii.com.

The members of the audit committee are Jeffrey A. Dritley, Stuart A. Gabriel, Ph.D. (chair) and Ron D. Sturzenegger (appointed August 28, 2019). The board of directors has determined that all of the members of the audit committee are "independent" as defined by the New York Stock Exchange. All of the members of the audit committee have significant financial and/or accounting experience, and the board of directors has determined that all of the members of the audit committee satisfy the SEC's requirements for an "audit committee financial expert." Barbara R. Cambon served as a member of the audit committee from September 2010 until her resignation from the audit committee in July 2018.

During 2018, the audit committee held five meetings. Each director who was a member of the audit committee in 2018 attended at least 75% of the meetings of the audit committee.

Independent Registered Public Accounting Firm

During the year ended December 31, 2018, Ernst & Young LLP served as our independent registered public accounting firm and provided certain tax and other services. Ernst & Young LLP has served as our independent registered public accounting firm since our formation. We expect that Ernst & Young LLP representatives will be present at the annual meeting and they will have the opportunity to make a statement if they desire to do so. In addition, we expect that the Ernst & Young LLP representatives will be available to respond to appropriate questions posed by stockholders. The audit committee has appointed Ernst & Young LLP as our independent registered public accounting firm to audit our financial statements for the year ending December 31, 2019. The audit committee may, however, select a new independent registered public accounting firm at any time in the future in its discretion if it deems such decision to be in our best interest. Any such decision would be disclosed to our stockholders in accordance with applicable securities laws.

Pre-Approval Policies

In order to ensure that the provision of such services does not impair the independent registered public accounting firm's independence, the audit committee charter imposes a duty on the audit committee to pre-approve all auditing services performed for us by our independent registered public accounting firm, as well as all permitted non-audit services. In determining whether or not to pre-approve services, the audit committee considers whether the service is a permissible service under the rules and regulations promulgated by the SEC. The audit committee may, in its discretion, delegate to one or more of its members the authority to pre-approve any audit or non-audit services to be performed by our independent registered public accounting firm, provided any such approval is presented to and approved by the full audit committee at its next scheduled meeting.

For the years ended December 31, 2018 and 2017, all services rendered by Ernst & Young LLP were pre-approved in accordance with the policies and procedures described above.

Principal Independent Registered Public Accounting Firm Fees

The audit committee reviewed the audit and non-audit services performed by Ernst & Young LLP, as well as the fees charged by Ernst & Young LLP for such services. In its review of the non-audit service fees, the audit committee considered whether the provision of such services is compatible with maintaining the independence of Ernst & Young LLP. The aggregate fees billed to us for professional accounting services, including the audit of our annual financial statements by Ernst & Young LLP for the years ended December 31, 2018 and 2017, are set forth in the table below.

	<u>2018</u>	<u>2017</u>
Audit fees	\$673,000	\$658,500
Audit-related fees	-	-
Tax fees	\$152,024	\$122,453
All other fees	\$1,412	\$285
Total	<u>\$826,436</u>	<u>\$781,238</u>

For purposes of the preceding table, Ernst & Young LLP's professional fees are classified as follows:

- Audit fees – These are fees for professional services performed for the audit of our annual financial statements and the required review of quarterly financial statements and other procedures performed by Ernst & Young LLP in order for them to be able to form an opinion on our consolidated financial statements. These fees also cover services that are normally provided by independent registered public accounting firms in connection with statutory and regulatory filings or engagements.
- Audit-related fees – These are fees for assurance and related services that traditionally are performed by independent registered public accounting firms that are reasonably related to the performance of the audit or review of our financial statements, such as due diligence related to acquisitions and dispositions, attestation services that are not required by statute or regulation, internal control reviews and consultation concerning financial accounting and reporting standards.
- Tax fees – These are fees for all professional services performed by professional staff in our independent registered public accounting firm's tax division, except those services related to the audit of our financial statements. These include fees for tax compliance, tax planning and tax advice, including federal, state and local issues. Services may also include assistance with tax audits and appeals before the U.S. Internal Revenue Service (the "IRS") and similar state and local agencies, as well as federal, state and local tax issues related to due diligence.
- All other fees – These are fees for any services not included in the above-described categories.

Report of the Audit Committee

The function of the audit committee is oversight of the financial reporting process on behalf of the board of directors. Management has responsibility for the financial reporting process, including the system of internal control over financial reporting, and for the preparation, presentation and integrity of our financial statements. In addition, our independent registered public accounting firm devotes more time and has access to more information than does the audit committee. Membership on the audit committee does not call for the professional training and technical skills generally associated with career professionals in the field of accounting and auditing. Accordingly, in fulfilling their responsibilities, it is recognized that members of the audit committee are not, and do not represent themselves to be, performing the functions of auditors or accountants.

In this context, the audit committee reviewed and discussed the 2018 audited financial statements with management, including a discussion of the quality and acceptability of our financial reporting, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The audit committee discussed with Ernst & Young LLP, which is responsible for expressing an opinion on the conformity of those audited financial statements with U.S. generally accepted accounting principles ("GAAP"), the matters required to be discussed by AS 1301, "Communications with Audit Committees," as adopted by the Public Company Accounting Oversight Board. The audit committee received from Ernst & Young LLP the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young LLP's communications with the audit committee concerning independence, and discussed with Ernst & Young LLP their independence from us. In addition, the audit committee considered whether Ernst & Young LLP's provision of non-audit services is compatible with Ernst & Young LLP's independence.

Based on these reviews and discussions, the audit committee recommended to the board of directors that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2018 for filing with the SEC.

December 4, 2019

The Audit Committee of the Board of Directors:
Jeffrey A. Dritley and Stuart A. Gabriel, Ph.D.(chair)

The foregoing Report of the Audit Committee shall not be deemed to be “soliciting material” or incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Exchange Act, except to the extent that we specifically incorporate this information by reference, and shall not otherwise be deemed filed under the Exchange Act.

The Conflicts Committee

General

The members of the conflicts committee are Jeffrey A. Dritley (chair), Stuart A. Gabriel, Ph.D. and Ron D. Sturzenegger (appointed August 28, 2019), all of whom are independent directors. Barbara R. Cambon served as a member of the conflicts committee from September 2010 until her resignation from the conflicts committee in June 2019. Our charter empowers the conflicts committee to act on any matter permitted under Maryland law if the matter at issue is such that the exercise of independent judgment by directors who are affiliates of our advisor could reasonably be compromised. Among the duties of the conflicts committee are the following:

- reviewing and reporting on our policies;
- approving transactions with affiliates and reporting on their fairness to us;
- supervising and evaluating the performance and compensation of our advisor;
- reviewing our expenses and determining that they are reasonable and within the limits prescribed by our charter;
- approving borrowings in excess of the total liabilities limit set forth in our charter; and
- discharging the board of directors’ responsibilities relating to compensation.

The primary responsibilities of the conflicts committee are enumerated in our charter. The conflicts committee does not have a separate committee charter.

During 2018, the conflicts committee held eighteen meetings and acted by unanimous consent on two occasions. Each director who was a member of the conflicts committee in 2018 attended at least 75% of the meetings of the conflicts committee, except for Ms. Cambon who did not attend 75% of the meetings of the conflicts committee. Ms. Cambon recused herself from certain conflicts committee meetings due to potential conflicts of interest with respect to the Singapore Transaction.

Oversight of Executive Compensation

As noted above, the conflicts committee discharges the board of directors’ responsibilities relating to the compensation of our executives. However, we do not have any paid employees and our executive officers do not receive any compensation directly from us. Our executive officers are officers and/or employees of, or hold an indirect ownership interest in, our advisor and/or its affiliates and our executive officers are compensated by these entities, in part, for their services to us or our subsidiaries. See “– Certain Transactions with Related Persons” below for a discussion of the fees paid to our advisor and its affiliates.

Policy Regarding Transactions with Related Persons

Our charter requires the conflicts committee to review and approve all transactions between us and our advisor, any of our officers or directors or any of their affiliates. Prior to entering into a transaction with a related party, a majority of the conflicts committee must conclude that the transaction is fair and reasonable to us. In addition, our Code of Conduct and Ethics lists examples of types of transactions with related parties that would create prohibited conflicts of interest and requires our officers and directors to be conscientious of actual and potential conflicts of interest with respect to our interests and to seek to avoid such conflicts or handle such conflicts in an ethical manner at all times consistent with applicable law. Our executive officers and directors are required to report potential and actual conflicts to the Compliance Officer, currently our advisor’s Chief Audit Executive, via the Ethics Hotline or directly to the audit committee chair, as appropriate.

Certain Transactions with Related Persons

Set forth below is a description of the material transactions between our affiliates and us since the beginning of 2018 as well as any such currently proposed material transactions, other than the Proposed NAV REIT Conversion. See “Proposed NAV REIT Conversion” for a discussion of the proposed acceleration of the advisor’s incentive fee and the other revised fees and expense reimbursements we would expect to implement in connection with a conversion to an NAV REIT, which we intend to pursue if Proposal 3 and Proposal 4 are approved by our stockholders.

We have entered into agreements with certain affiliates pursuant to which they provide services to us. All of our executive officers and our affiliated director are also officers, directors, managers, or key professionals of and/or holders of a direct or indirect controlling interest in our advisor, KBS Capital Markets Group LLC (our dealer manager), and other affiliated KBS entities. Charles J. Schreiber, Jr. is the Chairman of our Board, our Chief Executive Officer, our President and our affiliated director. Our advisor and KBS Capital Markets Group LLC are owned and controlled by KBS Holdings, our sponsor. Charles J. Schreiber, Jr. indirectly controls our sponsor and our advisor.

Our Relationship with KBS Capital Advisors. Since our inception, our advisor has provided day-to-day management of our business. Among the services provided by our advisor under the terms of the advisory agreement are the following:

- finding, presenting and recommending to us investment opportunities consistent with our investment policies and objectives;
- structuring the terms and conditions of our investments, sales and joint ventures;
- acquiring properties and other investments on our behalf in compliance with our investment objectives and policies;
- arranging for financing and refinancing of our investments;
- entering into leases and service contracts for our properties;
- supervising and evaluating each property manager’s performance;
- reviewing and analyzing the properties’ operating and capital budgets;
- assisting us in obtaining insurance;
- generating an annual budget for us;
- reviewing and analyzing financial information for each of our assets and our overall portfolio;
- formulating and overseeing the implementation of strategies for the administration, promotion, management, operation, maintenance, improvement, financing and refinancing, marketing, leasing and disposition of our investments;
- performing investor-relations services;
- maintaining our accounting and other records and assisting us in filing all reports required to be filed with the SEC, the IRS and other regulatory agencies;
- engaging in and supervising the performance of our agents, including our registrar and transfer agent; and
- performing any other services reasonably requested by us.

Our advisor is subject to the supervision of the board of directors and only has such authority as we may delegate to it as our agent. The advisory agreement has a one-year term expiring September 27, 2020, subject to an unlimited number of successive one-year renewals upon the mutual consent of the parties. From January 1, 2018 through the most recent date practicable, which was September 30, 2019, we compensated our advisor as set forth below.

Our advisor or its affiliates have paid, and in the future may pay, some of the offering costs related to our dividend reinvestment plan, including, but not limited to, our legal, accounting, printing, mailing and filing fees. We are responsible for reimbursing our advisor for these costs. At the end of our dividend reinvestment plan offering, our advisor has agreed to reimburse us to the extent that organization and other offering expenses exceed 2% of gross offering proceeds. No reimbursements made by us to our advisor may cause total organization and offering expenses incurred by us to exceed 15% of the aggregate gross offering proceeds as of the date of reimbursement. From January 1, 2018 through September 30, 2019, with respect to our dividend reinvestment plan, our advisor did not incur any organization and offering expenses on our behalf.

We incur acquisition and origination fees payable to our advisor equal to 1.0% of the cost of investments acquired by us, or the amount to be funded by us to acquire or originate loans, including the sum of the amount actually paid or allocated to the purchase, development, construction or improvement of such investments, acquisition and origination expenses and any debt attributable to such investments. Acquisition and origination fees relate to services provided in connection with the selection and acquisition or origination of real estate investments. During the period from January 1, 2018 through September 30, 2019, we did not acquire any investments accounted for as a business combination, but we did acquire the unaffiliated developer's 25% equity interest in Village Center Station II and we now own 100% of the property. During the period from January 1, 2018 through September 30, 2019, we capitalized an aggregate of \$1.2 million in acquisition fees related to the development of Hardware Village and our investment in Village Center Station II. We did not originate or purchase any loans from January 1, 2018 through September 30, 2019.

In addition to acquisition and origination fees, we reimburse our advisor for customary acquisition and origination expenses, whether or not we ultimately acquire the asset. From January 1, 2018 through September 30, 2019, our advisor and its affiliates did not incur any such costs on our behalf.

For asset management services, we pay our advisor a monthly fee. With respect to investments in real property, the asset management fee is a monthly fee equal to one-twelfth of 0.75% of the amount paid or allocated to acquire the investment, plus the cost of any subsequent development, construction or improvements to the property. This amount includes any portion of the investment that was debt financed and is inclusive of acquisition expenses related thereto (but excludes acquisition fees paid or payable to our advisor). In the case of investments made through joint ventures, the asset management fee is determined based on our proportionate share of the underlying investment (but excluding acquisition fees paid or payable to our advisor). With respect to investments in loans and any investments other than real property, the asset management fee is a monthly fee calculated, each month, as one-twelfth of 0.75% of the lesser of (i) the amount actually paid or allocated to acquire or fund the loan or other investment (which amount includes any portion of the investment that was debt financed and is inclusive of acquisition or origination expenses related thereto, but is exclusive of acquisition or origination fees paid or payable to our advisor) and (ii) the outstanding principal amount of such loan or other investment, plus the acquisition or origination expenses related to the acquisition or funding of such investment (excluding acquisition or origination fees paid or payable to our advisor), as of the time of calculation.

However, with respect to asset management fees accruing from March 1, 2014, our advisor agreed to defer, without interest, our obligation to pay asset management fees for any month in which our modified funds from operations ("MFFO") for such month, as such term is defined in the practice guideline issued by the IPA in November 2010 and interpreted by us, excluding asset management fees, does not exceed the amount of distributions declared by us for record dates of that month. We remain obligated to pay our advisor an asset management fee in any month in which our MFFO, excluding asset management fees, for such month exceeds the amount of distributions declared for the record dates of that month (such excess amount, an "MFFO Surplus"); however, any amount of such asset management fee in excess of the MFFO Surplus will also be deferred under the advisory agreement. If the MFFO Surplus for any month exceeds the amount of the asset management fee payable for such month, any remaining MFFO Surplus will be applied to pay any asset management fee amounts previously deferred in accordance with the advisory agreement.

Notwithstanding the foregoing, any and all deferred asset management fees that are unpaid will become immediately due and payable at such time as our stockholders have received, together as a collective group, aggregate distributions (including distributions that may constitute a return of capital for federal income tax purposes) sufficient to provide (i) an 8.0% per year cumulative, noncompounded return on such net invested capital (the "Stockholders' 8% Return") and (ii) a return of their net invested capital, or the amount calculated by multiplying the total number of shares purchased by stockholders by the issue price, reduced by any amounts to repurchase shares pursuant to our share redemption program. The Stockholders' 8% Return is not based on the return provided to any individual stockholder. Accordingly, it is not necessary for each of our stockholders to have received any minimum return in order for our advisor to receive deferred asset management fees.

From January 1, 2018 through September 30, 2019, asset management fees totaled \$46.6 million. From January 1, 2018 through September 30, 2019, we paid \$45.5 million in asset management fees, \$2.3 million of which related to asset management fees incurred in prior periods. As of September 30, 2019, we had deferred payment of \$2.9 million of asset management fees under the advisory agreement, and an additional \$0.5 million of asset management fees were payable to the advisor. The amount of asset management fees deferred, if any, will vary on a month-to-month basis and the total amount of asset management fees deferred as well as the timing of the deferrals and repayments are difficult to predict as they will depend on the amount of and terms of any debt we use to acquire assets, the level of operating cash flow generated by our real estate investments, and the performance of all of the real estate investments in our portfolio and other factors. In addition, deferrals and repayments may occur in the same period, and it is possible that there could be additional deferrals in the future.

Under the advisory agreement, our advisor has the right to seek reimbursement from us for all costs and expenses it incurs in connection with the provision of services to us, including our allocable share of our advisor's overhead, such as rent, employee costs, utilities, accounting software and cybersecurity costs. With respect to employee costs, at this time our advisor only expects to seek reimbursement for our allocable portion of the salaries, benefits and overhead of internal audit department personnel providing services to us. We do not reimburse our advisor for employee costs in connection with services for which our advisor earns acquisition or origination fees or disposition fees (other than reimbursement of travel and communication expenses) or for the salaries and benefits our advisor or its affiliates may pay to our executive officers.

From January 1, 2018 through September 30, 2019, we reimbursed our advisor for \$4.9 million of operating expenses, including \$0.6 million of employee costs. We also reimburse our advisor for certain of our direct costs incurred from third parties that were initially paid by our advisor on behalf of us. Prior to the Singapore Transaction closing on July 19, 2019, we and our advisor had agreed to evenly divide certain costs and expenses related to the Singapore Transaction (discussed below). We had incurred a total of \$4.1 million of costs related to the Singapore Transaction, which were reimbursable by the SREIT upon a successful closing. These costs include legal, audit, tax, printing and other out-of-pocket costs that we incurred related to the Singapore Transaction. As of September 30, 2019, we had \$2.8 million of reimbursable operating expense receivable related to the Singapore Transaction, which were subsequently collected in October 2019 from our advisor upon our advisor receiving the reimbursement from the SREIT.

In addition, from January 1, 2018 through September 30, 2019, our advisor reimbursed us \$0.2 million for property insurance rebates.

For substantial assistance in connection with the sale of properties or other investments, we pay our advisor or one of its affiliates 1.0% of the contract sales price of each property or other investment sold; provided, however, that if, in connection with such disposition, commissions are paid to third parties unaffiliated with our advisor or one of its affiliates, the fee paid to our advisor or one of its affiliates may not exceed the commissions paid to such unaffiliated third parties, and provided further that the aggregate disposition fees paid to our advisor or one of its affiliates and unaffiliated third parties may not exceed 6.0% of the contract sales price. We will not pay a disposition fee upon the maturity, prepayment or workout of a loan or other debt-related investment, provided that if we take ownership of a property as a result of a workout or foreclosure of a loan, we will pay a disposition fee upon the sale of such property. From January 1, 2018 through September 30, 2019, we sold one office property and the Singapore Portfolio and incurred \$9.9 million of disposition fees, all of which had been paid as of September 30, 2019.

In connection with our initial public offering, Messrs. Bren and Schreiber and Keith D. Hall and Peter McMillan III agreed to provide additional indemnification to one of the participating broker-dealers. We agreed to add supplemental coverage to our directors' and officers' insurance coverage to insure the obligations of Messrs. Bren, Hall, McMillan and Schreiber under this indemnification agreement in exchange for reimbursement to us by Messrs. Bren, Hall, McMillan and Schreiber for all costs, expenses and premiums related to this supplemental coverage, which does not dilute the directors and officers liability insurance coverage for the KBS entities. From January 1, 2018 through September 30, 2019, our advisor had incurred \$0.1 million for the costs of the supplemental coverage obtained by us, all of which had been paid to the insurer or reimbursed to us as of September 30, 2019.

Our Relationship with KBS Capital Markets Group. We continue to offer shares under our dividend reinvestment plan offering. From January 1, 2018 through September 30, 2019, with respect to our dividend reinvestment plan offering, we did not reimburse our dealer manager for any expenses related to our dividend reinvestment plan offering.

We entered into a fee reimbursement agreement (the "AIP Reimbursement Agreement") with our dealer manager pursuant to which we agreed to reimburse our dealer manager for certain fees and expenses it incurs for administering our participation in the DTCC Alternative Investment Product Platform with respect to certain accounts of our stockholders serviced through the platform. From January 1, 2018 through September 30, 2019, we incurred \$0.1 million of costs and expenses related to the AIP Reimbursement Agreement.

Our Relationship with other KBS-Affiliated Entities. On May 29, 2015, our indirect wholly owned subsidiary that owns 3003 Washington Boulevard entered into a lease with an affiliate of our advisor for 5,046 rentable square feet, or approximately 2.4% of the total rentable square feet, at 3003 Washington Boulevard. The lease commenced on October 1, 2015 and had an initial termination date of August 31, 2019. The annualized base rent for the lease was approximately \$0.2 million, and the average annual rental rate (net of rental abatements) over the lease term was \$46.38 per square foot.

On March 14, 2019, the Lessor entered into a First Amendment to Deed of Lease with the Lessee to extend the lease period commencing on September 1, 2019 and terminating on August 31, 2024 (the "Amended Lease") and set the annual base rent during the extension period. The annualized base rent from the commencement of the Amended Lease is approximately \$0.3 million, and the average annual rental rate (net of rental abatements) over the term of the Amended Lease through its termination is \$62.55 per square foot.

From January 1, 2018 through September 30, 2019, we recognized \$0.4 million of rental income related to the lease and the Amended Lease.

Insurance Program. As of January 1, 2018, we, together with KBS REIT II, KBS Growth & Income REIT, Pacific Oak Strategic Opportunity REIT, Inc., formerly KBS Strategic Opportunity REIT, Inc. (“Pacific Oak Strategic Opportunity REIT”) (advisory agreement terminated as of October 31, 2019), KBS Legacy Partners Apartment REIT, Inc. (“KBS Legacy Partners Apartment REIT”), Pacific Oak Strategic Opportunity REIT II, Inc., formerly KBS Strategic Opportunity REIT II, Inc. (“Pacific Oak Strategic Opportunity REIT II”) (advisory agreement terminated as of October 31, 2019), our dealer manager, our advisor and other KBS-affiliated entities, had entered into an errors and omissions and directors and officers liability insurance program where the lower tiers of such insurance coverage were shared. The cost of these lower tiers is allocated by our advisor and its insurance broker among each of the various entities covered by the program, and is billed directly to each entity. At the June 2018 renewal, Pacific Oak Strategic Opportunity REIT, Pacific Oak Strategic Opportunity REIT II and KBS Legacy Partners Apartment REIT elected to cease participation in the program and obtained separate insurance coverage. In June 2019, we renewed our participation in the program. The program is effective through June 30, 2020.

Singapore Transaction. On June 27, 2019, we, through 12 wholly owned subsidiaries, entered into a Portfolio Purchase and Sale Agreement and Escrow Instructions (the “Purchase Agreement”) pursuant to which we agreed to sell 11 of our properties (the “Singapore Portfolio”) to various subsidiaries of Prime US REIT (the “SREIT”), a newly formed Singapore real estate investment trust that listed on the Singapore Stock Exchange on July 19, 2019 (the “Singapore Transaction”). The SREIT is affiliated with Charles J. Schreiber, Jr., our Chief Executive Officer, President, Chairman of the Board and one of our directors. The Singapore Portfolio consists of the following properties: Tower I at Emeryville, Emeryville, California; 222 Main, Salt Lake City, Utah; Village Center Station, Greenwood Village, Colorado; Village Center Station II, Greenwood Village, Colorado; 101 South Hanley, St. Louis, Missouri; Tower on Lake Carolyn, Irving, Texas; Promenade I & II at Eilan, San Antonio, Texas; CrossPoint at Valley Forge, Wayne, Pennsylvania; One Washingtonian Center, Gaithersburg, Maryland; Reston Square, Reston, Virginia; and 171 17th Street, Atlanta, Georgia. On July 18, 2019, we, through 12 wholly owned subsidiaries, sold the Singapore Portfolio to various subsidiaries of the SREIT. As of September 30, 2019, the SREIT does not own any properties other than the Singapore Portfolio. The sale price of the Singapore Portfolio was \$1.2 billion, before third-party closing costs, closing credits and other costs of approximately \$20.0 million and excluding disposition fees paid to our advisor of \$9.5 million. In connection with the Singapore Transaction, we repaid \$613.1 million of outstanding debt secured by the properties in the Singapore Portfolio.

As part of the Singapore Transaction, on June 27, 2019, KBS REIT Properties III LLC, our indirect wholly owned subsidiary (“REIT Properties III”), entered into a Subscription Agreement (the “Subscription Agreement”) with the SREIT’s manager, KBS US Prime Property Management Pte. Ltd. (the “Manager”), to subscribe for \$201.0 million of the units to be issued by the SREIT. Certain of our indirect wholly owned subsidiaries, certain of the SREIT’s direct and indirect wholly owned subsidiaries, the Manager and DBS Trustee Limited, as trustee of the SREIT, also entered a Set-Off Agreement on June 27, 2019 (the “Set-Off Agreement”). Pursuant to the Set-Off Agreement, we agreed that the SREIT may deduct from the aggregate purchase price due from the SREIT under the Purchase Agreement the subscription amount to be paid by REIT Properties III for the units under the Subscription Agreement. Also pursuant to the Set-Off Agreement, the Manager discharges REIT Properties III from payment of the subscription amount upon receipt by us of the aggregate purchase price under the Purchase Agreement less the subscription amount under the Subscription Agreement.

On July 15, 2019, REIT Properties III entered into an amendment to the Subscription Agreement with the Manager (the “Subscription Agreement Amendment”) and an amendment to the Set-Off Agreement with the parties thereto (the “Set-Off Agreement Amendment”). Pursuant to REIT Properties III’s separate order to acquire an additional \$70.0 million of units of the SREIT in the placement tranche of the SREIT’s offering, the Subscription Agreement Amendment required REIT Properties III’s to confirm certain representations and warranties made by REIT Properties III in the Subscription Agreement with respect to the units to be issued in the placement tranche. The Set-Off Agreement Amendment provides that the SREIT may deduct from the aggregate purchase price due from the SREIT under the Purchase Agreement both (i) the subscription amount of \$201.0 million to be paid by REIT Properties III for the units subscribed for under the Subscription Agreement and (ii) the additional \$70.0 million to be paid by REIT Properties III for the units subscribed for under the placement tranche of the SREIT’s offering (collectively, the subscription amounts are the “Set-Off Amount”). Also pursuant to the Set-Off Agreement Amendment, the Manager agreed that, upon receipt by us of the aggregate purchase price under the Purchase Agreement less the Set-Off Amount, our payment obligations under the Subscription Agreement and the order for units in the placement tranche of the SREIT’s offering are fully satisfied. As such, on July 19, 2019, REIT Properties III acquired 307,953,999 units in the SREIT at an aggregate price of \$271 million representing a 33.3% ownership interest in the SREIT.

Also on July 15, 2019, REIT Properties III entered into a placement agreement (the “Placement Agreement”) and unit lending agreement (the “Unit Lending Agreement”) with respect to an offering of units of the SREIT. The Placement Agreement was entered into with the Manager, KBS Asia Partners Pte. Ltd. (“KAP”), KBS Realty Advisors, PBren

Investments, L.P., Schreiber Real Estate Investments L.P. and the Underwriters. The Underwriters are DBS Bank Ltd., Merrill Lynch (Singapore) Pte. Ltd., China International Capital Corporation (Singapore) Pte. Limited, Credit Suisse (Singapore) Limited, Maybank Kim Eng Securities Pte. Ltd. and Oversea-Chinese Banking Corporation Limited. The Unit Lending Agreement was entered into with Merrill Lynch (Singapore) Pte. Ltd. (the “Stabilizing Manager”).

Pursuant to the Placement Agreement, the Underwriters agreed to procure subscriptions, or subscribe themselves, for an aggregate of 294,294,200 units in the SREIT, at a price of \$0.88 per unit (the “Offering Price”). Other investors agreed to subscribe for units separately, including REIT Properties III (as discussed above) at the Offering Price, and the Underwriters entered into a separate offer agreement to sell an additional 40,909,000 units of the SREIT to the public in Singapore at the Offering Price. REIT Properties III is a party to the Placement Agreement as unit lender, and pursuant to the Placement Agreement, REIT Properties III granted the Underwriters an over-allotment option (the “Over-Allotment Option”) in which REIT Properties III agreed to sell to the Underwriters up to 22,727,000 of REIT Properties III’s units in the SREIT at the Offering Price. The Over-Allotment Option was exercisable for up to 30 days after the listing of the units of the SREIT on the Singapore Stock Exchange. The option is solely to cover the over-allotment of units (if any) in the SREIT’s offering. Under the terms of the Placement Agreement, REIT Properties III agrees to indemnify the Underwriters against certain losses and claims in so far as such losses or claims are based on or arising out of any breach or alleged breach by REIT Properties III of the representations, warranties or obligations made by or relating to REIT Properties III under the Placement Agreement. The Placement Agreement includes customary representations and warranties by REIT Properties III.

Pursuant to the Unit Lending Agreement, REIT Properties III agreed to lend the 22,727,000 units subject to the Over-Allotment Option to the Stabilizing Manager for the purpose of facilitating the settlement of the over-allotment of units in connection with the SREIT’s offering. The Unit Lending Agreement contains customary representations and warranties by REIT Properties III.

On August 21, 2019, REIT Properties III sold 18,392,100 units to the Underwriters pursuant to the Over-Allotment Option at the Offering Price, reducing REIT Properties III’s ownership in the SREIT to 31.3% of the outstanding units of the SREIT. The Stabilizing Manager re-delivered to REIT Properties III such number of units that were not purchased pursuant to the exercise of the Over-Allotment Option.

On July 8, 2019, we, KBS Limited Partnership III, KBS REIT Holdings III LLC and REIT Properties III (collectively, the “REIT III Entities”) entered into lock-up letter agreements with the Underwriters whereby each of the REIT III Entities agreed to hold 100% of REIT Properties III’s units in the SREIT for six months following the listing of the SREIT on the Singapore Stock Exchange and to hold 50% of REIT Properties III’s units in the SREIT for 12 months following the listing of the SREIT on the Singapore Stock Exchange. During the respective lock-up periods, without the prior written consent of the Underwriters and other than pursuant to the Over-Allotment Option or lending for stabilizing transactions pursuant to the Unit Lending Agreement (described above), the REIT III Entities may not offer, sell, pledge, option, grant any rights or warrants, or enter into any swap, hedge or other similar arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the units held by REIT Properties III.

The SREIT is externally managed by a joint venture (the “Manager”) currently among KAP (an entity in which Charles J. Schreiber, Jr. currently holds an indirect 50% ownership interest) and three entities unaffiliated with us or our advisor. For their ownership stake in the Manager, these three unaffiliated entities paid KAP an aggregate of \$43.5 million.

The SREIT is expected to pay the Manager an annual base fee of 10% of annual distributable income and an annual performance fee of 25% of the increase in distributions per unit of the SREIT from the preceding year; however, there would not be any performance fee for 2019 and in 2020 such fee will be based on an increase over projected distributions per unit. In addition, for future acquisitions, the SREIT will pay the Manager an acquisition fee of 1% of the acquisition price of any real estate acquired. No acquisition fee will be paid with respect to the SREIT’s acquisition of the Singapore Portfolio. The SREIT will also pay the Manager a divestment fee of 0.5% of the sale price of any real estate sold or divested and a development management fee of 3% of the total project costs incurred for development projects, to the extent the SREIT acquires a development project. A portion of these fees paid to the Manager will be paid to KBS Realty Advisors, an affiliate of KBS Capital Advisors and an entity controlled by Mr. Schreiber, for sub-advisory services.

The Schreiber Trust, a trust whose beneficiaries are Charles J. Schreiber, Jr. and his family members, and the Linda Bren 2017 Trust also acquired units in the SREIT. The Schreiber Trust agreed that for the benefit of our company it will not sell any portion of its respective units in the SREIT unless and until it has received our prior written consent, including the consent of our conflicts committee. The Linda Bren 2017 Trust has agreed for the benefit of our company that it will not sell \$5.0 million of its \$10.0 million aggregate investment in the SREIT unless and until it has received our prior written consent, including the consent of our conflicts committee. Linda Bren is the spouse of our former director and president, who passed away in April 2019. Schreiber Real Estate Investments L.P. and PBren Investments L.P. are affiliated with Charles J. Schreiber, Jr. In addition, Barbara R. Cambon, one of our former directors, accepted the positions of Chief Executive Officer

and Chief Investment Officer of the Manager and will receive compensation for her services. In connection with her acceptance of these positions, Ms. Cambon resigned from our board of directors effective June 26, 2019.

Allocation Policy. In connection with the Singapore Transaction, our advisor and KBS Realty Advisors proposed that our conflicts committee and board of directors adopt an asset allocation policy (the “Allocation Process”) among us, KBS REIT II and KBS Growth & Income REIT (collectively, the “Core Strategy REITs”) and the SREIT. Our conflicts committee and board of directors adopted the Allocation Process as proposed. The Allocation Process provides that, in order to mitigate potential conflicts of interest that may arise among the Core REITs and the SREIT, upon the listing of the SREIT on the Singapore Stock Exchange on July 19, 2019, potential asset acquisitions that meet all of the following criteria would be offered first to the SREIT:

- (i) Class A office building;
- (ii) Purchase price of at least \$125.0 million;
- (iii) Average occupancy of at least 90% for the first two years based on contractual in-place leases; and
- (iv) Stabilized property investment yield that is generally supportive of the distributions per unit of the SREIT.

To the extent the SREIT does not have the funds to acquire the asset or to the extent the Manager of the SREIT decides to forego the acquisition opportunity, such asset may then be offered to the Core Strategy REITs at the discretion of our advisor.

From January 1, 2018 through September 30, 2019, no other transactions occurred between us and KBS Real Estate Investment Trust, Inc. (“KBS REIT I”) (which liquidated in December 2018), KBS REIT II, Pacific Oak Strategic Opportunity REIT, Pacific Oak Strategic Opportunity REIT II, KBS Legacy Partners Apartment REIT (which liquidated in December 2018), KBS Growth & Income REIT, our dealer manager, our advisor or other KBS-affiliated entities.

Effective October 31, 2019, Pacific Oak Strategic Opportunity REIT and Pacific Oak Strategic Opportunity REIT II transferred the management of the companies to a new external advisor, Pacific Oak Capital Advisors LLC. The transfer of management allows KBS Capital Advisors to focus on its current core asset portfolios, while the Pacific Oak group of companies focuses primarily on its current opportunistic portfolios. Pacific Oak Capital Advisors, LLC is owned and managed by Keith D. Hall and Peter McMillan III. Together, through GKP Holding LLC, Messrs. Hall and McMillan, indirectly own a 33 1/3% interest in KBS Capital Advisors and KBS Capital Markets Group.

Currently Proposed Transactions. There are no currently proposed material transactions with related persons other than those covered by the terms of the agreements described above and other than the Proposed NAV REIT Conversion. See “Proposed NAV REIT Conversion” for a discussion of the proposed acceleration of the advisor’s incentive fee and the other revised fees and expense reimbursements we would expect to implement in connection with a conversion to an NAV REIT, which we intend to pursue if Proposal 3 and Proposal 4 are approved by our stockholders.

Nomination of Directors

General

We do not have a standing nominating committee. Unless otherwise provided by Maryland law, the board of directors is responsible for selecting its own nominees and recommending them for election by our stockholders, provided that the conflicts committee is responsible for selecting and nominating replacements for vacancies among our independent director positions. Unless filled by a vote of our stockholders as permitted by the Maryland General Corporation Law, a vacancy that results from the removal of a director will be filled by a vote of a majority of the remaining directors. Any vacancy on the board of directors for any other cause will be filled by a vote of a majority of the remaining directors, even if such majority vote is less than a quorum. The board of directors believes that the primary reason for creating a standing nominating committee is to ensure that candidates for independent director positions can be evaluated under a process free from conflicts of interest with us. Because nominations for vacancies in independent director positions are handled by a committee composed only of independent directors, the board of directors has determined that the creation of a standing nominating committee is not necessary. We do not have a charter that governs the director nomination process.

Board Membership Criteria

With respect to filling vacancies for independent director positions, the conflicts committee reviews the appropriate experience, skills and characteristics required of directors in the context of the then-current membership of the board of directors. The full board of directors annually conducts a similar review with respect to all director nominations. This assessment includes, in the context of the perceived needs of the board of directors at that time, issues of knowledge, experience, judgment and skills, such as an understanding of the real estate and real estate finance industries or accounting or financial management expertise. The board of directors seeks to nominate directors with diverse backgrounds, experiences

and skill sets that complement each other so as to maximize the collective knowledge, experience, judgment and skills of the entire board of directors. The board of directors assesses its effectiveness in achieving this goal annually, in part, by reviewing the diversity of the skill sets of the directors and determining whether there are any deficiencies in the board of directors' collective skill set that should be addressed in the nominating process. The board of directors made such an assessment in connection with director nominations for the annual meeting of stockholders and determined that the composition of the current board of directors satisfies its diversity objectives.

Other considerations in director nominations include the candidate's independence from conflict with us and the ability of the candidate to attend board meetings regularly and to devote an appropriate amount of time in preparation for those meetings. It also is expected that independent directors nominated by the conflicts committee will be individuals who possess a reputation and hold positions or affiliations befitting a director of a large publicly held company and who are actively engaged in their occupations or professions or are otherwise regularly involved in the business, professional or academic community. Moreover, as required by our charter, at least one of our independent directors must have at least three years of relevant real estate experience, and each director who is not an independent director must have at least three years of relevant experience demonstrating the knowledge and experience required to successfully acquire, manage and dispose of the types of assets we acquire and manage.

Selection of Directors

Unless otherwise provided by Maryland law, the board of directors is responsible for selecting its own nominees and recommending them for election by our stockholders, provided that the conflicts committee must nominate replacements for any vacancies among the independent director positions. All director nominees stand for election by our stockholders annually.

In nominating candidates for the board of directors, the board of directors (or the conflicts committee, as appropriate) solicits candidate recommendations from its own members and the management of KBS Capital Advisors. The board of directors and the conflicts committee may also engage the services of a search firm to assist in identifying potential director nominees.

The board of directors and the conflicts committee will consider recommendations made by stockholders for director nominees who meet the established director criteria set forth above. In order to be considered for nomination, recommendations made by stockholders must be submitted within the timeframe required to request a proposal to be included in the proxy materials. See "Stockholder Proposals" below. In evaluating the persons recommended as potential directors, the board of directors (or the conflicts committee, as appropriate) will consider each candidate without regard to the source of the recommendation and take into account those factors that they determine are relevant. Stockholders may directly nominate potential directors (without the recommendation of the board of directors or conflicts committee) by satisfying the procedural requirements for such nomination as provided in Article II, Section 2.12 of our bylaws. Any stockholder may request a copy of our bylaws free of charge by calling 866-527-4264.

Stockholder Communications with the Board of Directors

We have established a procedure for stockholders to communicate comments and concerns to the board of directors. Stockholders may contact the board of directors at the following address:

Board of Directors of KBS Real Estate Investment Trust III, Inc.
800 Newport Center Drive, Suite 700
Newport Beach, California 92660

Stockholders should report any complaints or concerns regarding (1) suspected violations or concerns as to compliance with laws, regulations, our Code of Conduct and Ethics or other suspected wrongdoings affecting us or our properties or assets, or (2) any complaints or concerns regarding our accounting, internal accounting controls, auditing matters, or any concerns regarding any questionable accounting or auditing matters affecting us. Stockholders should report any such suspected violations or other complaints or concerns by any of the following means:

- Via the Internet at <http://kbsreitiii.ethicspoint.com>;
- By calling the toll free Ethics Hotline at 1-888-329-6414; or
- By mailing a description of the suspected violation or concern to:

Audit Committee Chair
c/o KBS Real Estate Investment Trust III, Inc.
800 Newport Center Drive, Suite 700
Newport Beach, CA 92660

Reports made via the Ethics Hotline will be sent to our compliance officer, currently our advisor's Chief Audit Executive, and the audit committee chair, provided that no person named in the report will receive the report directly.

Stockholders can also communicate directly with the Chairman of the Board at the annual meeting. Although we do not have a policy regarding the attendance of directors at annual meetings of stockholders, we expect that the Chairman of the Board will be present at all such meetings. One of our directors, the Chairman of the Board, was present at the 2018 annual meeting of stockholders.

Executive Officers and Directors

We have provided below certain information about our executive officers and directors. All of our directors have terms expiring on the date of the annual meeting of stockholders and are being nominated for re-election to serve until the next annual meeting of stockholders and until his successor is elected and qualified. We have nominated four directors for election at the annual meeting. Our charter provides that the number of directors on the board of directors is five. On April 25, 2019, Peter M. Bren, our then President and one of our affiliated directors, as well as one of the indirect owners of KBS Holdings LLC, our sponsor and the parent entity of our advisor, passed away. We have nominated fewer director candidates for election at the annual meeting than the number provided in our charter while the board of directors considers whether to fill the vacant position or reduce the size of the board. Stockholders may not vote for a greater number of persons than the number of nominees named.

Name and Address ⁽¹⁾	Position(s)	Age ⁽²⁾	Year First Became a Director
Charles J. Schreiber, Jr.	Chairman of the Board, Chief Executive Officer, President and Director	68	2009
Jeffrey K. Waldvogel	Chief Financial Officer, Treasurer and Secretary	42	N/A
Stacie K. Yamane	Chief Accounting Officer and Assistant Secretary	55	N/A
Jeffrey A. Dritley	Independent Director	63	2017
Stuart A. Gabriel, Ph.D.	Independent Director	65	2010
Ron D. Sturzenegger	Independent Director	59	2019

⁽¹⁾ The address of each named executive officer and director is 800 Newport Center Drive, Suite 700, Newport Beach, California 92660.

⁽²⁾ As of November 1, 2019.

Charles J. Schreiber, Jr. is our Chairman of the Board, our Chief Executive Officer and one of our directors, positions he has held since January 2010, January 2010 and December 2009, respectively. In August 2019, he was also elected as our President. He is also the Chief Executive Officer of our advisor and Chairman of the Board, Chief Executive Officer and a director of KBS Growth & Income REIT, positions he has held for these entities since October 2004 and January 2015, respectively. Mr. Schreiber is Chairman of the Board, Chief Executive Officer and a director of KBS REIT II, positions he has held since August 2007, August 2007 and July 2007, respectively. In August 2019, Mr. Schreiber was also elected President of KBS Growth & Income REIT and KBS REIT II. Mr. Schreiber was Chairman of the Board, Chief Executive Officer and a director of KBS REIT I from June 2005 until its liquidation in December 2018. Other than de minimis amounts owned by family members or family trusts, Mr. Schreiber indirectly owns and controls a 33 1/3% interest in KBS Holdings LLC, which is the sole owner of our advisor and our dealer manager. In addition, Mr. Schreiber controls the voting rights with respect to the 33 1/3% interest of KBS Holdings LLC held indirectly by the estate of Peter M. Bren (together with other family members). KBS Holdings LLC is a sponsor of our company and is or was a sponsor of KBS REIT I, KBS REIT II, Pacific Oak Strategic Opportunity REIT, KBS Legacy Partners Apartment REIT, Pacific Oak Strategic Opportunity REIT II and KBS Growth & Income REIT, which were formed in 2009, 2005, 2007, 2008, 2009, 2013 and 2015, respectively.

Mr. Schreiber is the Chief Executive Officer of KBS Realty Advisors and is a principal of Koll Bren Schreiber Realty Advisors, Inc., each an active and nationally recognized real estate investment advisor. These entities are registered as investment advisers with the SEC. Messrs. Bren and Schreiber were the founding partners of the KBS-affiliated investment advisors. The first investment advisor affiliated with Messrs. Bren and Schreiber was formed in 1992. As of September 30, 2019, KBS Realty Advisors, together with KBS affiliates, including KBS Capital Advisors, had been involved in the investment in or management of approximately \$27.6 billion of real estate investments on behalf of institutional investors, including public and private pension plans, endowments and foundations, institutional and sovereign wealth funds, and the investors in us, KBS REIT I, KBS REIT II, Pacific Oak Strategic Opportunity REIT (advisory agreement terminated October 31, 2019), KBS Legacy Partners Apartment REIT, Pacific Oak Strategic Opportunity REIT II (advisory agreement terminated October 31, 2019) and KBS Growth & Income REIT. Through October 31, 2019, our advisor also served as the U.S. asset manager for Keppel Pacific Oak US REIT, and KBS Realty Advisors serves as the U.S. asset manager for Prime US REIT, both Singapore real estate investment trusts.

Mr. Schreiber oversees all aspects of KBS Capital Advisors' and KBS Realty Advisors' operations, including the acquisition, management and disposition of individual investments and portfolios of investments for KBS-sponsored programs and KBS-advised investors. He also directs all facets of KBS Capital Advisors' and KBS Realty Advisors' business activities and is responsible for investor relationships.

In addition, since July 2018, Mr. Schreiber has served as Chairman of the Board and a director for KBS US Prime Property Management Pte. Ltd., which is the external manager of Prime US REIT, a Singapore real estate investment trust that is listed on the Singapore Stock Exchange. Mr. Schreiber holds an indirect ownership interest in KBS US Prime Property Management Pte. Ltd. and KBS Asia Partners Pte. Ltd., which is the sponsor of Prime US REIT.

Mr. Schreiber has been involved in real estate development, management, acquisition, disposition and financing for more than 40 years and with the acquisition, origination, management, disposition and financing of real estate-related debt investments for more than 30 years. Prior to forming the first KBS-affiliated investment advisor in 1992, he served as the Executive Vice President of Koll Investment Management Services and Executive Vice President of Acquisitions/Dispositions for The Koll Company. During the mid-1970s through the 1980s, he was Founder and President of Pacific Development Company and was previously Senior Vice President/Southern California Regional Manager of Ashwill-Burke Commercial Brokerage.

Mr. Schreiber graduated from the University of Southern California with a Bachelor's Degree in Finance with an emphasis in Real Estate. During his four years at USC, he did graduate work in the then newly formed Real Estate Department in the USC Graduate School of Business. He is currently an Executive Board Member for the USC Lusk Center for Real Estate at the University of Southern California Marshall School of Business/School of Policy, Planning and Development and serves as a member of the Executive Committee for the Public Non-Listed REIT Council for the National Association of Real Estate Investment Trusts. He is also a member of the National Council of Real Estate Investment Fiduciaries. Mr. Schreiber has served as a member of the board of directors and executive committee of The Irvine Company since August 2016, and since December 2016, Mr. Schreiber has served on the Board of Trustees of The Irvine Company.

The board of directors has concluded that Mr. Schreiber is qualified to serve as a director, Chairman of the Board and as our Chief Executive Officer and President for reasons including his extensive industry and leadership experience. With more than 40 years of experience in real estate development, management, acquisition and disposition and more than 30 years of experience with the acquisition, origination, management, disposition and financing of real estate-related debt investments, he has the depth and breadth of experience to implement our business strategy. He gained his understanding of the real estate and real estate-finance markets through hands-on experience with acquisitions, asset and portfolio management, asset repositioning and dispositions. As our Chief Executive Officer and a principal of our advisor, Mr. Schreiber is best-positioned to provide the board of directors with insights and perspectives on the execution of our business strategy, our operations and other internal matters. Further, as a principal of KBS-affiliated investment advisors, as Chief Executive Officer, President, Chairman of the Board and a director of KBS REIT II and KBS Growth & Income REIT, as a director and trustee of The Irvine Company, as Chairman of the Board and a director of KBS US Prime Property Management Pte. Ltd. and as former Chief Executive Officer, Chairman of the Board and a director of KBS REIT I, Mr. Schreiber brings to the board of directors demonstrated management and leadership ability.

Jeffrey K. Waldvogel is our Chief Financial Officer, a position he has held since June 2015. In July 2018, he was also elected our Treasurer and Secretary. He is also the Chief Financial Officer of our advisor and KBS REIT II, positions he has held for each of these entities since June 2015. In August 2018, Mr. Waldvogel was elected the Treasurer and Secretary of KBS REIT II. He is also the Chief Financial Officer, Treasurer and Secretary of KBS Growth & Income REIT, positions he has held since June 2015, April 2017 and April 2017, respectively. From June 2015 until November 2019, he also served as the Chief Financial Officer, Treasurer and Secretary of Pacific Oak Strategic Opportunity REIT and Pacific Oak Strategic Opportunity REIT II. He was Chief Financial Officer of KBS REIT I and KBS Legacy Partners Apartment REIT from June 2015 until their respective liquidations in December 2018.

Mr. Waldvogel has been employed by an affiliate of our advisor since November 2010. With respect to the KBS-sponsored REITs advised by our advisor, he served as the Director of Finance and Reporting from July 2012 to June 2015 and as the VP Controller Technical Accounting from November 2010 to July 2012. In these roles Mr. Waldvogel was responsible for overseeing internal and external financial reporting, valuation analysis, financial analysis, REIT compliance, debt compliance and reporting, and technical accounting.

Prior to joining an affiliate of our advisor in 2010, Mr. Waldvogel was an audit senior manager at Ernst & Young LLP. During his eight years at Ernst & Young LLP, where he worked from October 2002 to October 2010, Mr. Waldvogel performed or supervised various auditing engagements, including the audit of financial statements presented in accordance with GAAP, as well as financial statements prepared on a tax basis. These auditing engagements were for clients in a variety of industries, with a significant focus on clients in the real estate industry.

In April 2002, Mr. Waldvogel received a Master of Accountancy Degree and Bachelor of Science from Brigham Young University in Provo, Utah. Mr. Waldvogel is a Certified Public Accountant (California).

Stacie K. Yamane is our Chief Accounting Officer, a position she has held since January 2010. In July 2018, she was also elected our Assistant Secretary. Ms. Yamane is also the Chief Accounting Officer, Portfolio Accounting of our

advisor and Chief Accounting Officer of KBS REIT II and KBS Growth & Income REIT, positions she has held for these entities since October 2008, October 2008 and January 2015, respectively. From August 2009 until November 2019 and from February 2013 until November 2019, she served as Chief Accounting Officer of Pacific Oak Strategic Opportunity REIT and Pacific Oak Strategic Opportunity REIT II, respectively. From August 2009 until its liquidation in December 2018, she served as Chief Accounting Officer of KBS Legacy Partners Apartment REIT; from October 2008 until its liquidation in December 2018, she served as Chief Accounting Officer of KBS REIT I. From July 2007 to December 2008, Ms. Yamane served as the Chief Financial Officer of KBS REIT II and from July 2007 to October 2008 she served as Controller of KBS REIT II; from October 2004 to October 2008, Ms. Yamane served as Fund Controller of our advisor; from June 2005 to December 2008, she served as Chief Financial Officer of KBS REIT I and from June 2005 to October 2008 she served as Controller of KBS REIT I.

Ms. Yamane also serves as Senior Vice President/Controller, Portfolio Accounting for KBS Realty Advisors LLC, a position she has held since 2004. She served as a Vice President/Portfolio Accounting with KBS-affiliated investment advisors from 1995 to 2004. At KBS Realty Advisors, from 2004 through 2015, Ms. Yamane was responsible for client accounting/reporting for two real estate portfolios. These portfolios consisted of industrial, office and retail properties as well as land parcels. Ms. Yamane worked closely with portfolio managers, asset managers, property managers and clients to ensure the completion of timely and accurate accounting, budgeting and financial reporting. In addition, she assisted in the supervision and management of KBS Realty Advisors' accounting department.

Prior to joining an affiliate of KBS Realty Advisors in 1995, Ms. Yamane was an audit manager at Kenneth Leventhal & Company, a CPA firm specializing in real estate. During her eight years at Kenneth Leventhal & Company, Ms. Yamane performed or supervised a variety of auditing, accounting and consulting engagements including the audit of financial statements presented in accordance with GAAP, as well as financial statements presented on a cash and tax basis, the valuation of asset portfolios and the review and analysis of internal control systems. Her experiences with various KBS-affiliated entities and Kenneth Leventhal & Company give her almost 30 years of real estate experience.

Ms. Yamane received a Bachelor of Arts Degree in Business Administration with a dual concentration in Accounting and Management Information Systems from California State University, Fullerton. She is a Certified Public Accountant (inactive California).

Jeffrey A. Dritley is one of our independent directors and is chair of the conflicts committee, positions he has held since October 2017 and July 2019, respectively. He is also an independent director and chair of the conflicts committee of KBS REIT II, positions he has held since October 2017 and July 2019, respectively. Mr. Dritley is Founder and Managing Partner of Kearny Real Estate Company. Kearny, headquartered in Los Angeles, is a partnership of experienced real estate professionals active in the acquisition, entitlement, repositioning, development, leasing, management and disposition of large, complex commercial projects in Southern California. Since 1993, Kearny has been involved in approximately \$4.4 billion of projects including the acquisition and work-out of approximately \$2.3 billion of distressed real estate debt.

From 1993 to 2001, Mr. Dritley served as a Managing Director of Morgan Stanley, where he was responsible for the Morgan Stanley Real Estate Fund's ("MSREF") West Coast operations and was a member of the global investment committee. During his tenure, MSREF was involved in over \$3 billion of transactions, including significant acquisitions, refinancings and work-outs. From 1986 to 1993, Mr. Dritley was employed by The Koll Company, a major real estate development company in the western United States. From 1979 to 1984, Mr. Dritley was employed by Peat, Marwick, Mitchell in Kansas City and New York City.

Mr. Dritley has 30 years of experience in the real estate industry. His experience has ranged from the acquisition, entitlement, development and redevelopment of over 14 million square feet of properties in Southern California, to creating and managing an organization with over 100 employees in the United States, Europe and Asia focused on buying and restructuring non-performing loans.

From 2009 to 2016 Mr. Dritley served as a director, chairman of the compensation committee and member of the investment committee of Bixby Land Company, a private REIT with assets exceeding \$1 billion, and from 2008 to 2016, he served as a Senior Advisor to Trigate Property Partners, a real estate private equity firm that manages a partnership with CalSTRS. He also has been active in several professional organizations, including the Los Angeles County Economic Development Corporation, for which he served on the Executive Committee, the Urban Land Institute and the Los Angeles Chapter of NAIOP, of which he is a past president. His community involvement included serving on the board of the Neighborhood Youth Association in Venice, California and volunteering his time for youth sports and Boy Scouts. Mr. Dritley is a Certified Public Accountant and holds a Bachelor's Degree in Business Administration from the University of Missouri and an MBA from Harvard Business School.

The board of directors has concluded that Mr. Dritley is qualified to serve as an independent director for reasons including his expertise in real estate acquisition, restructuring and disposition. His over 30 years of experience in the real

estate industry gives him significant experience that will be of great benefit to our company and make him well-positioned to advise the board of directors with respect to potential investment, restructuring and disposition opportunities. As Founder and Managing Partner of Kearny Real Estate Company, Mr. Dritley has encountered the myriad of practical, operational and other challenges that face large real estate companies like ours. Further, in the course of serving on the board of directors of Bixby Land Company and as a Senior Advisor to Trigate Property Partners, Mr. Dritley has developed strong leadership and consensus building skills that are a valuable asset to the board of directors. In addition, as a Certified Public Accountant, he possesses valuable expertise in evaluating the financial and operational results of companies such as ours.

Stuart A. Gabriel, Ph.D. is one of our independent directors and is chair of the audit committee, positions he has held since September 2010 and August 2018, respectively. Professor Gabriel is also an independent director and is chair of the audit committee of KBS REIT II, positions he has held since March 2008 and August 2018, respectively. Professor Gabriel was an independent director of KBS REIT I from June 2005 until its liquidation in December 2018. Since June 2007, Professor Gabriel has served as Director of the Richard S. Ziman Center for Real Estate and Professor of Finance and Arden Realty Chair at the UCLA Anderson School of Management. Prior to joining UCLA he was Director and Lusk Chair in Real Estate at the USC Lusk Center for Real Estate, a position he held from 1999 to 2007. Professor Gabriel also served as Professor of Finance and Business Economics in the Marshall School of Business at the University of Southern California, a position he held from 1990 to 2007. He received a number of awards at UCLA and USC for outstanding graduate teaching. In 2004, he was elected President of the American Real Estate and Urban Economics Association. Professor Gabriel serves on the editorial boards of seven academic journals. He is also a Fellow of the Homer Hoyt Institute for Advanced Real Estate Studies. Since March 2016, Professor Gabriel has served on the board of directors of KB Home and is a member of its audit committee. Professor Gabriel has published extensively on the topics of real estate finance and urban and regional economics. His teaching and academic research experience include analysis of real estate and real estate capital markets performance as well as structured finance products, including credit default swaps, commercial mortgage-backed securities and collateralized debt obligations. Professor Gabriel serves as a consultant to numerous corporate and governmental entities. From 1986 through 1990, Professor Gabriel served on the economics staff of the Federal Reserve Board in Washington, D.C. He also has been a Visiting Scholar at the Federal Reserve Bank of San Francisco. Professor Gabriel holds a Ph.D. in Economics from the University of California, Berkeley.

The board of directors has concluded that Professor Gabriel is qualified to serve as an independent director for reasons including his extensive knowledge and understanding of the real estate and finance markets and real estate finance products. As a professor of real estate finance and economics, Professor Gabriel brings unique perspective to the board of directors. His years of research and analysis of the real estate and finance markets make Professor Gabriel well-positioned to advise us with respect to our investment and financing strategy. This expertise also makes him an invaluable resource for assessing and managing risks facing our company. Through his experience as a director of KBS REIT II and KB Home and as a former director of KBS REIT I, he also has an understanding of the requirements of serving on a public company board.

Ron D. Sturzenegger is one of our independent directors, a position he has held since August 2019. On September 3, 2019, Mr. Sturzenegger was also appointed as an independent director of KBS REIT II.

Mr. Sturzenegger has over 30 years of experience in the real estate industry through his career at major financial institutions. From July 2014 to January 2018, Mr. Sturzenegger was Enterprise Business & Community Engagement Executive at Bank of America, responsible for leading Bank of America's strategy to integrate the delivery of its products and services to customers and clients in 90 key U.S. markets. In his role overseeing Enterprise Business & Community Engagement, he was responsible for driving global integration opportunities across the enterprise. In addition, Mr. Sturzenegger led Bank of America's strategy through which leaders representing all the company's various businesses in a given market or community worked together to integrate the delivery of products and services for customers and clients, including the oversight of the Market Presidents Organization.

From August 2011 to April 2015, Mr. Sturzenegger was on the Management Committee of Bank of America and Legacy Asset Servicing (LAS) Executive at Bank of America, whose responsibilities included resolving legacy mortgage issues following Bank of America's acquisition of Countrywide Financial and Merrill Lynch during the financial crisis and the downturn in the U.S. housing markets, the management of the servicing of current, delinquent and at-risk loans, and the development and implementation of operational capabilities and processes to address regulators' concerns regarding robo-signing.

From January 2009 to August 2011, Mr. Sturzenegger served as Managing Director and Global Head of Real Estate, Gaming and Lodging Investment Banking at Bank of America Merrill Lynch, and from January 2002 to December 2008, Mr. Sturzenegger served as Managing Director and Global Head of Real Estate, Gaming and Lodging Investment Banking for Bank of America Securities. From July 1998 to December 2001, he served as Head of Real Estate Mergers and Acquisitions at Bank of America Securities. From July 1986 to June 1998, Mr. Sturzenegger served in various roles at Morgan Stanley in Real Estate Investment Banking. From 1982 to 1984, Mr. Sturzenegger was a Financial Analyst with Bain & Company.

Mr. Sturzenegger serves on the Executive Committee for the policy advisory board for the Fisher Center for Real Estate & Urban Economics. He is a member of the advisory board of the Stanford Professionals in Real Estate. Mr. Sturzenegger and his wife previously served as Chairs of the Parents' Advisory Board for Stanford University. Mr. Sturzenegger holds a Bachelor of Science Degree in Industrial Engineering from Stanford University and an MBA from Harvard Business School.

The board of directors has concluded that Mr. Sturzenegger is qualified to serve as an independent director for reasons including his extensive real estate industry, investment banking and leadership experience. Mr. Sturzenegger's 30 years of experience in the real estate industry through his career at major financial institutions given him the depth and breadth of experience from which to draw in advising our company. Through his executive and management roles at Bank of America, Mr. Sturzenegger brings to the board demonstrated management and leadership ability.

Compensation of Executive Officers

Our executive officers do not receive compensation directly from us for services rendered to us. Our executive officers are officers and/or employees of, or hold an indirect ownership interest in, our advisor and/or its affiliates, and our executive officers are compensated by these entities, in part, for their services to us. See "—The Conflicts Committee — Certain Transactions with Related Persons" above for a discussion of the fees paid to our advisor and its affiliates.

Compensation of Directors

If a director is also one of our executive officers, we do not pay any compensation to that person for services rendered as a director. The amount and form of compensation payable to our independent directors for their service to us is determined by the conflicts committee, based upon recommendations from our advisor. One of our executive officers, Mr. Schreiber, manages and controls our advisor, and through our advisor, he is involved in recommending and setting the compensation to be paid to our independent directors.

In order to attract and retain qualified individuals to serve as independent directors and in conjunction with the search for an independent director candidate to fill a vacancy on our board of directors at the time, the conflicts committee engaged Pearl Meyer, an independent executive compensation consultant, to conduct a review and make recommendations to the conflicts committee relating to the committee's review of the compensation to be paid to independent directors. The conflicts committee instructed Pearl Meyer to identify a peer group of companies to determine how our independent director compensation compared to this group, to provide an analysis of the compensation paid to the independent directors of the peer group and paid to each of our independent directors and then to advise the conflicts committee with respect to such analysis. Pearl Meyer did not provide any additional services to us or the conflicts committee. Pearl Meyer was also engaged by the conflicts committee of an entity affiliated with us to provide the same analysis and advice with respect to the compensation of its independent directors. Based on consultation with and the study presented by Pearl Meyer and the recommendations contained therein, the conflicts committee's own review of the Pearl Meyer study and the recommendation of our advisor, the conflicts committee approved a revised compensation structure for our independent directors on October 31, 2017.

We have provided below certain information regarding compensation earned by or paid to our directors during fiscal year 2018.

Name	Fees Earned or Paid in Cash in 2018	All Other Compensation	Total
Barbara R. Cambon ⁽¹⁾	\$ 166,726	\$ -	\$ 166,726
Jeffrey A. Dritley	181,000	-	181,000
Stuart A. Gabriel, Ph.D.	191,000	-	191,000
Peter M. Bren ⁽²⁾⁽³⁾	-	-	-
Peter McMillan III ⁽²⁾⁽⁴⁾	-	-	-
Charles J. Schreiber, Jr. ⁽²⁾	-	-	-

⁽¹⁾ Ms. Cambon, who previously served as one of our independent directors, resigned from the board of directors effective as of June 26, 2019.

⁽²⁾ Directors who are also our executive officers do not receive compensation for services rendered as a director.

⁽³⁾ Mr. Bren was elected to the board of directors on July 27, 2018. On April 25, 2019, Mr. Bren passed away.

⁽⁴⁾ Mr. McMillan's term as a director ended on July 27, 2018.

Cash Compensation

We compensate each of our independent directors with an annual retainer of \$135,000 as well as paying compensation to our independent directors for attending meetings as follows:

- each member of the audit committee and conflicts committee is paid \$10,000 annually for service on such committees (except that the chair of each of the audit committee and conflicts committee is paid \$20,000 annually for service as the chair of such committees);
- after the tenth board of directors meeting of each calendar year, each independent director is paid (i) \$2,500 for each in-person board of directors meeting attended for the remainder of the calendar year and (ii) \$2,000 for each teleconference board of directors meeting attended for the remainder of the calendar year;
- after the tenth audit committee meeting of each calendar year, each member of the audit committee is paid (i) \$2,500 for each in-person audit committee meeting attended for the remainder of the calendar year and (ii) \$2,000 for each teleconference audit committee meeting attended for the remainder of the calendar year (except that the audit committee chair is paid \$3,000 for each in-person and teleconference audit committee meeting attended after the tenth audit committee meeting of each calendar year, for the remainder of each calendar year); and
- after the tenth conflicts committee meeting of each calendar year, each member of the conflicts committee is paid (i) \$2,500 for each in-person conflicts committee meeting attended for the remainder of the calendar year and (ii) \$2,000 for each teleconference conflicts committee meeting attended for the remainder of the calendar year (except that the conflicts committee chair is paid \$3,000 for each in-person and teleconference conflicts committee meeting attended after the tenth conflicts committee meeting of each calendar year, for the remainder of each calendar year).

All directors receive reimbursement of reasonable out-of-pocket expenses incurred in connection with attendance at board of directors meetings and committee meetings.

STOCK OWNERSHIP

The following table shows, as of January 8, 2020, the amount of our common stock beneficially owned (unless otherwise indicated) by (1) any person who is known by us to be the beneficial owner of more than 5% of the outstanding shares of our common stock, (2) our directors, (3) our executive officers, and (4) all of our directors and executive officers as a group.

Name and Address of Beneficial Owner ⁽¹⁾	Amount and Nature of Beneficial Ownership (2)	Percentage of all Outstanding Shares
Jeffrey A. Dritley, Independent Director	-	-
Stuart A. Gabriel, Ph.D., Independent Director	-	-
Charles J. Schreiber, Jr., Chairman of the Board, Chief Executive Officer, President and Director	20,857 ⁽³⁾	*
Ron D. Sturzenegger, Independent Director	-	-
Jeffrey K. Waldvogel, Chief Financial Officer, Treasurer and Secretary	-	-
Stacie K. Yamane, Chief Accounting Officer and Assistant Secretary	-	-
All executive officers and directors as a group	20,857 ⁽³⁾	*

* Less than 1% of the outstanding common stock.

⁽¹⁾ The address of each named beneficial owner is 800 Newport Center Drive, Suite 700, Newport Beach, California 92660.

⁽²⁾ None of the shares is pledged as security.

⁽³⁾ These 20,857 shares are owned by KBS Capital Advisors, which is indirectly controlled by Charles J. Schreiber, Jr.

PROPOSAL 1. ELECTION OF DIRECTORS

At the annual meeting, you and the other stockholders will vote on the election of four members of the board of directors. Those persons elected will serve as directors until the next annual meeting and until their successors are duly elected and qualified. The board of directors has nominated the following people for re-election as directors:

- Charles J. Schreiber, Jr.
- Jeffrey A. Dritley
- Stuart A. Gabriel, Ph.D.
- Ron D. Sturzenegger

Each of the nominees for director is a current director. Detailed information on each nominee is provided under “Certain Information About Management — Executive Officers and Directors.”

We have nominated four directors for election at the annual meeting. Our charter provides that the number of directors on the board of directors is five. On April 25, 2019, Peter M. Bren, our then President and one of our affiliated directors, as well as one of the indirect owners of KBS Holdings LLC, our sponsor and the parent entity of our advisor, passed away. We have nominated fewer director candidates for election at the annual meeting than the number provided in our charter while the board of directors considers whether to fill the vacant position or reduce the size of the board. Stockholders may not vote for a greater number of persons than the number of nominees named.

Vote Required

Under our charter, a majority of the shares present in person or by proxy at an annual meeting at which a quorum is present is required for the election of the directors. This means that, of the shares entitled to vote and present in person or by proxy at an annual meeting, a director nominee needs to receive affirmative votes from a majority of such shares in order to be elected to the board of directors. Because of this majority vote requirement, **“withhold” votes and broker non-votes will have the effect of a vote against each nominee for director.** If an incumbent director nominee fails to receive the required number of votes for re-election, then under Maryland law, he or she will continue to serve as a “holdover” director until his or her successor is duly elected and qualified.

The appointed proxies will vote your shares of common stock as you instruct. If you submit a proxy card with no further instructions, the appointed proxies will vote your shares FOR all of the director nominees listed above. If any nominee becomes unable or unwilling to stand for re-election, the board of directors may reduce its size or designate a substitute. If a substitute is designated, proxies voting on the original nominee will be cast for the substituted nominee.

Whether or not you plan to attend the annual meeting and vote in person, we urge you to have your vote recorded. Stockholders have the following three options for submitting their votes by proxy: (i) via the Internet, (ii) by telephone or (iii) by mail, using the enclosed proxy card. YOUR VOTE IS VERY IMPORTANT! Your immediate response will help avoid potential delays and may save us significant additional expenses associated with soliciting stockholder votes.

Recommendation

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” ALL NOMINEES LISTED FOR RE-ELECTION AS DIRECTORS.

PROPOSAL 2. RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

At the annual meeting, you and the other stockholders will vote on the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019.

During the year ended December 31, 2018, Ernst & Young LLP served as our independent registered public accounting firm and provided certain tax and other services. Ernst & Young LLP has served as our independent registered public accounting firm since our formation. The audit committee has appointed Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019.

The audit committee is directly responsible for the appointment, compensation, retention and oversight of the work of the independent registered public accounting firm. In making its determination regarding whether to appoint or retain a particular independent registered public accounting firm, the audit committee takes into account the opinions of management and our internal auditors in assessing the independent registered public accounting firm's qualifications, performance and independence.

Although not required by law or our governance documents, we believe ratification of this appointment is good corporate practice because the audit of our books and records is a matter of importance to our stockholders. Even if the appointment of Ernst & Young LLP is ratified, the audit committee may, however, select a new independent registered public accounting firm at any time in the future in its discretion if it deems such decision to be in our best interest. Any such decision would be disclosed to our stockholders in accordance with applicable securities laws. If the appointment of Ernst & Young LLP is not ratified by our stockholders, the audit committee may consider whether it should appoint another independent registered public accounting firm.

We expect that Ernst & Young LLP representatives will be present at the annual meeting and they will have the opportunity to make a statement if they desire to do so. In addition, we expect that the Ernst & Young LLP representatives will be available to respond to appropriate questions posed by stockholders.

Vote Required

Under our bylaws, a majority of the votes cast at an annual meeting at which a quorum is present is required for the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019. Abstentions, if any, will not affect the outcome of this proposal. Your shares may be voted for this proposal if they are held in the name of a brokerage firm even if you do not provide the brokerage firm with voting instructions.

The appointed proxies will vote your shares of common stock as you instruct. If you submit a proxy card with no further instructions, the appointed proxies will vote your shares FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019.

Whether or not you plan to attend the annual meeting and vote in person, we urge you to have your vote recorded. Stockholders have the following three options for submitting their votes by proxy: (i) via the Internet, (ii) by telephone or (iii) by mail, using the enclosed proxy card. YOUR VOTE IS VERY IMPORTANT! Your immediate response will help avoid potential delays and may save us significant additional expenses associated with soliciting stockholder votes.

Recommendation

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR"
THE RATIFICATION OF THE APPOINTMENT OF ERNST & YOUNG LLP AS
OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE
YEAR ENDING DECEMBER 31, 2019.**

PROPOSAL 3. CHARTER AMENDMENT

Proposed Amendment

We are proposing the deletion of Section 5.11 of our charter, which provides as follows:

Section 5.11. Actions Required if Common Stock Not Listed. If by September 30, 2020 the shares of Common Stock are not Listed, then the board of directors must adopt a resolution that declares a proposed liquidation is advisable on substantially the terms and conditions set forth in the resolution and direct that the proposed liquidation be submitted for consideration at either an annual or special meeting of the stockholders; provided, however, that such board action may be postponed if the Conflicts Committee determines by a majority vote that a liquidation is not then in the best interest of the Corporation's stockholders. If such board action is so postponed, the Conflicts Committee shall revisit the issue of liquidation at least annually and further postponement of such board action would only be permitted if the Conflicts Committee again determined by a majority vote that a liquidation would not then be in the best interest of the Corporation's stockholders.

Discussion

Below, we provide a discussion on the proposed charter amendment in a question and answer format. Note that this proposal will not take effect unless Proposal 4 (the proposal to approve the acceleration of the payment of incentive compensation to our advisor) is also approved.

What does Section 5.11 of our charter mean?

If we do not list our shares of common stock on a national securities exchange by September 30, 2020, Section 5.11 of our charter requires that we either:

- seek stockholder approval of the liquidation of the company; or
- if a majority of the conflicts committee determines that liquidation is not then in the best interests of our stockholders, postpone the decision of whether to liquidate the company.

If a majority of the conflicts committee does determine that liquidation is not then in the best interests of our stockholders, our charter requires that the conflicts committee revisit the issue of liquidation at least annually. Further postponement of listing or stockholder action regarding liquidation would only be permitted if a majority of the conflicts committee again determined that liquidation would not be in the best interest of our stockholders. If we sought and failed to obtain stockholder approval of a liquidation, our charter would not require us to list or liquidate and would not require the conflicts committee to revisit the issue of liquidation, and we could continue to operate as before. If we sought and obtained stockholder approval of a liquidation, we would begin an orderly sale of our assets. The precise timing of such sales would take account of the prevailing real estate finance markets and the debt markets generally as well as the federal income tax consequences to our stockholders. In making the decision whether to apply for listing of our shares, our directors would try to determine whether listing our shares, liquidating our assets or some other course of action would result in greater value for stockholders.

One of the factors our board of directors would consider when making this determination is the liquidity needs of our stockholders. In assessing whether to list, liquidate or take some other course of action, our board of directors would likely solicit input from financial advisors as to the likely demand for our shares upon listing. If the board believed that, after listing, it would be difficult for stockholders to dispose of their shares, then that factor would weigh against listing. However, this would not be the only factor considered by the board. If listing still appeared to be in the best long-term interest of our stockholders, despite the prospects of a relatively thin market for our shares upon the initial listing, the board could still opt to list our shares of common stock. The board would also likely consider whether there was a large demand to sell our shares when making decisions regarding listing or liquidation. The degree of participation in our dividend reinvestment plan and the number of requests for redemptions under the share redemption program at the time could be an indicator of stockholder demand to liquidate their investment.

What is the conflicts committee?

In order to reduce or eliminate certain potential conflicts of interest, our charter creates a conflicts committee of our board of directors consisting solely of all of our independent directors, that is, all of our directors who are not affiliated with KBS Capital Advisors LLC, our external advisor. Our charter authorizes the conflicts committee to act on any matter permitted under Maryland law. Both the board of directors and the conflicts committee must act upon those conflict-of-interest matters that cannot be delegated to a committee under Maryland law. Our charter also empowers the conflicts committee to retain its own legal and financial advisors.

Does Section 5.11 of our charter prevent other possible liquidity events, such as a sale of the company or a merger?

No. Even with Section 5.11 in our charter, our board could pursue (a) a sale, merger or other transaction in which our stockholders either receive, or have the option to receive, cash, securities redeemable for cash and/or securities of another company or (b) the sale of all or substantially all of our assets where our stockholders either receive, or have the option to receive, cash or other consideration.

Does Section 5.11 of our charter require a listing or liquidation by September 30, 2020?

No. If we do not list our shares of common stock on a national securities exchange by September 30, 2020, the conflicts committee could postpone the decision of whether to liquidate the company indefinitely, by determining on an annual basis that liquidation is not then in the best interests of our stockholders. Alternatively, if we sought and failed to obtain stockholder approval of our liquidation pursuant to Section 5.11 of our charter, our charter would not require us to list or liquidate and would not require the conflicts committee to revisit the issue of liquidation, and we could continue to operate as before. Thus, Section 5.11 of our charter does not require a listing or liquidation by September 30, 2020 or at any time at all.

Why is the board proposing to remove Section 5.11 of our charter?

Our board of directors and management team regularly monitor the real estate and equity markets in order to find the best opportunities possible to continue to provide attractive and stable cash distributions to our stockholders and to provide additional liquidity for our stockholders. We currently believe the best opportunity for us to achieve these objectives is to pursue a strategy as a non-listed, perpetual-life “NAV REIT” that offers and sells new shares of our common stock continuously through a number of distribution channels in ongoing public offerings, and seeks to provide increased liquidity to current and future stockholders through an expansion of our current share redemption program and/or periodic self-tender offers. We have seen significant appreciation in the portfolio to date and we believe there are still many opportunities in the marketplace to achieve strong stockholder returns through a combination of providing strong cash distributions and timing asset sales to maximize values. See “Proposed NAV REIT Conversion” for more information.

We believe that the continued inclusion of Section 5.11 in our charter may create confusion for existing and new investors if we are pursuing a perpetual-life company strategy. We believe that its continued inclusion may create doubts as to our long-term commitment to the perpetual-life strategy. In addition, complying with Section 5.11 is likely to create an annual burden on the time and focus of our board of directors and conflicts committee and may create significant additional expenses, in particular if the board of directors or conflicts committee solicits input from advisors regarding the charter determination required by Section 5.11. For these reasons, our board of directors believes we are more likely to succeed with a perpetual-life strategy if we remove Section 5.11 from the charter. This proposal will not take effect unless the proposal to approve the acceleration of the payment of incentive compensation to our advisor is also approved.

Does elimination of Section 5.11 and pursuit of a perpetual-life NAV REIT strategy mean you will never consider other strategies to create value for stockholders, or sources of stockholder liquidity other than the share redemption program and/or periodic self-tender offers?

No. With or without Section 5.11 of the charter, our board of directors regularly considers our various strategic alternatives and accordingly would expect to consider changing strategies if it concludes that it is in the best interests of our stockholders to do so. These strategic alternatives can consist of any number of options including a public listing of our shares on a national stock exchange, selling assets individually, and /or selling the entire portfolio in a single transaction. The precise terms of our perpetual-life NAV REIT strategy are still under consideration by our board of directors and are subject to change. We are under no obligation to pursue a perpetual-life strategy at all if our board of directors determines another strategy is preferable. Regardless of the success of our pursuit of a perpetual-life NAV REIT strategy, we may pursue various liquidity strategies in the future beyond the share redemption program and/or periodic self-tender offers, including but not limited to a listing of our shares on a national securities exchange, a sale of the company or a liquidation. However, we currently contemplate providing liquidity only through the share redemption program and/or periodic self-tender offers if we successfully convert to a perpetual-life NAV REIT.

The removal of Section 5.11 of the charter would not change the willingness of our board of directors to consider a change in strategy when and if appropriate. It would simply remove a formal, annual consideration by the conflicts committee as to whether liquidation is in the best interests of our stockholders.

If the stockholders vote against either Proposal 3 (the removal of Section 5.11 from the charter) or Proposal 4 (the acceleration of the payment of incentive compensation to the advisor), will the company still pursue a perpetual-life NAV REIT strategy?

Removal of Section 5.11 from the charter is not required in order for the company to pursue a perpetual-life NAV REIT strategy. However, we believe we are more likely to succeed with the strategy if we remove Section 5.11 of the charter. Similarly, stockholder approval of acceleration of the payment of incentive compensation to our advisor is not

required in order for the company to pursue a perpetual-life NAV REIT strategy. However, we believe the change is appropriate in connection with the pursuit of a perpetual-life NAV REIT strategy. For this reason, neither Proposal 3 nor Proposal 4 will take effect unless both are approved by our stockholders. If our stockholders vote against either Proposal 3 or Proposal 4, our board of directors will meet to determine whether to continue with a perpetual-life NAV REIT strategy or what other reasonably available alternatives to pursue in the best interest of the company and our stockholders, including, without limitation, continuing to operate under the current business plan. As previously discussed, the Singapore Transaction has made additional capital available to us that we have and intend to continue to use to offer additional liquidity to our stockholders through our share redemption program and/or tender offers or through special distributions to stockholders after our stockholders have had an opportunity to vote on Proposals 3 and 4 at the annual meeting or any adjournment or postponement thereof.

Do any of our executive officers or directors have an interest in the outcome of this proposal?

Yes. All of our executive officers and our affiliated director are also officers, directors, managers, or key professionals of and/or holders of a direct or indirect controlling interest in our advisor, KBS Capital Markets Group LLC, who we intend to hire as our dealer manager for our future public offerings, and other affiliated KBS entities. Charles J. Schreiber, Jr. is the Chairman of our Board, our Chief Executive Officer, our President and our affiliated director. Our advisor is owned and controlled by KBS Holdings, our sponsor. Charles J. Schreiber, Jr. indirectly controls our sponsor and our advisor. Our advisor may receive significant compensation from the acceleration of the incentive fee and our advisor and its affiliates will receive the other revised fees and expense reimbursements we implement in connection with a conversion to an NAV REIT, which we intend to pursue if this proposal and Proposal 4 are approved by our stockholders. See “Terms of Proposed NAV REIT Conversion.” All of our executive officers have profit sharing arrangements in our advisor and therefore also have an interest in the outcome of this proposal.

Have the independent directors approved the pursuit of a perpetual-life NAV REIT strategy and the proposal to remove Section 5.11 of the charter?

The conflicts committee of our board of directors, which is composed of all our independent directors, has approved the pursuit of a perpetual-life NAV REIT, which includes submitting to stockholders for their approval the proposal to remove Section 5.11 of the charter and the proposal to accelerate the payment of incentive compensation to the advisor. However, implementation of the proposed charter amendment and the proposed acceleration of the payment of incentive compensation to the advisor remain subject to further approval of the conflicts committee, after the proposed amount of the accelerated payment of the incentive fee has been determined.

Implementation of Proposed Amendment

This proposal will not take effect unless Proposal 4 (the proposal to approve the acceleration of the payment of incentive compensation to our advisor) is also approved. If both this Proposal 3 and Proposal 4 are approved by our stockholders at the annual meeting, the removal of Section 5.11 from our charter will be effected by our filing of the Articles of Amendment attached hereto as **Exhibit A** (the “Articles of Amendment”) with the State Department of Assessment and Taxation of the State of Maryland (the “SDAT”), and will become effective upon filing and acceptance for record by the SDAT. However, implementation of Proposal 3 and Proposal 4 both remain subject to further approval of the conflicts committee, after the proposed amount of the accelerated payment of the incentive fee has been determined.

If approved, although we intend to file the Articles of Amendment and implement the Proposed NAV REIT Conversion substantially as described herein, our board of directors may delay the filing of the Articles of Amendment and the implementation of the Proposed NAV REIT Conversion until it deems appropriate to do so and may decide, in its sole discretion, not to go forward at all with the Articles of Amendment or the Proposed NAV REIT Conversion. Even if our board of directors files the Articles of Amendment as proposed and approved by our stockholders, the board of directors will still have the authority to change other aspects of the Proposed NAV REIT Conversion. Such changes may be deemed appropriate for a variety of reasons, including but not limited to regulatory, capital-raising or business considerations, all of which can change over time.

Vote Required

Approval of the proposed charter amendment requires the affirmative vote of the holders of at least a majority of our outstanding shares of common stock entitled to vote thereon. You may vote for or against or abstain on the proposal to amend our charter. Abstentions and broker non-votes will have the same effect as votes against the proposal to amend our charter. If you submit a proxy card with no further instructions, your shares will be voted FOR the proposal to amend our charter.

Appraisal Rights

Under Maryland law and our charter, you will not be entitled to rights of appraisal with respect to the proposed amendment to our charter. Accordingly, to the extent that you object to the proposed amendment to our charter, you will not

have the right to have a court judicially determine (and you will not receive) the fair value for your shares of common stock under the provisions of Maryland law governing appraisal rights.

Whether or not you plan to attend the annual meeting and vote in person, we urge you to have your vote recorded. Stockholders have the following three options for submitting their votes by proxy: (i) via the Internet, (ii) by telephone or (iii) by mail, using the enclosed proxy card. YOUR VOTE IS VERY IMPORTANT! Your immediate response will help avoid potential delays and may save us significant additional expenses associated with soliciting stockholder votes.

Recommendation

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE PROPOSAL TO REMOVE SECTION 5.11 FROM OUR CHARTER.

PROXY

PROPOSAL 4. ACCELERATION OF INCENTIVE COMPENSATION

Proposal

In this Proposal 4, we are asking our stockholders to approve the acceleration of the payment of incentive compensation to KBS Capital Advisors LLC, our external advisor, upon our conversion to an NAV REIT, in the form of restricted shares of our common stock and on terms substantially consistent with those described under “Proposed NAV REIT Conversion—Proposed Acceleration of Payment of Current Incentive Fee.” **Please carefully review the entire “Proposed NAV REIT Conversion” section of this proxy statement for a detailed description of the terms and risks of the Proposed NAV REIT Conversion, including the acceleration of the payment of incentive compensation to our advisor.**

Discussion

Below, we provide a discussion on the proposed acceleration of the payment of incentive compensation to our advisor in a question and answer format. Note that this proposal will not take effect unless Proposal 3 (the proposed charter amendment) is also approved.

Why is the board recommending that stockholders approve the acceleration of the payment of incentive compensation to our advisor?

The triggering events for the incentive fee structure currently in effect with our advisor are generally expected to occur, if ever, upon a listing of our shares of stock on a national securities exchange or a significant distribution of cash in connection with a sale of all or a substantial amount of our assets. These triggering events are inconsistent with a perpetual-life NAV REIT that intends to provide liquidity to its stockholders through a share redemption program and/or periodic self-tender offers. Therefore, in order to properly align our advisor’s and its affiliates’ incentive fee compensation structure with our proposed perpetual-life strategy, we intend to revise the incentive fee structure. Commencing with the launch of our first public offering as a perpetual-life NAV REIT, we intend to implement an annual incentive fee formula that would require us to pay our advisor (or its affiliate) an incentive fee for any given year if certain performance thresholds were met for that year. With respect to our historical performance period from inception through the launch of our first public offering as a perpetual-life NAV REIT, we believe it is appropriate to accelerate the payment of the historical incentive fee so that it does not depend on the currently-existing triggering events. Because the acceleration of this fee is not something we intended to do when we launched our initial public offering, we believe it is appropriate to ask the stockholders for their approval of this acceleration. Therefore, we are asking our stockholders to approve the acceleration of the payment of incentive compensation to KBS Capital Advisors LLC, our external advisor, on terms substantially consistent with those described in “Proposed NAV REIT Conversion—Proposed Acceleration of Payment of Current Incentive Fee.” This proposal will not take effect unless the proposal to amend our charter is also approved.

If the stockholders vote against either Proposal 3 (the removal of Section 5.11 from the charter) or Proposal 4 (the acceleration of the payment of incentive compensation to the advisor), will the company still pursue a perpetual-life NAV REIT strategy?

Removal of Section 5.11 from the charter is not required in order for the company to pursue a perpetual-life NAV REIT strategy. However, we believe we are more likely to succeed with the strategy if we remove Section 5.11 of the charter. Similarly, stockholder approval of acceleration of the payment of incentive compensation to our advisor is not required in order for the company to pursue a perpetual-life NAV REIT strategy. However, we believe the change is appropriate in connection with the pursuit of a perpetual-life NAV REIT strategy. For this reason, neither Proposal 3 nor Proposal 4 will take effect unless both are approved by our stockholders. If our stockholders vote against either Proposal 3 or Proposal 4, our board of directors will meet to determine whether to continue with a perpetual-life NAV REIT strategy or what other reasonably available alternatives to pursue in the best interest of the company and our stockholders, including, without limitation, continuing to operate under the current business plan. As previously discussed, the Singapore Transaction has made additional capital available to us that we have and intend to continue to use to offer additional liquidity to our stockholders through our share redemption program and/or tender offers or through special distributions to stockholders after our stockholders have had an opportunity to vote on Proposals 3 and 4 at the annual meeting or any adjournment or postponement thereof.

Do any of our executive officers or directors have an interest in the outcome of this proposal?

Yes. All of our executive officers and our affiliated director are also officers, directors, managers, or key professionals of and/or holders of a direct or indirect controlling interest in our advisor, KBS Capital Markets Group LLC, who we intend to hire as our dealer manager for our future public offerings, and other affiliated KBS entities. Charles J. Schreiber, Jr. is the Chairman of our Board, our Chief Executive Officer, our President and our affiliated director. Our

advisor is owned and controlled by KBS Holdings, our sponsor. Charles J. Schreiber, Jr. indirectly controls our sponsor and our advisor. Our advisor may receive significant compensation from the acceleration of the incentive fee and our advisor and its affiliates will receive the other revised fees and expense reimbursements we implement in connection with a conversion to an NAV REIT, which we intend to pursue if this proposal and Proposal 3 are approved by our stockholders. See “Terms of Proposed NAV REIT Conversion.” All of our executive officers have profit sharing arrangements in our advisor and therefore also have an interest in the outcome of this proposal.

Have the independent directors approved the pursuit of a perpetual-life NAV REIT strategy and the proposal to accelerate the payment of incentive compensation to the advisor?

The conflicts committee of our board of directors, which is composed of all our independent directors, has approved the pursuit of a perpetual-life NAV REIT, which includes submitting to stockholders for their approval the proposal to remove Section 5.11 of the charter and the proposal to accelerate the payment of incentive compensation to the advisor. However, implementation of the proposed charter amendment and the proposed acceleration of the payment of incentive compensation to the advisor remain subject to further approval of the conflicts committee, after the proposed amount of the accelerated payment of the incentive fee has been determined.

Implementation of Proposed Acceleration of Incentive Compensation

This proposal will not take effect unless Proposal 3 (the proposal to amend our charter) is also approved. If both this Proposal 4 and Proposal 3 are approved by our stockholders at the annual meeting, we intend to implement the proposed acceleration of incentive compensation to the advisor in connection with our conversion to an NAV REIT. However, implementation of Proposal 3 and Proposal 4 both remain subject to further approval of the conflicts committee, after the proposed amount of the accelerated payment of the incentive fee has been determined.

If approved, although we intend to implement the Proposed NAV REIT Conversion substantially as described herein, our board of directors may delay the acceleration of incentive compensation to the advisor and the implementation of the Proposed NAV REIT Conversion until it deems appropriate to do so and may decide, in its sole discretion, not to go forward at all with the acceleration of incentive compensation to the advisor or the Proposed NAV REIT Conversion. Even if our board of directors implements the proposed acceleration of incentive compensation to the advisor in connection with conversion to an NAV REIT, the board of directors will still have the authority to change other aspects of the Proposed NAV REIT Conversion. Such changes may be deemed appropriate for a variety of reasons, including but not limited to regulatory, capital-raising or business considerations, all of which can change over time.

Vote Required

Approval of the proposed acceleration of the payment of incentive compensation to our advisor requires the affirmative vote of the holders of at least a majority of our outstanding shares of common stock entitled to vote thereon. You may vote for or against or abstain on the proposal to accelerate the payment of incentive compensation to our advisor. Abstentions and broker non-votes will have the same effect as votes against the proposal to accelerate the payment of incentive compensation to our advisor. If you submit a proxy card with no further instructions, your shares will be voted FOR the proposal to approve the acceleration of the payment of incentive compensation to our advisor.

Appraisal Rights

Under Maryland law and our charter, you will not be entitled to rights of appraisal with respect to the proposed acceleration of the payment of incentive compensation to our advisor. Accordingly, to the extent that you object to the proposed acceleration of the payment of incentive compensation to our advisor, you will not have the right to have a court judicially determine (and you will not receive) the fair value for your shares of common stock under the provisions of Maryland law governing appraisal rights.

Whether or not you plan to attend the annual meeting and vote in person, we urge you to have your vote recorded. Stockholders have the following three options for submitting their votes by proxy: (i) via the Internet, (ii) by telephone or (iii) by mail, using the enclosed proxy card. YOUR VOTE IS VERY IMPORTANT! Your immediate response will help avoid potential delays and may save us significant additional expenses associated with soliciting stockholder votes.

Recommendation

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE PROPOSAL TO ACCELERATE THE PAYMENT OF INCENTIVE COMPENSATION TO OUR ADVISOR, IN THE FORM OF RESTRICTED SHARES OF OUR COMMON STOCK.

PROPOSAL 5. ADJOURNMENT OF THE ANNUAL MEETING

At the annual meeting, you and the other stockholders will also vote to approve an adjournment of the annual meeting, including to solicit additional proxies in favor of Proposal 3 or Proposal 4 if there are not sufficient votes for these proposals.

Vote Required

Approval of the adjournment proposal (which would permit us to proceed with voting on and approval of only the proposals that have received sufficient votes to be approved at the annual meeting, and then subsequently to adjourn the annual meeting to solicit additional proxies to vote in favor of any proposal that has not received sufficient votes to be approved at the annual meeting) requires the affirmative vote of a majority of the votes cast at the annual meeting by the holders who are present in person or by proxy and entitled to vote. Abstentions and broker non-votes will have no effect on the outcome of the vote. If you submit a proxy card with no further instructions, your shares will be voted FOR this proposal.

Whether or not you plan to attend the annual meeting and vote in person, we urge you to have your vote recorded. Stockholders have the following three options for submitting their votes by proxy: (i) via the Internet, (ii) by telephone or (iii) by mail, using the enclosed proxy card. YOUR VOTE IS VERY IMPORTANT! Your immediate response will help avoid potential delays and may save us significant additional expenses associated with soliciting stockholder votes.

Recommendation

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR
THIS PROPOSAL**

STOCKHOLDER PROPOSALS

Any proposals by stockholders for inclusion in proxy solicitation material for the next annual meeting of stockholders must be received by our Secretary, Jeffrey K. Waldvogel, at our executive offices no later than September 19, 2020. However, if we hold the annual meeting before March 8, 2021 or after May 7, 2021, stockholders must submit proposals for inclusion in our proxy statement within a reasonable time before we begin to print our proxy materials. The mailing address of our executive offices is 800 Newport Center Drive, Suite 700, Newport Beach, California 92660. If a stockholder wishes to present a proposal at the next annual meeting, whether or not the proposal is intended to be included in the proxy materials, our bylaws require that the stockholder give advance written notice to our Secretary by October 19, 2020.

OTHER MATTERS

As of the date of this proxy statement, we know of no business that will be presented for consideration at the annual meeting other than the items referred to above. If any other matter is properly brought before the annual meeting for action by stockholders, proxies in the enclosed form returned to us will be voted in accordance with the recommendation of the board of directors or, in the absence of such a recommendation, in accordance with the discretion of the proxy holder.

Exhibit A**KBS REAL ESTATE INVESTMENT TRUST III, INC.****ARTICLES OF AMENDMENT**

KBS Real Estate Investment Trust III, Inc., a Maryland corporation, having its principal office in Baltimore, Maryland (the "Corporation"), hereby certifies to the State Department of Assessments and Taxation of Maryland that:

FIRST: The Second Articles of Amendment and Restatement of the Corporation (the "Charter") are hereby amended by deleting existing Section 5.11 in its entirety.

SECOND: The amendment to the Charter of the Corporation as set forth above has been duly advised by the board of directors and approved by the stockholders of the Corporation as required by law.

THIRD: The undersigned Chief Executive Officer of the Corporation acknowledges these Articles of Amendment to be the corporate act of the Corporation and, as to all matters or facts required to be verified under oath, the undersigned Chief Executive Officer acknowledges that to the best of his knowledge, information and belief, these matters and facts are true in all material respects and that this statement is made under the penalties for perjury.

IN WITNESS WHEREOF, the Corporation has caused these Articles of Amendment to be signed in its name and on its behalf by its Chief Executive Officer and President and attested to by its Secretary on this __ day of [], [_____].

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Securities Exchange Act). Yes No

There is no established market for the Registrant's shares of common stock. On December 6, 2017, the board of directors of the Registrant approved an estimated value per share of the Registrant's common stock of \$11.73 based on the estimated value of the Registrant's assets less the estimated value of the Registrant's liabilities, or net asset value, divided by the number of shares outstanding, all as of September 30, 2017, with the exception of a reduction to the Registrant's net asset value for deferred financing costs related to a portfolio loan facility that closed subsequent to September 30, 2017. For a full description of the methodologies used to value the Registrant's assets and liabilities in connection with the calculation of the estimated value per share as of December 6, 2017, see Part II, Item 5, "Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities - Market Information" of the Registrant's Annual Report on Form 10-K for the year ended December 31, 2017. On December 3, 2018, the board of directors of the Registrant approved an estimated value per share of the Registrant's common stock of \$12.02 based on the estimated value of the Registrant's assets less the estimated value of the Registrant's liabilities, or net asset value, divided by the number of shares outstanding, all as of September 30, 2018, with the exception of an adjustment to the Registrant's net asset value for the acquisition and assumed loan costs related to the Registrant's buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to the Registrant's net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018. For a full description of the methodologies used to value the Registrant's assets and liabilities in connection with the calculation of the estimated value per share as of December 3, 2018, see Part II, Item 5, "Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities - Market Information" in this Annual Report on Form 10-K.

There were approximately 175,254,174 shares of common stock held by non-affiliates as of June 30, 2018, the last business day of the Registrant's most recently completed second fiscal quarter.

As of March 8, 2019, there were 174,231,080 outstanding shares of common stock of the Registrant.

FORWARD-LOOKING STATEMENTS

Certain statements included in this Annual Report on Form 10-K are forward-looking statements. Those statements include statements regarding the intent, belief or current expectations of KBS Real Estate Investment Trust III, Inc. and members of our management team, as well as the assumptions on which such statements are based, and generally are identified by the use of words such as “may,” “will,” “seeks,” “anticipates,” “believes,” “estimates,” “expects,” “plans,” “intends,” “should” or similar expressions. Actual results may differ materially from those contemplated by such forward-looking statements. Further, forward-looking statements speak only as of the date they are made, and we undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time, unless required by law.

The following are some of the risks and uncertainties, although not all of the risks and uncertainties, that could cause our actual results to differ materially from those presented in our forward-looking statements:

- We are dependent on KBS Capital Advisors LLC (“KBS Capital Advisors”), our advisor, to identify investments, to manage our investments and for the disposition of our investments.
- All of our executive officers, our affiliated directors and other key real estate and debt finance professionals are also officers, affiliated directors, managers, key professionals and/or holders of a direct or indirect controlling interest in our advisor, our dealer manager and/or other KBS-affiliated entities. As a result, our executive officers, our affiliated directors, some of our key real estate and debt finance professionals, our advisor and its affiliates face conflicts of interest, including significant conflicts created by our advisor’s and its affiliates’ compensation arrangements with us and other KBS-sponsored programs and KBS-advised investors and conflicts in allocating time among us and these other programs and investors. Furthermore, these individuals may become employees of another KBS-sponsored program in an internalization transaction or, if we internalize our advisor, may not become our employees as a result of their relationship with other KBS-sponsored programs. These conflicts could result in action or inaction that is not in the best interests of our stockholders.
- Our advisor and its affiliates receive fees in connection with transactions involving the purchase or origination, management and disposition of our investments. Acquisition and asset management fees are based on the cost of the investment, and not based on the quality of the investment or the quality of the services rendered to us. This may influence our advisor to recommend riskier transactions to us. We may also pay significant fees during our listing/liquidation stage. Although most of the fees payable during our listing/liquidation stage are contingent on our stockholders first enjoying agreed-upon investment returns, the investment return thresholds may be reduced subject to approval by our conflicts committee and to other limitations in our charter. These payments increase the risk that our stockholders will not earn a profit on their investment in us and increase the risk of loss to our stockholders.
- Our charter permits us to pay distributions from any source, including offering proceeds or borrowings (which may constitute a return of capital), and our charter does not limit the amount of funds we may use from any source to pay such distributions. From time to time during our operational stage, we may use proceeds from third party financings to fund at least a portion of distributions in anticipation of cash flow to be received in later periods. We may also fund such distributions from the sale of assets or from the maturity, payoff or settlement of any real estate-related investments, to the extent we make any such additional investments. If we pay distributions from sources other than our cash flow from operations, the overall return to our stockholders may be reduced.
- We may incur debt until our total liabilities would exceed 75% of the cost of our tangible assets (before deducting depreciation and other non-cash reserves), and we may exceed this limit with the approval of the conflicts committee of our board of directors. To the extent financing in excess of this limit is available on attractive terms, our conflicts committee may approve debt such that our total liabilities would exceed this limit. High debt levels could limit the amount of cash we have available to distribute and could result in a decline in the value of an investment in us.

- We depend on tenants for the revenue generated by our real estate investments and, accordingly, the revenue generated by our real estate investments is dependent upon the success and economic viability of our tenants. Revenues from our properties could decrease due to a reduction in occupancy (caused by factors including, but not limited to, tenant defaults, tenant insolvency, early termination of tenant leases and non-renewal of existing tenant leases) and/or lower rental rates, making it more difficult for us to meet our debt service obligations and limiting our ability to pay distributions to our stockholders.
- Because investment opportunities that are suitable for us may also be suitable for other KBS-sponsored programs or KBS-advised investors, our advisor and its affiliates face conflicts of interest relating to the purchase of properties and other investments and such conflicts may not be resolved in our favor, meaning that we could invest in less attractive assets, which could reduce the investment return to our stockholders.
- We cannot predict with any certainty how much, if any, of our dividend reinvestment plan proceeds will be available for general corporate purposes including, but not limited to: the repurchase of shares under our share redemption program; capital expenditures, tenant improvement costs and leasing costs related to our real estate properties; reserves required by any financings of our real estate investments; the acquisition or origination of real estate investments, which include payment of acquisition or origination fees to our advisor; and the repayment of debt. If such funds are not available from our dividend reinvestment plan offering, then we may have to use a greater proportion of our cash flow from operations to meet these cash requirements, which would reduce cash available for distributions and could limit our ability to redeem shares under our share redemption program.
- Disruptions in the financial markets and uncertain economic conditions could adversely affect our ability to implement our business strategy and generate returns to stockholders. In addition, our real estate investments may be affected by unfavorable real estate market and general economic conditions, which could decrease the value of those assets and reduce the investment return to our stockholders.
- Our charter does not require us to liquidate our assets and dissolve by a specified date, nor does our charter require our directors to list our shares for trading by a specified date. No public market currently exists for our shares of common stock, and we have no plans at this time to list our shares on a national securities exchange. Until our shares are listed, if ever, our stockholders may not sell their shares unless the buyer meets the applicable suitability and minimum purchase standards. Any sale must comply with applicable state and federal securities laws. In addition, our charter prohibits the ownership of more than 9.8% of our stock, unless exempted by our board of directors, which may inhibit large investors from purchasing our shares. Our shares cannot be readily sold and, if our stockholders are able to sell their shares, they would likely have to sell them at a substantial discount from the price our stockholders paid to acquire the shares and from our estimated value per share.
- Because of the limitations on the dollar amount of shares that may be redeemed under our share redemption program, unless our board of directors authorizes additional funds for redemption, we will not be able to redeem shares submitted as ordinary redemptions for the remainder of 2019. During any calendar year, we may redeem (i) only the number of shares that we could purchase with the amount of net proceeds from the sale of shares under our dividend reinvestment plan during the prior calendar year unless our board of directors authorizes additional funds for redemption and (ii) no more than 5% of the weighted average number of shares outstanding during the prior calendar year.

All forward-looking statements should be read in light of the risks identified in Part I, Item 1A of this Annual Report on Form 10-K.

PART I

ITEM 1. BUSINESS

Overview

KBS Real Estate Investment Trust III, Inc. (the “Company”) was formed on December 22, 2009 as a Maryland corporation that elected to be taxed as a real estate investment trust (“REIT”) beginning with the taxable year ended December 31, 2011 and it intends to continue to operate in such a manner. As used herein, the terms “we,” “our” and “us” refer to the Company and as required by context, KBS Limited Partnership III, a Delaware limited partnership, which we refer to as our “Operating Partnership,” and to their subsidiaries. We conduct our business primarily through our Operating Partnership, of which we are the sole general partner.

We have invested in a diverse portfolio of real estate investments. As of December 31, 2018, we owned 28 office properties and one mixed-use office/retail property and had entered into a consolidated joint venture to develop and subsequently operate a multifamily apartment project, which is currently under construction.

On February 4, 2010, we filed a registration statement on Form S-11 with the Securities and Exchange Commission (the “SEC”) to offer a minimum of 250,000 shares and a maximum of up to 280,000,000 shares, or up to \$2,760,000,000 of shares, of common stock for sale to the public, of which up to 200,000,000 shares, or up to \$2,000,000,000 of shares, were registered in our primary offering and up to 80,000,000 shares, or up to \$760,000,000 of shares, were registered under our dividend reinvestment plan. We ceased offering shares of common stock in our primary offering on May 29, 2015 and terminated the primary offering on July 28, 2015.

We sold 169,006,162 shares of common stock in our now-terminated primary initial public offering for gross offering proceeds of \$1.7 billion. As of December 31, 2018, we had also sold 27,926,537 shares of common stock under our dividend reinvestment plan for gross offering proceeds of \$280.9 million. Also as of December 31, 2018, we had redeemed 19,687,309 shares sold in our initial public offering for \$210.5 million.

Additionally, on October 3, 2014, we issued 258,462 shares of common stock, for \$2.4 million, in private transactions exempt from the registration requirements pursuant to Section 4(a)(2) of the Securities Act of 1933.

We continue to offer shares under our dividend reinvestment plan. In some states, we will need to renew the registration statement annually or file a new registration statement to continue the dividend reinvestment plan offering. We may terminate our dividend reinvestment plan offering at any time.

As our advisor, KBS Capital Advisors manages our day-to-day operations and our portfolio of real estate investments. KBS Capital Advisors makes recommendations on all investments to our board of directors. All proposed investments must be approved by at least a majority of our board of directors, including a majority of the conflicts committee. Unless otherwise provided by our charter, the conflicts committee may approve a proposed investment without action by the full board of directors if the approving members of the conflicts committee constitute at least a majority of the board of directors. KBS Capital Advisors also provides asset-management, disposition, marketing, investor-relations and other administrative services on our behalf. Our advisor owns 20,000 shares of our common stock. We have no paid employees.

Objectives and Strategies

Our primary investment objectives are to preserve and return our stockholders’ capital contributions and to provide our stockholders with attractive and stable cash distributions. We will also seek to realize growth in the value of our investments by timing asset sales to maximize asset value.

2018 Investment Highlights

In 2017, we acquired a 75% equity interest in an existing company and created an unconsolidated joint venture with an unaffiliated developer to develop and subsequently operate a 12-story office building and an adjacent two-story office/retail building in the Denver submarket of Greenwood Village, Colorado (together, “Village Center Station II”). The total cost of the Village Center Station II development was \$111.2 million and our initial capital contribution to the Village Center Station II joint venture was \$32.3 million. In May 2018, the Village Center Station II development project was substantially completed and we purchased the developer’s 25% equity interest for \$28.2 million in October 2018.

Real Estate Portfolio

Other than our investments in a joint venture to develop and subsequently operate a two-building apartment complex located on the developable land at Gateway Tech Center (“Hardware Village”) and Village Center Station II, we have made investments in core real estate properties, which are generally lower risk, existing properties with at least 80% occupancy and minimal near-term lease rollover. Our primary investment focus has been core office properties located throughout the United States, though we may also invest in other types of properties. Our core property focus in the U.S. office sector has reflected a more value-creating core strategy. In many cases, these properties have slightly higher (10% to 15%) vacancy rates and/or higher near-term lease rollover at acquisition than more conservative value-maintaining core properties. These characteristics may provide us with opportunities to lease space at higher rates, especially in markets with increasing absorption, or to re-lease space at higher rates, bringing below-market rates of in-place expiring leases up to market rates. Many of these properties have required or will require a moderate level of additional investment for capital expenditures and tenant improvement costs in order to improve or rebrand the properties and increase rental rates. Thus, we believe these properties provide an opportunity for us to achieve more significant capital appreciation by increasing occupancy, negotiating new leases with higher rental rates and/or executing enhancement projects.

The core office properties in which we have invested include low-rise, mid-rise and high-rise office buildings and office parks in urban and suburban locations in or near central business districts with access to transportation.

We generally hold fee title to the real estate properties in our portfolio. We have also made investments through joint ventures and in the future we may enter into other joint ventures, partnerships and co-ownership arrangements (including preferred equity investments) or participations for the purpose of obtaining interests in real estate properties and other real estate investments.

We generally intend to hold our core properties for three to seven years, which we believe is a reasonable period to enable us to capitalize on the potential for increased income and capital appreciation of properties. However, economic and market conditions have influenced us to hold certain real estate properties for different periods of time.

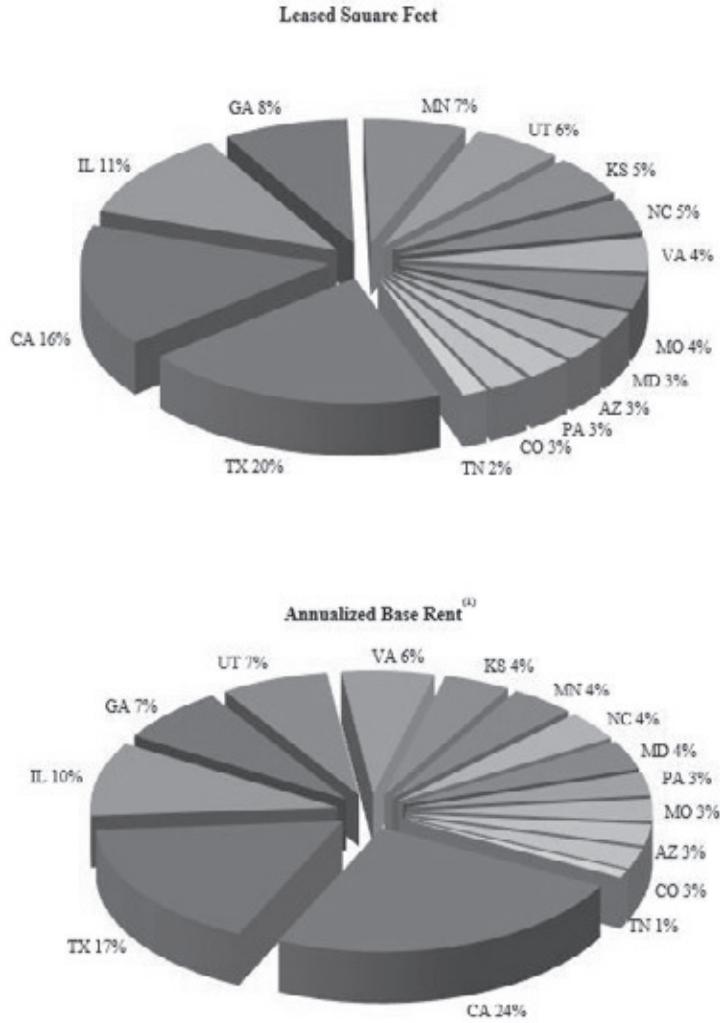

We have invested all of the proceeds from our now-terminated initial public offering in a diverse portfolio of real estate investments. From time to time, and based upon asset sales, availability under our debt facilities or market conditions, we may seek to make additional real estate investments.

We may make adjustments to our target portfolio based on real estate market conditions and investment opportunities. We will not forego a good investment because it does not precisely fit our expected portfolio composition. We believe that we are most likely to meet our investment objectives through the careful selection and underwriting of assets. When making an acquisition, we will emphasize the performance and risk characteristics of that investment, how that investment will fit with our portfolio-level performance objectives, the other assets in our portfolio and how the returns and risks of that investment compare to the returns and risks of available investment alternatives. Thus, to the extent that our advisor presents us with what we believe to be good investment opportunities that allow us to meet the REIT requirements under the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), our portfolio composition may vary from what we currently expect. In fact, we may invest in whatever types of real estate or real estate-related assets we believe are in our best interests. However, we will attempt to construct a portfolio that produces stable and attractive returns by spreading risk across different real estate investments.

We acquired our first real estate property on September 29, 2011. As of December 31, 2018, our real estate portfolio was composed of 28 office properties and one mixed-use office/retail property encompassing an aggregate of 11.2 million rentable square feet and was collectively 93% occupied. In addition, we have entered into a consolidated joint venture to develop and subsequently operate Hardware Village, which is currently under construction.

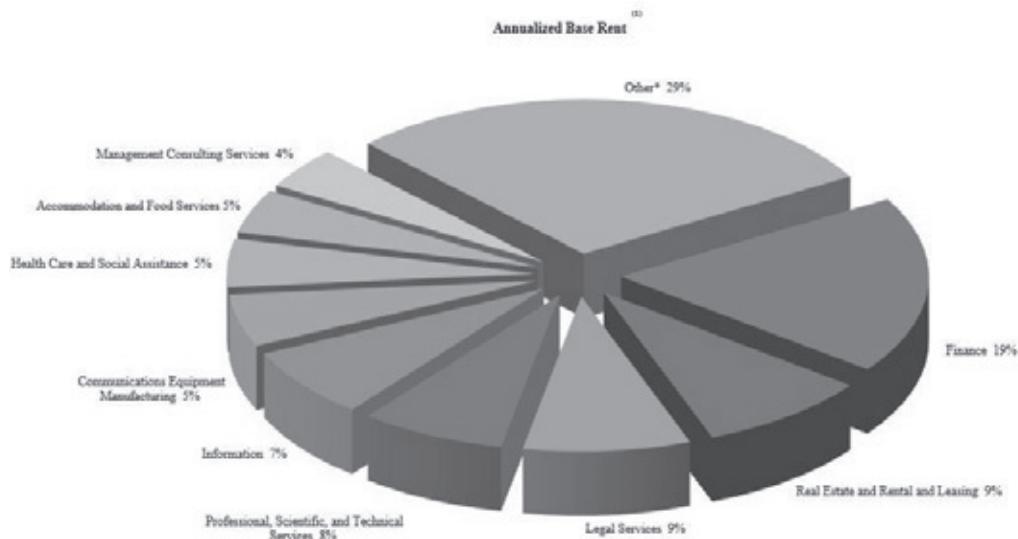

For more information on our real estate investments, including tenant information, see Item 1, Part 2, “Properties.”

The following charts illustrate the geographic diversification of our real estate properties, excluding properties under development, based on total leased square feet and total annualized base rent as of December 31, 2018:

⁽¹⁾ Annualized base rent represents annualized contractual base rental income as of December 31, 2018, adjusted to straight-line any contractual tenant concessions (including free rent), rent increases and rent decreases from the lease's inception through the balance of the lease term.

We have a stable tenant base and we have tried to diversify our tenant base in order to limit exposure to any one tenant or industry. Our top ten tenants leasing space in our real estate portfolio represented approximately 20% of our total annualized base rent as of December 31, 2018. The chart below illustrates the diversity of tenant industries in our real estate portfolio, excluding properties under development, based on total annualized base rent as of December 31, 2018:

⁽¹⁾ Annualized base rent represents annualized contractual base rental income as of December 31, 2018, adjusted to straight-line any contractual tenant concessions (including free rent), rent increases and rent decreases from the lease’s inception through the balance of the lease term.

* “Other” includes any industry less than 4% of total.

Financing Objectives

We financed our real estate acquisitions to date with a combination of the proceeds received from our now-terminated initial public offering and debt. We may use proceeds from borrowings to finance acquisitions of new properties or assets or for originations of new loans; to pay for capital improvements, repairs or tenant build-outs to properties; to refinance existing indebtedness; to pay distributions; or to provide working capital. Our investment strategy is to utilize primarily secured and possibly unsecured debt to finance our investment portfolio.

We expect to continue to borrow funds at fixed and variable rates. As of December 31, 2018, we had debt obligations in the aggregate principal amount of \$2.2 billion, with a weighted-average remaining term of 2.0 years. We plan to exercise our extension options available under our loan agreements or pay down or refinance the related notes payable prior to their maturity dates. We had a total of \$190.5 million of fixed rate notes payable and \$2.0 billion of variable rate notes payable. As of December 31, 2018, the interest rates on \$1.2 billion of our variable rate notes payable were effectively fixed through interest rate swap agreements and the interest rate on \$100.0 million of our variable rate debt was limited under an interest rate cap agreement that was terminated on January 1, 2019. The weighted-average interest rates of our fixed rate debt and variable rate debt as of December 31, 2018 were 4.1% and 3.8%, respectively. The weighted-average interest rate represents the actual interest rate in effect as of December 31, 2018 (consisting of the contractual interest rate and the effect of interest rate swaps), using interest rate indices as of December 31, 2018, where applicable. As of December 31, 2018, we had \$216.0 million of revolving debt available for immediate future disbursement under three portfolio loans, subject to certain conditions set forth in the loan agreements.

10-K

We have tried to spread the maturity dates of our debt to minimize maturity and refinance risk in our portfolio. In addition, a majority of our debt allows us to extend the maturity dates, subject to certain conditions contained in the applicable loan documents. Although we believe we will satisfy the conditions to extend the maturity of our debt obligations, we can give no assurance in this regard. The following table shows the current maturities, including principal amortization payments, of our debt obligations as of December 31, 2018 (in thousands):

2019	\$	348,679
2020		1,171,460
2021		294,894
2022		256,121
2023		—
Thereafter		125,000
	<u>\$</u>	<u>2,196,154</u>

We expect that our debt financing and other liabilities will be between 45% and 65% of the cost of our tangible assets (before deducting depreciation and other non-cash reserves). There is no limitation on the amount we may borrow for the purchase of any single asset. We limit our total liabilities to 75% of the cost of our tangible assets (before deducting depreciation and other non-cash reserves) meaning that our borrowings and other liabilities may exceed our maximum target leverage of 65% of the cost of our tangible assets without violating these borrowing restrictions. We may exceed the 75% limit only if a majority of the conflicts committee approves each borrowing in excess of this limitation and we disclose such borrowings to our stockholders in our next quarterly report with an explanation from the conflicts committee of the justification for the excess borrowing. To the extent financing in excess of this limit is available on attractive terms, the conflicts committee may approve debt in excess of this limit. From time to time, our total liabilities could also be below 45% of the cost of our tangible assets due to the lack of availability of debt financing. As of December 31, 2018, our borrowings and other liabilities were approximately 62% of both the cost (before deducting depreciation and other noncash reserves) and book value (before deducting depreciation) of our tangible assets, respectively.

Economic Dependency

We are dependent on our advisor for certain services that are essential to us, including the identification, evaluation, negotiation, acquisition or origination and disposition of investments; management of the daily operations and leasing of our portfolio; and other general and administrative responsibilities. In the event that our advisor is unable to provide these services, we will be required to obtain such services from other sources.

Competitive Market Factors

The U.S. commercial real estate investment and leasing markets remain competitive. We face competition from various entities for investment and disposition opportunities, for prospective tenants and to retain our current tenants, including other REITs, pension funds, insurance companies, investment funds and companies, partnerships and developers. Many of these entities have substantially greater financial resources than we do and may be able to accept more risk than we can prudently manage, including risks with respect to the creditworthiness of a tenant or the geographic location of their investments. Competition from these entities may reduce the number of suitable investment opportunities offered to us or increase the bargaining power of property owners seeking to sell. Further, as a result of their greater resources, those entities may have more flexibility than we do in their ability to offer rental concessions to attract and retain tenants. This could put pressure on our ability to maintain or raise rents and could adversely affect our ability to attract or retain tenants. As a result, our financial condition, results of operations, cash flow, ability to satisfy our debt service obligations and ability to pay distributions to our stockholders may be adversely affected.

We also face competition from many of the types of entities referenced above regarding the disposition of properties. These entities may possess properties in similar locations and/or of the same property types as ours and may be attempting to dispose of these properties at the same time we are attempting to dispose of some of our properties, providing potential purchasers with a larger number of properties from which to choose and potentially decreasing the sales price for such properties. Additionally, these entities may be willing to accept a lower return on their individual investments, which could further reduce the sales price of such properties. This competition could decrease the sales proceeds we receive for properties that we sell, assuming we are able to sell such properties, which could adversely affect our cash flows and the overall return for our stockholders.

Although we believe that we are well-positioned to compete effectively in each facet of our business, there is enormous competition in our market sector and there can be no assurance that we will compete effectively or that we will not encounter increased competition in the future that could limit our ability to conduct our business effectively.

Compliance with Federal, State and Local Environmental Law

Under various federal, state and local environmental laws, ordinances and regulations, a current or previous real property owner or operator may be liable for the cost of removing or remediating hazardous or toxic substances on, under or in such property. These costs could be substantial. Such laws often impose liability whether or not the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. Environmental laws also may impose liens on property or restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures or prevent us from entering into leases with prospective tenants that may be impacted by such laws. Environmental laws provide for sanctions for noncompliance and may be enforced by governmental agencies or, in certain circumstances, by private parties. Certain environmental laws and common law principles could be used to impose liability for the release of and exposure to hazardous substances, including asbestos-containing materials and lead-based paint. Third parties may seek recovery from real property owners or operators for personal injury or property damage associated with exposure to released hazardous substances and governments may seek recovery for natural resource damage. The costs of defending against claims of environmental liability, of complying with environmental regulatory requirements, of remediating any contaminated property, or of paying personal injury, property damage or natural resource damage claims could reduce our cash available for distribution to our stockholders. All of our real estate properties are subject to Phase I environmental assessments prior to the time they are acquired.

Industry Segments

We invested in core real estate properties and real estate-related investments with the goal of acquiring a portfolio of income-producing investments. Our real estate properties exhibit similar long-term financial performance and have similar economic characteristics to each other. As of December 31, 2018, we aggregated our investments in real estate properties into one reportable business segment.

Employees

We have no paid employees. The employees of our advisor or its affiliates provide management, acquisition, disposition, advisory and certain administrative services for us.

Principal Executive Office

Our principal executive offices are located at 800 Newport Center Drive, Suite 700, Newport Beach, California 92660. Our telephone number, general facsimile number and website address are (949) 417-6500, (949) 417-6501 and www.kbsreitiii.com, respectively.

Available Information

Access to copies of our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and other filings with the SEC, including amendments to such filings, may be obtained free of charge from the following website, www.kbsreitiii.com, or through the SEC's website, www.sec.gov. These filings are available promptly after we file them with, or furnish them to, the SEC.

ITEM 1A. RISK FACTORS

The following are some of the risks and uncertainties that could cause our actual results to differ materially from those presented in our forward-looking statements. The risks and uncertainties described below are not the only ones we face but do represent those risks and uncertainties that we believe are material to us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also harm our business.

Risks Related to an Investment in Our Common Stock

Because no public trading market for our shares currently exists, it will be difficult for our stockholders to sell their shares and, if they are able to sell their shares, they will likely sell them at a substantial discount to the public offering price and the estimated value per share.

Our charter does not require our directors to seek stockholder approval to liquidate our assets and dissolve by a specified date, nor does our charter require our directors to list our shares for trading on a national securities exchange by a specified date. There is no public market for our shares and we have no plans at this time to list our shares on a national securities exchange. Until our shares are listed, if ever, our stockholders may not sell their shares unless the buyer meets the applicable suitability and minimum purchase standards. Any sale must comply with applicable state and federal securities laws. Our charter prohibits the ownership of more than 9.8% of our stock by any person, unless exempted by our board of directors, which may inhibit large investors from desiring to purchase our stockholders' shares.

Moreover, our share redemption program includes numerous restrictions that limit our stockholders' ability to sell their shares to us, including that during any calendar year (i) we may redeem only the number of shares that we could purchase with the amount of net proceeds from the sale of shares under our dividend reinvestment plan during the prior calendar year, unless our board of directors authorizes additional funds for redemption, provided that once we have received requests for redemptions, whether in connection with Special Redemptions (defined below) or otherwise, that if honored, and when combined with all prior redemptions made during the calendar year, would result in the amount of remaining funds available for the redemption of additional shares in such calendar year being \$10.0 million or less, the last \$10.0 million of available funds shall be reserved exclusively for Special Redemptions (defined below) and (ii) we may redeem no more than 5% of the weighted-average number of shares outstanding during the prior calendar year. Special Redemptions are redemptions sought in connection with a stockholder's death, "Qualifying Disability" or "Determination of Incompetence" (each as defined in the share redemption program). Our board of directors may amend, suspend or terminate our share redemption program upon 10 business days' notice to our stockholders, and we may increase or decrease funding available for the redemption of shares pursuant to our share redemption program upon ten business days' notice to our stockholders. We describe the restrictions of our share redemption program in detail under Part II, Item 5, "Share Redemption Program." As a result of such limitations, on November 30, 2017, we exhausted all funds available for redemptions for the year ended December 31, 2017. Effective January 1, 2018, this limitation was reset, and based on the amount of net proceeds raised from the sale of shares under our dividend reinvestment plan during 2017, we initially had \$59.8 million available for redemptions of shares eligible for redemption in 2018. On May 8, 2018, our board of directors approved (i) additional funds for the May 2018 redemption date to be used solely for Special Redemptions and (ii) the Fourth Amended and Restated Share Redemption Program, which was effective for the June 2018 redemption date and provided for, among other changes, additional funds for the redemption of shares for calendar year 2018. As of June 30, 2018, we had exhausted all funds available for ordinary redemptions in 2018. Effective January 1, 2019, the funding limitation was reset, and based on the amount of net proceeds raised from the sale of shares under our dividend reinvestment plan during 2018, we had an aggregate of \$56.1 million available for redemptions in 2019, including the reserve for Special Redemptions. As of March 1, 2019, we exhausted all funds available for ordinary redemptions and had \$9.4 million available for Special Redemptions for the remainder of 2019. Because of the limitations on the dollar amount of shares that may be redeemed under our share redemption program, unless our board of directors authorizes additional funds for redemption, we will not be able to redeem shares submitted as ordinary redemptions for the remainder of 2019.

Therefore, it will be difficult for our stockholders to sell their shares promptly or at all. If our stockholders are able to sell their shares, they will likely have to sell them at a substantial discount to their public offering price or the estimated value per share. It is also likely that our stockholders' shares will not be accepted as the primary collateral for a loan. Investors should purchase shares in our dividend reinvestment plan only as a long-term investment and be prepared to hold them for an indefinite period of time because of the illiquid nature of our shares.

We face significant competition for tenants and in the acquisition and disposition of real estate investments, which may limit our ability to achieve our investment objectives or pay distributions.

The U.S. commercial real estate investment and leasing markets remain competitive. We face competition from various entities for investment and disposition opportunities, for prospective tenants and to retain our current tenants, including other REITs, pension funds, banks and insurance companies, investment funds and companies, partnerships and developers. Many of these entities have substantially greater financial resources than we do and may be able to accept more risk than we can prudently manage, including risks with respect to the creditworthiness of a tenant or the geographic location of their investments.

We depend upon the performance of our property managers in the selection of tenants and negotiation of leasing arrangements. The U.S. commercial real estate industry has created increased pressure on real estate investors and their property managers to find new tenants and keep existing tenants. In order to do so, we have offered and may have to offer inducements, such as free rent and tenant improvements, to compete for attractive tenants. Further, as a result of their greater resources, the entities referenced above may have more flexibility than we do in their ability to offer rental concessions to attract and retain tenants, which could put additional pressure on our ability to maintain or raise rents and could adversely affect our ability to attract or retain tenants. Our investors must rely entirely on the management abilities of our advisor, the property managers our advisor selects and the oversight of our board of directors. In the event we are unable to find new tenants and keep existing tenants, or if we are forced to offer significant inducements to such tenants, we may not be able to meet our investment objectives and our financial condition, results of operations, cash flow, ability to satisfy our debt service obligations and ability to pay distributions to our stockholders may be adversely affected.

In addition, to the extent we acquire additional assets, we face competition from these same entities for real estate investment opportunities. Competition from these entities may reduce the number of suitable investment opportunities offered to us or increase the bargaining power of property owners seeking to sell. Disruptions and dislocations in the credit markets could impact the cost and availability of debt to finance real estate investments, which is a key component of our acquisition strategy. A downturn in the credit market and a potential lack of available debt could result in a further reduction of suitable investment opportunities and create a competitive advantage for other entities that have greater financial resources than we do. In addition, the number of entities and the amount of funds competing for suitable investments may increase. We can give no assurance that our advisor will be successful in obtaining additional suitable investments on financially attractive terms or that, if our advisor makes investments on our behalf, our objectives will be achieved. If we acquire investments at higher prices and/or by using less-than-ideal capital structures, our returns will be lower and the value of our assets may not appreciate or may decrease significantly below the amount we paid for such assets. If such events occur, our stockholders may experience a lower return on their investment.

We also face competition from many of the types of entities referenced above regarding the disposition of properties. These entities may possess properties in similar locations and/or of the same property types as ours and may be attempting to dispose of these properties at the same time we are attempting to dispose of some of our properties, providing potential purchasers with a larger number of properties from which to choose and potentially decreasing the sales price for such properties. Additionally, these entities may be willing to accept a lower return on their individual investments, which could further reduce the sales price of such properties. This competition could decrease the sales proceeds we receive for properties that we sell, assuming we are able to sell such properties, which could adversely affect our cash flows and the overall return for our stockholders.

Although we believe that we are well-positioned to compete effectively in each facet of our business, there is enormous competition in our market sector and there can be no assurance that we will compete effectively or that we will not encounter increased competition in the future that could limit our ability to conduct our business effectively.

Disruptions in the financial markets and uncertain economic conditions could adversely affect market rental rates and commercial real estate values and our ability to refinance or secure debt financing, service future debt obligations, or pay distributions to our stockholders.

We have relied on debt financing to finance our real estate properties and we may have difficulty refinancing some of our debt obligations prior to or at maturity or we may not be able to refinance these obligations at terms as favorable as the terms of our existing indebtedness. We also may be unable to obtain additional debt financing on attractive terms or at all. If we are not able to refinance our existing indebtedness on attractive terms at the various maturity dates, we may be forced to dispose of some of our assets. Market conditions can change quickly, which could negatively impact the value of our assets and may interfere with the implementation of our business strategy and/or force us to modify it.

Disruptions in the financial markets and uncertain economic conditions could adversely affect the values of our investments. Any disruption to the debt and capital markets could result in fewer buyers seeking to acquire commercial properties and possible increases in capitalization rates and lower property values. Furthermore, any decline in economic conditions could negatively impact commercial real estate fundamentals and result in lower occupancy, lower rental rates and declining values in our real estate portfolio, which could have the following negative effects on us:

- the values of our real estate properties could decrease below the amounts paid for such properties; and/or
- revenues from our properties could decrease due to fewer tenants and/or lower rental rates, making it more difficult for us to pay distributions or meet our debt service obligations on debt financing.

All of these factors could reduce our stockholders' return and decrease the value of an investment in us.

Because of the concentration of a significant portion of our assets in three geographic areas and in core office properties, any adverse economic, real estate or business conditions in these geographic areas or in the office market could affect our operating results and our ability to pay distributions to our stockholders.

As of March 8, 2019, a significant portion of our real estate properties was located in California, Texas and Illinois. As such, the geographic concentration of our portfolio makes us particularly susceptible to adverse economic developments in the California, Texas and Illinois real estate markets. In addition, the majority of our real estate properties consists of core office properties. Any adverse economic or real estate developments in these geographic markets, such as business layoffs or downsizing, industry slowdowns, relocations of businesses, changing demographics and other factors, or any decrease in demand for office space could adversely affect our operating results and our ability to pay distributions to our stockholders.

A significant percentage of our assets is invested in 500 West Madison and the value of our stockholders' investment in us will fluctuate with the performance of this investment.

As of December 31, 2018, 500 West Madison represented approximately 11% of our total assets and represented approximately 11% of our total annualized base rent. Further, as a result of this acquisition, the geographic concentration of our portfolio makes us particularly susceptible to adverse economic developments in the Chicago real estate market. Any adverse economic or real estate developments in this market, such as business layoffs or downsizing, industry slowdowns, relocations of businesses, changing demographics and other factors, or any decrease in demand for office space resulting from the local business climate, could adversely affect our operating results and our ability to pay distributions to our stockholders.

We may not be able to operate our business successfully or generate sufficient revenue to make or sustain distributions to our stockholders.

As of March 8, 2019, we owned 29 real estate properties and had entered into the Hardware Village joint venture to develop and subsequently operate Hardware Village, which is currently under construction. We cannot assure our stockholders that we will be able to operate our business successfully or implement our operating policies and strategies. We can provide no assurance that our performance will replicate the past performance of other KBS-sponsored programs. Our investment returns could be substantially lower than the returns achieved by other KBS-sponsored programs. The results of our operations depend on several factors, including the availability of opportunities for the acquisition of additional assets, the level and volatility of interest rates, the availability of short and long-term financing, and conditions in the financial markets and economic conditions.

Because we depend upon our advisor and its affiliates to select, acquire, manage and dispose of our real estate investments and to conduct our operations, any adverse changes in the financial health of our advisor or its affiliates or our relationship with them could cause our operations to suffer.

We depend on our advisor to select, acquire, manage and dispose of our real estate investments and to conduct our operations. Our advisor depends upon the fees and other compensation that it receives from us, KBS Real Estate Investment Trust II, Inc. ("KBS REIT II"), KBS Strategic Opportunity REIT, Inc. ("KBS Strategic Opportunity REIT"), KBS Strategic Opportunity REIT II, Inc. ("KBS Strategic Opportunity REIT II"), KBS Growth & Income REIT, Inc. ("KBS Growth & Income REIT"), and any future KBS-sponsored programs that it advises in connection with the purchase, management and sale of assets to conduct its operations. Any adverse changes to our relationship with, or the financial condition of, our advisor and its affiliates could hinder their ability to successfully manage our operations and our portfolio of investments.

We have paid distributions in part from debt financings and in the future we may not pay distributions solely from our cash flow from operating activities. To the extent that we pay distributions from sources other than our cash flow from operating activities, the overall return to our stockholders may be reduced.

Our organizational documents permit us to pay distributions from any source, including offering proceeds or borrowings (which may constitute a return of capital), and our charter does not limit the amount of funds we may use from any source to pay such distributions. We have paid distributions in part from debt financings, and from time to time during our operational stage, we may not pay distributions solely from our cash flow from operating activities, in which case distributions may be paid in whole or in part from debt financing. We may also fund such distributions with proceeds from the sale of assets or from the maturity, payoff or settlement of any real estate-related investments we make. If we fund distributions from borrowings, our interest expense and other financing costs, as well as the repayment of such borrowings, will reduce our earnings and cash flow from operating activities available for distribution in future periods. If we fund distributions from the sale of assets or the maturity, payoff or settlement of any real estate-related investments, to the extent we make any such additional investments, this will affect our ability to generate cash flow from operating activities in future periods. To the extent that we pay distributions from sources other than our cash flow from operating activities, the overall return to our stockholders may be reduced. In addition, to the extent distributions exceed cash flow from operating activities, a stockholder's basis in our stock will be reduced and, to the extent distributions exceed a stockholder's basis, the stockholder may recognize capital gain. There is no limit on the amount of distributions we may fund from sources other than from cash flow from operating activities.

For the year ended December 31, 2018, we paid aggregate distributions of \$115.6 million, including \$59.5 million of distributions paid in cash and \$56.1 million of distributions reinvested through our dividend reinvestment plan. We funded our total distributions paid, which includes net cash distributions and dividends reinvested by stockholders, with \$97.8 million (85%) of cash flow from operating activities and \$17.8 million (15%) of cash flow from operating activities in excess of distributions paid during prior periods. For the year ended December 31, 2018, our cash flow from operating activities to distributions paid coverage ratio was 87% and our funds from operations to distributions paid coverage ratio was 130%. For more information, see Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Funds from Operations" and "Management's Discussion and Analysis of Financial Condition and Results of Operations - Distributions" in this Annual Report.

The loss of or the inability to retain or obtain key real estate and debt finance professionals at our advisor could delay or hinder implementation of our investment, management and disposition strategies, which could limit our ability to pay distributions and decrease the value of an investment in our shares.

Our success depends to a significant degree upon the contributions of Peter M. Bren, Keith D. Hall, Peter McMillan III and Charles J. Schreiber, Jr., each of whom would be difficult to replace. Neither we nor our advisor or its affiliates have employment agreements with these individuals and they may not remain associated with us, our advisor or its affiliates. If any of these persons were to cease their association with us, our advisor or its affiliates, we may be unable to find suitable replacements and our operating results could suffer as a result. We do not maintain key person life insurance on any person. We believe that our future success depends, in large part, upon our advisor's and its affiliates' ability to attract and retain highly skilled managerial, operational and marketing professionals. Competition for such professionals is intense, and our advisor and its affiliates may be unsuccessful in attracting and retaining such skilled professionals. Further, we have established strategic relationships with firms that have special expertise in certain services or detailed knowledge regarding real properties in certain geographic regions. Maintaining such relationships will be important for us to effectively compete in such regions. We may be unsuccessful in maintaining such relationships. If we lose or are unable to obtain the services of highly skilled professionals or do not establish or maintain appropriate strategic relationships, our ability to implement our investment, management and disposition strategies could be delayed or hindered and the value of our stockholders' investment in us could decline.

Our rights and the rights of our stockholders to recover claims against our independent directors are limited, which could reduce our stockholders' and our recovery against our independent directors if they negligently cause us to incur losses.

Maryland law provides that a director has no liability in that capacity if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. Our charter provides that none of our independent directors shall be liable to us or our stockholders for monetary damages and that we will generally indemnify them for losses unless they are grossly negligent or engage in willful misconduct. As a result, our stockholders and we may have more limited rights against our independent directors than might otherwise exist under common law, which could reduce our stockholders' and our recovery from these persons if they act in a negligent manner. In addition, we may be obligated to fund the defense costs incurred by our independent directors (as well as by our other directors, officers, employees (if we ever have employees) and agents) in some cases, which would decrease the cash otherwise available for distribution to our stockholders.

We face risks associated with security breaches through cyber-attacks, cyber intrusions or otherwise, as well as other significant disruptions of our information technology (IT) networks and related systems.

We face risks associated with security breaches, whether through cyber-attacks or cyber intrusions over the Internet, malware, computer viruses, attachments to e-mails, persons inside our organization or persons with access to systems inside our organization, and other significant disruptions of our IT networks and related systems. The risk of a security breach or disruption, particularly through cyber-attack or cyber intrusion, including by computer hackers, foreign governments and cyber terrorists, has generally increased as the number, intensity and sophistication of attempted attacks and intrusions from around the world have increased. Our IT networks and related systems are essential to the operation of our business and our ability to perform day-to-day operations. Although we make efforts to maintain the security and integrity of these types of IT networks and related systems, and we have implemented various measures to manage the risk of a security breach or disruption, there can be no assurance that our security efforts and measures will be effective or that attempted security breaches or disruptions would not be successful or damaging. Even the most well protected information, networks, systems and facilities remain potentially vulnerable because the techniques used in such attempted security breaches evolve and generally are not recognized until launched against a target, and in some cases are designed not to be detected and, in fact, may not be detected. Accordingly, we may be unable to anticipate these techniques or to implement adequate security barriers or other preventative measures, and thus it is impossible for us to entirely mitigate this risk.

A security breach or other significant disruption involving our IT networks and related systems could:

- disrupt the proper functioning of our networks and systems and therefore our operations;
- result in misstated financial reports, violations of loan covenants and/or missed reporting deadlines;
- result in our inability to properly monitor our compliance with the rules and regulations regarding our qualification as a REIT;
- result in the unauthorized access to, and destruction, loss, theft, misappropriation or release of, proprietary, confidential, sensitive or otherwise valuable information of ours or others, which others could use to compete against us or which could expose us to damage claims by third-parties for disruptive, destructive or otherwise harmful purposes and outcomes;
- require significant management attention and resources to remedy any damages that result;
- subject us to claims for breach of contract, damages, credits, penalties or termination of leases or other agreements; or
- damage our reputation among our stockholders.

Any or all of the foregoing could have a material adverse effect on our results of operations, financial condition and cash flows.

Risks Related to Conflicts of Interest

Our advisor and its affiliates, including all of our executive officers and our affiliated directors and other key real estate and debt finance professionals, face conflicts of interest caused by their compensation arrangements with us and with other KBS-sponsored programs, which could result in actions that are not in the long-term best interests of our stockholders.

All of our executive officers and our affiliated directors and other key real estate and debt finance professionals are also officers, directors, managers, key professionals and/or holders of a direct or indirect controlling interest in our advisor, our dealer manager and/or other KBS-affiliated entities. Our advisor and its affiliates receive substantial fees from us. These fees could influence our advisor's advice to us as well as the judgment of its affiliates. Among other matters, these compensation arrangements could affect their judgment with respect to:

- the continuation, renewal or enforcement of our agreements with our advisor and its affiliates, including the advisory agreement;
- equity offerings by us, which could entitle our dealer manager to additional dealer manager fees and would likely entitle our advisor to additional acquisition and origination fees and asset management fees;
- sales of real estate investments, which entitle our advisor to disposition fees and possible subordinated incentive fees;
- acquisitions of real estate investments, which entitle our advisor to acquisition or origination fees based on the cost of the investment and asset management fees based on the cost of the investment, and not based on the quality of the investment or the quality of the services rendered to us, which may influence our advisor to recommend riskier transactions to us and/or transactions that are not in our best interest and, in the case of acquisitions of investments from other KBS-sponsored programs, which might entitle our advisor or affiliates of our advisor to disposition fees and possible subordinated incentive fees in connection with its services for the seller;
- borrowings to acquire real estate investments, which borrowings will increase the acquisition and origination fees and asset-management fees payable to our advisor;
- whether and when we seek to list our shares of common stock on a national securities exchange, which listing (i) may make it more likely for us to become self-managed or internalize our management or (ii) could entitle our advisor to a subordinated incentive listing fee, and which could also adversely affect the sales efforts for other KBS-sponsored programs, depending on the price at which our shares trade; and
- whether and when we seek to sell the company or its assets, which sale could entitle our advisor to a subordinated incentive fee and terminate the asset management fee.

Our advisor and its affiliates face conflicts of interest relating to the acquisition and origination of assets, the leasing of properties and the disposition of properties due to their relationship with other KBS-sponsored programs and/or KBS-advised investors, which could result in decisions that are not in our best interest or the best interests of our stockholders.

We rely on our sponsor, KBS Holdings LLC, and other key real estate and debt finance professionals at our advisor, including Messrs. Bren, Hall, McMillan and Schreiber, to identify suitable investment opportunities for us, to supervise property management and leasing of properties and to sell our properties. KBS REIT II, KBS Strategic Opportunity REIT, KBS Strategic Opportunity REIT II and KBS Growth & Income REIT are also advised by KBS Capital Advisors and rely on our sponsor and many of the same real estate and debt finance professionals as will future KBS-sponsored programs advised by our advisor. Messrs. Bren and Schreiber and several of the other key real estate professionals at KBS Capital Advisors are also the key real estate professionals at KBS Realty Advisors and its affiliates, the advisors to the private KBS-sponsored programs and the investment advisors to KBS-advised investors. As such, KBS-sponsored programs that have funds available for investment and KBS-advised investors that have funds available for investment rely on many of the same real estate and debt finance professionals, as will future KBS-sponsored programs and KBS-advised investors. Many investment opportunities that are suitable for us may also be suitable for other KBS-sponsored programs and KBS-advised investors. When these real estate and debt finance professionals direct an investment opportunity to any KBS-sponsored program or KBS-advised investor, they, in their sole discretion, will offer the opportunity to the program or investor for which the investment opportunity is most suitable based on the investment objectives, portfolio and criteria of each program or investor. For so long as we are externally advised, our charter provides that it shall not be a proper purpose of the company for us to make any significant investment unless our advisor has recommended the investment to us. Thus, the real estate and debt finance professionals of our advisor could direct attractive investment opportunities to other KBS-sponsored programs or KBS-advised investors. Such events could result in us investing in properties that provide less attractive returns, which would reduce the level of distributions we may be able to pay our stockholders.

We and other KBS-sponsored programs and KBS-advised investors also rely on these real estate professionals to supervise the property management and leasing of properties. If the KBS team of real estate professionals directs creditworthy prospective tenants to properties owned by another KBS-sponsored program or KBS-advised investor when it could direct such tenants to our properties, our tenant base may have more inherent risk and our properties' occupancy may be lower than might otherwise be the case.

In addition, we and other KBS-sponsored programs and KBS-advised investors rely on our sponsor and other key real estate professionals at our advisor to sell our properties. These KBS-sponsored programs and KBS-advised investors may possess properties in similar locations and/or of the same property types as ours and may be attempting to sell these properties at the same time we are attempting to sell some of our properties. If our advisor directs potential purchasers to properties owned by another KBS-sponsored program or KBS-advised investor when it could direct such purchasers to our properties, we may be unable to sell some or all of our properties at the time or at the price we otherwise would, which could limit our ability to pay distributions and reduce our stockholders' overall investment return.

Further, existing and future KBS-sponsored programs and KBS-advised investors and Messrs. Bren, Hall, McMillan and Schreiber generally are not and will not be prohibited from engaging, directly or indirectly, in any business or from possessing interests in any other business venture or ventures, including businesses and ventures involved in the acquisition, origination, development, ownership, leasing or sale of real estate-related investments.

Our sponsor, our officers, our advisor and the real estate, debt finance, management and accounting professionals assembled by our advisor face competing demands on their time and this may cause our operations and our stockholders' investment in us to suffer.

We rely on our sponsor, our officers, our advisor and the real estate, debt finance, management and accounting professionals that our advisor retains, including Messrs. Bren, Hall, McMillan and Schreiber and Jeffrey K. Waldvogel and Stacie K. Yamane, to provide services to us for the day-to-day operation of our business. KBS REIT II, KBS Strategic Opportunity REIT, KBS Strategic Opportunity REIT II and KBS Growth & Income REIT are also advised by KBS Capital Advisors and rely on our sponsor and many of the same real estate, debt finance, management and accounting professionals, as will future KBS-sponsored programs and KBS-advised investors. Further, our officers and affiliated directors are also officers and/or affiliated directors of some or all of the other public KBS-sponsored programs. Messrs. Bren, Schreiber and Waldvogel and Ms. Yamane are also executive officers of KBS REIT II and KBS Growth & Income REIT. Messrs. Hall, McMillan and Waldvogel and Ms. Yamane are executive officers of KBS Strategic Opportunity REIT and KBS Strategic Opportunity REIT II. Messrs. Bren, Schreiber and Waldvogel and Ms. Yamane are executive officers of KBS Realty Advisors and its affiliates, the advisors of the private KBS-sponsored programs and the KBS-advised investors.

As a result of their interests in other KBS-sponsored programs, their obligations to KBS-advised investors and the fact that they engage in and will continue to engage in other business activities on behalf of themselves and others, Messrs. Bren, Hall, McMillan, Schreiber and Waldvogel and Ms. Yamane face conflicts of interest in allocating their time among us, KBS REIT II, KBS Strategic Opportunity REIT, KBS Strategic Opportunity REIT II and/or KBS Growth & Income REIT and KBS Capital Advisors, other KBS-sponsored programs and/or other KBS-advised investors, as well as other business activities in which they are involved. In addition, KBS Capital Advisors and KBS Realty Advisors and their affiliates share many of the same key real estate, management and accounting professionals. During times of intense activity in other programs and ventures, these individuals may devote less time and fewer resources to our business than are necessary or appropriate to manage our business. Furthermore, some or all of these individuals may become employees of another KBS-sponsored program in an internalization transaction or, if we internalize our advisor, may not become our employees as a result of their relationship with other KBS-sponsored programs. If these events occur, the returns on our investments, and the value of our stockholders' investment in us, may decline.

All of our executive officers, our affiliated directors and the key real estate and debt finance professionals assembled by our advisor face conflicts of interest related to their positions and/or interests in our advisor and its affiliates, which could hinder our ability to implement our business strategy and to generate returns to our stockholders.

All of our executive officers, our affiliated directors and the key real estate and debt finance professionals assembled by our advisor are also executive officers, directors, managers, key professionals and/or holders of a direct or indirect controlling interest in our advisor and/or other KBS-affiliated entities. Through KBS-affiliated entities, some of these persons also serve as the investment advisors to KBS-advised investors and, through KBS Capital Advisors and KBS Realty Advisors, these persons serve as the advisor to KBS REIT II, KBS Strategic Opportunity REIT, KBS Strategic Opportunity REIT II, KBS Growth & Income REIT and other KBS-sponsored programs. As a result, they owe fiduciary duties to each of these entities, their stockholders, members and limited partners and these investors, which fiduciary duties may from time to time conflict with the fiduciary duties that they owe to us and our stockholders. Their loyalties to these other entities and investors could result in action or inaction that is detrimental to our business, which could harm the implementation of our business strategy and our investment and leasing opportunities. Further, Messrs. Bren, Hall, McMillan and Schreiber and existing and future KBS-sponsored programs and KBS-advised investors generally are not and will not be prohibited from engaging, directly or indirectly, in any business or from possessing interests in any other business venture or ventures, including businesses and ventures involved in the acquisition, development, ownership, leasing or sale of real estate investments. If we do not successfully implement our business strategy, we may be unable to generate the cash needed to pay distributions to our stockholders and to maintain or increase the value of our assets.

Our board of directors' loyalties to KBS REIT II, KBS Growth & Income REIT and possibly to future KBS-sponsored programs could influence its judgment, resulting in actions that may not be in our stockholders' best interest or that result in a disproportionate benefit to another KBS-sponsored program at our expense.

All of our directors are also directors of KBS REIT II and two of our affiliated directors are also affiliated directors of KBS Growth & Income REIT. The loyalties of our directors serving on the boards of directors of KBS REIT II and KBS Growth & Income REIT, or possibly on the boards of directors of future KBS-sponsored programs, may influence the judgment of our board of directors when considering issues for us that also may affect other KBS-sponsored programs, such as the following:

- The conflicts committee of our board of directors must evaluate the performance of our advisor with respect to whether our advisor is presenting to us our fair share of investment opportunities. If our advisor is not presenting a sufficient number of investment opportunities to us because it is presenting many opportunities to other KBS-sponsored programs or if our advisor is giving preferential treatment to other KBS-sponsored programs in this regard, our conflicts committee may not be well-suited to enforce our rights under the terms of the advisory agreement or to seek a new advisor.
- We could enter into transactions with other KBS-sponsored programs, such as property sales, acquisitions or financing arrangements. Such transactions might entitle our advisor or its affiliates to fees and other compensation from both parties to the transaction. For example, acquisitions from other KBS-sponsored programs might entitle our advisor or its affiliates to disposition fees and possible subordinated incentive fees in connection with its services for the seller in addition to acquisition or origination fees and other fees that we might pay to our advisor in connection with such transaction. Similarly, property sales to other KBS-sponsored programs might entitle our advisor or its affiliates to acquisition or origination fees in connection with its services to the purchaser in addition to disposition and other fees that we might pay to our advisor in connection with such transaction. Decisions of our board or the conflicts committee regarding the terms of those transactions may be influenced by our board's or the conflicts committee's loyalties to such other KBS-sponsored programs.
- A decision of our board or the conflicts committee regarding the timing of a debt or equity offering could be influenced by concerns that the offering would compete with offerings of other KBS-sponsored programs.
- A decision of our board or the conflicts committee regarding the timing of property sales could be influenced by concerns that the sales would compete with those of other KBS-sponsored programs.
- A decision of our board or the conflicts committee regarding whether and when we seek to list our common stock on a national securities exchange could be influenced by concerns that such listing could adversely affect the sales efforts of other KBS-sponsored programs, depending on the price at which our shares trade.

Like us, KBS REIT II compensates each independent director with an annual retainer of \$135,000, as well as compensation for attending meetings as follows:

- each member of the audit committee and conflicts committee is paid \$10,000 annually for service on such committees (except that the chair of each of the audit committee and conflicts committee is paid \$20,000 annually for service as the chair of such committees);
- after the tenth board of directors meeting of each calendar year, each independent director is paid (i) \$2,500 in cash for each in-person board of directors meeting attended for the remainder of the calendar year and (ii) \$2,000 in cash for each teleconference board of directors meeting attended for the remainder of the calendar year;
- after the tenth audit committee meeting of each calendar year, each member of the audit committee is paid (i) \$2,500 in cash for each in-person audit committee meeting attended for the remainder of the calendar year and (ii) \$2,000 in cash for each teleconference audit committee meeting attended for the remainder of the calendar year (except that the audit committee chair is paid \$3,000 for each in-person and teleconference audit committee meeting attended after the tenth audit committee meeting of each calendar year, for the remainder of each calendar year); and
- after the tenth conflicts committee meeting of each calendar year, each member of the conflicts committee is paid (i) \$2,500 in cash for each in-person conflicts committee meeting attended for the remainder of the calendar year and (ii) \$2,000 in cash for each teleconference conflicts committee meeting attended for the remainder of the calendar year (except that the conflicts committee chair is paid \$3,000 for each in-person and teleconference conflicts committee meeting attended after the tenth conflicts committee meeting of each calendar year, for the remainder of each calendar year).

In addition, KBS REIT II pays independent directors for attending other committee meetings as follows: each independent director is paid \$2,000 in cash for each in-person and teleconference committee meeting attended (except that the committee chair is paid \$3,000 for each in-person and teleconference committee meeting attended).

All directors receive reimbursement of reasonable out-of-pocket expenses incurred in connection with attendance at board of directors meetings and committee meetings.

Risks Related to Our Corporate Structure

Our charter limits the number of shares a person may own and permits our board of directors to issue stock with terms that may subordinate the rights of our common stockholders or discourage a third party from acquiring us in a manner that could result in a premium price to our stockholders.

Our charter, with certain exceptions, authorizes our directors to take such actions as are necessary and desirable to preserve our qualification as a REIT. To help us comply with the REIT ownership requirements of the Internal Revenue Code, our charter prohibits a person from directly or constructively owning more than 9.8% of our outstanding shares, unless exempted by our board of directors. In addition, our board of directors may classify or reclassify any unissued common stock or preferred stock and establish the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends and other distributions, qualifications and terms or conditions of redemption of any such stock. Thus, our board of directors could authorize the issuance of preferred stock with priority as to distributions and amounts payable upon liquidation over the rights of the holders of our common stock. These charter provisions may have the effect of delaying, deferring or preventing a change in control of us, including an extraordinary transaction (such as a merger, tender offer or sale of all or substantially all of our assets) that might provide a premium price to holders of our common stock.

Our stockholders will have limited control over changes in our policies and operations, which increases the uncertainty and risks our stockholders face.

Our board of directors determines our major policies, including our policies regarding targeted investment allocation, financing, growth, debt capitalization, REIT qualification and distributions. Our board of directors may amend or revise these and other policies without a vote of the stockholders. Under Maryland General Corporation Law and our charter, our stockholders have a right to vote only on limited matters. Our board's broad discretion in setting policies and our stockholders' inability to exert control over those policies increases the uncertainty and risks our stockholders face.

Our stockholders may not be able to sell their shares under our share redemption program and, if our stockholders are able to sell their shares under the program, they may not be able to recover an amount equal to the estimated value per share of our common stock.

Our share redemption program includes numerous restrictions that severely limit our stockholders' ability to sell their shares should they require liquidity and will limit our stockholders' ability to recover an amount equal to the estimated value per share of our common stock. Our stockholders must hold their shares for at least one year in order to participate in our share redemption program, except in connection with a stockholder's death, "qualifying disability" or "determination of incompetence" (each as defined in the share redemption program, and together with redemptions sought in connection with a stockholder's death, "Special Redemptions"). We limit the number of shares redeemed pursuant to our share redemption program as follows: (i) during any calendar year, we may redeem no more than 5% of the weighted average number of shares outstanding during the prior calendar year and (ii) during each calendar year, redemptions will be limited to the amount of net proceeds from the sale of shares under our dividend reinvestment plan during the prior calendar year; provided, that we may increase or decrease the funding available for the redemption of shares upon ten business days' notice to our stockholders and; provided further, that once we have received requests for redemptions, whether in connection with Special Redemptions or otherwise, that if honored, and when combined with all prior redemptions made during the calendar year, would result in the amount of remaining funds available for the redemption of additional shares in such calendar year being \$10.0 million or less, the last \$10.0 million of available funds shall be reserved exclusively for Special Redemptions. Further, we have no obligation to redeem shares if the redemption would violate the restrictions on distributions under Maryland law, which prohibits distributions that would cause a corporation to fail to meet statutory tests of solvency. These limits may prevent us from accommodating all redemption requests made in any year.

As a result of such limitations, on November 30, 2017, we exhausted all funds available for redemptions for the year ended December 31, 2017. Effective January 1, 2018, this limitation was reset, and based on the amount of net proceeds raised from the sale of shares under our dividend reinvestment plan during 2017, we initially had \$59.8 million available for redemptions of shares eligible for redemption in 2018. On May 8, 2018, our board of directors approved (i) additional funds for the May 2018 redemption date to be used solely for Special Redemptions and (ii) the Fourth Amended and Restated Share Redemption Program, which was effective for the June 2018 redemption date and provided for, among other changes, additional funds for the redemption of shares for calendar year 2018. As of June 30, 2018, we had exhausted all funds available for ordinary redemptions in 2018. Effective January 1, 2019, the funding limitation was reset, and based on the amount of net proceeds raised from the sale of shares under our dividend reinvestment plan during 2018, we had an aggregate of \$56.1 million available for redemptions in 2019, including the reserve for Special Redemptions. As of March 1, 2019, we exhausted all funds available for ordinary redemptions and had \$9.4 million available for Special Redemptions for the remainder of 2019. Because of the limitations on the dollar amount of shares that may be redeemed under our share redemption program, unless our board of directors authorizes additional funds for redemption, we will not be able to redeem shares submitted as ordinary redemptions for the remainder of 2019.

Pursuant to our share redemption program, unless our shares are being redeemed in connection with a Special Redemption, the redemption price for shares eligible for redemption is equal to 95% of the most recent estimated value per share. On December 3, 2018, our board of directors approved an estimated value per share of our common stock of \$12.02 based on the estimated value of our assets less the estimated value of our liabilities divided by the number of shares outstanding, all as of September 30, 2018, with the exception of an adjustment to our net asset value for the acquisition and assumed loan costs related to our buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to our net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018. In accordance with our share redemption program, redemptions made in connection with Special Redemptions are made at a price per share equal to the most recent estimated value per share of our common stock as of the applicable redemption date.

We currently expect to announce an updated estimated value per share no later than December 2019.

During their operating stages, other KBS-sponsored REITs have amended their share redemption programs to limit redemptions to Special Redemptions or place restrictive limitations on the amount of funds available for redemptions. As a result, these programs were or are not able (one program has now liquidated) to honor all redemption requests and stockholders in these programs were or are unable to have their shares redeemed when requested. In two instances, ordinary redemptions were or have been suspended for several years. When implementing these amendments, stockholders did not always have a final opportunity to submit redemptions prior to the effectiveness of the amendment to the program.

Our board may amend, suspend or terminate our share redemption program upon 10 business days' notice to stockholders, and we may increase or decrease the funding available for the redemption of shares pursuant to our share redemption program upon ten business days' notice to our stockholders. See Part II, Item 5, "Share Redemption Program" for more information about the program.

Our bylaws designate the Circuit Court for Baltimore City, Maryland as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers or employees.

Our bylaws provide that, unless we consent in writing to the selection of an alternative forum, the Circuit Court for Baltimore City, Maryland shall be the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders with respect to our company, our directors, our officers or our employees (we note we currently have no employees). This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that the stockholder believes is favorable for disputes with us or our directors, officers or employees, which may discourage meritorious claims from being asserted against us and our directors, officers and employees. Alternatively, if a court were to find this provision of our bylaws inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business, financial condition or results of operations. We adopted this provision because we believe it makes it less likely that we will be forced to incur the expense of defending duplicative actions in multiple forums and less likely that plaintiffs' attorneys will be able to employ such litigation to coerce us into otherwise unjustified settlements, and we believe the risk of a court declining to enforce this provision is remote, as the General Assembly of Maryland has specifically amended the Maryland General Corporation Law to authorize the adoption of such provisions.

The estimated value per share of our common stock may not reflect the value that stockholders will receive for their investment and does not take into account how developments subsequent to the valuation date related to individual assets, the financial or real estate markets or other events may have increased or decreased the value of our portfolio.

On December 3, 2018, our board of directors approved an estimated value per share of our common stock of \$12.02 based on the estimated value of our assets less the estimated value of our liabilities, or net asset value, divided by the number of shares outstanding, all as of September 30, 2018, with the exception of an adjustment to our net asset value for the acquisition and assumed loan costs related to our buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to our net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018. We did not make any other adjustments to the estimated value per share subsequent to September 30, 2018, including any adjustments relating to the following, among others: (i) the issuance of common stock and the payment of related offering costs related to our dividend reinvestment plan offering; (ii) net operating income earned and distributions declared; and (iii) the redemption of shares. We provided this estimated value per share to assist broker-dealers that participated in our now-terminated initial public offering in meeting their customer account statement reporting obligations under National Association of Securities Dealers Conduct Rule 2340 as required by the Financial Industry Regulatory Authority ("FINRA"). This valuation was performed in accordance with the provisions of and also to comply with Practice Guideline 2013—01, *Valuations of Publicly Registered, Non-Listed REITs*, issued by the Institute for Portfolio Alternatives (formerly known as the Investment Program Association) ("IPA") in April 2013 (the "IPA Valuation Guidelines").

We engaged Duff & Phelps, LLC ("Duff & Phelps"), an independent third-party real estate valuation firm, to provide appraisals for 29 of our consolidated real estate properties owned as of September 30, 2018 (the "Consolidated Properties") and an investment in an office property held through an unconsolidated joint venture as of September 30, 2018 (together with the Consolidated Properties, the "Appraised Properties") and to provide a calculation of the range in estimated value per share of our common stock as of December 3, 2018. Duff & Phelps based this range in estimated value per share upon (i) its appraisals of the Appraised Properties, (ii) valuations performed by KBS Capital Advisors of our cash, other assets, mortgage debt and other liabilities and (iii) an adjustment to our net asset value for the acquisition and assumed loan costs related to our buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to our net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018.

As with any valuation methodology, the methodologies used are based upon a number of estimates and assumptions that may not be accurate or complete. Different parties using different assumptions and estimates could derive a different estimated value per share of our common stock, and this difference could be significant. The estimated value per share is not audited and does not represent the fair value of our assets less the fair value of our liabilities according to U.S. generally accepted accounting principles (“GAAP”), nor does it represent a liquidation value of our assets and liabilities or the price at which our shares of common stock would trade on a national securities exchange. The estimated value per share does not reflect a discount for the fact that we are externally managed, nor does it reflect a real estate portfolio premium/discount versus the sum of the individual property values. The estimated value per share also does not take into account estimated disposition costs and fees for real estate properties that were not under contract to sell as of December 3, 2018, debt prepayment penalties that could apply upon the prepayment of certain of our debt obligations, the impact of restrictions on the assumption of debt or swap breakage fees that may be incurred upon the termination of certain of our swaps prior to expiration. The estimated value per share does not take into consideration acquisition-related costs and financing costs related to future acquisitions subsequent to December 3, 2018. Accordingly, with respect to the estimated value per share, we can give no assurance that:

- a stockholder would be able to resell his or her shares at our estimated value per share;
- a stockholder would ultimately realize distributions per share equal to our estimated value per share upon liquidation of our assets and settlement of our liabilities or a sale of our company;
- our shares of common stock would trade at the estimated value per share on a national securities exchange;
- another independent third-party appraiser or third-party valuation firm would agree with our estimated value per share; or
- the methodology used to determine our estimated value per share would be acceptable to FINRA or for compliance with ERISA reporting requirements.

The value of our shares will fluctuate over time in response to developments related to future investments, the performance of individual assets in our portfolio and the management of those assets, the real estate and finance markets and due to other factors. As such, the estimated value per share does not take into account developments in our portfolio since December 3, 2018. For a full description of the methodologies and assumptions used to value our assets and liabilities in connection with the calculation of the estimated value per share, see Part II, Item 5, “Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities — Market Information.”

We currently expect to utilize an independent valuation firm to update the estimated value per share no later than December 2019.

The actual value of shares that we repurchase under our share redemption program may be less than what we pay.

Under our share redemption program, shares currently may be repurchased at varying prices depending on whether the redemptions are in connection with a Special Redemption. Pursuant to our share redemption program, redemptions made in connection with Special Redemptions are made at a price per share equal to the most recent estimated value per share of our common stock as of the applicable redemption date, which is currently \$12.02 per share, and all redemptions other than Special Redemptions are made at a price per share equal to 95% of our most recent estimated value per share as of the applicable redemption date, which is currently \$11.42. Although these redemption prices are based on our current estimated value per share, this reported value is likely to differ from the price at which a stockholder could resell his or her shares for the reasons discussed in the risk factor above. Thus, when we repurchase shares of our common stock at \$12.02 per share, the actual value of the shares that we repurchase is likely to be less, and the repurchase is likely to be dilutive to our remaining stockholders. Even at lower repurchase prices, the actual value of the shares may be less than what we pay and the repurchase may be dilutive to our remaining stockholders.

If funds are not available from our dividend reinvestment plan offering for general corporate purposes, then we may have to use a greater proportion of our cash flow from operations to meet our general cash requirements, which would reduce cash available for distributions and could limit our ability to redeem shares under our share redemption program.

We depend on the proceeds from our dividend reinvestment plan offering for general corporate purposes including, but not limited to: the repurchase of shares under our share redemption program; capital expenditures, tenant improvement costs and leasing costs related to our real estate properties; reserves required by any financings of our real estate investments; the acquisition or origination of real estate investments, which would include payment of acquisition or origination fees to our advisor; and the repayment of debt. We cannot predict with any certainty how much, if any, dividend reinvestment plan proceeds will be available for general corporate purposes. If such funds are not available from our dividend reinvestment plan offering, then we may have to use a greater proportion of our cash flow from operations to meet our general cash requirements, which would reduce cash available for distributions and could limit our ability to redeem shares under our share redemption program.

See also the discussion above under “Our stockholders may not be able to sell their shares under our share redemption program and, if our stockholders are able to sell their shares under the program, they may not be able to recover an amount equal to the estimated value per share of our common stock.”

Our stockholders’ interest in us will be diluted if we issue additional shares, which could reduce the overall value of their investment.

Our common stockholders do not have preemptive rights to any shares we issue in the future. Our charter authorizes us to issue 1,010,000,000 shares of capital stock, of which 1,000,000,000 shares are designated as common stock and 10,000,000 shares are designated as preferred stock. Our board of directors may increase the number of authorized shares of capital stock without stockholder approval. Our board may elect to (i) sell additional shares in our dividend reinvestment plan or in future primary offerings; (ii) issue equity interests in private offerings; (iii) issue shares to our advisor, or its successors or assigns, in payment of an outstanding fee obligation; (iv) issue shares of our common stock to sellers of properties or assets we acquire in connection with an exchange of limited partnership interests of the Operating Partnership; or (v) otherwise issue additional shares of our capital stock. To the extent we issue additional equity interests, whether in future primary offerings, pursuant to our dividend reinvestment plan or otherwise, our stockholders’ percentage ownership interest in us would be diluted. In addition, depending upon the terms and pricing of any additional issuance of shares, the use of the proceeds and the value of our real estate investments, our stockholders may also experience dilution in the book value and fair value of their shares and in the earnings and distributions per share.

Payment of fees to our advisor and its affiliates reduces cash available for investment and distribution to our stockholders and increases the risk that our stockholders will not be able to recover the amount of their investment in our shares or an amount equal to the estimated value per share of our common stock.

Our advisor and its affiliates perform services for us in connection with the selection and acquisition or origination of our real estate investments, the management and leasing of our real estate properties and the disposition of our investments. We pay them substantial fees for these services, which results in immediate dilution of the value of our stockholders’ investment in us and reduces the amount of cash available for investments or distribution to stockholders. Compensation to be paid to our advisor may be increased with the approval of our conflicts committee and subject to the limitations in our charter, which would further dilute our stockholders’ investment in us and reduce the amount of cash available for investment or distribution to stockholders.

We may also pay significant fees during our listing/liquidation stage. Although most of the fees expected to be paid during our listing/liquidation stage are contingent on our stockholders first receiving agreed-upon investment returns, the investment-return thresholds may be reduced with the approval of our conflicts committee and subject to the limitations in our charter.

Therefore, these fees increase the risk that the amount of cash available for distribution to our stockholders upon a liquidation of our portfolio would be less than the amount stockholders paid to acquire our shares or an amount equal to the estimated value per share of our common stock. These substantial fees and other payments also increase the risk that our stockholders will not be able to resell their shares at a profit.

If we are unable to obtain funding for future capital needs, cash distributions to our stockholders and the value of an investment in us could decline.

When tenants do not renew their leases or otherwise vacate their space, we will often need to expend substantial funds for improvements to the vacated space in order to attract replacement tenants. Even when tenants do renew their leases we may agree to make improvements to their space as part of our negotiations. If we need additional capital in the future to improve or maintain our properties or for any other reason, we may have to obtain funding from sources other than our cash flow from operations or proceeds from our dividend reinvestment plan, such as borrowings or future equity offerings. These sources of funding may not be available on attractive terms or at all. If we cannot procure additional funding for capital improvements, our investments may generate lower cash flows or decline in value, or both, which would limit our ability to pay distributions to our stockholders and could reduce the value of our stockholders’ investment.

Although we are not currently afforded the protection of the Maryland General Corporation Law relating to deterring or defending hostile takeovers, our board of directors could opt into these provisions of Maryland law in the future, which may discourage others from trying to acquire control of us and may prevent our stockholders from receiving a premium price for their stock in connection with a business combination.

Under Maryland law, “business combinations” between a Maryland corporation and certain interested stockholders or affiliates of interested stockholders are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations include a merger, consolidation, share exchange or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities. Also under Maryland law, control shares of a Maryland corporation acquired in a control share acquisition have no voting rights except to the extent approved by a vote of two-thirds of the votes entitled to be cast on the matter. Shares owned by the acquirer, an officer of the corporation or an employee of the corporation who is also a director of the corporation are excluded from the vote on whether to accord voting rights to the control shares. Should our board of directors opt into these provisions of Maryland law, it may discourage others from trying to acquire control of us and increase the difficulty of consummating any offer. Similarly, provisions of Title 3, Subtitle 8 of the Maryland General Corporation Law could provide similar anti-takeover protection.

Our charter includes an anti-takeover provision that may discourage a stockholder from launching a tender offer for our shares.

Our charter provides that any tender offer made by a stockholder, including any “mini-tender” offer, must comply with most provisions of Regulation 14D of the Securities Exchange Act of 1934, as amended. The offering stockholder must provide our company notice of such tender offer at least 10 business days before initiating the tender offer. If the offering stockholder does not comply with these requirements, our company will have the right to redeem that stockholder’s shares and any shares acquired in such tender offer. In addition, the noncomplying stockholder shall be responsible for all of our company’s expenses in connection with that stockholder’s noncompliance. This provision of our charter may discourage a stockholder from initiating a tender offer for our shares and prevent our stockholders from receiving a premium price for their shares in such a transaction.

General Risks Related to Investments in Real Estate

Economic, market and regulatory changes that impact the real estate market generally may decrease the value of our investments and weaken our operating results.

Our operating results and the performance of our real estate properties are subject to the risks typically associated with real estate, any of which could decrease the value of our investments and could weaken our operating results, including:

- downturns in national, regional and local economic conditions;
- competition from other office and industrial buildings;
- adverse local conditions, such as oversupply or reduction in demand for office and industrial buildings and changes in real estate zoning laws that may reduce the desirability of real estate in an area;
- vacancies, changes in market rental rates and the need to periodically repair, renovate and re-let space;
- changes in interest rates and the availability of permanent mortgage financing, which may render the sale of a property or loan difficult or unattractive;
- changes in tax (including real and personal property tax), real estate, environmental and zoning laws;
- natural disasters such as hurricanes, earthquakes and floods;
- acts of war or terrorism, including the consequences of terrorist attacks, such as those that occurred on September 11, 2001;
- the potential for uninsured or underinsured property losses; and
- periods of high interest rates and tight money supply.

Any of the above factors, or a combination thereof, could result in a decrease in our cash flow from operations and a decrease in the value of our investments, which would have an adverse effect on our operations, on our ability to pay distributions to our stockholders and on the value of our stockholders’ investment.

If our acquisitions fail to perform as expected, cash distributions to our stockholders may decline.

As of March 8, 2019, we owned 28 office properties and one mixed-use office/retail property and had entered into a consolidated joint venture to develop and subsequently operate a multifamily apartment project, which is currently under construction. We made these investments based on an underwriting analysis with respect to each asset and how the asset fits into our portfolio. If these assets do not perform as expected we may have less cash flow from operating activities available to fund distributions and stockholder returns may be reduced.

Properties that have significant vacancies could be difficult to sell, which could diminish the return on these properties and adversely affect our cash flow and ability to pay distributions to our stockholders.

A property may incur vacancies either by the expiration and non-renewal of tenant leases or the continued default of tenants under their leases. If vacancies continue for a long period of time, we may suffer reduced revenues resulting in less cash available for distribution to our stockholders. In addition, the resale value of the property could be diminished because the market value of a particular property depends principally upon the value of the cash flow generated by the leases associated with that property. Such a reduction in the resale value of a property could also reduce the value of our stockholders' investment.

Further, some of our assets may be outfitted to suit the particular needs of the tenants. We may have difficulty replacing the tenants of these properties if the outfitted space limits the types of businesses that could lease that space without major renovation. If a tenant does not renew a lease or, terminates or defaults on a lease, we may be unable to lease the property for the rent previously received or sell the property without incurring a loss. Because the market value of a particular property depends principally upon the value of the cash flow generated by the leases associated with such property, we may incur a loss upon the sale of a property with significant vacant space. These events could cause us to reduce distributions to stockholders.

To the extent that we buy core real estate properties with occupancy of less than 95% or that have significant rollover during the expected hold period, we may incur significant costs for capital expenditures and tenant improvement costs to lease up the properties, which increases the risk of loss associated with these properties compared to other properties.

We have invested in, and may make additional investments in, core properties that have an occupancy rate of less than 95%, significant rollover during the expected hold period, or other characteristics that could provide an opportunity for us to achieve appreciation by increasing occupancy, negotiating new leases with higher rental rates and/or executing enhancement projects. We likely will need to fund reserves or maintain capacity under our credit facilities to fund capital expenditures, tenant improvements and other improvements in order to attract new tenants to these properties. To the extent we do not maintain adequate reserves to fund these costs, we may use our cash flow from operating activities, which will reduce the amount of cash flow available for distribution to our stockholders. If we are unable to execute our business plan for these investments, the overall return on these investments will decrease.

We may enter into long-term leases with tenants in certain properties, which may not result in fair market rental rates over time.

We may enter into long-term leases with tenants of certain of our properties, or include renewal options that specify a maximum rate increase. These leases would provide for rent to increase over time; however, if we do not accurately judge the potential for increases in market rental rates, we may set the terms of these long-term leases at levels such that, even after contractual rent increases, the rent under our long-term leases is less than then-current market rates. Further, we may have no ability to terminate those leases or to adjust the rent to then-prevailing market rates. As a result, our cash available for distribution could be lower than if we did not enter into long-term leases.

Certain property types, such as industrial properties, that we may acquire may not have efficient alternative uses and, if we acquire such properties, we may have difficulty leasing them to new tenants and/or have to make significant capital expenditures to them to do so.

Certain property types, particularly industrial properties, can be difficult to lease to new tenants, should the current tenant terminate or choose not to renew its lease. These properties generally will have received significant tenant-specific improvements and only very specific tenants may be able to use such improvements, making the properties very difficult to re-lease in their current condition. Additionally, an interested tenant may demand that, as a condition of executing a lease for the property, we finance and construct significant improvements so that the tenant could use the property. This expense may decrease cash available for distribution, as we likely would have to (i) pay for the improvements up front or (ii) finance the improvements at potentially unattractive terms.

To the extent we acquire retail properties with anchor tenants, our revenue will be significantly impacted by the success and economic viability of our retail anchor tenants. Our reliance on a single tenant or significant tenants in certain properties may decrease our ability to lease vacated space and adversely affect the returns on our stockholders' investment in us.

In the retail sector, a tenant occupying all or a large portion of the gross leasable area of a retail center, commonly referred to as an anchor tenant, may become insolvent, may suffer a downturn in business and default on or terminate its lease, or may decide not to renew its lease. Any of these events would result in a reduction or cessation in rental payments to us from that tenant and would adversely affect our financial condition. A lease termination by an anchor tenant could result in lease terminations or reductions in rent by other tenants whose leases may permit cancellation or rent reduction if an anchor tenant's lease is terminated. In such event, we may be unable to re-lease the vacated space. Similarly, the leases of some anchor tenants may permit those anchor tenants to transfer their leases to other retailers. The transfer to a new anchor tenant could cause customer traffic in the retail center to decrease and thereby reduce the income generated by that retail center. A lease transfer to a new anchor tenant could also allow other tenants, under the terms of their respective leases, to make reduced rental payments or to terminate their leases. In the event that we are unable to re-lease the vacated space to a new anchor tenant, we may incur additional expenses in order to renovate and subdivide the space to be able to re-lease the space to more than one tenant.

Our retail tenants will face competition from numerous retail channels and may be disproportionately affected by economic conditions. These events could reduce the profitability of our retail properties and affect our ability to pay distributions.

Retailers will face continued competition from discount or value retailers, factory outlet centers, wholesale clubs, mail order catalogues and operators, television shopping networks and shopping via the Internet. Such conditions could adversely affect our retail tenants and, consequently, our funds available for distribution.

We depend on tenants for our revenue generated by our real estate investments and, accordingly, our revenue generated by our real estate investments and our ability to pay distributions to our stockholders are partially dependent upon the success and economic viability of our tenants and our ability to retain and attract tenants. Non-renewals, terminations or lease defaults could reduce our net income and limit our ability to pay distributions to our stockholders.

The success of our real estate investments materially depends upon the financial stability of the tenants leasing the properties we own. The inability of a single major tenant or a significant number of smaller tenants to meet their rental obligations would significantly lower our net income. A non-renewal after the expiration of a lease term, termination or default by a tenant on its lease payments to us would cause us to lose the revenue associated with such lease and require us to find an alternative source of revenue to meet mortgage payments and prevent a foreclosure if the property is subject to a mortgage. In the event of a tenant default or bankruptcy, we may experience delays in enforcing our rights as landlord of a property and may incur substantial costs in protecting our investment and re-leasing the property. Tenants may have the right to terminate their leases upon the occurrence of certain customary events of default and, in other circumstances, may not renew their leases or, because of market conditions, may only be able to renew their leases on terms that are less favorable to us than the terms of their initial leases.

The bankruptcy or insolvency of our tenants or delays by our tenants in making rental payments could seriously harm our operating results and financial condition.

Any bankruptcy filings by or relating to any of our tenants could bar us from collecting pre-bankruptcy debts from that tenant, unless we receive an order permitting us to do so from the bankruptcy court. A tenant bankruptcy could delay our efforts to collect past due balances under the relevant leases, and could ultimately preclude full collection of these sums. If a lease is rejected by a tenant in bankruptcy, we would have only a general unsecured claim for damages. Any unsecured claim we hold against a bankrupt entity may be paid only to the extent that funds are available and only in the same percentage as is paid to all other holders of unsecured claims. We may recover substantially less than the full value of any unsecured claims, which would harm our financial condition.

Our inability to sell a property at the time and on the terms we want could limit our ability to pay distributions to our stockholders and could reduce the value of our stockholders' investment in us.

Many factors that are beyond our control affect the real estate market and could affect our ability to sell properties for the price, on the terms or within the time frame that we desire. These factors include general economic conditions, the availability of financing, interest rates and other factors, including supply and demand. Because real estate investments are relatively illiquid, we have a limited ability to vary our portfolio in response to changes in economic or other conditions. Further, before we can sell a property on the terms we want, it may be necessary to expend funds to correct defects or to make improvements. However, we can give no assurance that we will have the funds available to correct such defects or to make such improvements. We may be unable to sell our properties at a profit. Our inability to sell properties at the time and on the terms we want could reduce our cash flow, limit our ability to pay distributions to our stockholders and reduce the value of our stockholders' investment in us.

If we sell a property by providing financing to the purchaser, we will bear the risk of default by the purchaser, which could delay or reduce cash available for distribution to our stockholders.

If we decide to sell additional properties, we intend to use our best efforts to sell them for cash; however, in some instances, we may sell our properties by providing financing to purchasers. When we provide financing to a purchaser, we will bear the risk that the purchaser may default, which could reduce our cash distributions to stockholders. Even in the absence of a purchaser default, the distribution of the proceeds of the sale to our stockholders, or the reinvestment of the proceeds in other assets, will be delayed until the promissory note or other property we may accept upon a sale is actually paid, sold, refinanced or otherwise disposed.

Potential development and construction delays and resultant increased costs and risks may hinder our operating results and decrease our net income.

From time to time we may acquire unimproved real property or properties that are under development or construction. Investments in such properties, such as our investment in Hardware Village, will be subject to the uncertainties associated with the development and construction of real property, including those related to re-zoning land for development, environmental concerns of governmental entities and/or community groups and our builders' ability to build in conformity with plans, specifications, budgeted costs and timetables. If a builder fails to perform, we may resort to legal action to rescind the purchase or the construction contract or to compel performance. A builder's performance may also be affected or delayed by conditions beyond the builder's control. Delays in completing construction could also give tenants the right to terminate preconstruction leases. We may incur additional risks when we make periodic progress payments or other advances to builders before they complete construction. These and other factors can result in increased costs of a project or loss of our investment. In addition, we will be subject to normal lease-up risks relating to newly-constructed projects. We also must rely on rental income and expense projections and estimates of the fair market value of property upon completion of construction when agreeing upon a purchase price at the time we acquire the property. If our projections are inaccurate, we may pay too much for a property, and the return on our investment could suffer.

Actions of our joint venture partners could reduce the returns on joint venture investments and decrease our stockholders' overall return.

We have entered into the Hardware Village joint venture and may enter into additional joint ventures with third parties to acquire properties and other assets. We may also purchase and develop additional properties in partnerships, co-tenancies or other co-ownership arrangements. Such investments may involve risks not otherwise present with other methods of investment, including, for example, the following risks:

- that our co-venturer, co-tenant or partner in an investment could become insolvent or bankrupt;
- that such co-venturer, co-tenant or partner may at any time have economic or business interests or goals that are or that become inconsistent with our business interests or goals;
- that such co-venturer, co-tenant or partner may be in a position to take action contrary to our instructions or requests or contrary to our policies or objectives; or
- that disputes between us and our co-venturer, co-tenant or partner may result in litigation or arbitration that would increase our expenses and prevent our officers and directors from focusing their time and effort on our operations.

Any of the above might subject a property to liabilities in excess of those contemplated and thus reduce our returns on that investment and the value of our stockholders' investment in us.

Costs imposed pursuant to laws and governmental regulations may reduce our net income and our cash available for distribution to our stockholders.

Real property and the operations conducted on real property are subject to federal, state and local laws and regulations relating to protection of the environment and human health. We could be subject to liability in the form of fines, penalties or damages for noncompliance with these laws and regulations. These laws and regulations generally govern wastewater discharges, air emissions, the operation and removal of underground and above-ground storage tanks, the use, storage, treatment, transportation and disposal of solid and hazardous materials, the remediation of contamination associated with the release or disposal of solid and hazardous materials, the presence of toxic building materials and other health and safety-related concerns.

Some of these laws and regulations may impose joint and several liability on the tenants, owners or operators of real property for the costs to investigate or remediate contaminated properties, regardless of fault, whether the contamination occurred prior to purchase, or whether the acts causing the contamination were legal. Our tenants' operations, the condition of properties at the time we buy them, operations in the vicinity of our properties, such as the presence of underground storage tanks, or activities of unrelated third parties may affect our properties.

The presence of hazardous substances, or the failure to properly manage or remediate these substances, may hinder our ability to sell, rent or pledge such property as collateral for future borrowings. Any material expenditures, fines, penalties or damages we must pay will reduce our ability to pay distributions to our stockholders and may reduce the value of our stockholders' investment in us.

The costs of defending against claims of environmental liability, of complying with environmental regulatory requirements, of remediating any contaminated property or of paying personal injury or other damage claims could reduce our cash available for distribution to our stockholders.

Under various federal, state and local environmental laws, ordinances and regulations, a current or previous real property owner or operator may be liable for the cost of removing or remediating hazardous or toxic substances on, under or in such property. These costs could be substantial. Such laws often impose liability whether or not the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. Environmental laws also may impose liens on property or restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures or prevent us from entering into leases with prospective tenants that may be impacted by such laws. Environmental laws provide for sanctions for noncompliance and may be enforced by governmental agencies or, in certain circumstances, by private parties. Certain environmental laws and common law principles could be used to impose liability for the release of and exposure to hazardous substances, including asbestos-containing materials and lead-based paint. Third parties may seek recovery from real property owners or operators for personal injury or property damage associated with exposure to released hazardous substances and governments may seek recovery for natural resource damage. The costs of defending against claims of environmental liability, of complying with environmental regulatory requirements, of remediating any contaminated property, or of paying personal injury, property damage or natural resource damage claims could reduce our cash available for distribution to our stockholders.

All of our real estate properties are subject to Phase I environmental assessments prior to the time they are acquired; however, such assessments may not provide complete environmental histories due, for example, to limited available information about prior operations at the properties or other gaps in information at the time we acquire the property. A Phase I environmental assessment is an initial environmental investigation to identify potential environmental liabilities associated with the current and past uses of a given property. If any of our properties were found to contain hazardous or toxic substances after our acquisition, the value of our investment could decrease below the amount paid for such investment. In addition, real estate-related investments in which we invest may be secured by properties with recognized environmental conditions. Where we are secured creditors, we will attempt to acquire contractual agreements, including environmental indemnities, that protect us from losses arising out of environmental problems in the event the property is transferred by foreclosure or bankruptcy; however, no assurances can be given that such indemnities would fully protect us from responsibility for costs associated with addressing any environmental problems related to such properties.

Costs associated with complying with the Americans with Disabilities Act may decrease our cash available for distribution.

Our properties may be subject to the Americans with Disabilities Act of 1990, as amended, or the Disabilities Act. Under the Disabilities Act, all places of public accommodation are required to comply with federal requirements related to access and use by disabled persons. The Disabilities Act has separate compliance requirements for "public accommodations" and "commercial facilities" that generally require that buildings and services be made accessible and available to people with disabilities. The Disabilities Act's requirements could require removal of access barriers and could result in the imposition of injunctive relief, monetary penalties or, in some cases, an award of damages. Any funds used for Disabilities Act compliance will reduce our net income and the amount of cash available for distribution to our stockholders.

Uninsured losses relating to real property or excessively expensive premiums for insurance coverage could reduce our cash flow from operations and the return on our stockholders' investment in us.

There are types of losses, generally catastrophic in nature, such as losses due to wars, acts of terrorism, earthquakes, floods, hurricanes, pollution or environmental matters, that are uninsurable or not economically insurable, or may be insured subject to limitations, such as large deductibles or co-payments. Insurance risks associated with potential acts of terrorism could sharply increase the premiums we pay for coverage against property and casualty claims. We may not be able to obtain insurance against the risk of terrorism because it may not be available or may not be available on terms that are economically feasible. The terrorism insurance that we obtain may not be sufficient to cover loss for damages to our properties as a result of terrorist attacks. The inability to obtain sufficient terrorism insurance or any terrorism insurance at all could limit our financing and refinancing options as some mortgage lenders have begun to insist that specific coverage against terrorism be purchased by commercial owners as a condition for providing loans. In such instances, we may be required to provide other financial support, either through financial assurances or self-insurance, to cover potential losses. We may not have adequate coverage for such losses. If any of our properties incurs a casualty loss that is not fully insured, the value of our assets will be reduced by any such uninsured loss, which will reduce the value of our stockholders' investment in us. In addition other than any working capital reserve or other reserves we may establish, we have limited sources of funding to repair or reconstruct any uninsured property. Also, to the extent we must pay unexpectedly large amounts for insurance, we could suffer reduced earnings that would result in lower distributions to our stockholders.

Competition from other apartment communities for tenants could reduce our profitability and the return on our stockholders' investment.

The apartment community industry is highly competitive. This competition could reduce occupancy levels and revenues at our apartment communities, which would adversely affect our operations. We are currently developing, through the Hardware Village joint venture, the Hardware Village apartment community, which we will subsequently operate through the joint venture. The Hardware Village west building was completed in 2018 and is currently being leased up, and the Hardware Village east building is expected to be completed by July 2019. We expect to face competition from many sources. We will face competition from other apartment communities both in the immediate vicinity and in the larger geographic market where our apartment communities are located. Overbuilding of apartment communities may occur. If so, this will increase the number of apartment units available and may decrease occupancy and apartment rental rates. In addition, increases in operating costs due to inflation may not be offset by increased apartment rental rates.

Risks Related to Real Estate-Related Investments

Any future real estate-related investments we make will be subject to the risks typically associated with real estate.

Any future investments we make in real estate loans generally will be directly or indirectly secured by a lien on real property (or the equity interests in an entity that owns real property) that, upon the occurrence of a default on the loan, could result in our taking ownership of the property. The values of these properties may change after the dates of acquisition or origination of the loans. If the values of the underlying properties drop, our risk will increase because of the lower value of the security associated with such loans. In this manner, real estate values could impact the values of our loan investments. Any investments we make in residential and commercial mortgage-backed securities and other real estate-related investments may be similarly affected by real estate property values. Therefore, any real estate-related investments we make will be subject to the risks typically associated with real estate, which are described above under the heading “- General Risks Related to Investments in Real Estate.”

Any future investments we make in real estate loans will be subject to interest rate fluctuations that will affect our returns as compared to market interest rates; accordingly, the value of our stockholders' investment in us will be subject to fluctuations in interest rates.

With respect to fixed rate, long-term loans receivable, if interest rates rise, the loans could yield a return that is lower than then-current market rates. If interest rates decrease, we will be adversely affected to the extent that loans are prepaid because we may not be able to reinvest the proceeds at as high of an interest rate. If we invest in variable-rate loans receivable and interest rates decrease, our revenues will also decrease. For these reasons, investments in real estate loans, returns on those loans and the value of our stockholders' investment in us would be subject to fluctuations in interest rates.

The mortgage loans we may invest in and the mortgage loans underlying any mortgage securities we may invest in are subject to delinquency, foreclosure and loss, which could result in losses to us.

Commercial real estate loans generally are secured by commercial real estate properties and are subject to risks of delinquency and foreclosure. The ability of a borrower to repay a loan secured by an income-producing property typically is dependent primarily upon the successful operation of such property rather than upon the existence of independent income or assets of the borrower. If the net operating income of the property is reduced, the borrower's ability to repay the loan may be impaired. Net operating income of an income-producing property can be affected by, among other things: tenant mix, success of tenant businesses, occupancy rates, property management decisions, property location and condition, competition from comparable types of properties, changes in laws that increase operating expenses or limit rents that may be charged, any need to address environmental contamination at the property, the occurrence of any uninsured casualty at the property, changes in national, regional or local economic conditions and/or specific industry segments, declines in regional or local real estate values, declines in regional or local rental or occupancy rates, increases in interest rates, real estate tax rates and other operating expenses, changes in governmental rules, fiscal policies and regulations (including environmental legislation), natural disasters, terrorism, social unrest and civil disturbances.

In the event of any default under any mortgage loan we may acquire, we will bear a risk of loss of principal and accrued interest to the extent of any deficiency between the value of the collateral and the principal and accrued interest of the mortgage loan, which could have a material adverse effect on our cash flow from operations. Foreclosure on a property securing a mortgage loan can be an expensive and lengthy process that could have a substantial negative effect on our anticipated return on the investment. In the event of the bankruptcy of a mortgage loan borrower, the mortgage loan to such borrower will be deemed to be secured only to the extent of the value of the underlying collateral at the time of bankruptcy (as determined by the bankruptcy court), and the lien securing the mortgage loan will be subject to the avoidance powers of the bankruptcy trustee or debtor-in-possession to the extent the lien is unenforceable under state law.

Hedging against interest rate exposure may adversely affect our earnings, limit our gains or result in losses, which could adversely affect cash available for distribution to our stockholders.

We have entered into and in the future may enter into interest rate swap agreements or pursue other interest rate hedging strategies. Our hedging activity will vary in scope based on the level of interest rates, the type of investments we hold, and other changing market conditions. Interest rate hedging may fail to protect or could adversely affect us because, among other things:

- interest rate hedging can be expensive, particularly during periods of rising and volatile interest rates;
- available interest rate hedging products may not correspond directly with the interest rate risk for which protection is sought;
- the duration of the hedge may not match the duration of the related liability or asset;
- the amount of income that a REIT may earn from hedging transactions to offset losses due to fluctuations in interest rates is limited by federal tax provisions governing REITs;
- the credit quality of the party owing money on the hedge may be downgraded to such an extent that it impairs our ability to sell or assign our side of the hedging transaction;
- the party owing money in the hedging transaction may default on its obligation to pay; and
- we may purchase a hedge that turns out not to be necessary, i.e., a hedge that is out of the money.

Any hedging activity we engage in may adversely affect our earnings, which could adversely affect cash available for distribution to our stockholders. Therefore, while we may enter into such transactions to seek to reduce interest rate risks, unanticipated changes in interest rates may result in poorer overall investment performance than if we had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the investments being hedged or liabilities being hedged may vary materially. Moreover, for a variety of reasons, we may not seek to establish a perfect correlation between such hedging instruments and the interest rate risk sought to be hedged. Any such imperfect correlation may prevent us from achieving the intended accounting treatment and may expose us to risk of loss.

We assume the credit risk of our counterparties with respect to derivative transactions.

We enter into derivative contracts for risk management purposes to hedge our exposure to cash flow variability caused by changing interest rates on our variable rate notes payable and we may enter into such contracts if we acquire any variable rate real estate loans receivable. These derivative contracts generally are entered into with bank counterparties and are not traded on an organized exchange or guaranteed by a central clearing organization. We would therefore assume the credit risk that our counterparties will fail to make periodic payments when due under these contracts or become insolvent. If a counterparty fails to make a required payment, becomes the subject of a bankruptcy case, or otherwise defaults under the applicable contract, we would have the right to terminate all outstanding derivative transactions with that counterparty and settle them based on their net market value or replacement cost. In such an event, we may be required to make a termination payment to the counterparty, or we may have the right to collect a termination payment from such counterparty. We assume the credit risk that the counterparty will not be able to make any termination payment owing to us. We may not receive any collateral from a counterparty, or we may receive collateral that is insufficient to satisfy the counterparty's obligation to make a termination payment. If a counterparty is the subject of a bankruptcy case, we will be an unsecured creditor in such case unless the counterparty has pledged sufficient collateral to us to satisfy the counterparty's obligations to us.

We assume the risk that our derivative counterparty may terminate transactions early.

If we fail to make a required payment or otherwise default under the terms of a derivative contract, the counterparty would have the right to terminate all outstanding derivative transactions between us and that counterparty and settle them based on their net market value or replacement cost. In certain circumstances, the counterparty may have the right to terminate derivative transactions early even if we are not defaulting. If our derivative transactions are terminated early, it may not be possible for us to replace those transactions with another counterparty, on as favorable terms or at all.

We may be required to collateralize our derivative transactions.

We may be required to secure our obligations to our counterparties under our derivative contracts by pledging collateral to our counterparties. That collateral may be in the form of cash, securities or other assets. If we default under a derivative contract with a counterparty, or if a counterparty otherwise terminates one or more derivative contracts early, that counterparty may apply such collateral toward our obligation to make a termination payment to the counterparty. If we have pledged securities or other assets, the counterparty may liquidate those assets in order to satisfy our obligations. If we are required to post cash or securities as collateral, such cash or securities will not be available for use in our business. Cash or securities pledged to counterparties may be repledged by counterparties and may not be held in segregated accounts. Therefore, in the event of a counterparty insolvency, we may not be entitled to recover some or all collateral pledged to that counterparty, which could result in losses and have an adverse effect on our operations.

There can be no assurance that the direct or indirect effects of the Dodd-Frank Act and other applicable non-U.S. regulations will not have an adverse effect on our interest rate hedging activities.

Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act") imposed additional regulations on derivatives markets and transactions. Such regulations and, to the extent we trade with counterparties organized in non-US jurisdictions, any applicable regulations in those jurisdictions, are still being implemented, and will affect our interest rate hedging activities. While the full impact of regulation on our interest rate hedging activities cannot be fully assessed until all final rules and regulations are implemented, such regulation may affect our ability to enter into hedging or other risk management transactions, may increase our costs in entering into such transactions, and/or may result in us entering into such transactions on less favorable terms than prior to implementation of such regulation. For example, but not by way of limitation, the Dodd-Frank Act and the rulemaking thereunder provides for significantly increased regulation of the derivative transactions used to affect our interest rate hedging activities, including: (i) regulatory reporting, (ii) subject to an exemption for end-users of swaps upon which we and our subsidiaries generally rely, mandated clearing of certain derivatives transactions through central counterparties and execution on regulated exchanges or execution facilities, and (iii) to the extent we are required to clear any such transactions, margin and collateral requirements. The imposition, or the failure to comply with, any of the foregoing requirements may have an adverse effect on our business and our stockholders' return.

Our investments in derivatives are carried at estimated fair value as determined by us and, as a result, there may be uncertainty as to the value of these instruments.

Our investments in derivatives are recorded at fair value but have limited liquidity and are not publicly traded. The fair value of our derivatives may not be readily determinable. We will estimate the fair value of any such investments on a quarterly basis. Because such valuations are inherently uncertain, may fluctuate over short periods of time and may be based on numerous estimates, our determinations of fair value may differ materially from the values that would have been used if a ready market for these investments existed. The value of our common stock could be adversely affected if our determinations regarding the fair value of these investments are materially higher than the values that we ultimately realize upon their disposal or maturity.

Risks Associated with Debt Financing

We obtain lines of credit, mortgage indebtedness and other borrowings and have given guarantees, which increases our risk of loss due to potential foreclosure.

We obtain lines of credit and long-term financing secured by our properties and other assets. We have acquired our real estate properties by financing a portion of the price of the properties and mortgaging or pledging some or all of the properties purchased as security for that debt. We may also incur mortgage debt on properties that we already own in order to obtain funds to acquire additional properties, to fund property improvements and other capital expenditures, to pay distributions and for other purposes. In addition, we may borrow as necessary or advisable to ensure that we maintain our qualification as a REIT for federal income tax purposes, including borrowings to satisfy the REIT requirement that we distribute at least 90% of our annual REIT taxable income to our stockholders (computed without regard to the dividends-paid deduction and excluding net capital gain). However, we can give our stockholders no assurance that we will be able to obtain such borrowings on satisfactory terms or at all.

If we mortgage a property and there is a shortfall between the cash flow generated by that property and the cash flow needed to service mortgage debt on that property, then the amount of cash available for distribution to our stockholders may be reduced. In addition, incurring mortgage debt increases the risk of loss of a property since defaults on indebtedness secured by a property may result in lenders initiating foreclosure actions. In that case, we could lose the property securing the loan that is in default, reducing the value of our stockholders' investment in us. For tax purposes, a foreclosure of any of our properties would be treated as a sale of the property for a purchase price equal to the outstanding balance of the debt secured by the mortgage. If the outstanding balance of the debt secured by the mortgage exceeds our tax basis in the property, we would recognize taxable income on foreclosure even though we would not necessarily receive any cash proceeds. We have given and may give full or partial guarantees to lenders of mortgage or other debt on behalf of the entities that own our properties. When we give a guaranty on behalf of an entity that owns one of our properties, we will be responsible to the lender for satisfaction of all or a part of the debt or other amounts related to the debt if it is not paid by such entity. If any mortgages contain cross-collateralization or cross-default provisions, a default on a mortgage secured by a single property could affect mortgages secured by other properties.

We may also obtain recourse debt to finance our acquisitions and meet our REIT distribution requirements. If we have insufficient income to service our recourse debt obligations, our lenders could institute proceedings against us to foreclose upon our assets. If a lender successfully forecloses upon any of our assets, our ability to pay cash distributions to our stockholders will be limited and our stockholders could lose all or part of their investment in us.

High mortgage rates or changes in underwriting standards may make it difficult for us to finance or refinance properties, which could reduce the number of properties we can acquire, our cash flow from operations and the amount of cash available for distribution to our stockholders.

If mortgage debt is unavailable at reasonable rate, we may not be able to finance the purchase of properties. If we place mortgage debt on a property, we run the risk of being unable to refinance part or all of the debt when it becomes due or of being unable to refinance on favorable terms. If interest rates are higher when we refinance properties subject to mortgage debt, our income could be reduced. We may be unable to refinance or may only be able to partly refinance properties if underwriting standards, including loan to value ratios and yield requirements, among other requirements, are more strict than when we originally financed the properties. If any of these events occurs, our cash flow could be reduced and/or we might have to pay down existing mortgages. This, in turn, would reduce cash available for distribution to our stockholders, could cause us to require additional capital and may hinder our ability to raise capital by issuing more stock or by borrowing more money.

We may not be able to access financing sources on attractive terms, which could adversely affect our ability to execute our business plan.

We may finance our assets over the long-term through a variety of means, including credit facilities and other structured financings. Our ability to execute this strategy will depend on various conditions in the markets for financing in this manner that are beyond our control, including lack of liquidity and greater credit spreads. We cannot be certain that these markets will remain an efficient source of long-term financing for our assets. If our strategy is not viable, we will have to find alternative forms of long-term financing for our assets, as secured revolving credit facilities may not accommodate long-term financing. This could subject us to more recourse indebtedness and the risk that debt service on less efficient forms of financing would require a larger portion of our cash flow, thereby reducing cash available for distribution to our stockholders and funds available for operations as well as for future business opportunities.

Lenders may require us to enter into restrictive covenants relating to our operations, which could limit our ability to pay distributions to our stockholders.

When providing financing, a lender may impose restrictions on us that affect our distribution and operating policies and our ability to incur additional debt. Loan agreements into which we enter may contain covenants that limit our ability to further mortgage a property or that prohibit us from discontinuing insurance coverage or replacing our advisor. These or other limitations would decrease our operating flexibility and our ability to achieve our operating objectives and limit our ability to pay distributions to our stockholders.

The loan agreements for our debt obligations contain customary representations and warranties, financial and other affirmative and negative covenants (including maintenance of ongoing debt service coverage ratios), events of default and remedies typical for these types of financings.

Increases in interest rates and changes to the LIBOR settling process could increase the amount of our debt payments and adversely affect our ability to make distributions to our stockholders.

As of December 31, 2018, we had total outstanding debt of approximately \$2.2 billion, including approximately \$696.7 million of debt subject to variable interest rates (excluding amounts that were hedged to fix rates), and we expect that we will incur additional indebtedness in the future. Interest we pay reduces our cash available for distributions. Since we have incurred and may continue to incur variable rate debt, increases in interest rates raise our interest costs, which reduces our cash flows and our ability to make distributions to you. In addition, if we need to repay existing debt during periods of rising interest rates, we could be required to sell one or more of our properties at times which may not permit realization of the maximum return on such investments.

Additionally, we pay interest under certain of our debt obligations based on the London Interbank Offered Rate (“LIBOR”). In July 2017, the Financial Conduct Authority announced that by the end of 2021, LIBOR would be replaced with a more reliable alternative, due to LIBOR rate manipulation and the resulting fines assessed on several major financial institutions over the past several years. It is unclear whether new methods of calculating LIBOR will be established, such that LIBOR may continue to exist after 2021. At this time, we do not know what changes will be made by the Financial Conduct Authority, or how the changes to or replacement of LIBOR will affect the interest we pay on our debt instruments. Additionally, there is no guarantee that a transition from LIBOR to an alternative rate will not result in financial market disruptions, significant increases in benchmark interest rates or borrowing costs, any of which may have an adverse effect on us.

We have broad authority to incur debt and high debt levels could limit the amount of cash we have available to distribute to our stockholders and decrease the value of our stockholders’ investment in us.

We may incur debt until our total liabilities would exceed 75% of the cost of our tangible assets (before deducting depreciation and other noncash reserves) and we may exceed this limit with the approval of the conflicts committee of our board of directors. As of December 31, 2018, our borrowings and other liabilities were approximately 62% of both the cost (before deducting depreciation and other noncash reserves) and book value (before deducting depreciation) of our tangible assets, respectively. High debt levels would cause us to incur higher interest charges and higher debt service payments and may also be accompanied by restrictive covenants. These factors could limit the amount of cash we have available to distribute to our stockholders and could result in a decline in the value of our stockholders’ investment in us.

Federal Income Tax Risks

Failure to qualify as a REIT would reduce our net earnings available for investment or distribution.

Our qualification as a REIT will depend upon our ability to meet requirements regarding our organization and ownership, distributions of our income, the nature and diversification of our income and assets and other tests imposed by the Internal Revenue Code. If we fail to qualify as a REIT for any taxable year after electing REIT status, we will be subject to federal income tax on our taxable income at corporate rates (a maximum rate of 35% applies through 2017 and 21% for subsequent years). In addition, we would generally be disqualified from treatment as a REIT for the four taxable years following the year in which we lost our REIT status. Losing our REIT status would reduce our net earnings available for investment or distribution to stockholders because of the additional tax liability. In addition, distributions to stockholders would no longer qualify for the dividends-paid deduction and we would no longer be required to pay distributions. If this occurs, we might be required to borrow funds or liquidate some investments in order to pay the applicable tax.

Failure to qualify as a REIT would subject us to federal income tax, which would reduce the cash available for distribution to our stockholders.

We believe that we have operated and will continue to operate in a manner that will allow us to continue to qualify as a REIT for federal income tax purposes, commencing with the taxable year ended December 31, 2011. However, the federal income tax laws governing REITs are extremely complex, and interpretations of the federal income tax laws governing qualification as a REIT are limited. Qualifying as a REIT requires us to meet various tests regarding the nature of our assets and our income, the ownership of our outstanding stock, and the amount of our distributions on an ongoing basis. Accordingly, we cannot be certain that we will be successful in operating so we can remain qualified as a REIT. While we intend to continue to operate so that we will qualify as a REIT, given the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations, including the tax treatment of certain investments we may make, and the possibility of future changes in our circumstances, no assurance can be given that we will so qualify for any particular year. If we fail to qualify as a REIT in any calendar year and we do not qualify for certain statutory relief provisions, we would be required to pay federal income tax on our taxable income. We might need to borrow money or sell assets to pay that tax. Our payment of income tax would decrease the amount of our income available for distribution to our stockholders. Furthermore, if we fail to maintain our qualification as a REIT and we do not qualify for certain statutory relief provisions, we no longer would be required to distribute substantially all of our REIT taxable income to our stockholders. Unless our failure to qualify as a REIT were excused under federal tax laws, we would be disqualified from taxation as a REIT for the four taxable years following the year during which qualification was lost.

Our stockholders may have current tax liability on distributions they elect to reinvest in our common stock.

If our stockholders participate in our dividend reinvestment plan, they will be deemed to have received, and for income tax purposes will be taxed on, the amount reinvested in shares of our common stock to the extent the amount reinvested was not a tax-free return of capital. In addition, our stockholders will be treated for tax purposes as having received an additional distribution to the extent the shares are purchased at a discount to fair market value, if any. As a result, unless our stockholders are tax-exempt entities, they may have to use funds from other sources to pay their tax liability on the value of the shares of common stock received.

Even if we qualify as a REIT for federal income tax purposes, we may be subject to federal, state, local or other tax liabilities that reduce our cash flow and our ability to pay distributions to our stockholders.

Even if we qualify as a REIT for federal income tax purposes, we may be subject to some federal, state and local taxes on our income or property. For example:

- In order to qualify as a REIT, we must distribute annually at least 90% of our REIT taxable income to our stockholders (which is determined without regard to the dividends-paid deduction or net capital gain). To the extent that we satisfy the distribution requirement but distribute less than 100% of our REIT taxable income, we will be subject to federal corporate income tax on the undistributed income.
- We will be subject to a 4% nondeductible excise tax on the amount, if any, by which distributions we pay in any calendar year are less than the sum of 85% of our ordinary income, 95% of our capital gain net income and 100% of our undistributed income from prior years.
- If we elect to treat property that we acquire in connection with a foreclosure of a mortgage loan or certain leasehold terminations as “foreclosure property,” we may avoid the 100% tax on the gain from a resale of that property, but the income from the sale or operation of that property may be subject to corporate income tax at the highest applicable rate.
- If we sell an asset, other than foreclosure property, that we hold primarily for sale to customers in the ordinary course of business, our gain would be subject to the 100% “prohibited transaction” tax unless such sale were made by one of our taxable REIT subsidiaries or the sale met certain “safe harbor” requirements under the Internal Revenue Code.

REIT distribution requirements could adversely affect our ability to execute our business plan.

We generally must distribute annually at least 90% of our REIT taxable income, subject to certain adjustments and excluding any net capital gain, in order for federal corporate income tax not to apply to earnings that we distribute. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our REIT taxable income, we will be subject to federal corporate income tax on our undistributed REIT taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under federal tax laws. We also may decide to retain net capital gain we earn from the sale or other disposition of our property and pay U.S. federal income tax directly on such income. In that event, our stockholders would be treated as if they earned that income and paid the tax on it directly. However, stockholders that are tax-exempt, such as charities or qualified pension plans, would have no benefit from their deemed payment of such tax liability unless they file U.S. federal income tax returns and thereon seek a refund of such tax. We also will be subject to corporate tax on any undistributed taxable income. We intend to make distributions to our stockholders to comply with the REIT requirements of the Internal Revenue Code.

From time to time, we may generate taxable income greater than our income for financial reporting purposes, or our taxable income may be greater than our cash flow available for distribution to stockholders (for example, where a borrower defers the payment of interest in cash pursuant to a contractual right or otherwise). If we do not have other funds available in these situations we could be required to borrow funds, sell investments at disadvantageous prices or find another alternative source of funds to pay distributions sufficient to enable us to pay out enough of our taxable income to satisfy the REIT distribution requirements and to avoid corporate income tax and the 4% excise tax in a particular year. These alternatives could increase our costs or reduce our equity. Thus, compliance with the REIT requirements may hinder our ability to operate solely on the basis of maximizing profits.

To maintain our REIT status, we may be forced to forego otherwise attractive business or investment opportunities, which may delay or hinder our ability to meet our investment objectives and reduce our stockholders' overall return.

To qualify as a REIT, we must satisfy certain tests on an ongoing basis concerning, among other things, the sources of our income, nature of our assets and the amounts we distribute to our stockholders. We may be required to pay distributions to stockholders at times when it would be more advantageous to reinvest cash in our business or when we do not have funds readily available for distribution. Compliance with the REIT requirements may hinder our ability to operate solely on the basis of maximizing profits and reduce the value of our stockholders' investment.

If our operating partnership fails to maintain its status as a partnership for federal income tax purposes, its income would be subject to taxation and our REIT status would be terminated.

We intend to maintain the status of our operating partnership as a partnership for federal income tax purposes. However, if the Internal Revenue Service were to successfully challenge the status of our operating partnership as a partnership, it would be taxable as a corporation. In such event, this would reduce the amount of distributions that our operating partnership could make to us. This would also result in our losing REIT status and becoming subject to a corporate level tax on our own income. This would substantially reduce our cash available to pay distributions and the return on your investment. In addition, if any of the entities through which our operating partnership owns its properties, in whole or in part, loses its characterization as a partnership for federal income tax purposes, the underlying entity would become subject to taxation as a corporation, thereby reducing distributions to our operating partnership and jeopardizing our ability to maintain REIT status.

Potential characterization of distributions or gain on sale may be treated as unrelated business taxable income to tax-exempt investors.

If (i) all or a portion of our assets are subject to the rules relating to taxable mortgage pools, (ii) we are a "pension-held REIT," (iii) a tax-exempt stockholder has incurred debt to purchase or hold our common stock, or (iv) the residual Real Estate Mortgage Investment Conduit interests, or REMICs, we buy (if any) generate "excess inclusion income," then a portion of the distributions to and, in the case of a stockholder described in clause (iii), gains realized on the sale of common stock by such tax-exempt stockholder may be subject to federal income tax as unrelated business taxable income under the Internal Revenue Code.

The tax on prohibited transactions will limit our ability to engage in transactions that would be treated as sales for federal income tax purposes.

A REIT's net income from prohibited transactions is subject to a 100% tax. In general, prohibited transactions are sales or other dispositions of assets, other than foreclosure property, deemed held primarily for sale to customers in the ordinary course of business. We might be subject to this tax if we were to dispose of loans in a manner that was treated as a sale of the loans for federal income tax purposes. Therefore, in order to avoid the prohibited transactions tax, we may choose not to engage in certain sales of loans at the REIT level, and may limit the structures we utilize for our securitization transactions, even though the sales or structures might otherwise be beneficial to us.

It may be possible to reduce the impact of the prohibited transaction tax by conducting certain activities through taxable REIT subsidiaries. However, to the extent that we engage in such activities through taxable REIT subsidiaries, the income associated with such activities may be subject to full corporate income tax.

Complying with REIT requirements may force us to liquidate otherwise attractive investments.

To qualify as a REIT, we must ensure that at the end of each calendar quarter, at least 75% of the value of our assets consists of cash, cash items, government securities and qualified REIT real estate assets, including certain mortgage loans and residential and commercial mortgage-backed securities. The remainder of our investment in securities (other than government securities and qualified real estate assets) generally cannot include more than 10% of the outstanding voting securities of any one issuer or more than 10% of the total value of the outstanding securities of any one issuer. In addition, in general, no more than 5% of the value of our assets (other than government securities and qualified real estate assets) can consist of the securities of any one issuer, no more than 20% (25% for taxable years before 2018) of the value of our total assets can be represented by securities of one or more taxable REIT subsidiaries and no more than 25% of the value of our total assets can be represented by "non-qualified publicly offered REIT debt instruments." If we fail to comply with these requirements at the end of any calendar quarter, we must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification and suffering adverse tax consequences. As a result, we may be required to liquidate from our portfolio otherwise attractive investments. These actions could have the effect of reducing our income and amounts available for distribution to our stockholders.

Liquidation of assets may jeopardize our REIT qualification.

To qualify as a REIT, we must comply with requirements regarding our assets and our sources of income. If we are compelled to liquidate our investments to repay obligations to our lenders, we may be unable to comply with these requirements, ultimately jeopardizing our qualification as a REIT, or we may be subject to a 100% tax on any resultant gain if we sell assets that are treated as dealer property or inventory.

Complying with REIT requirements may limit our ability to hedge effectively.

The REIT provisions of the Internal Revenue Code may limit our ability to hedge our assets and operations. Under these provisions, any income that we generate from transactions intended to hedge our interest rate, inflation and/or currency risks will be excluded from gross income for purposes of the REIT 75% and 95% gross income tests if the purpose of the instrument is to (i) hedge interest rate risk on liabilities incurred to carry or acquire real estate, (ii) hedge risk of currency fluctuations with respect to any item of income or gain that would be qualifying income under the REIT 75% or 95% gross income tests, or (iii) manage risk with respect to the termination of certain prior hedging transactions described in (i) and/or (ii) above and, in each case, such instrument is properly identified under applicable Treasury Regulations. Income from hedging transactions that do not meet these requirements will generally constitute nonqualifying income for purposes of both the REIT 75% and 95% gross income tests. As a result of these rules, we may have to limit our use of hedging techniques that might otherwise be advantageous, which could result in greater risks associated with interest rate or other changes than we would otherwise incur.

Our ownership of and relationship with our taxable REIT subsidiaries will be limited and a failure to comply with the limits would jeopardize our REIT status and may result in the application of a 100% excise tax.

A REIT may own up to 100% of the stock of one or more taxable REIT subsidiaries. A taxable REIT subsidiary may earn income that would not be qualifying income if earned directly by the parent REIT. Both the subsidiary and the REIT must jointly elect to treat the subsidiary as a taxable REIT subsidiary. A corporation of which a taxable REIT subsidiary directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a taxable REIT subsidiary. Overall, no more than 20% (25% for taxable years before 2018) of the value of a REIT's assets may consist of stock or securities of one or more taxable REIT subsidiaries. A domestic taxable REIT subsidiary will pay federal, state and local income tax at regular corporate rates on any income that it earns. In addition, the taxable REIT subsidiary rules limit the deductibility of interest paid or accrued by a taxable REIT subsidiary to its parent REIT to assure that the taxable REIT subsidiary is subject to an appropriate level of corporate taxation. The rules also impose a 100% excise tax on certain transactions between a taxable REIT subsidiary and its parent REIT that are not conducted on an arm's-length basis. We cannot assure our stockholders that we will be able to comply with the 20% value limitation on ownership of taxable REIT subsidiary stock and securities on an ongoing basis so as to maintain REIT status or to avoid application of the 100% excise tax imposed on certain non-arm's length transactions.

The ability of our board of directors to revoke our REIT qualification without stockholder approval may subject us to U.S. federal income tax and reduce distributions to our stockholders.

Our charter provides that our board of directors may revoke or otherwise terminate our REIT election, without the approval of our stockholders, if it determines that it is no longer in our best interest to continue to qualify as a REIT. While we intend to elect and qualify to be taxed as a REIT, we may not elect to be treated as a REIT or may terminate our REIT election if we determine that qualifying as a REIT is no longer in our best interests. If we cease to be a REIT, we would become subject to U.S. federal income tax on our taxable income and would no longer be required to distribute most of our taxable income to our stockholders, which may have adverse consequences on our total return to our stockholders and on the market price of our common stock.

Changes recently made to the U.S. tax laws could have a negative impact on our business.

The President signed a tax reform bill into law on December 22, 2017 (the "Tax Cuts and Jobs Act"). Among other things, the Tax Cuts and Jobs Act:

- Reduces the corporate income tax rate from 35% to 21% (including with respect to a taxable REIT subsidiary);
- Reduces the rate of U.S. federal withholding tax on distributions made to non-U.S. stockholders by a REIT that are attributable to gains from the sale or exchange of U.S. real property interests from 35% to 21%;
- If elected, allows an immediate 100% deduction of the cost of certain capital asset investments (generally excluding real estate assets), subject to a phase-down of the deduction percentage over time;
- Changes the recovery periods for certain real property and building improvements (for example, to 15 years for qualified improvement property under the modified accelerated cost recovery system if a technical correction is passed, and to 30 years (previously 40 years) for residential real property and 20 years (previously 40 years) for qualified improvement property under the alternative depreciation system);
- Restricts the deductibility of interest expense by businesses (generally, to 30% of the business' adjusted taxable income) except, among others, real property businesses electing out of such restriction; we have not yet determined whether we and/or our subsidiaries can and/or will make such an election;
- Requires the use of the less favorable alternative depreciation system to depreciate real property in the event a real property business elects to avoid the interest deduction restriction above;
- Restricts the benefits of like-kind exchanges that defer capital gains for tax purposes to exchanges of real property;
- Permanently repeals the "technical termination" rule for partnerships, meaning sales or exchanges of the interests in a partnership will be less likely to, among other things, terminate the taxable year of, and restart the depreciable lives of assets held by, such partnership for tax purposes;
- Requires accrual method taxpayers to take certain amounts in income no later than the taxable year in which such income is taken into account as revenue in an applicable financial statement prepared under GAAP, which, with respect to certain leases, could accelerate the inclusion of rental income;
- Eliminates the federal corporate alternative minimum tax;
- Reduces the highest marginal income tax rate for individuals to 37% from 39.6% (excluding, in each case, the 3.8% Medicare tax on net investment income);

- Generally allows a deduction for individuals equal to 20% of certain income from pass-through entities, including ordinary dividends distributed by a REIT (excluding capital gain dividends and qualified dividend income), generally resulting in a maximum effective federal income tax rate applicable to such dividends of 29.6% compared to 37% (excluding, in each case, the 3.8% Medicare tax on net investment income); and
- Limits certain deductions for individuals, including deductions for state and local income taxes, and eliminates deductions for miscellaneous itemized deductions (including certain investment expenses).

Many of the provisions in the Tax Cuts and Jobs Act, in particular those affecting individual taxpayers, expire at the end of 2025.

As a result of the changes to U.S. federal tax laws implemented by the Tax Cuts and Jobs Act, our taxable income and the amount of distributions to our stockholders required in order to maintain our REIT status, and our relative tax advantage as a REIT, could change. As a REIT, we are required to distribute at least 90% of our taxable income to our stockholders annually.

The Tax Cuts and Jobs Act is a complex revision to the U.S. federal income tax laws with various impacts on different categories of taxpayers and industries, and will require subsequent rulemaking and interpretation in a number of areas. The long-term impact of the Tax Cuts and Jobs Act on the overall economy, government revenues, our tenants, us, and the real estate industry cannot be reliably predicted at this time. Furthermore, the Tax Cuts and Jobs Act may negatively impact certain of our tenants' operating results, financial condition, and future business plans. The Tax Cuts and Jobs Act may also result in reduced government revenues, and therefore reduced government spending, which may negatively impact some of our tenants that rely on government funding. There can be no assurance that the Tax Cuts and Jobs Act will not negatively impact our operating results, financial condition, and future business operations.

Dividends payable by REITs do not qualify for the reduced tax rates.

In general, the maximum tax rate for dividends payable to domestic stockholders that are individuals, trusts and estates is 20%. Dividends payable by REITs, however, are generally not eligible for this reduced rate; provided individuals may be able to deduct 20% of income received as ordinary REIT dividends, thus reducing the maximum effective federal income tax rate on such dividend. While this tax treatment does not adversely affect the taxation of REITs or dividends paid by REITs, the more favorable rates applicable to regular corporate dividends could cause investors who are individuals, trusts or estates to perceive investments in REITs to be relatively less attractive than investments in stock of non-REIT corporations that pay dividends, which could adversely affect the value of the stock of REITs, including our common stock.

Qualifying as a REIT involves highly technical and complex provisions of the Internal Revenue Code.

Qualification as a REIT involves the application of highly technical and complex Internal Revenue Code provisions for which only limited judicial and administrative authorities exist. Even a technical or inadvertent violation could jeopardize our REIT qualification. Our continued qualification as a REIT will depend on our satisfaction of certain asset, income, organizational, distribution, stockholder ownership and other requirements on a continuing basis. In addition, our ability to satisfy the requirements to qualify as a REIT depends in part on the actions of third parties over which we have no control or only limited influence, including in cases where we own an equity interest in an entity that is classified as a partnership for U.S. federal income tax purposes.

The taxation of distributions to our stockholders can be complex; however, distributions that we make to our stockholders generally will be taxable as ordinary income, which may reduce your anticipated return from an investment in us.

Distributions that we make to our taxable stockholders to the extent of our current and accumulated earnings and profits (and not designated as capital gain dividends or qualified dividend income) generally will be taxable as ordinary income. However, a portion of our distributions may (i) be designated by us as capital gain dividends generally taxable as long-term capital gain to the extent that they are attributable to net capital gain recognized by us, (ii) be designated by us as qualified dividend income generally to the extent they are attributable to dividends we receive from non-REIT corporations, such as our taxable REIT subsidiaries, or (iii) constitute a return of capital generally to the extent that they exceed our current and accumulated earnings and profits as determined for U.S. federal income tax purposes. A return of capital distribution is not taxable, but has the effect of reducing the basis of a stockholder's investment in our common stock.

We may be required to pay some taxes due to actions of a taxable REIT subsidiary which would reduce our cash available for distribution to you.

Any net taxable income earned directly by a taxable REIT subsidiary, or through entities that are disregarded for federal income tax purposes as entities separate from our taxable REIT subsidiaries, will be subject to federal and possibly state corporate income tax. In this regard, several provisions of the laws applicable to REITs and their subsidiaries ensure that a taxable REIT subsidiary will be subject to an appropriate level of federal income taxation. For example, a taxable REIT subsidiary is limited in its ability to deduct certain interest payments made to an affiliated REIT. In addition, the REIT has to pay a 100% penalty tax on some payments that it receives or on some deductions taken by a taxable REIT subsidiary if the economic arrangements between the REIT, the REIT's customers, and the taxable REIT subsidiary are not comparable to similar arrangements between unrelated parties. Finally, some state and local jurisdictions may tax some of our income even though as a REIT we are not subject to federal income tax on that income because not all states and localities follow the federal income tax treatment of REITs. To the extent that we and our affiliates are required to pay federal, state and local taxes, we will have less cash available for distributions to you.

Investments in other REITs and real estate partnerships could subject us to the tax risks associated with the tax status of such entities.

We may invest in the securities of other REITs and real estate partnerships. Such investments are subject to the risk that any such REIT or partnership may fail to satisfy the requirements to qualify as a REIT or a partnership, as the case may be, in any given taxable year. In the case of a REIT, such failure would subject such entity to taxation as a corporation, may require such REIT to incur indebtedness to pay its tax liabilities, may reduce its ability to make distributions to us, and may render it ineligible to elect REIT status prior to the fifth taxable year following the year in which it fails to so qualify. In the case of a partnership, such failure could subject such partnership to an entity level tax and reduce the entity's ability to make distributions to us. In addition, such failures could, depending on the circumstances, jeopardize our ability to qualify as a REIT.

Non-U.S. stockholders will be subject to U.S. federal withholding tax and may be subject to U.S. federal income tax on distributions received from us and upon the disposition of our shares.

Subject to certain exceptions, distributions received from us will be treated as dividends of ordinary income to the extent of our current or accumulated earnings and profits. Such dividends ordinarily will be subject to U.S. withholding tax at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty, unless the distributions are treated as "effectively connected" with the conduct by the non-U.S. stockholder of a U.S. trade or business. Pursuant to the Foreign Investment in Real Property Tax Act of 1980, or FIRPTA, capital gain distributions attributable to sales or exchanges of "U.S. real property interests," or USRPIs, generally (subject to certain exceptions for "qualified foreign pension funds" and certain "qualified shareholders") will be taxed to a non-U.S. stockholder (other than a qualified foreign pension plan, entities wholly owned by a qualified foreign pension plan and certain publicly traded foreign entities) as if such gain were effectively connected with a U.S. trade or business unless FIRPTA provides an exemption. However, a capital gain dividend will not be treated as effectively connected income if (i) the distribution is received with respect to a class of stock that is regularly traded on an established securities market located in the United States and (ii) the non-U.S. stockholder does not own more than 10% of the class of our stock at any time during the one-year period ending on the date the distribution is received. We do not anticipate that our shares will be "regularly traded" on an established securities market for the foreseeable future, and therefore, this exception is not expected to apply.

Gain recognized by a non-U.S. stockholder upon the sale or exchange of our common stock generally will not be subject to U.S. federal income taxation unless such stock constitutes a USRPI under FIRPTA (subject to specific FIRPTA exemptions for certain non-U.S. stockholders). Our common stock will not constitute a USRPI so long as we are a "domestically-controlled qualified investment entity." A domestically-controlled qualified investment entity includes a REIT if at all times during a specified testing period, less than 50% in value of such REIT's stock is held directly or indirectly by non-U.S. stockholders. We believe, but cannot assure you, that we will be a domestically-controlled qualified investment entity.

Even if we do not qualify as a domestically-controlled qualified investment entity at the time a non-U.S. stockholder sells or exchanges our common stock, gain arising from such a sale or exchange would not be subject to U.S. taxation under FIRPTA as a sale of a USRPI if: (a) our common stock is "regularly traded," as defined by applicable Treasury Regulations, on an established securities market, and (b) such non-U.S. stockholder owned, actually and constructively, 10% or less of our common stock at any time during the five-year period ending on the date of the sale. However, it is not anticipated that our common stock will be "regularly traded" on an established market. We encourage you to consult your tax advisor to determine the tax consequences applicable to you if you are a non-U.S. stockholder.

We may be subject to adverse legislative or regulatory tax changes.

At any time, the federal income tax laws or regulations governing REITs or the administrative interpretations of those laws or regulations may be amended. We cannot predict when or if any new federal income tax law, regulation or administrative interpretation, or any amendment to any existing federal income tax law, regulation or administrative interpretation, will be adopted, promulgated or become effective and any such law, regulation or interpretation may take effect retroactively. We and our stockholders could be adversely affected by any such change in, or any new, federal income tax law, regulation or administrative interpretation.

Retirement Plan Risks

If the fiduciary of an employee benefit plan subject to ERISA (such as a profit sharing, Section 401(k) or pension plan) or an owner of a retirement arrangement subject to Section 4975 of the Internal Revenue Code (such as an individual retirement account (“IRA”)) fails to meet the fiduciary and other standards under ERISA or the Internal Revenue Code as a result of an investment in our stock, the fiduciary could be subject to penalties and other sanctions.

There are special considerations that apply to employee benefit plans subject to the Employee Retirement Income Security Act (“ERISA”) (such as profit sharing, Section 401(k) or pension plans) and other retirement plans or accounts subject to Section 4975 of the Internal Revenue Code (such as an IRA) that are investing or have invested in our shares. Fiduciaries, IRA owners and other benefit plan investors investing or that have invested the assets of such a plan or account in our common stock should satisfy themselves that:

- the investment is consistent with their fiduciary and other obligations under ERISA and the Internal Revenue Code;
- the investment is made in accordance with the documents and instruments governing the plan or IRA, including the plan’s or account’s investment policy;
- the investment satisfies the prudence and diversification requirements of Sections 404(a)(1)(B) and 404(a)(1)(C) of ERISA and other applicable provisions of ERISA and the Internal Revenue Code;
- the investment in our shares, for which no public market currently exists, is consistent with the liquidity needs of the plan or IRA;
- the investment will not produce an unacceptable amount of “unrelated business taxable income” for the plan or IRA;
- our stockholders will be able to comply with the requirements under ERISA and the Internal Revenue Code to value the assets of the plan or IRA annually; and
- the investment will not constitute a prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code.

With respect to the annual valuation requirements described above, we will provide an estimated value per share for our common stock annually. We can make no claim whether such estimated value per share will or will not satisfy the applicable annual valuation requirements under ERISA and the Internal Revenue Code. The Department of Labor or the Internal Revenue Service may determine that a plan fiduciary or an IRA custodian is required to take further steps to determine the value of our common stock. In the absence of an appropriate determination of value, a plan fiduciary or an IRA custodian may be subject to damages, penalties or other sanctions. For information regarding our estimated value per share, see Part II, Item 5, “Market for Registrant’s Common Equity, Related Stockholder Matters, and Issuer Purchases of Equity Securities - Market Information” of this Annual Report on Form 10-K.

Failure to satisfy the fiduciary standards of conduct and other applicable requirements of ERISA and the Internal Revenue Code may result in the imposition of civil and criminal penalties and could subject the fiduciary to claims for damages or for equitable remedies, including liability for investment losses. In addition, if an investment in our shares constitutes a prohibited transaction under ERISA or the Internal Revenue Code, the fiduciary or IRA owner who authorized or directed the investment may be subject to the imposition of excise taxes with respect to the amount invested. In addition, the investment transaction must be undone. In the case of a prohibited transaction involving an IRA owner, the IRA may be disqualified as a tax-exempt account and all of the assets of the IRA may be deemed distributed and subjected to tax. ERISA plan fiduciaries and IRA owners should consult with counsel before making an investment in our common stock.

If our assets are deemed to be plan assets, our advisor and we may be exposed to liabilities under Title I of ERISA and the Internal Revenue Code.

In some circumstances where an ERISA plan holds an interest in an entity, the assets of the entity are deemed to be ERISA plan assets unless an exception applies. This is known as the “look-through rule.” Under those circumstances, the obligations and other responsibilities of plan sponsors, plan fiduciaries and plan administrators, and of parties in interest and disqualified persons, under Title I of ERISA or Section 4975 of the Internal Revenue Code, may be applicable, and there may be liability under these and other provisions of ERISA and the Internal Revenue Code. We believe that our assets should not be treated as plan assets because the shares should qualify as “publicly-offered securities” that are exempt from the look-through rules under applicable Treasury Regulations. We note, however, that because certain limitations are imposed upon the transferability of shares so that we may qualify as a REIT, and perhaps for other reasons, it is possible that this exemption may not apply. If that is the case, and if we or our advisor are exposed to liability under ERISA or the Internal Revenue Code, our performance and results of operations could be adversely affected. Stockholders should consult with their legal and other advisors concerning the impact of ERISA and the Internal Revenue Code on their investment and our performance.

ITEM 1B. UNRESOLVED STAFF COMMENTS

We have no unresolved staff comments.

ITEM 2. PROPERTIES

As of December 31, 2018, our real estate portfolio was composed of 28 office properties and one mixed-use office/retail property encompassing 11.2 million rentable square feet in the aggregate that were collectively 93% occupied with a weighted-average remaining lease term of 4.5 years. In addition, we had entered into the Hardware Village joint venture to develop and subsequently operate a multi-family apartment complex, which is currently under construction. The following table provides summary information regarding the properties owned by us as of December 31, 2018:

Property Location of Property	Date Acquired	Property Type	Rentable Square Feet	Total Real Estate at Cost ⁽¹⁾ (in thousands)	Annualized Base Rent ⁽²⁾ (in thousands)	Average Annualized Base Rent per Square Foot ⁽³⁾	Average Remaining Lease Term in Years	% of Total Assets	Occupancy

⁽¹⁾ Total real estate at cost represents the total cost of real estate net of write-offs of fully depreciated/amortized assets.

⁽²⁾ Annualized base rent represents annualized contractual base rental income as of December 31, 2018, adjusted to straight-line any contractual tenant concessions (including free rent), rent increases and rent decreases from the lease's inception through the balance of the lease term.

⁽³⁾ Average annualized base rent per square foot is calculated as the annualized base rent divided by the leased square feet.

⁽⁴⁾ On August 26, 2016, we entered into the Hardware Village joint venture to participate in the development and subsequent operation of Hardware Village. We own a 99.24% equity interest in the joint venture. In July 2018, one of the two apartment buildings consisting of 265 units was placed into service.

⁽⁵⁾ On March 3, 2017, we acquired a 75% equity interest in an existing company and created an unconsolidated joint venture with an unaffiliated developer to develop and subsequently operate Village Center Station II. On October 11, 2018, we purchased the unaffiliated developer's 25% equity interest. For more information, see Note 5, "Investment in Unconsolidated Joint Venture."

Portfolio Lease Expirations

The following table sets forth a schedule of expiring leases for our real estate portfolio, excluding properties under development, by square footage and by annualized base rent as of December 31, 2018:

Year of Expiration	Number of Leases Expiring	Annualized Base Rent Expiring ⁽¹⁾ (in thousands)	% of Portfolio Annualized Base Rent Expiring	Leased Square Feet Expiring	% of Portfolio Leased Square Feet Expiring
Month to Month	30	\$ 2,115	0.7%	203,456	2.0%
2019	157	43,722	13.5%	1,557,175	15.0%
2020	127	30,437	9.4%	1,020,167	10.0%
2021	134	30,340	9.4%	1,138,284	11.0%
2022	128	37,345	11.6%	1,143,125	11.0%
2023	106	40,911	12.7%	1,282,508	12.0%
2024	62	26,051	8.1%	812,163	8.0%
2025	36	27,698	8.6%	792,260	8.0%
2026	36	15,247	4.7%	505,634	5.0%
2027	33	23,979	7.4%	756,868	7.0%
2028	23	19,032	5.9%	652,733	6.0%
Thereafter	12	26,179	8.0%	516,776	5.0%
Total	884	\$ 323,056	100.0%	10,381,149	100.0%

⁽¹⁾ Annualized base rent represents annualized contractual base rental income as of December 31, 2018, adjusted to straight-line any contractual tenant concessions (including free rent), rent increases and rent decreases from the lease's inception through the balance of the lease term.

As of December 31, 2018, our portfolio's highest tenant industry concentration (greater than 10% of annualized base rent) was as follows:

Industry	Number of Tenants	Annualized Base Rent ⁽¹⁾ (in thousands)	Percentage of Annualized Base Rent
Finance	152	\$ 60,016	18.6%

⁽¹⁾ Annualized base rent represents annualized contractual base rental income as of December 31, 2018, adjusted to straight-line any contractual tenant concessions (including free rent), rent increases and rent decreases from the lease's inception through the balance of the lease term.

As of December 31, 2018, no other tenant industries accounted for more than 10% of annualized base rent and no tenant accounted for more than 10% of the annualized base rent.

For more information about our real estate portfolio, see Part I, Item 1, "Business."

ITEM 3. LEGAL PROCEEDINGS

From time to time, we are party to legal proceedings that arise in the ordinary course of our business. Management is not aware of any legal proceedings of which the outcome is reasonably likely to have a material adverse effect on our results of operations or financial condition, nor are we aware of any such legal proceedings contemplated by government authorities.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Stockholder Information

As of March 8, 2019, we had 174.2 million shares of common stock outstanding held by a total of approximately 37,400 stockholders. The number of stockholders is based on the records of DST Systems, Inc., which serves as our transfer agent.

Market Information

No public market currently exists for our shares of common stock, and we currently have no plans to list our shares on a national securities exchange. Until our shares are listed, if ever, our stockholders may not sell their shares unless the buyer meets the applicable suitability and minimum purchase requirements. Any sale must comply with applicable state and federal securities laws. In addition, our charter prohibits the ownership of more than 9.8% of our stock by a single person, unless exempted by our board of directors. Consequently, there is the risk that our stockholders may not be able to sell their shares at a time or price acceptable to them.

We provide an estimated value per share to assist broker-dealers that participated in our now-terminated initial public offering in meeting their customer account statement reporting obligations under NASD Conduct Rule 2340, as required by FINRA. This valuation was performed in accordance with the provisions of and also to comply with the IPA Valuation Guidelines. For this purpose, we estimated the value of the shares of our common stock as \$12.02 per share as of December 31, 2018. This estimated value per share is based on our board of directors' approval on December 3, 2018 of an estimated value per share of our common stock of \$12.02 based on the estimated value of our assets less the estimated value of our liabilities, or net asset value, divided by the number of shares outstanding, all as of September 30, 2018, with the exception of an adjustment to our net asset value for the acquisition and assumed loan costs related to our buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to our net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018. There were no other material changes between September 30, 2018 and December 3, 2018 that impacted the overall estimated value per share.

The conflicts committee, composed solely of all of our independent directors, is responsible for the oversight of the valuation process used to determine the estimated value per share of our common stock, including the review and approval of the valuation and appraisal processes and methodologies used to determine our estimated value per share, the consistency of the valuation and appraisal methodologies with real estate industry standards and practices and the reasonableness of the assumptions used in the valuations and appraisals. With the approval of the conflicts committee, we engaged Duff & Phelps, LLC ("Duff & Phelps"), an independent third party real estate valuation firm, to provide appraisals for 29 of our consolidated real estate properties owned as of September 30, 2018 (the "Consolidated Properties") and an investment in an office property held through an unconsolidated joint venture as of September 30, 2018 (together with the Consolidated Properties, the "Appraised Properties") and to provide a calculation of the range in estimated value per share of our common stock as of December 3, 2018. Duff & Phelps based this range in estimated value per share upon (i) its appraisals of the Appraised Properties, (ii) valuations performed by our advisor of our cash, other assets, mortgage debt and other liabilities, and (iii) an adjustment to our net asset value for the acquisition and assumed loan costs related to our buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to our net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018. The appraisal reports Duff & Phelps prepared summarized the key inputs and assumptions involved in the appraisal of each of the Appraised Properties. The methodologies and assumptions used to determine the estimated value of our assets and the estimated value of our liabilities are described further below.

The conflicts committee reviewed Duff & Phelps' valuation report, which included an appraised value for each of the Appraised Properties and a summary of the estimated value of each of our other assets and our liabilities as determined by our advisor and reviewed by Duff & Phelps. In light of the valuation report and other factors considered by the conflicts committee and the conflicts committee's own extensive knowledge of our assets and liabilities, the conflicts committee: (i) concluded that the range in estimated value per share of \$11.11 to \$12.94, with a mid-range value of \$12.02 per share, as determined by Duff & Phelps and recommended by our advisor, which mid-range value was based on Duff & Phelps' appraisals of the Appraised Properties; valuations performed by our advisor of our cash, other assets, mortgage debt and other liabilities; and an adjustment to our net asset value for the acquisition and assumed loan costs related to our buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to our net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018, was reasonable and (ii) recommended to our board of directors that it adopt \$12.02 as the estimated value per share of our common stock, which estimated value per share is based on those factors discussed in (i) above. Our board of directors unanimously agreed to accept the recommendation of the conflicts committee and approved \$12.02 as the estimated value per share of our common stock, which determination is ultimately and solely the responsibility of the board of directors.

The table below sets forth the calculation of our estimated value per share as of December 3, 2018 as well as the calculation of our prior estimated value per share as of December 6, 2017. Duff & Phelps was not responsible for the determination of the estimated value per share as of December 3, 2018 or December 6, 2017, respectively.

	December 3, 2018		December 6, 2017		Change in Estimated
	Estimated Value per Share		Estimated Value per Share ⁽¹⁾		Value per Share
Real estate properties ⁽²⁾	\$ 23.51	\$	22.29	\$	1.22
Cash	0.44		0.25		0.19
Investment in unconsolidated joint venture	0.20		0.18		0.02
Other assets	0.29		0.12		0.17
Mortgage debt ⁽³⁾	(11.81)		(10.49)		(1.32)
Advisor participation fee potential liability	(0.10)		(0.08)		(0.02)
Other liabilities	(0.46)		(0.49)		0.03
Acquisition and deferred financing costs subsequent to September 30, 2018 ⁽⁴⁾	(0.02)		—		(0.02)
Deferred financing costs subsequent to September 30, 2017 ⁽⁵⁾	—		(0.05)		0.05
Non-controlling interest	(0.03)		—		(0.03)
Estimated value per share	\$ 12.02	\$	11.73	\$	0.29
Estimated enterprise value premium	None assumed		None assumed		None assumed
Total estimated value per share	<u>\$ 12.02</u>	<u>\$</u>	<u>11.73</u>	<u>\$</u>	<u>0.29</u>

⁽¹⁾ The December 6, 2017 estimated value per share was based upon a calculation of the range in estimated value per share of our common stock as of December 6, 2017 by Duff & Phelps and the recommendation of our advisor. Duff & Phelps based this range in estimated value per share upon appraisals of our real estate properties performed by Duff & Phelps; valuations performed by our advisor with respect to our real estate under contract to sell, real estate construction-in-progress project, investment in an unconsolidated joint venture, cash, other assets, mortgage debt and other liabilities; and a reduction to our net asset value for deferred financing costs related to a portfolio loan facility that closed subsequent to September 30, 2017. For more information relating to the December 6, 2017 estimated value per share and the assumptions and methodologies used by Duff & Phelps and our advisor, see Part II, Item 5 of our Annual Report on Form 10-K for the year ended December 31, 2017 as filed with the SEC.

⁽²⁾ Includes real estate construction-in-progress project as of December 6, 2017. As of September 30, 2018, the total appraised value of the Appraised Properties was \$4.3 billion. The increase in the estimated value of real estate properties per share was primarily due to an increase in the appraised value of real estate properties, the increase in capital expenditures and development activity subsequent to September 30, 2017.

⁽³⁾ The increase in the estimated value of mortgage debt per share was primarily due to the increase in mortgage debt outstanding.

⁽⁴⁾ Amount includes the acquisition and assumed loan costs related to our buyout of a joint venture partner's equity interest in a joint venture and deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018.

⁽⁵⁾ Amount includes deferred financing costs related to a portfolio loan facility that closed subsequent to September 30, 2017.

The increase in our estimated value per share from the previous estimate was primarily due to the items noted in the table below, which reflect the significant contributors to the increase in the estimated value per share from \$11.73 to \$12.02. The changes are not equal to the change in values of each asset and liability group presented in the table above due to changes in the amount of shares outstanding, additional capital investments and related financings and other factors, which caused the value of certain asset or liability groups to change with no impact to our fair value of equity or the overall estimated value per share.

	Change in Estimated Value per Share
December 6, 2017 estimated value per share	\$ 11.73
<i>Changes to estimated value per share</i>	
Investments	
Real estate and investment in unconsolidated joint venture	0.81
Capital expenditures on real estate	(0.64)
Total changes related to investments	<u>0.17</u>
Operating cash flows in excess of monthly distributions declared ⁽¹⁾	0.07
Acquisition and deferred financing costs ⁽²⁾	(0.02)
Mortgage debt	(0.09)
Interest rate swaps	0.22
Advisor participation fee potential liability	(0.02)
Non-controlling interest	(0.03)
Other	(0.01)
Total change in estimated value per share	<u>\$ 0.29</u>
December 3, 2018 estimated value per share	<u>\$ 12.02</u>

⁽¹⁾ Operating cash flow reflects modified funds from operations (“MFFO”) adjusted to deduct capitalized interest expense, real estate taxes and insurance and add back the amortization of deferred financing costs. We compute MFFO in accordance with the definition included in the practice guideline issued by the IPA in November 2010.

⁽²⁾ Amount includes the acquisition and assumed loan costs related to our buyout of a joint venture partner’s equity interest in a joint venture and deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018.

As with any valuation methodology, the methodologies used are based upon a number of estimates and assumptions that may not be accurate or complete. Different parties using different assumptions and estimates could derive a different estimated value per share of our common stock, and this difference could be significant. The estimated value per share is not audited and does not represent the fair value of our assets less the fair value of our liabilities according to U.S. generally accepted accounting principles (“GAAP”), nor does it represent a liquidation value of our assets and liabilities or the price at which our shares of common stock would trade on a national securities exchange. The estimated value per share does not reflect a discount for the fact that we are externally managed, nor does it reflect a real estate portfolio premium/discount versus the sum of the individual property values. The estimated value per share also does not take into account estimated disposition costs and fees for real estate properties that were not under contract to sell as of December 3, 2018, debt prepayment penalties that could apply upon the prepayment of certain of our debt obligations, the impact of restrictions on the assumption of debt or swap breakage fees that may be incurred upon the termination of certain of our swaps prior to expiration. The estimated value per share does not take into consideration acquisition-related costs and financing costs related to any future acquisitions subsequent to December 3, 2018. As of December 3, 2018, we had no potentially dilutive securities outstanding that would impact the estimated value per share of our common stock.

Our estimated value per share takes into consideration any potential liability related to a subordinated participation in cash flows our advisor is entitled to upon meeting certain stockholder return thresholds in accordance with the advisory agreement. For purposes of determining the estimated value per share, our advisor calculated the potential liability related to this incentive fee based on a hypothetical liquidation of the assets and liabilities at their estimated fair values, after considering the impact of any potential closing costs and fees related to the disposition of real estate properties, and our advisor estimated the fair value of this liability to be \$17.6 million or \$0.10 per share as of the valuation date, and included the impact of this liability in its calculation of our estimated value per share.

Methodology

Our goal for the valuation was to arrive at a reasonable and supportable estimated value per share, using a process that was designed to be in compliance with the IPA Valuation Guidelines and using what we and our advisor deemed to be appropriate valuation methodologies and assumptions. The following is a summary of the valuation and appraisal methodologies, assumptions and estimates used to value our assets and liabilities:

Real Estate

Independent Valuation Firm

Duff & Phelps⁽¹⁾ was selected by our advisor and approved by our conflicts committee and board of directors to appraise each of the Appraised Properties and to provide a calculation of the range in estimated value per share of our common stock as of December 3, 2018. Duff & Phelps is engaged in the business of appraising commercial real estate properties and is not affiliated with us or our advisor. The compensation we paid to Duff & Phelps was based on the scope of work and not on the appraised values of the Appraised Properties. The appraisals were performed in accordance with the Code of Ethics and the Uniform Standards of Professional Appraisal Practice, or USPAP, the real estate appraisal industry standards created by The Appraisal Foundation, as well as the requirements of the state where each real property is located. Each appraisal was reviewed, approved and signed by an individual with the professional designation of MAI (Member of the Appraisal Institute). The use of the reports is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

Duff & Phelps collected all reasonably available material information that it deemed relevant in appraising the Appraised Properties. Duff & Phelps obtained property-level information from our advisor, including (i) property historical and projected operating revenues and expenses; (ii) property lease agreements; and (iii) information regarding recent or planned capital expenditures. Duff & Phelps reviewed and relied in part on the property-level information provided by our advisor and considered this information in light of its knowledge of each property's specific market conditions.

In conducting its investigation and analyses, Duff & Phelps took into account customary and accepted financial and commercial procedures and considerations as it deemed relevant. Although Duff & Phelps reviewed information supplied or otherwise made available by us or our advisor for reasonableness, it assumed and relied upon the accuracy and completeness of all such information and of all information supplied or otherwise made available to it by any other party and did not independently verify any such information. With respect to operating or financial forecasts and other information and data provided to or otherwise reviewed by or discussed with Duff & Phelps, Duff & Phelps assumed that such forecasts and other information and data were reasonably prepared in good faith on bases reflecting the best currently available estimates and judgments of our management and/or our advisor. Duff & Phelps relied on us to advise it promptly if any information previously provided became inaccurate or was required to be updated during the period of its review.

In performing its analyses, Duff & Phelps made numerous other assumptions as of various points in time with respect to industry performance, general business, economic and regulatory conditions and other matters, many of which are beyond its and our control, as well as certain factual matters. For example, unless specifically informed to the contrary, Duff & Phelps assumed that we or the joint venture through which the property was held had clear and marketable title to each of the Appraised Properties, that no title defects existed, that any improvements were made in accordance with law, that no hazardous materials were present or had been present previously, that no deed restrictions existed, and that no changes to zoning ordinances or regulations governing use, density or shape were pending or being considered. Furthermore, Duff & Phelps' analyses, opinions and conclusions were necessarily based upon market, economic, financial and other circumstances and conditions existing as of or prior to the date of the appraisals, and any material change in such circumstances and conditions may affect Duff & Phelps' analyses and conclusions. Duff & Phelps' appraisal reports contain other assumptions, qualifications and limitations that qualify the analyses, opinions and conclusions set forth therein. Furthermore, the prices at which the Appraised Properties may actually be sold could differ from their appraised values.

⁽¹⁾ Duff & Phelps is actively engaged in the business of appraising commercial real estate properties similar to those owned by us in connection with public securities offerings, private placements, business combinations and similar transactions. We engaged Duff & Phelps to prepare appraisal reports for each of the Appraised Properties and to provide a calculation of the range in estimated value per share of our common stock and Duff & Phelps received fees upon the delivery of such reports and the calculation of the range in estimated value per share of our common stock. In addition, we have agreed to indemnify Duff & Phelps against certain liabilities arising out of this engagement. In the two years prior to the date of this filing, Duff & Phelps and its affiliates have provided a number of commercial real estate, appraisal, valuation and financial advisory services for our affiliates and have received fees in connection with such services. Duff & Phelps and its affiliates may from time to time in the future perform other commercial real estate, appraisal, valuation and financial advisory services for us and our affiliates in transactions related to the properties that are the subjects of the appraisals, so long as such other services do not adversely affect the independence of the applicable Duff & Phelps appraiser as certified in the applicable appraisal report.

Although Duff & Phelps considered any comments to its appraisal reports received from us or our advisor, the appraised values of the Appraised Properties were determined by Duff & Phelps. The appraisal reports for the Appraised Properties are addressed solely to us to assist in the calculation of the range in estimated value per share of our common stock. The appraisal reports are not addressed to the public and may not be relied upon by any other person to establish an estimated value per share of our common stock and do not constitute a recommendation to any person to purchase or sell any shares of our common stock. In preparing its appraisal reports, Duff & Phelps did not solicit third-party indications of interest for the Appraised Properties. In preparing its appraisal reports and in calculating the range in estimated value per share of our common stock, Duff & Phelps did not, and was not requested to, solicit third-party indications of interest for our common stock in connection with possible purchases thereof or the acquisition of all or any part of us.

The foregoing is a summary of the standard assumptions, qualifications and limitations that generally apply to Duff & Phelps' appraisal reports. All of the Duff & Phelps appraisal reports, including the analyses, opinions and conclusions set forth in such reports, are qualified by the assumptions, qualifications and limitations set forth in the respective appraisal reports.

Real Estate Valuation - Consolidated Properties

Duff & Phelps appraised each of the Consolidated Properties using various methodologies including the direct capitalization approach, discounted cash flow analyses and sales comparison approach and relied primarily on 10-year discounted cash flow analyses for the final appraisal of each of the Consolidated Properties. Duff & Phelps calculated the discounted cash flow value of each of the Consolidated Properties using property-level cash flow estimates, terminal capitalization rates and discount rates that fall within ranges it believes would be used by similar investors to value the Consolidated Properties, based on recent comparable market transactions adjusted for unique properties and market-specific factors.

The Consolidated Properties consist of 27 office properties, one mixed use office/retail property and a multifamily development project held through a consolidated joint venture, which were acquired for a total purchase price of \$3.2 billion, including \$45.4 million of acquisition fees and acquisition expenses, and as of September 30, 2018, we had invested \$443.4 million in capital expenses, development costs and tenant improvements in these properties. As of September 30, 2018, the total appraised value of the Consolidated Properties as provided by Duff & Phelps using the appraisal methods described above was \$4.1 billion which, when compared to the total purchase price plus subsequent capital improvements through September 30, 2018 of \$3.6 billion, results in an overall increase in the estimated value of these properties of approximately 13.7%.

The following table summarizes the key assumptions that Duff & Phelps used in the discounted cash flow analyses to arrive at the appraised value of the Consolidated Properties:

	<u>Range in Values</u>	<u>Weighted-Average Basis</u>
Terminal capitalization rate	5.50% to 8.00%	6.43%
Discount rate	6.75% to 9.50%	7.46%
Net operating income compounded annual growth rate ⁽¹⁾	0.43% to 10.40%	4.46%

⁽¹⁾ The net operating income compounded annual growth rates (the "CAGRs") reflect both the contractual and market rents and reimbursements (in cases where the contractual lease period is less than the valuation period of the property) net of expenses over the valuation period for each of the properties. The range of CAGRs shown is the constant annual rate at which the net operating income is projected to grow to reach the net operating income in the final year of the hold period for each of the properties.

While we believe that Duff & Phelps' assumptions and inputs are reasonable, a change in these assumptions and inputs would significantly impact the appraised value of the Consolidated Properties and thus, our estimated value per share. The table below illustrates the impact on our estimated value per share if the terminal capitalization rates or discount rates Duff & Phelps used to appraise the Consolidated Properties were adjusted by 25 basis points, assuming all other factors remain unchanged. Additionally, the table below illustrates the impact on our estimated value per share if these terminal capitalization rates or discount rates were adjusted by 5% in accordance with the IPA Valuation Guidelines, assuming all other factors remain unchanged:

	<u>Increase (Decrease) on the Estimated Value per Share due to</u>			
	<u>Decrease of 25 basis points</u>	<u>Increase of 25 basis points</u>	<u>Decrease of 5%</u>	<u>Increase of 5%</u>
Terminal capitalization rate	\$ 0.51	\$ (0.48)	\$ 0.65	\$ (0.60)
Discount Rate	0.39	(0.38)	0.58	(0.57)

Finally, a 1% increase in the appraised value of the Consolidated Properties would result in an \$0.21 increase in our estimated value per share and a 1% decrease in the appraised value of the Consolidated Properties would result in a decrease of \$0.21 to our estimated value per share, assuming all other factors remain unchanged.

Investment in Unconsolidated Joint Venture

As of September 30, 2018, we held an investment in an unconsolidated joint venture, which represented a 75% equity interest in a 12-story office building and an adjacent two-story office/retail building, and we had a contractual right to buyout our partner in the unconsolidated joint venture based on an agreed-upon price. The total cost of the development was approximately \$111.2 million and our initial capital contribution to the unconsolidated joint venture was \$32.3 million. Subsequent to September 30, 2018, we purchased the joint venture partner's 25% equity interest for \$28.2 million. For the estimated value of our equity interest in the unconsolidated joint venture as of September 30, 2018, our advisor used 100% of the appraised value of the real estate as of September 30, 2018, and then deducted the principal balance of the note payable assumed and cash paid for our buyout of the joint venture partner's equity interest. The appraised value of the real estate was provided by Duff & Phelps and was calculated using a discounted cash flow analysis. As of September 30, 2018, the fair value and the carrying value of our investment in this unconsolidated joint venture was \$34.7 million and \$34.7 million, respectively.

Duff & Phelps relied on a 10-year discounted cash flow analysis for the final valuation of the property. The terminal capitalization rate, discount rate and CAGR used in the discounted cash flow model to arrive at the appraised value were 6.50%, 7.75% and -4.1%, respectively.

The table below illustrates the impact on the estimated value per share if the terminal capitalization rate or discount rate were adjusted by 25 basis points, and assuming all other factors remain unchanged, with respect to the property. Additionally, the table below illustrates the impact on the estimated value per share if the terminal capitalization rate or discount rate for the property were adjusted by 5% in accordance with the IPA guidance:

	Increase (Decrease) on the Estimated Value per Share due to			
	Decrease of 25 basis points	Increase of 25 basis points	Decrease of 5%	Increase of 5%
Terminal capitalization rates	\$ 0.04	\$ (0.01)	\$ 0.05	\$ (0.02)
Discount rates	0.04	(0.01)	0.05	(0.02)

Notes Payable

The estimated values of our notes payable are equal to the GAAP fair values disclosed in our Quarterly Report on Form 10-Q for the period ended September 30, 2018, but do not equal the book value of the loans in accordance with GAAP. Our advisor estimated the values of our notes payable using a discounted cash flow analysis. The discounted cash flow analysis was based on projected cash flow over the remaining loan terms, including extensions we expect to exercise, and on management's estimates of current market interest rates for instruments with similar characteristics, including remaining loan term, loan-to-value ratio, type of collateral and other credit enhancements.

As of September 30, 2018, the GAAP fair value and the carrying value of our notes payable were \$2.1 billion and \$2.1 billion, respectively. The weighted-average discount rate applied to the future estimated debt payments was approximately 4.3%. Our notes payable have a weighted-average remaining term of 1.8 years.

The table below illustrates the impact on our estimated value per share if the discount rates our advisor used to value our notes payable were adjusted by 25 basis points, assuming all other factors remain unchanged. Additionally, the table below illustrates the impact on our estimated value per share if these discount rates were adjusted by 5% in accordance with the IPA Valuation Guidelines, assuming all other factors remain unchanged:

	Increase (Decrease) on the Estimated Value per Share due to			
	Decrease of 25 basis points	Increase of 25 basis points	Decrease of 5%	Increase of 5%
Discount rate	\$ (0.04)	\$ 0.04	\$ (0.04)	\$ 0.04

Non-controlling Interest

We have an ownership interest in a consolidated joint venture as of September 30, 2018. As we consolidate this joint venture, the entire amount of the underlying assets and liabilities are reflected at their fair values in the corresponding line items of the estimated value per share calculation. As a result, we also must consider the fair value of any non-controlling interest liability as of September 30, 2018. In determining this fair value, we considered the various profit participation thresholds in the joint venture that must be measured in determining the fair value of our non-controlling interest liability. We used the real estate appraisal provided by Duff & Phelps and calculated the amount that the joint venture partner would receive in a hypothetical liquidation of the underlying real estate property (including all current assets and liabilities) at the current appraised value and the payoff of any related debt at its fair value, based on the profit participation thresholds contained in the joint venture agreement. The estimated payment to the joint venture partner was then reflected as the non-controlling interest liability in our calculation of our estimated value per share.

Other Assets and Liabilities

The carrying values of a majority of our other assets and liabilities are considered to equal their fair value due to their short maturities or liquid nature. Certain balances, such as straight-line rent receivables, lease intangible assets and liabilities, accrued capital expenditures, deferred financing costs, unamortized lease commissions and unamortized lease incentives, have been eliminated for the purpose of the valuation due to the fact that the value of those balances was already considered in the valuation of the related asset or liability. Our advisor has also excluded redeemable common stock, as temporary equity does not represent a true liability to us and the shares that this amount represents are included in our total outstanding shares of common stock for purposes of calculating the estimated value per share of our common stock.

Participation Fee Potential Liability Calculation

In accordance with the advisory agreement with our advisor, our advisor is entitled to receive a participation fee equal to 15.0% of our net cash flows, whether from continuing operations, net sale proceeds or otherwise, after our stockholders have received, together as a collective group, aggregate distributions (including distributions that may constitute a return of capital for federal income tax purposes) sufficient to provide (i) a return of their net invested capital, or the amount calculated by multiplying the total number of shares purchased by stockholders by the issue price, reduced by any amounts to repurchase shares pursuant to our share redemption program, and (ii) an 8.0% per year cumulative, noncompounded return on such net invested capital. Net sales proceeds means the net cash proceeds realized by us after deduction of all expenses incurred in connection with a sale, including disposition fees paid to our advisor. The 8.0% per year cumulative, noncompounded return on net invested capital is calculated on a daily basis. In making this calculation, the net invested capital is reduced to the extent distributions in excess of a cumulative, noncompounded, annual return of 8.0% are paid (from whatever source), except to the extent such distributions would be required to supplement prior distributions paid in order to achieve a cumulative, noncompounded, annual return of 8.0% (invested capital is only reduced as described in this sentence; it is not reduced simply because a distribution constitutes a return of capital for federal income tax purposes). The 8.0% per year cumulative, noncompounded return is not based on the return provided to any individual stockholder. Accordingly, it is not necessary for each of our stockholders to have received any minimum return in order for our advisor to participate in our net cash flows. In fact, if our advisor is entitled to participate in our net cash flows, the returns of our stockholders will differ, and some may be less than a 8.0% per year cumulative, noncompounded return. This fee is payable only if we are not listed on an exchange. For purposes of determining the estimated value per share, our advisor calculated the potential liability related to this incentive fee based on a hypothetical liquidation of the assets and liabilities at their estimated fair values, after considering the impact of any potential closing costs and fees related to the disposition of real estate properties. Our advisor estimated the fair value of this liability to be \$17.6 million or \$0.10 per share as of the valuation date, and included the impact of this liability in its calculation of our estimated value per share.

Limitations of the Estimated Value per Share

As mentioned above, we provided this estimated value per share to assist broker-dealers that participated in our now-terminated initial public offering in meeting their customer account statement reporting obligations. The estimated value per share set forth above first appeared on the December 31, 2018 customer account statements mailed in January 2019. This valuation was performed in accordance with the provisions of and also to comply with the IPA Valuation Guidelines. As with any valuation methodology, the methodologies used are based upon a number of estimates and assumptions that may not be accurate or complete. Different parties with different assumptions and estimates could derive a different estimated value per share of our common stock, and this difference could be significant. The estimated value per share is not audited and does not represent the fair value of our assets less the fair value of our liabilities according to GAAP.

Accordingly, with respect to the estimated value per share, we can give no assurance that:

- a stockholder would be able to resell his or her shares at our estimated value per share;
- a stockholder would ultimately realize distributions per share equal to our estimated value per share upon liquidation of our assets and settlement of its liabilities or a sale of our company;
- our shares of common stock would trade at the estimated value per share on a national securities exchange;
- another independent third-party appraiser or third-party valuation firm would agree with our estimated value per share; or
- the methodology used to determine our estimated value per share would be acceptable to FINRA or for compliance with ERISA reporting requirements.

Further, the estimated value per share is based on the estimated value of our assets less the estimated value of our liabilities, divided by the number of shares outstanding, all as of September 30, 2018, with the exception of an adjustment to our net asset value for the acquisition and assumed loan costs related to our buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to our net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018. We did not make any other adjustments to the estimated value per share subsequent to September 30, 2018, including any adjustments relating to the following, among others: (i) the issuance of common stock and the payment of related offering costs related to our dividend reinvestment plan offering; (ii) net operating income earned and distributions declared; and (iii) the redemption of shares. The value of our shares will fluctuate over time in response to developments related to future investments, the performance of individual assets in our portfolio and the management of those assets, the real estate and finance markets and due to other factors. Our estimated value per share does not reflect a discount for the fact that we are externally managed, nor does it reflect a real estate portfolio premium/discount versus the sum of the individual property values. Our estimated value per share does not take into account estimated disposition costs and fees for real estate properties that are not under contract to sell, debt prepayment penalties that could apply upon the prepayment of certain of our debt obligations, the impact of restrictions on the assumption of debt or swap breakage fees that may be incurred upon the termination of certain of our swaps prior to expiration. The estimated value per share does not take into consideration acquisition-related costs and financing costs related to any future acquisitions subsequent to December 3, 2018. We currently expect to utilize an independent valuation firm to update our estimated value per share no later than December 2019.

Historical Estimated Values per Share

The historical reported estimated values per share of our common stock approved by the board of directors are set forth below:

Estimated Value per Share	Effective Date of Valuation	Filing with the Securities and Exchange Commission
\$11.73	December 6, 2017	Part II, Item 5 of our Annual Report on Form 10-K for the Year Ended December 31, 2017, filed March 8, 2018
\$10.63	December 9, 2016	Part II, Item 5 of our Annual Report on Form 10-K for the Year Ended December 31, 2016, filed March 13, 2017
\$10.04	December 8, 2015	Part II, Item 5 of our Annual Report on Form 10-K for the Year Ended December 31, 2015, filed March 14, 2016
\$9.42 ⁽¹⁾	December 9, 2014	Part II, Item 5 of our Annual Report on Form 10-K for the Year Ended December 31, 2014, filed March 9, 2015
\$9.29 ⁽¹⁾	May 5, 2014	Supplement no. 3 to our prospectus dated April 25, 2014 (Registration No. 333-164703), filed May 6, 2014

⁽¹⁾ Determined solely to be used as a component in calculating the offering prices in our now-terminated primary initial public offering.

Distribution Information

We have paid, and expect to continue to pay, distributions on a monthly basis. The rate is determined by our board of directors based on our financial condition and other factors our board of directors deems relevant. Our board of directors has not pre-established a percentage range of return for distributions to stockholders. We have not established a minimum distribution level, and our charter does not require that we pay distributions to our stockholders.

Generally, our policy is to pay distributions from current or prior period cash flow from operations (except with respect to distributions related to sales of our assets and distributions related to the repayment of principal under any real estate-related investments we make). From time to time during our operational stage, we may not pay distributions solely from our current or prior period cash flow from operations. Further, because we may receive income from interest or rents at various times during our fiscal year and because we may need cash flow from operations during a particular period to fund capital expenditures and other expenses, we expect that, from time to time, we will declare distributions in anticipation of cash flow that we expect to receive during a later period and we will pay these distributions in advance of our actual receipt of these funds. In these instances, we have funded our distributions with debt financings and we may utilize debt financing in the future, if necessary, to fund at least a portion of our distributions. As discussed above, we may also fund distributions with proceeds from the sale of assets or from the maturity, payoff or settlement of real estate-related investments, to the extent that we make any such additional investments. Our organizational documents permit us to pay distributions from any source, including offering proceeds or borrowings (which may constitute a return of capital), and our charter does not limit the amount of funds we may use from any source to pay such distributions. Our distribution policy is not to use the proceeds from an offering to pay distributions. If we pay distributions from sources other than our cash flow from operations, the overall return to our stockholders may be reduced.

Our operating performance cannot be accurately predicted and may deteriorate in the future due to numerous factors, including those discussed under “Forward-Looking Statements”, Part I, Item 1A, “Risk Factors” and Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” Those factors include: the future operating performance of our real estate investments in the existing real estate and financial environment; the success and economic viability of our tenants; our ability to refinance existing indebtedness at comparable terms; changes in interest rates on any variable rate debt obligations we incur; and the level of participation in our dividend reinvestment plan. In the event our FFO and/or cash flow from operating activities decrease in the future, the level of our distributions may also decrease. In addition, future distributions declared and paid may exceed FFO and/or cash flow from operating activities.

We elected to be taxed as a REIT under the Internal Revenue Code and have operated as such beginning with our taxable year ended December 31, 2011. To maintain our qualification as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute at least 90% of our REIT taxable income (computed without regard to the dividends-paid deduction or net capital gain and which does not necessarily equal net income as calculated in accordance with GAAP). Our board of directors may authorize distributions in excess of those required for us to maintain REIT status depending on our financial condition and such other factors as our board of directors deems relevant.

During 2018 and 2017, we declared distributions based on daily record dates for each day during the periods commencing January 1, 2017 through December 31, 2018. We paid distributions for all record dates of a given month on or about the first business day of the following month. Distributions declared during 2018 and 2017, aggregated by quarter, are as follows (dollars in thousands, except per share amounts):

	2018				
	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	Total
Total Distributions Declared	\$ 28,773	\$ 28,778	\$ 28,843	\$ 29,025	\$ 115,419
Total Per Share Distribution ⁽¹⁾	\$ 0.160	\$ 0.162	\$ 0.164	\$ 0.164	\$ 0.650
	2017				
	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	Total
Total Distributions Declared	\$ 29,080	\$ 29,421	\$ 29,650	\$ 29,587	\$ 117,738
Total Per Share Distribution ⁽¹⁾	\$ 0.160	\$ 0.162	\$ 0.164	\$ 0.164	\$ 0.650

⁽¹⁾ During the years ended December 31, 2017 and 2018, we declared distributions based on daily record dates for each day during the periods commencing January 1, 2017 through December 31, 2018. Distributions for these periods were calculated based on stockholders of record each day during the periods at a rate of \$0.00178082 per share per day and equal a daily amount that, if paid each day for a 365-day period, would equal a 5.41% annualized rate based on the current estimated value per share of \$12.02.

The tax composition of our distributions declared for the years ended December 31, 2018 and 2017 was as follows:

	<u>2018</u>	<u>2017</u>
Ordinary Income	32%	44%
Capital Gain	7%	—%
Return of Capital	61%	56%
Total	<u>100%</u>	<u>100%</u>

For more information with respect to our distributions paid, see Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Distributions.”

On December 3, 2018, our board of directors authorized distributions in the amount of \$0.05416667 per share on the outstanding shares of common stock to the stockholders of record at the close of business on January 18, 2019, which we paid on February 4, 2019. On January 22, 2019, our board of directors authorized a February 2019 distribution in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on February 18, 2019, which we paid on March 1, 2019. On March 12, 2019, our board of directors authorized a March 2019 distribution in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on March 18, 2019, which we expect to pay in April 2019, and an April 2019 distribution in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on April 18, 2019, which we expect to pay in May 2019.

Stockholders may choose to receive cash distributions or purchase additional shares through our dividend reinvestment plan.

Use of Proceeds from Sales of Registered Securities and Unregistered Sales of Equity Securities

During the year ended December 31, 2018, we did not sell any equity securities that were not registered under the Securities Act of 1933.

Share Redemption Program

We have a share redemption program that may enable stockholders to sell their shares to us in limited circumstances. The restrictions of our share redemption program will severely limit our stockholders’ ability to sell their shares should they require liquidity and will limit our stockholders’ ability to recover an amount equal to our estimated value per share.

There are several limitations on our ability to redeem shares under our share redemption program:

- Unless the shares are being redeemed in connection with a stockholder’s death, “Qualifying Disability” or “Determination of Incompetence” (each as defined in the share redemption program and together with redemptions sought in connection with a stockholder’s death, “Special Redemptions”), we may not redeem shares unless the stockholder has held the shares for one year.
- During any calendar year, we may redeem only the number of shares that we could purchase with the amount of net proceeds from the sale of shares under our dividend reinvestment plan during the prior calendar year. Notwithstanding anything contained in our share redemption program to the contrary, we may increase or decrease the funding available for the redemption of shares pursuant to the program upon ten business days’ notice to our stockholders. We may provide notice by including such information (a) in a Current Report on Form 8-K or in our annual or quarterly reports, all publicly filed with the SEC or (b) in a separate mailing to our stockholders. For information with respect to additional funding for calendar year 2018, see note (3) to the table below. In addition, on May 8, 2018, our board of directors approved the Fourth Amended and Restated Share Redemption Program (the “Fourth SRP”), which was effective June 8, 2018. The Fourth SRP provides that during any calendar year subsequent to calendar year 2018, once we have received requests for redemptions, whether in connection with Special Redemptions or otherwise, that if honored, and when combined with all prior redemptions made during the calendar year, would result in the amount of remaining funds available for the redemption of additional shares in such calendar year being \$10.0 million or less, the last \$10.0 million of available funds shall be reserved exclusively for Special Redemptions.
- During any calendar year, we may redeem no more than 5% of the weighted-average number of shares outstanding during the prior calendar year.
- We have no obligation to redeem shares if the redemption would violate the restrictions on distributions under Maryland General Corporation Law, as amended from time to time, which prohibits distributions that would cause a corporation to fail to meet statutory tests of solvency.

For a stockholder's shares to be eligible for redemption in a given month, the administrator must receive a written redemption request from the stockholder or from an authorized representative of the stockholder setting forth the number of shares requested to be redeemed at least five business days before the redemption date. If we cannot redeem all shares presented for redemption in any month because of the limitations on redemptions set forth in our share redemption program, then we will honor redemption requests on a pro rata basis, except that if a pro rata redemption would result in a stockholder owning less than the minimum purchase requirement described in our currently effective, or the most recently effective, registration statement, as such registration statement has been amended or supplemented, then we would redeem all of such stockholder's shares.

If we do not completely satisfy a redemption request on a redemption date because the program administrator did not receive the request in time, because of the limitations on redemptions set forth in our share redemption program or because of a suspension of our share redemption program, then we will treat the unsatisfied portion of the redemption request as a request for redemption at the next redemption date funds are available for redemption, unless the redemption request is withdrawn. Any stockholder can withdraw a redemption request by sending written notice to the program administrator, provided such notice is received at least five business days before the redemption date.

Upon a transfer of shares, any pending redemption requests with respect to such transferred shares will be canceled as of the date we accept the transfer. Stockholders wishing us to continue to consider a redemption request related to any transferred shares must resubmit their redemption request.

Pursuant to our share redemption program, redemptions made in connection with Special Redemptions are made at a price per share equal to the most recent estimated value per share of our common stock as of the applicable redemption date. From January 1, 2018 through June 8, 2018, the effective date of our Fourth SRP, the price at which we redeemed all other shares eligible for redemption was as follows:

- For those shares held by the redeeming stockholder for at least one year, 92.5% of our most recent estimated value per share as of the applicable redemption date;
- For those shares held by the redeeming stockholder for at least two years, 95.0% of our most recent estimated value per share as of the applicable redemption date;
- For those shares held by the redeeming stockholder for at least three years, 97.5% of our most recent estimated value per share as of the applicable redemption date; and
- For those shares held by the redeeming stockholder for at least four years, 100% of our most recent estimated value per share as of the applicable redemption date.

Effective June 8, 2018, all redemptions other than Special Redemptions will be made at a price per share equal to 95% of our most recent estimated value per share as of the applicable redemption date.

On December 6, 2017, our board of directors approved an estimated value per share of our common stock of \$11.73 based on the estimated value of our assets less the estimated value of our liabilities divided by the number of shares outstanding, all as of September 30, 2017, with the exception of a reduction to our net asset value for deferred financing costs related to a portfolio loan facility that closed subsequent to September 30, 2017. This estimated value per share became effective for the December 2017 redemption date, which was December 29, 2017.

On December 3, 2018, our board of directors approved an estimated value per share of our common stock of \$12.02 based on the estimated value of our assets less the estimated value of our liabilities divided by the number of shares outstanding, all as of September 30, 2018, with the exception of an adjustment to our net asset value for the acquisition and assumed loan costs related to our buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to our net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018. This estimated value per share became effective for the December 2018 redemption date, which was December 31, 2018.

For purposes of determining the time period a redeeming stockholder has held each share, the time period begins as of the date the stockholder acquired the share; provided, that shares purchased by the redeeming stockholder pursuant to our dividend reinvestment plan will be deemed to have been acquired on the same date as the initial share to which the dividend reinvestment plan shares relate. The date of the share's original issuance by us is not determinative.

We currently expect to utilize an independent valuation firm to update our estimated value per share no later than December 2019. We will report the estimated value per share of our common stock in a Current Report on Form 8-K or in our annual or quarterly reports, all publicly filed with the SEC. We will also provide information about our estimated value per share on our website, www.kbsreitiii.com (such information may be provided by means of a link to our public filings on the SEC's website, www.sec.gov).

Our board may amend, suspend or terminate our share redemption program upon 10 business days' notice to stockholders, and we may increase or decrease the funding available for the redemption of shares pursuant to our share redemption program upon 10 business days' notice. We may provide notice by including such information (a) in a Current Report on Form 8-K or in our annual or quarterly reports, all publicly filed with the SEC or (b) in a separate mailing to our stockholders. The complete share redemption program document is filed as an exhibit to our Quarterly Report on Form 10-Q for the period ended March 31, 2018 filed with the SEC on May 9, 2018 and is available at the SEC's website, www.sec.gov.

During the year ended December 31, 2018, we funded redemptions under our share redemption program with the net proceeds from our dividend reinvestment plan and from cash on hand. During the year ended December 31, 2018, we redeemed shares pursuant to our share redemption program as follows:

Month	Total Number of Shares Redeemed ⁽¹⁾	Average Price Paid Per Share ⁽²⁾	Approximate Dollar Value of Shares Available That May Yet Be Redeemed Under the Program
January 2018	2,551,890	\$ 11.58	(3)
February 2018	1,297,844	\$ 11.62	(3)
March 2018	1,301,776	\$ 11.64	(3)
April 2018	—	\$ —	(3)
May 2018	182,974	\$ 11.73	(3)
June 2018	2,688,263	\$ 11.16	(3)
July 2018	26,909	\$ 11.73	(3)
August 2018	68,744	\$ 11.71	(3)
September 2018	16,615	\$ 11.73	(3)
October 2018	39,192	\$ 11.73	(3)
November 2018	33,552	\$ 11.73	(3)
December 2018	53,752	\$ 11.95	(3)
Total	8,261,511		

⁽¹⁾ We announced the adoption and commencement of the program on October 14, 2010. We announced amendments to the program on March 8, 2013 (which amendment became effective on April 7, 2013), on March 7, 2014 (which amendment became effective on April 6, 2014) and on May 9, 2018 (which amendment became effective on June 8, 2018).

⁽²⁾ The prices at which we redeem shares under the program are as set forth above.

⁽³⁾ We limit the dollar value of shares that may be redeemed under the program as described above. In 2017, our net proceeds from the dividend reinvestment plan were \$59.8 million. On May 8, 2018, our board of directors approved an increase of the funding available for Special Redemptions under our share redemption program by up to an additional \$10.0 million for the May 2018 redemption date. In addition, the Fourth SRP provides that, for calendar year 2018 only, in addition to the number of shares that we could purchase with the amount of net proceeds from the sale of shares under our dividend reinvestment plan during calendar year 2017, we may redeem up to an additional \$42.0 million of shares, less the actual dollar amount of Special Redemptions processed on the May 2018 redemption date (such difference, the "2018 Additional Funding"); provided, however, that once we have received requests for redemptions, whether in connection with Special Redemptions or otherwise, that if honored would result in the amount of the remaining 2018 Additional Funding being \$10.0 million or less, the remaining \$10.0 million of the 2018 Additional Funding shall be reserved exclusively for Special Redemptions. As of June 30, 2018, we had exhausted all funds available for ordinary redemptions in 2018. As of December 31, 2018, we had a total of \$31.6 million of outstanding and unfulfilled redemption requests, representing 2,770,441 shares, which were subsequently redeemed. Based on the amount of net proceeds raised from the sale of shares under our dividend reinvestment plan during 2018, we had an aggregate of \$56.1 million available for redemptions in 2019, including the reserve for Special Redemptions. As of March 1, 2019, we exhausted all funds available for ordinary redemptions and had \$9.4 million available for Special Redemptions for the remainder of 2019. As of March 1, 2019 we had a total of \$12.2 million of outstanding and unfulfilled ordinary redemption requests, representing 1,064,731 shares.

In addition to the redemptions under the share redemption program described above, during the year ended December 31, 2018, we repurchased an additional 113,429 shares of our common stock at a weighted-average price of \$11.57 per share for an aggregate price of \$1.3 million.

ITEM 6. SELECTED FINANCIAL DATA

The following selected financial data as of and for the years ended December 31, 2018, 2017, 2016, 2015 and 2014 should be read in conjunction with the accompanying consolidated financial statements and related notes thereto and Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” (in thousands, except share and per share amounts):

	December 31,

FFO	<u>\$ 149,735</u>	<u>\$ 165,663</u>	<u>\$ 162,127</u>	<u>\$ 107,920</u>	<u>\$ 56,317</u>

⁽¹⁾ Distributions declared per common share assumes each share was issued and outstanding each day for the periods presented. Distributions for the periods from January 1, 2014 through February 28, 2016 and March 1, 2016 through December 31, 2018 were based on daily record dates and calculated at a rate of \$0.00178082 per share per day.

⁽²⁾ We believe that funds from operations (“FFO”) is a beneficial indicator of the performance of an equity REIT. We compute FFO in accordance with the current National Association of Real Estate Investment Trusts (“NAREIT”) definition. FFO represents net income, excluding gains and losses from sales of operating real estate assets (which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful-life estimates), gains and losses from change in control, impairment losses on real estate assets, depreciation and amortization of real estate assets, and adjustments for unconsolidated partnerships and joint ventures. We believe FFO facilitates comparisons of operating performance between periods and among other REITs. However, our computation of FFO may not be comparable to other REITs that do not define FFO in accordance with the NAREIT definition or that interpret the current NAREIT definition differently than we do. Our management believes that historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. As a result, we believe that the use of FFO, together with the required GAAP presentations, provides a more complete understanding of our performance relative to our competitors and provides a more informed and appropriate basis on which to make decisions involving operating, financing, and investing activities.

FFO is a non-GAAP financial measure and does not represent net income as defined by GAAP. Net income as defined by GAAP is the most relevant measure in determining our operating performance because FFO includes adjustments that investors may deem subjective, such as adding back expenses such as depreciation and amortization. Investors should exercise caution when using non-GAAP performance measures, such as FFO, to make investment decisions. Accordingly, FFO should not be considered as an alternative to net income as an indicator of our operating performance.

⁽³⁾ Reflects adjustments to add back our noncontrolling interest share of the adjustments to convert our net income attributable to common stockholders to FFO for our equity investment in an unconsolidated joint venture. On October 11, 2018, we purchased the unaffiliated developer’s 25% equity interest and consolidated this joint venture.

⁽⁴⁾ Reflects the remeasurement gain as a result of change in control upon our purchase of the developer’s 25% equity interest and consolidation of Village Center Station II which was previously accounted for under the equity method of accounting.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the “Selected Financial Data” above and our accompanying consolidated financial statements and the notes thereto. Also see “Forward-Looking Statements” preceding Part I and Part I, Item 1A, “Risk Factors.”

Overview

We were formed on December 22, 2009 as a Maryland corporation that elected to be taxed as a REIT beginning with the taxable year ended December 31, 2011 and we intend to continue to operate in such a manner. We conduct our business primarily through our Operating Partnership, of which we are the sole general partner. Subject to certain restrictions and limitations, our business is managed by our advisor pursuant to an advisory agreement and our advisor conducts our operations and manages our portfolio of real estate investments. Our advisor owns 20,000 shares of our common stock. We have no paid employees.

We have invested in a diverse portfolio of real estate investments. As of December 31, 2018, we owned 28 office properties and one mixed-use office/retail property. Additionally, as of December 31, 2018, we had entered into a consolidated joint venture to develop and subsequently operate a multifamily apartment project, which is currently under construction.

Market Outlook – Real Estate and Real Estate Finance Markets

Volatility in global financial markets and changing political environments can cause fluctuations in the performance of the U.S. commercial real estate markets. Possible future declines in rental rates, slower or potentially negative net absorption of leased space and expectations of future rental concessions, including free rent to renew tenants early, to retain tenants who are up for renewal or to attract new tenants, may result in decreases in cash flows from investment properties. Increases in the cost of financing due to higher interest rates may cause difficulty in refinancing debt obligations prior to or at maturity or at terms as favorable as the terms of existing indebtedness. Further, increases in interest rates would increase the amount of our debt payments on our variable rate debt to the extent the interest rates on such debt are not fixed through interest rate swap agreements or limited by interest rate caps. Market conditions can change quickly, potentially negatively impacting the value of real estate investments. Management continuously reviews our investment and debt financing strategies to optimize our portfolio and the cost of our debt exposure.

Liquidity and Capital Resources

Our principal demands for funds during the short and long-term are and will be for operating expenses, capital expenditures and general and administrative expenses; payments under debt obligations; redemptions of common stock; capital commitments and development expenses under our joint venture agreement; and payments of distributions to stockholders. Our primary sources of capital for meeting our cash requirements are as follows:

- Cash flow generated by our real estate investments;
- Debt financings (including amounts currently available under existing loan facilities);
- Proceeds from the sale of our real estate properties; and
- Proceeds from common stock issued under our dividend reinvestment plan.

Our real estate properties generate cash flow in the form of rental revenues and tenant reimbursements, which are reduced by operating expenditures, capital expenditures, debt service payments, the payment of asset management fees and corporate general and administrative expenses. Cash flow from operations from our real estate properties is primarily dependent upon the occupancy level of our portfolio, the net effective rental rates on our leases, the collectability of rent and operating recoveries from our tenants and how well we manage our expenditures.

As of December 31, 2018, we had mortgage debt obligations in the aggregate principal amount of \$2.2 billion, with a weighted-average remaining term of 2.0 years. The maturity dates of certain loans may be extended beyond their current maturity date, subject to certain terms and conditions contained in the loan documents. Assuming our notes payable are fully extended under the terms of the respective loan agreements and other loan documents, we have \$5.3 million of amortizing principal payments due during the 12 months ending December 31, 2019. We plan to exercise our extension options available under our loan agreements or pay down or refinance the related notes payable prior to their maturity dates. Our debt obligations consisted of \$190.5 million of fixed rate notes payable and \$2.0 billion of variable rate notes payable. As of December 31, 2018, the interest rates on \$1.2 billion of our variable rate notes payable were effectively fixed through interest rate swap agreements and the interest rate on \$100.0 million of our variable rate debt was limited under an interest rate cap agreement that was terminated on January 1, 2019. As of December 31, 2018, we had \$216.0 million of revolving debt available for immediate future disbursement under three portfolio loans, subject to certain conditions set forth in the loan agreements.

We paid distributions to our stockholders during the year ended December 31, 2018 using cash flow from operations from current and prior periods. We believe that our cash flow from operations, cash on hand, proceeds from our dividend reinvestment plan, proceeds from the sale of real estate and current and anticipated financing activities are sufficient to meet our liquidity needs for the foreseeable future.

Under our charter, we are required to limit our total operating expenses to the greater of 2% of our average invested assets or 25% of our net income for the four most recently completed fiscal quarters, as these terms are defined in our charter, unless the conflicts committee has determined that such excess expenses were justified based on unusual and non-recurring factors. Operating expenses for the four fiscal quarters ended December 31, 2018 did not exceed the charter-imposed limitation.

Cash Flows from Operating Activities

During the year ended December 31, 2018, net cash provided by operating activities was \$100.9 million, compared to net cash provided by operating activities of \$124.4 million during the year ended December 31, 2017. Net cash provided by operating activities was higher in 2017 primarily as a result of lease termination fees, the timing of payments of operating expenses and cash receipts of rental income.

Cash Flows from Investing Activities

Net cash used in investing activities was \$104.3 million for the year ended December 31, 2018 and primarily consisted of the following:

- \$88.7 million used for improvements to real estate;
- \$41.6 million of proceeds from the sale of real estate;
- \$34.2 million used for construction in progress related to Hardware Village;
- \$28.3 million used to purchase the unaffiliated developer's equity interest in Village Center Station II;
- \$4.6 million of insurance proceeds received for property damage;
- \$1.1 million of escrow deposits received for tenant improvements; and
- \$0.4 million used for investments in an unconsolidated joint venture.

Cash Flows from Financing Activities

Our cash flows from financing activities consist primarily of debt financings, redemptions and distributions paid to our stockholders. During the year ended December 31, 2018, net cash provided by financing activities was \$13.9 million and primarily consisted of the following:

- \$169.5 million of net cash provided by debt financing as a result of proceeds from notes payable of \$507.9 million, partially offset by principal payments on notes payable of \$335.2 million and payments of deferred financing costs of \$3.2 million;
- \$96.1 million of cash used for redemptions of common stock; and
- \$59.5 million of net cash distributions, after giving effect to distributions reinvested by stockholders of \$56.1 million.

We expect that our debt financing and other liabilities will be between 45% and 65% of the cost of our tangible assets (before deducting depreciation and other non-cash reserves). There is no limitation on the amount we may borrow for the purchase of any single asset. We limit our total liabilities to 75% of the cost of our tangible assets (before deducting depreciation and other non-cash reserves), meaning that our borrowings and other liabilities may exceed our maximum target leverage of 65% of the cost of our tangible assets without violating these borrowing restrictions. We may exceed the 75% limit only if a majority of the conflicts committee approves each borrowing in excess of this limitation and we disclose such borrowings to our stockholders in our next quarterly report with an explanation from the conflicts committee of the justification for the excess borrowing. To the extent financing in excess of this limit is available on attractive terms, our conflicts committee may approve debt in excess of this limit. From time to time, our total liabilities could also be below 45% of the cost of our tangible assets due to the lack of availability of debt financing. As of December 31, 2018, our borrowings and other liabilities were approximately 62% of both the cost (before deducting depreciation and other noncash reserves) and book value (before deducting depreciation) of our tangible assets, respectively.

We also expect to use our capital resources to make certain payments to our advisor. During our operational stage, we expect to make payments to our advisor in connection with the acquisition of investments, the management of our investments and costs incurred by our advisor in providing services to us. We also pay fees to our advisor in connection with the disposition of investments.

Among the fees payable to our advisor is an asset management fee. With respect to investments in real property, the asset management fee is a monthly fee equal to one-twelfth of 0.75% of the amount paid or allocated to acquire the investment, plus the cost of any subsequent development, construction or improvements to the property. This amount includes any portion of the investment that was debt financed and is inclusive of acquisition expenses related thereto (but excludes acquisition fees paid or payable to our advisor). In the case of investments made through joint ventures, the asset management fee is determined based on our proportionate share of the underlying investment (but excluding acquisition fees paid to our advisor). With respect to investments in loans and any investments other than real property, the asset management fee is a monthly fee calculated, each month, as one-twelfth of 0.75% of the lesser of (i) the amount actually paid or allocated to acquire or fund the loan or other investment (which amount includes any portion of the investment that was debt financed and is inclusive of acquisition or origination expenses related thereto but is exclusive of acquisition or origination fees paid or payable to our advisor) and (ii) the outstanding principal amount of such loan or other investment, plus the acquisition or origination expenses related to the acquisition or funding of such investment (excluding acquisition or origination fees paid or payable to our advisor), as of the time of calculation.

Pursuant to the advisory agreement, with respect to asset management fees accruing from March 1, 2014, our advisor agreed to defer, without interest, our obligation to pay asset management fees for any month in which our MFFO for such month, as such term is defined in the practice guideline issued by the IPA in November 2010 and interpreted by us, excluding asset management fees, does not exceed the amount of distributions declared by us for record dates of that month. We remain obligated to pay our advisor an asset management fee in any month in which our MFFO, excluding asset management fees, for such month exceeds the amount of distributions declared for the record dates of that month (such excess amount, an "MFFO Surplus"); however, any amount of such asset management fee in excess of the MFFO Surplus will also be deferred under the advisory agreement. If the MFFO Surplus for any month exceeds the amount of the asset management fee payable for such month, any remaining MFFO Surplus will be applied to pay any asset management fee amounts previously deferred in accordance with the advisory agreement.

However, notwithstanding the foregoing, any and all deferred asset management fees that are unpaid will become immediately due and payable at such time as our stockholders have received, together as a collective group, aggregate distributions (including distributions that may constitute a return of capital for federal income tax purposes) sufficient to provide (i) an 8% per year cumulative, noncompounded return on net invested capital (the “Stockholders’ 8% Return”) and (ii) a return of their net invested capital, or the amount calculated by multiplying the total number of shares purchased by stockholders by the issue price, reduced by any amounts to repurchase shares pursuant to our share redemption program. The Stockholders’ 8% Return is not based on the return provided to any individual stockholder. Accordingly, it is not necessary for each of our stockholders to have received any minimum return in order for our advisor to receive deferred asset management fees.

As of December 31, 2018, we had accrued and deferred payment of \$2.6 million of asset management fees under the advisory agreement, which were subsequently paid in February 2019. The amount of asset management fees deferred will vary on a month-to-month basis and the total amount of asset management fees deferred as well as the timing of the deferrals and repayments are difficult to predict as they will depend on the amount of and terms of the debt we use to acquire assets, the level of operating cash flow generated by our real estate investments and other factors. In addition, deferrals and repayments may occur in the same period, and it is possible that there could be additional deferrals in the future.

On September 27, 2018, we and our advisor renewed the advisory agreement. The advisory agreement has a one-year term but may be renewed for an unlimited number of successive one-year periods upon the mutual consent of our advisor and our conflicts committee.

Contractual Commitments and Contingencies

The following is a summary of our contractual obligations as of December 31, 2018 (in thousands):

Contractual Obligations	Total	Payments Due During the Years Ended December 31,			
		2019	2020-2021	2022-2023	Thereafter
Outstanding debt obligations ⁽¹⁾	\$ 2,196,154	\$ 348,679	\$ 1,466,354	\$ 256,121	\$ 125,000
Interest payments on outstanding debt obligations ⁽²⁾	167,937	77,498	77,945	12,427	67
Development obligations ⁽³⁾	16,566	16,566	—	—	—

⁽¹⁾ Amounts include principal payments only.

⁽²⁾ Projected interest payments are based on the outstanding principal amounts, maturity dates and interest rates in effect as of December 31, 2018 (consisting of the contractual interest rate and the effect of interest rate swaps, if applicable). We incurred interest expense of \$79.7 million, excluding amortization of deferred financing costs totaling \$6.5 million and unrealized gain on derivative instruments of \$11.2 million and including interest capitalized of \$2.8 million during the year ended December 31, 2018.

⁽³⁾ We have entered into the Hardware Village joint venture to develop a two-building multifamily apartment complex consisting of 453 units and expect to incur approximately \$16.6 million in additional development obligations through 2019. In July 2018, one of the two buildings consisting of 265 units was substantially completed. As of December 31, 2018, \$49.7 million had been disbursed under the Hardware Village Loan Facility and \$24.3 million remained available for future disbursements, subject to certain conditions contained in the Hardware Village Loan Facility documents.

Results of Operations

Overview

As of December 31, 2017, we owned 28 office properties and one mixed-use office/retail property, and we had made investments in the Village Center Station II joint venture and the Hardware Village joint venture. Subsequent to December 31, 2017, we sold one office property. The construction of Village Center Station II was substantially completed in May 2018, and in October 2018, we purchased the unaffiliated developer's 25% equity interest and consolidated Village Center Station II. In addition, one of the two apartment buildings consisting of 265 units at Hardware Village was completed and placed in service in July 2018. As of December 31, 2018, we owned 28 office properties and one mixed-use office/retail property and had entered into the Hardware Village joint venture. As a result, the results of operations presented for the years ended December 31, 2018 and 2017 are not directly comparable.

Comparison of the year ended December 31, 2018 versus the year ended December 31, 2017

The following table provides summary information about our results of operations for the years ended December 31, 2018 and 2017 (dollar amounts in thousands):

	For the Years Ended December 31,		Increase (Decrease)	Percentage Change	\$ Change Due to Properties Completed or Disposed ⁽¹⁾	\$ Change Due to Properties Held Throughout Both Periods ⁽²⁾
	2018	2017				
Rental income	\$ 320,907	\$ 314,597	\$ 6,310	2 %	\$ (617)	\$ 6,927
Tenant reimbursements	80,745	76,438	4,307	6 %	(66)	4,373
Other operating income	24,605	23,014	1,591	7 %	205	1,386
Operating, maintenance and management costs	101,759	97,477	4,282	4 %	213	4,069
Real estate taxes and insurance	69,405	65,325	4,080	6 %	(78)	4,158
Asset management fees to affiliate	27,152	25,905	1,247	5 %	439	808
General and administrative expenses	9,597	4,723	4,874	103 %	n/a	n/a
Depreciation and amortization	158,847	164,289	(5,442)	(3)%	763	(6,205)
Interest expense	72,209	55,008	17,201	31 %	1,388	15,813
Other income	1,905	649	1,256	194 %	—	1,256
Other interest income	312	170	142	84 %	n/a	n/a
Equity in income (loss) of unconsolidated joint venture	2,088	(1)	2,089	100 %	—	2,089
Loss from extinguishment of debt	(225)	(766)	541	(71)%	—	541
Gain on sale of real estate	11,942	—	11,942	100 %	11,942	—

⁽¹⁾ Represents the dollar amount increase (decrease) for the year ended December 31, 2018 compared to the year ended December 31, 2017 related to real estate developments completed and real estate investments disposed of on or after January 1, 2017.

⁽²⁾ Represents the dollar amount increase (decrease) for the year ended December 31, 2018 compared to the year ended December 31, 2017 related to real estate investments owned by us throughout both periods presented.

Rental income and tenant reimbursements from our real estate properties increased from \$391.0 million for the year ended December 31, 2017 to \$401.7 million for the year ended December 31, 2018. The increase in rental income and tenant reimbursements was primarily due to an increase in rental rates, property tax recoveries as a result of property tax reassessments and operating expense recoveries in properties held throughout both periods, as well as the acquisition of the developer's 25% equity interest in and operation of Village Center Station II, partially offset by the sale of one office property during the year ended December 31, 2018 and a decrease in termination fees due to early lease terminations in 2017. We expect rental income and tenant reimbursements to vary in future periods based on occupancy rates and rental rates of our real estate investments, to increase based on the development and subsequent full operation of Hardware Village and to increase in future periods as a result of owning the real estate development completed in 2018 for an entire period. However, rental income and tenant reimbursements would decrease to the extent that we sell any of our real estate properties.

Other operating income increased from \$23.0 million during the year ended December 31, 2017 to \$24.6 million for the year ended December 31, 2018. The increase in other operating income was primarily due to an increase in parking revenues for properties held throughout both periods. We expect other operating income to vary in future periods based on occupancy rates and parking rates at our real estate properties. However, other operating income would decrease to the extent that we sell any of our real estate properties.

Operating, maintenance and management costs increased from \$97.5 million for the year ended December 31, 2017 to \$101.8 million for the year ended December 31, 2018. The increase in operating, maintenance and management costs was primarily due to an increase in repairs and maintenance costs and management fees for properties held throughout both periods. We expect operating, maintenance and management costs to increase in future periods as a result of the development and subsequent full operation of Hardware Village and general inflation. However, operating, maintenance and management costs would decrease to the extent that we sell any of our real estate properties.

Real estate taxes and insurance increased from \$65.3 million for the year ended December 31, 2017 to \$69.4 million for the year ended December 31, 2018. The increase in real estate taxes and insurance was primarily due to higher property taxes as a result of property tax reassessments for properties held throughout both periods. We expect real estate taxes and insurance to increase in future periods as a result of the development and subsequent full operation of Hardware Village, and general inflation and general increases due to future property tax reassessments. However, real estate taxes and insurance would decrease to the extent that we sell any of our real estate properties.

Asset management fees with respect to our real estate investments increased from \$25.9 million for the year ended December 31, 2017 to \$27.2 million for the year ended December 31, 2018 due to the properties completed during the year ended December 31, 2018 and the increase in capital improvements for properties held throughout both periods. We expect asset management fees to increase in future periods as a result of the development and subsequent full operation of Hardware Village, owning Village Center Station II for an entire period and as a result of any improvements we make to our properties, which increase would be offset to the extent we dispose of any of our assets. As of December 31, 2018, there were \$2.6 million of accrued and deferred asset management fees, which were subsequently paid in February 2019. For a discussion of accrued and deferred asset management fees, see “— Liquidity and Capital Resources” herein.

General and administrative expenses increased from \$4.7 million for the year ended December 31, 2017 to \$9.6 million for the year ended December 31, 2018. The increase in general and administrative expenses was primarily due to professional fees incurred related to the assessment of strategic alternatives. We expect general and administrative expenses to vary in future periods.

Depreciation and amortization decreased from \$164.3 million for the year ended December 31, 2017 to \$158.8 million for the year ended December 31, 2018, primarily as a result of a decrease in amortization of unamortized tenant improvements and tenant origination and absorption costs related to lease expirations and early lease terminations for properties held throughout both periods during the year ended December 31, 2017 and the sale of one of our properties during the year ended December 31, 2018, offset by an increase in depreciation and amortization expense for the Hardware Village building completed in July 2018 and the consolidation of Village Center Station II in October 2018. We expect depreciation and amortization to vary in future periods as a result of a decrease in amortization related to fully amortized tenant origination and absorption costs, offset by an increase as a result of the development and subsequent full operation of Hardware Village and increase in future periods as a result of owning the real estate development completed in 2018 for an entire period. However, depreciation and amortization would decrease to the extent that we sell any of our real estate properties.

Interest expense increased from \$55.0 million for the year ended December 31, 2017 to \$72.2 million for the year ended December 31, 2018. Included in interest expense was (i) the amortization of deferred financing costs of \$5.3 million and \$6.5 million for the years ended December 31, 2017 and 2018, respectively and (ii) interest expense (including gains and losses) incurred as a result of our derivative instruments which reduced interest expense by \$3.1 million for the year ended December 31, 2017 and reduced interest expense by \$11.1 million for the year ended December 31, 2018. Additionally, during the year ended December 31, 2017 and 2018, we capitalized \$2.4 million and \$2.8 million of interest to construction-in-progress related to Hardware Village and Village Center Station II, respectively. The increase in interest expense was primarily due to higher 30-day LIBOR rate and an increased level of borrowings partially offset by unrealized gains on derivative instruments. We expect interest expense to increase in future periods as a result of additional borrowings for capital expenditures and development activity. In addition, our interest expense in future periods will vary based on fair value changes with respect to our interest rate swaps that are not accounted for as cash flow hedges and fluctuations in one-month LIBOR (for our variable rate debt). However, interest expense would decrease to the extent that we sell any of our real estate properties and repay the debt secured by such properties.

During the year ended December 31, 2017, we received \$0.6 million in proceeds from a one-time easement agreement, which is included in other income in the accompanying consolidated statements of operations. During the year ended December 31, 2018, we incurred \$1.9 million of other income primarily as a result of a reduction in contingent liability of \$1.6 million during the second quarter of 2018.

During the year ended December 31, 2018, we recognized \$2.1 million of equity in income of unconsolidated joint venture primarily related to the purchase of the developer’s 25% equity interest in Village Center Station II. On March 3, 2017, we acquired a 75% equity interest in an existing company and created a joint venture with an unaffiliated developer to develop and subsequently operate Village Center Station II. On October 11, 2018, we purchased the developer’s 25% equity interest and accounted for Village Center Station II on a consolidated basis. Upon acquisition of the developer’s interest, we recorded the property at fair value and recorded a gain of \$2.0 million which was included in equity in income from unconsolidated joint venture during the year ended December 31, 2018.

During the year ended December 31, 2017, we recognized a loss from extinguishment of debt of \$0.7 million related to the write-off of unamortized deferred financing costs as a result of the early pay-off of the Town Center Mortgage Loan, RBC Plaza Mortgage Loan, National Office Portfolio Mortgage Loan, 500 West Madison Mortgage Loan, Ten Almaden Mortgage Loan and Towers at Emeryville Mortgage Loan on November 3, 2017 in connection with a portfolio refinance. During the year ended December 31, 2018, we recognized a loss from extinguishment of debt of \$0.2 million related to the write-off of unamortized deferred financing costs as a result of the early pay-off of the 515 Congress Mortgage Loan on October 17, 2018.

During the year ended December 31, 2018, we sold one office property that resulted in a gain on sale of \$11.9 million. During the year ended December 31, 2017, we did not dispose of any properties.

Comparison of the year ended December 31, 2017 versus the year ended December 31, 2016

The following table provides summary information about our results of operations for the years ended 2017 and 2016 (dollar amounts in thousands):

	For the Years Ended December 31,		Increase (Decrease)	Percentage Change	\$ Change Due to Acquisitions and Payoffs ⁽¹⁾	\$ Change Due to Properties or Loans Held Throughout Both Periods ⁽²⁾
	2017	2016				
Rental income	\$ 314,597	\$ 307,568	\$ 7,029	2 %	\$ 568	\$ 6,461
Tenant reimbursements	76,438	70,856	5,582	8 %	(153)	5,735
Other operating income	23,014	21,152	1,862	9 %	149	1,713
Interest income from real estate loan receivable	—	831	(831)	(100)%	(831)	—
Operating, maintenance and management costs	97,477	93,580	3,897	4 %	(131)	4,028
Real estate taxes and insurance	65,325	61,090	4,235	7 %	26	4,209
Asset management fees to affiliate	25,905	24,940	965	4 %	474	491
Real estate acquisition fees to affiliate	—	1,473	(1,473)	(100)%	(1,473)	—
Real estate acquisition fees and expenses	—	306	(306)	(100)%	(306)	—
General and administrative expenses	4,723	5,398	(675)	(13)%	n/a	n/a
Depreciation and amortization	164,289	161,364	2,925	2 %	136	2,789
Interest expense	55,008	51,554	3,454	7 %	n/a	n/a
Other income	649	—	649	100 %	—	649
Loss from extinguishment of debt	(766)	—	(766)	100 %	—	(766)

⁽¹⁾ Represents the dollar amount increase (decrease) for the year ended December 31, 2017 compared to the year ended December 31, 2016 related to real estate investments acquired or repaid on or after January 1, 2016.

⁽²⁾ Represents the dollar amount increase (decrease) for the year ended December 31, 2017 compared to the year ended December 31, 2016 related to real estate investments owned by us throughout both periods presented.

Rental income and tenant reimbursements from our real estate properties increased from \$378.4 million for the year ended December 31, 2016 to \$391.0 million for the year ended December 31, 2017. The increase in rental income and tenant reimbursements for properties held throughout both periods was primarily due to an increase in lease termination fees, rental rates, operating expense recoveries and property tax recoveries.

Other operating income increased from \$21.2 million during the year ended December 31, 2016 to \$23.0 million for the year ended December 31, 2017. The increase in other operating income for properties held throughout both periods was primarily due to an increase in parking revenues.

Interest income from our real estate loan receivable, recognized using the interest method, decreased from \$0.8 million for the year ended December 31, 2016 to \$0 for the year ended December 31, 2017 as a result of the payoff of the real estate loan receivable on July 1, 2016.

Operating, maintenance and management costs increased from \$93.6 million for the year ended December 31, 2016 to \$97.5 million for the year ended December 31, 2017. The increase in operating, maintenance and management costs for properties held throughout both periods was primarily due to an increase in repairs and maintenance, janitorial services and security services.

Real estate taxes and insurance increased from \$61.1 million for the year ended December 31, 2016 to \$65.3 million for the year ended December 31, 2017. The increase in real estate taxes and insurance for properties held throughout both periods was primarily due to higher property taxes as a result of property tax reassessments.

Asset management fees with respect to our real estate investments increased from \$24.9 million for the year ended December 31, 2016 to \$25.9 million for the year ended December 31, 2017. As of December 31, 2017, there were \$2.3 million of accrued and deferred asset management fees.

Real estate acquisition fees and expenses to affiliate and non-affiliates decreased from \$1.8 million for the year ended December 31, 2016 to \$0 for the year ended December 31, 2017 due to a decrease in acquisition activity. During the year ended December 31, 2017, we did not acquire any investments accounted for as a business combination, but we did make an investment in the Village Center Station II joint venture. During the year ended December 31, 2017, we capitalized an aggregate of \$1.1 million in acquisition fees and expenses related to the development of Hardware Village and the investment in the Village Center Station II joint venture. During the year ended December 31, 2016, we acquired one real estate property accounted for as a business combination for \$146.1 million.

Depreciation and amortization increased from \$161.4 million for the year ended December 31, 2016 to \$164.3 million for the year ended December 31, 2017, primarily as a result of the acceleration of amortization of intangible assets related to a tenant relocation and a lease termination at a property held throughout both periods.

Interest expense increased from \$51.6 million for the year ended December 31, 2016 to \$55.0 million for the year ended December 31, 2017. Included in interest expense is the amortization of deferred financing costs of \$5.1 million and \$5.3 million for the years ended December 31, 2016 and 2017, respectively. Additionally, during the year ended December 31, 2016 and 2017, we capitalized \$0.2 million and \$2.4 million of interest to construction-in-progress related to Hardware Village and Village Center Station II, respectively. Interest expense (including gains and losses) incurred as a result of our derivative instruments for the years ended December 31, 2016 and 2017 increased interest expense by \$6.4 million and decreased interest expense by \$3.1 million, respectively, which includes \$1.6 million and \$10.5 million of unrealized gains on derivative instruments for the years ended December 31, 2016 and 2017, respectively. The increase in interest expense is due to the increased level of borrowings.

During the year ended December 31, 2017, we received \$0.6 million in proceeds from a one-time easement agreement, which is included in other income in the accompanying consolidated statements of operations.

During the year ended December 31, 2017, we recognized a loss from extinguishment of debt of \$0.7 million related to the write-off of unamortized deferred financing costs as a result of the early pay-off of the Town Center Mortgage Loan, RBC Plaza Mortgage Loan, National Office Portfolio Mortgage Loan, 500 West Madison Mortgage Loan, Ten Almaden Mortgage Loan and Towers at Emeryville Mortgage Loan on November 3, 2017 in connection with a portfolio refinance.

Funds from Operations and Modified Funds from Operations

We believe that funds from operations (“FFO”) is a beneficial indicator of the performance of an equity REIT. We compute FFO in accordance with the current National Association of Real Estate Investment Trusts (“NAREIT”) definition. FFO represents net income, excluding gains and losses from sales of operating real estate assets (which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful-life estimates), gains and losses from change in control, impairment losses on real estate assets, depreciation and amortization of real estate assets, and adjustments for unconsolidated partnerships and joint ventures. We believe FFO facilitates comparisons of operating performance between periods and among other REITs. However, our computation of FFO may not be comparable to other REITs that do not define FFO in accordance with the NAREIT definition or that interpret the current NAREIT definition differently than we do. Our management believes that historical cost accounting for real estate assets in accordance with U.S. generally accepted accounting principles (“GAAP”) implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. As a result, we believe that the use of FFO, together with the required GAAP presentations, provides a more complete understanding of our performance relative to our competitors and provides a more informed and appropriate basis on which to make decisions involving operating, financing, and investing activities.

Changes in accounting rules have resulted in a substantial increase in the number of non-operating and non-cash items included in the calculation of FFO. As a result, our management also uses MFFO as an indicator of our ongoing performance as well as our dividend sustainability. MFFO excludes from FFO: acquisition fees and expenses (to the extent that such fees and expenses have been recorded as operating expenses); adjustments related to contingent purchase price obligations; amounts relating to straight-line rents and amortization of above and below market intangible lease assets and liabilities; accretion of discounts and amortization of premiums on debt investments; amortization of closing costs relating to debt investments; impairments of real estate-related investments; mark-to-market adjustments included in net income; and gains or losses included in net income for the extinguishment or sale of debt or hedges. We compute MFFO in accordance with the definition of MFFO included in the practice guideline issued by the IPA in November 2010 as interpreted by management. Our computation of MFFO may not be comparable to other REITs that do not compute MFFO in accordance with the current IPA definition or that interpret the current IPA definition differently than we do.

We believe that MFFO is helpful as a measure of ongoing operating performance because it excludes costs that management considers more reflective of investing activities and other non-operating items included in FFO. Management believes that excluding acquisition fees and expenses (to the extent that such fees and expenses have been recorded as operating expenses) from MFFO provides investors with supplemental performance information that is consistent with management's analysis of the operating performance of the portfolio over time. MFFO also excludes non-cash items such as straight-line rental revenue. Additionally, we believe that MFFO provides investors with supplemental performance information that is consistent with the performance indicators and analysis used by management, in addition to net income and cash flows from operating activities as defined by GAAP, to evaluate the sustainability of our operating performance. MFFO provides comparability in evaluating the operating performance of our portfolio with other non-traded REITs which typically have limited lives with short and defined acquisition periods and targeted exit strategies. MFFO, or an equivalent measure, is routinely reported by non-traded REITs, and we believe often used by analysts and investors for comparison purposes.

FFO and MFFO are non-GAAP financial measures and do not represent net income as defined by GAAP. Net income as defined by GAAP is the most relevant measure in determining our operating performance because FFO and MFFO include adjustments that investors may deem subjective, such as adding back expenses such as depreciation and amortization and the other items described above. Accordingly, FFO and MFFO should not be considered as alternatives to net income as an indicator of our current and historical operating performance. In addition, FFO and MFFO do not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an indication of our liquidity. We believe FFO and MFFO, in addition to net income and cash flows from operating activities as defined by GAAP, are meaningful supplemental performance measures.

Although MFFO includes other adjustments, the exclusion of adjustments for straight-line rent, the amortization of above- and below-market leases, unrealized (gains) losses on derivative instruments, acquisition fees and expenses, adjustments related to contingent purchase price obligations and the exclusion of loss from extinguishment of debt are the most significant adjustments for the periods presented. We have excluded these items based on the following economic considerations:

- *Adjustments for straight-line rent.* These are adjustments to rental revenue as required by GAAP to recognize contractual lease payments on a straight-line basis over the life of the respective lease. We have excluded these adjustments in our calculation of MFFO to more appropriately reflect the current economic impact of our in-place leases, while also providing investors with a useful supplemental metric that addresses core operating performance by removing rent we expect to receive in a future period or rent that was received in a prior period;
- *Amortization of above- and below-market leases.* Similar to depreciation and amortization of real estate assets and lease related costs that are excluded from FFO, GAAP implicitly assumes that the value of intangible lease assets and liabilities diminishes predictably over time and requires that these charges be recognized currently in revenue. Since market lease rates in the aggregate have historically risen or fallen with local market conditions, management believes that by excluding these charges, MFFO provides useful supplemental information on the realized economics of the real estate;
- *Unrealized (gains) losses on derivative instruments.* These adjustments include unrealized (gains) losses from mark-to-market adjustments on interest rate swaps. The change in fair value of interest rate swaps not designated as a hedge are non-cash adjustments recognized directly in earnings and are included in interest expense. We have excluded these adjustments in our calculation of MFFO to more appropriately reflect the economic impact of our interest rate swap agreements;

- *Acquisition fees and expenses.* Prior to our early adoption of ASU No. 2017-01 on January 1, 2017, acquisition fees and expenses related to the acquisition of real estate were generally expensed. Although these amounts reduce net income, we exclude them from MFFO to more appropriately present the ongoing operating performance of our real estate investments on a comparative basis. Additionally, acquisition fees and expenses have been funded from the proceeds from our now-terminated initial public offering and debt financings and not from our operations. We believe this exclusion is useful to investors as it allows investors to more accurately evaluate the sustainability of our operating performance;
- *Adjustments relating to contingent purchase price obligations.* These are adjustments relating to contingent purchase price obligations where such adjustments have been included in the derivation of GAAP net income. We believe that the elimination of the contingent purchase price consideration adjustment, included in other income for GAAP purposes, is appropriate because the adjustment is a non-cash adjustment that is not reflective of our ongoing operating performance; and
- *Loss from extinguishment of debt.* A loss from extinguishment of debt, which includes prepayment fees related to the extinguishment of debt, represents the difference between the carrying value of any consideration transferred to the lender in return for the extinguishment of a debt and the net carrying value of the debt at the time of settlement. We have excluded the loss from extinguishment of debt in our calculation of MFFO because these losses do not impact the current operating performance of our investments and do not provide an indication of future operating performance.

Our calculation of FFO, which we believe is consistent with the calculation of FFO as defined by NAREIT, is presented in the following table, along with our calculation of MFFO, for the years ended December 31, 2018, 2017 and 2016, respectively (in thousands). No conclusions or comparisons should be made from the presentation of these periods.

	For the Years Ended December 31,		
	2018	2017	2016
Net income attributable to common stockholders	\$ 3,327	\$ 1,374	\$ 763
Depreciation of real estate assets	96,978	86,573	77,676
Amortization of lease-related costs	61,869	77,716	83,688
Gain on sale of real estate, net	(11,942)	—	—
Adjustment for investment in unconsolidated joint venture ⁽¹⁾	1,537	—	—
Gain as a result of purchase and consolidation of joint venture ⁽²⁾	(2,034)	—	—
FFO attributable to common stockholders ⁽³⁾	<u>\$ 149,735</u>	<u>\$ 165,663</u>	<u>\$ 162,127</u>

Real estate acquisition fees and expenses	—	—	306
Adjustment relating to contingent purchase price obligation	(1,575)	—	—
Income tax expense relating to contingent purchase price obligation ⁽⁴⁾	418	—	—
Adjustment for investment in unconsolidated joint venture ⁽¹⁾	(148)	—	—
MFFO attributable to common stockholders ⁽³⁾	<u>\$ 123,563</u>	<u>\$ 137,633</u>	<u>\$ 136,188</u>

⁽¹⁾ Reflects adjustments to add back our noncontrolling interest share of the adjustments to convert our net income attributable to common stockholders to FFO and MFFO for our equity investment in an unconsolidated joint venture.

⁽²⁾ Reflects the remeasurement gain as a result of change in control upon our purchase of the developer's 25% equity interest and consolidation of Village Center Station II which was previously accounted for under the equity method of accounting.

⁽³⁾ FFO and MFFO includes \$1.3 million, \$7.0 million and \$1.7 million of lease termination income for the years ended December 31, 2018, 2017 and 2016, respectively.

⁽⁴⁾ Relates to income tax expense on the income recorded as a result of a reduction in contingent liability of \$1.6 million, which is included in general and administrative expenses on the accompanying consolidated statement of operations.

FFO and MFFO may also be used to fund all or a portion of certain capitalizable items that are excluded from FFO and MFFO, such as tenant improvements, building improvements and deferred leasing costs.

Distributions

Distributions declared, distributions paid and cash flow from operating activities were as follows during 2018 (in thousands, except per share amounts):

Period	Distributions Declared ⁽¹⁾	Distributions Declared Per Share ⁽¹⁾⁽²⁾	Distributions Paid ⁽³⁾			Cash Flow from Operating Activities
			Cash	Reinvested	Total	
First Quarter 2018	\$ 28,773	\$ 0.160	\$ 14,646	\$ 14,273	\$ 28,919	\$ 11,108
Second Quarter 2018	28,778	0.162	14,887	14,228	29,115	42,035
Third Quarter 2018	28,843	0.164	14,976	13,942	28,918	25,865
Fourth Quarter 2018	29,025	0.164	14,955	13,693	28,648	21,919
	<u>\$ 115,419</u>	<u>\$ 0.650</u>	<u>\$ 59,464</u>	<u>\$ 56,136</u>	<u>\$ 115,600</u>	<u>\$ 100,927</u>

⁽¹⁾ Distributions for the period from January 1, 2018 through December 31, 2018 were based on daily record dates and were calculated at a rate of \$0.00178082 per share per day.

⁽²⁾ Assumes share was issued and outstanding each day during the period presented.

⁽³⁾ Distributions are paid on a monthly basis. Distributions for all record dates of a given month are paid on or about the first business day of the following month.

For the year ended December 31, 2018, we paid aggregate distributions of \$115.6 million, including \$59.5 million of distributions paid in cash and \$56.1 million of distributions reinvested through our dividend reinvestment plan. Our net income attributable to common stockholders for the year ended December 31, 2018 was \$3.3 million. FFO for the year ended December 31, 2018 was \$149.7 million and cash flow from operating activities was \$100.9 million. See the reconciliation of FFO to net income (loss) attributable to common stockholders above. We funded our total distributions paid, which includes net cash distributions and dividends reinvested by stockholders, with \$97.8 million of cash flow from current operating activities and \$17.8 million of cash flow from operating activities in excess of distributions paid during prior periods. For purposes of determining the source of our distributions paid, we assume first that we use cash flow from operating activities from the relevant or prior periods to fund distribution payments.

Over the long-term, we generally expect our distributions will be paid from cash flow from operating activities from current periods or prior periods (except with respect to distributions related to sales of our assets and distributions related to the repayment of principal under any real estate-related investments we make). From time to time during our operational stage, we may not pay distributions solely from our cash flow from operating activities, in which case distributions may be paid in whole or in part from debt financing. To the extent that we pay distributions from sources other than our cash flow from operating activities, the overall return to our stockholders may be reduced. Further, our operating performance cannot be accurately predicted and may deteriorate in the future due to numerous factors, including those discussed under “Forward-Looking Statements,” Part I, Item 1A, “Risk Factors” and in this Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” Those factors include: the future operating performance of our real estate investments in the existing real estate and financial environment; the success and economic viability of our tenants; our ability to refinance existing indebtedness at comparable terms; changes in interest rates on any variable rate debt obligations we incur; and the level of participation in our dividend reinvestment plan. In the event our FFO and/or cash flow from operating activities decrease in the future, the level of our distributions may also decrease. In addition, future distributions declared and paid may exceed FFO and/or cash flow from operating activities.

Critical Accounting Policies

Our consolidated financial statements have been prepared in accordance with GAAP and in conjunction with the rules and regulations of the SEC. The preparation of our financial statements requires significant management judgments, assumptions and estimates about matters that are inherently uncertain. These judgments affect the reported amounts of assets and liabilities and our disclosure of contingent assets and liabilities as of the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. With different estimates or assumptions, materially different amounts could be reported in our financial statements. Additionally, other companies may utilize different estimates that may impact the comparability of our results of operations to those of companies in similar businesses.

Revenue Recognition

Real Estate

We recognize minimum rent, including rental abatements, lease incentives and contractual fixed increases attributable to operating leases, on a straight-line basis over the term of the related leases when collectability is reasonably assured and record amounts expected to be received in later years as deferred rent receivable. If the lease provides for tenant improvements, we determine whether the tenant improvements, for accounting purposes, are owned by the tenant or by us. When we are the owner of the tenant improvements, the tenant is not considered to have taken physical possession or have control of the physical use of the leased asset until the tenant improvements are substantially completed. When the tenant is the owner of the tenant improvements, any tenant improvement allowance (including amounts that the tenant can take in the form of cash or a credit against its rent) that is funded is treated as a lease incentive and amortized as a reduction of revenue over the lease term. Tenant improvement ownership is determined based on various factors including, but not limited to:

- whether the lease stipulates how a tenant improvement allowance may be spent;
- whether the amount of a tenant improvement allowance is in excess of market rates;
- whether the tenant or landlord retains legal title to the improvements at the end of the lease term;
- whether the tenant improvements are unique to the tenant or general-purpose in nature; and
- whether the tenant improvements are expected to have any residual value at the end of the lease.

We record property operating expense reimbursements due from tenants for common area maintenance, real estate taxes, and other recoverable costs in the period the related expenses are incurred.

We make estimates of the collectability of our tenant receivables related to base rents, including deferred rent receivable, expense reimbursements and other revenue or income. We specifically analyze accounts receivable, deferred rent receivable, historical bad debts, customer creditworthiness, current economic trends and changes in customer payment terms when evaluating the adequacy of the allowance for doubtful accounts. In addition, with respect to tenants in bankruptcy, we make estimates of the expected recovery of pre-petition and post-petition claims in assessing the estimated collectability of the related receivable. In some cases, the ultimate resolution of these claims can exceed one year. When a tenant is in bankruptcy, we will record a bad debt reserve for the tenant's receivable balance and generally will not recognize subsequent rental revenue until cash is received or until the tenant is no longer in bankruptcy and has the ability to make rental payments.

Effective January 1, 2018, we adopted ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* ("ASU No. 2014-09"), using the modified retrospective approach, which requires a cumulative effect adjustment as of the date of our adoption. Under the modified retrospective approach, an entity may also elect to apply this standard to either (i) all contracts as of January 1, 2018 or (ii) only to contracts that were not completed as of January 1, 2018. A completed contract is a contract for which all (or substantially all) of the revenue was recognized under legacy GAAP that was in effect before the date of initial application. We elected to apply this standard only to contracts that were not completed as of January 1, 2018.

Based on our evaluation of contracts within the scope of ASU No. 2014-09, revenue that is impacted by ASU No. 2014-09 includes revenue generated by sales of real estate, other operating income and tenant reimbursements for substantial services earned at our properties. The recognition of such revenue will occur when the services are provided and the performance obligations are satisfied. For the year ended December 31, 2018, tenant reimbursements for substantial services accounted for under ASU No. 2014-09 were \$7.4 million and were included in tenant reimbursements on the accompanying statements of operations.

Sales of Real Estate

Prior to January 1, 2018, gains on real estate sold were recognized using the full accrual method at closing when collectability of the sales price was reasonably assured, we were not obligated to perform additional activities that may be considered significant, the initial investment from the buyer was sufficient and other profit recognition criteria had been satisfied. Gain on sales of real estate may have been deferred in whole or in part until the requirements for gain recognition had been met.

Effective January 1, 2018, we adopted the guidance of ASC 610-20, *Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets* ("ASC 610-20"), which applies to sales or transfers to noncustomers of nonfinancial assets or in substance nonfinancial assets that do not meet the definition of a business. Generally, our sales of real estate would be considered a sale of a nonfinancial asset as defined by ASC 610-20.

ASC 610-20 refers to the revenue recognition principles under ASU No. 2014-09. Under ASC 610-20, if we determine we do not have a controlling financial interest in the entity that holds the asset and the arrangement meets the criteria to be accounted for as a contract, we would derecognize the asset and recognize a gain or loss on the sale of the real estate when control of the underlying asset transfers to the buyer.

Real Estate

Depreciation and Amortization

Real estate costs related to the acquisition and improvement of properties are capitalized and depreciated over the expected useful life of the asset on a straight-line basis. Repair and maintenance costs are charged to expense as incurred and significant replacements and betterments are capitalized. Repair and maintenance costs include all costs that do not extend the useful life of the real estate asset. We consider the period of future benefit of an asset to determine its appropriate useful life. Expenditures for tenant improvements are capitalized and amortized over the shorter of the tenant's lease term or expected useful life. We anticipate the estimated useful lives of our assets by class to be generally as follows:

Land	N/A
Buildings	25-40 years
Building improvements	10-25 years
Tenant improvements	Shorter of lease term or expected useful life
Tenant origination and absorption costs	Remaining term of related leases, including below-market renewal periods

Real Estate Acquisition Valuation

As a result of our adoption of ASU No. 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*, acquisitions of real estate beginning January 1, 2017 could qualify as asset acquisitions (as opposed to business combinations). We record the acquisition of income-producing real estate or real estate that will be used for the production of income as a business combination or an asset acquisition. If substantially all of the fair value of the gross assets acquired are concentrated in a single identifiable asset or group of similar identifiable assets, then the set is not a business. For purposes of this test, land and buildings can be combined along with the intangible assets for any in-place leases and accordingly, most acquisitions of investment properties would not meet the definition of a business and would be accounted for as an asset acquisition. To be considered a business, a set must include an input and a substantive process that together significantly contributes to the ability to create an output. All assets acquired and liabilities assumed in a business combination are measured at their acquisition-date fair values. For asset acquisitions, the cost of the acquisition is allocated to individual assets and liabilities on a relative fair value basis. Acquisition costs associated with business combinations are expensed as incurred. Acquisition costs associated with asset acquisitions are capitalized.

We assess the acquisition date fair values of all tangible assets, identifiable intangibles and assumed liabilities using methods similar to those used by independent appraisers, generally utilizing a discounted cash flow analysis that applies appropriate discount and/or capitalization rates and available market information. Estimates of future cash flows are based on a number of factors, including historical operating results, known and anticipated trends, and market and economic conditions. The fair value of tangible assets of an acquired property considers the value of the property as if it were vacant.

We record above-market and below-market in-place lease values for acquired properties based on the present value (using a discount rate that reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of above-market in-place leases and for the initial term plus any extended term for any leases with below-market renewal options. We amortize any recorded above-market or below-market lease values as a reduction or increase, respectively, to rental income over the remaining non-cancelable terms of the respective lease, including any below-market renewal periods.

We estimate the value of tenant origination and absorption costs by considering the estimated carrying costs during hypothetical expected lease up periods, considering current market conditions. In estimating carrying costs, we include real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease up periods.

We amortize the value of tenant origination and absorption costs to depreciation and amortization expense over the remaining non-cancelable term of the leases.

Estimates of the fair values of the tangible assets, identifiable intangibles and assumed liabilities require us to make significant assumptions to estimate market lease rates, property-operating expenses, carrying costs during lease-up periods, discount rates, market absorption periods, and the number of years the property will be held for investment. The use of inappropriate assumptions would result in an incorrect valuation of our acquired tangible assets, identifiable intangibles and assumed liabilities, which would impact the amount of our net income.

Subsequent to the acquisition of a property, we may incur and capitalize costs necessary to get the property ready for its intended use. During that time, certain costs such as legal fees, real estate taxes and insurance and financing costs are also capitalized.

Impairment of Real Estate and Related Intangible Assets and Liabilities

We continually monitor events and changes in circumstances that could indicate that the carrying amounts of our real estate and related intangible assets and liabilities may not be recoverable or realized. When indicators of potential impairment suggest that the carrying value of real estate and related intangible assets and liabilities may not be recoverable, we assess the recoverability by estimating whether we will recover the carrying value of the real estate and related intangible assets and liabilities through its undiscounted future cash flows and its eventual disposition. If, based on this analysis, we do not believe that we will be able to recover the carrying value of the real estate and related intangible assets and liabilities, we would record an impairment loss to the extent that the carrying value exceeds the estimated fair value of the real estate and related intangible assets and liabilities.

Projecting future cash flows involves estimating expected future operating income and expenses related to the real estate and its related intangible assets and liabilities as well as market and other trends. Using inappropriate assumptions to estimate cash flows could result in incorrect fair values of the real estate and its related intangible assets and liabilities and could result in the overstatement of the carrying values of our real estate and related intangible assets and liabilities and an overstatement of our net income.

Insurance Proceeds for Property Damage

We maintain an insurance policy that provides coverage for losses due to property damage and business interruption. Losses due to physical damage are recognized during the accounting period in which they occur, while the amount of monetary assets to be received from the insurance policy is recognized when receipt of insurance recoveries is probable. Losses, which are reduced by the related probable insurance recoveries, are recorded as operating, maintenance and management expenses on the accompanying consolidated statements of operations. Anticipated proceeds in excess of recognized losses would be considered a gain contingency and recognized when the contingency related to the insurance claim has been resolved. Anticipated recoveries for lost rental revenue due to property damage are also considered to be a gain contingency and recognized when the contingency related to the insurance claim has been resolved.

Real Estate Held for Sale and Discontinued Operations

We generally consider real estate to be “held for sale” when the following criteria are met: (i) management commits to a plan to sell the property, (ii) the property is available for sale immediately, (iii) the property is actively being marketed for sale at a price that is reasonable in relation to its current fair value, (iv) the sale of the property within one year is considered probable and (v) significant changes to the plan to sell are not expected. Real estate that is held for sale and its related assets are classified as “real estate held for sale” and “assets related to real estate held for sale,” respectively, for all periods presented in the accompanying consolidated financial statements. Notes payable and other liabilities related to real estate held for sale are classified as “notes payable related to real estate held for sale” and “liabilities related to real estate held for sale,” respectively, for all periods presented in the accompanying consolidated financial statements. Real estate classified as held for sale is no longer depreciated and is reported at the lower of its carrying value or its estimated fair value less estimated costs to sell. Operating results of properties and related gains on sale of properties that were disposed of or classified as held for sale in the ordinary course of business during the years ended December 31, 2018, 2017 and 2016 are included in continuing operations on our consolidated statements of operations.

Construction in Progress

Direct investments in undeveloped land or properties without leases in place at the time of acquisition are accounted for as an asset acquisition and not as a business combination. Acquisition fees and expenses are capitalized into the cost basis of an asset acquisition. Additionally, during the time that we are incurring costs necessary to bring these investments to their intended use, certain costs such as legal fees, real estate taxes and insurance and financing costs are also capitalized. Once construction in progress is substantially completed, the amounts capitalized to construction in progress are transferred to land and buildings and improvements and are depreciated over their respective useful lives.

Investments in Unconsolidated Joint Ventures

We follow the equity method of accounting for investments in joint ventures over which we may exercise significant influence, and for investments in joint ventures that qualify as variable interest entities of which we are not the primary beneficiary. Under the equity method, the investment is initially recorded at cost and subsequently adjusted to reflect additional contributions or distributions and our proportionate share of equity in the joint venture's income (loss). We recognize our proportionate share of the ongoing income or loss of the unconsolidated joint venture as equity in income (loss) of unconsolidated joint venture on the consolidated statements of operations. On a quarterly basis, we evaluate our investment in an unconsolidated joint venture for other-than-temporary impairments. During the year ended December 31, 2018, we held a 75% equity interest in an unconsolidated joint venture. In October 2018, we acquired the joint venture partner's 25% equity interest, resulting in the consolidation of the investment. As of December 31, 2018, there were no unconsolidated real estate joint ventures accounted for under the equity method.

Derivative Instruments

We enter into derivative instruments for risk management purposes to hedge our exposure to cash flow variability caused by changing interest rates on our variable rate notes payable. We record these derivative instruments at fair value on the accompanying consolidated balance sheets. Derivative instruments designated and qualifying as a hedge of the exposure to variability in expected future cash flows or other types of forecasted transactions are considered cash flow hedges. The change in fair value of the effective portion of a derivative instrument that is designated as a cash flow hedge is recorded as other comprehensive income (loss) on the accompanying consolidated statements of comprehensive income (loss) and consolidated statements of equity. The changes in fair value for derivative instruments that are not designated as a hedge or that do not meet the hedge accounting criteria are recorded as gain or loss on derivative instruments and included in interest expense as presented in the accompanying consolidated statements of operations.

We formally document all relationships between hedging instruments and hedged items, as well as our risk-management objectives and strategy for undertaking various hedge transactions. This process includes designating all derivative instruments that are part of a hedging relationship to specific forecasted transactions or recognized obligations on the consolidated balance sheets. We also assess and document, both at the hedging instrument's inception and on a quarterly basis thereafter, whether the derivative instruments that are used in hedging transactions are highly effective in offsetting changes in cash flows associated with the respective hedged items. When we determine that a derivative instrument ceases to be highly effective as a hedge, or that it is probable the underlying forecasted transaction will not occur, we discontinue hedge accounting prospectively and reclassify amounts recorded to accumulated other comprehensive income (loss) to earnings.

Fair Value Measurements

Under GAAP, we are required to measure certain financial instruments at fair value on a recurring basis. In addition, we are required to measure other non-financial and financial assets at fair value on a non-recurring basis (e.g., carrying value of impaired real estate loans receivable and long-lived assets). Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The GAAP fair value framework uses a three-tiered approach. Fair value measurements are classified and disclosed in one of the following three categories:

- Level 1: unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities;
- Level 2: quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations in which significant inputs and significant value drivers are observable in active markets; and
- Level 3: prices or valuation techniques where little or no market data is available that requires inputs that are both significant to the fair value measurement and unobservable.

When available, we utilize quoted market prices from independent third-party sources to determine fair value and classify such items in Level 1 or Level 2. In instances where the market for a financial instrument is not active, regardless of the availability of a nonbinding quoted market price, observable inputs might not be relevant and could require us to make a significant adjustment to derive a fair value measurement. Additionally, in an inactive market, a market price quoted from an independent third party may rely more on models with inputs based on information available only to that independent third party. When we determine the market for a financial instrument owned by us to be illiquid or when market transactions for similar instruments do not appear orderly, we use several valuation sources (including internal valuations, discounted cash flow analysis and quoted market prices) and establish a fair value by assigning weights to the various valuation sources. Additionally, when determining the fair value of liabilities in circumstances in which a quoted price in an active market for an identical liability is not available, we measure fair value using (i) a valuation technique that uses the quoted price of the identical liability when traded as an asset or quoted prices for similar liabilities when traded as assets or (ii) another valuation technique that is consistent with the principles of fair value measurement, such as the income approach or the market approach.

Changes in assumptions or estimation methodologies can have a material effect on these estimated fair values. In this regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, may not be realized in an immediate settlement of the instrument.

We consider the following factors to be indicators of an inactive market: (i) there are few recent transactions, (ii) price quotations are not based on current information, (iii) price quotations vary substantially either over time or among market makers (for example, some brokered markets), (iv) indexes that previously were highly correlated with the fair values of the asset or liability are demonstrably uncorrelated with recent indications of fair value for that asset or liability, (v) there is a significant increase in implied liquidity risk premiums, yields, or performance indicators (such as delinquency rates or loss severities) for observed transactions or quoted prices when compared with our estimate of expected cash flows, considering all available market data about credit and other nonperformance risk for the asset or liability, (vi) there is a wide bid-ask spread or significant increase in the bid-ask spread, (vii) there is a significant decline or absence of a market for new issuances (that is, a primary market) for the asset or liability or similar assets or liabilities, and (viii) little information is released publicly (for example, a principal-to-principal market).

We consider the following factors to be indicators of non-orderly transactions: (i) there was not adequate exposure to the market for a period before the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets or liabilities under current market conditions, (ii) there was a usual and customary marketing period, but the seller marketed the asset or liability to a single market participant, (iii) the seller is in or near bankruptcy or receivership (that is, distressed), or the seller was required to sell to meet regulatory or legal requirements (that is, forced), and (iv) the transaction price is an outlier when compared with other recent transactions for the same or similar assets or liabilities.

Income Taxes

We have elected to be taxed as a REIT under the Internal Revenue Code. To continue to qualify as a REIT, we must continue to meet certain organizational and operational requirements, including a requirement to distribute at least 90% of our annual REIT taxable income to stockholders (which is computed without regard to the dividends-paid deduction or net capital gain and which does not necessarily equal net income as calculated in accordance with GAAP). As a REIT, we generally will not be subject to federal income tax on income that we distribute as dividends to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income tax on our taxable income at regular corporate income tax rates and generally will not be permitted to qualify for treatment as a REIT for federal income tax purposes for the four taxable years following the year during which qualification is lost, unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could materially and adversely affect our net income and net cash available for distribution to stockholders. However, we believe that we are organized and operate in such a manner as to qualify for treatment as a REIT.

Subsequent Events

We evaluate subsequent events up until the date the consolidated financial statements are issued.

Distributions Paid

On January 2, 2019, we paid distributions of \$9.8 million, which related to distributions declared for daily record dates for each day in the period from December 1, 2018 through December 31, 2018. Distributions for this period were calculated based on stockholders of record each day during this period at a rate of \$0.00178082 per share per day. On February 4, 2019, we paid distributions of \$9.6 million, which related to distributions in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on January 18, 2019. On March 1, 2019, we paid distributions of \$9.4 million, which related to distributions in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on February 18, 2019.

Distributions Authorized

On March 12, 2019, our board of directors authorized a March 2019 distribution in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on March 18, 2019, which we expect to pay in April 2019, and an April 2019 distribution in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on April 18, 2019, which we expect to pay in May 2019.

Investors may choose to receive cash distributions or purchase additional shares through our dividend reinvestment plan.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to the effects of interest rate changes as a result of borrowings used to maintain liquidity and to fund the acquisition, expansion and refinancing of our real estate investment portfolio and operations. We may also be exposed to the effects of changes in interest rates as a result of the acquisition and origination of mortgage and other loans. Our profitability and the value of our real estate investment portfolio may be adversely affected during any period as a result of interest rate changes. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings, prepayment penalties and cash flows and to lower overall borrowing costs. We may manage interest rate risk by maintaining a ratio of fixed rate, long-term debt such that variable rate exposure is kept at an acceptable level or by utilizing a variety of financial instruments, including interest rate caps, floors, and swap agreements, in order to limit the effects of changes in interest rates on our operations. When we use these types of derivatives to hedge the risk of interest-earning assets or interest-bearing liabilities, we may be subject to certain risks, including the risk that losses on a hedge position will reduce the funds available for the payment of distributions to our stockholders and that the losses may exceed the amount we invested in the instruments.

The table below summarizes the outstanding principal balance, weighted-average interest rates and fair value for our notes payable for each category; and the notional amounts, average pay and receive rates or strike rate, as applicable, of our derivative instruments, based on maturity dates as of December 31, 2018 (dollars in thousands):

	Maturity Date						Total Value or Notional Amount	Fair Value
	2019	2020	2021	2022	2023	Thereafter		
Assets								
<i>Derivative Instruments</i>								
Interest rate swaps, notional amount	\$ —	\$ 429,217	\$ —	\$ 703,300	\$ 76,440	\$ —	\$ 1,208,957	\$ 15,909
Average pay rate ⁽¹⁾	—	2.1%	—	2.0%	1.7%	—	2.0%	
Average receive rate ⁽²⁾	—	2.5%	—	2.5%	2.5%	—	2.5%	
Interest rate cap, notional amount ⁽³⁾	\$ 100,000	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 100,000	—
Strike rate ⁽⁴⁾	3.0%	—	—	—	—	—	3.0%	
Liabilities								
<i>Notes payable, principal outstanding</i>								
Fixed Rate	\$ —	\$ —	\$ 97,522	\$ 93,000	\$ —	\$ —	\$ 190,522	\$ 190,604
Weighted-average interest rate ⁽⁵⁾	—	—	4.0%	4.2%	—	—	4.1%	
Variable Rate	\$ 345,160	\$ 1,168,828	\$ 200,000	\$ 166,644	\$ —	\$ 125,000	\$ 2,005,632	\$ 2,011,983
Weighted-average interest rate ⁽⁵⁾	3.8%	3.9%	3.7%	3.7%	—	3.9%	3.8%	

⁽¹⁾ The average pay rate is based on the interest rate swap fixed rate.

⁽²⁾ The average receive rate is based on the 30-day LIBOR rate as of December 31, 2018.

⁽³⁾ The interest rate cap was terminated on January 1, 2019.

⁽⁴⁾ The strike rate caps one-month LIBOR on the applicable notional amount.

⁽⁵⁾ The weighted-average interest rate represents the actual interest rate in effect as of December 31, 2018 (consisting of the contractual interest rate and the effect of interest rate swaps), if applicable, using interest rate indices as of December 31, 2018, where applicable.

We borrow funds at a combination of fixed and variable rates. Interest rate fluctuations will generally not affect our future earnings or cash flows on our fixed rate debt, unless such instruments mature or are otherwise terminated. However, interest rate changes will affect the fair value of our fixed rate instruments. As of December 31, 2018, the fair value of our fixed rate debt was \$190.6 million and the outstanding principal balance of our fixed rate debt was \$190.5 million. The fair value estimate of our fixed rate debt is calculated using a discounted cash flow analysis utilizing rates we would expect to pay for debt of a similar type and remaining maturity if the loan was originated as of December 31, 2018. As we expect to hold our fixed rate instruments to maturity and the amounts due under such instruments would be limited to the outstanding principal balance and any accrued and unpaid interest, we do not expect that fluctuations in interest rates, and the resulting change in fair value of our fixed rate instruments, would have a significant impact on our operations.

Conversely, movements in interest rates on our variable rate debt would change our future earnings and cash flows, but not significantly affect the fair value of those instruments. However, changes in required risk premiums would result in changes in the fair value of variable rate instruments. As of December 31, 2018, we were exposed to market risks related to fluctuations in interest rates on \$696.7 million of variable rate debt outstanding after giving consideration to the impact of interest rate swap agreements on approximately \$1.2 billion of our variable rate debt and the impact of an interest rate cap agreement on \$100.0 million of our variable rate debt that terminated on January 1, 2019. Based on interest rates as of December 31, 2018, if interest rates were 100 basis points higher or lower during the 12 months ending December 31, 2019, interest expense on our variable rate debt would increase by \$7.4 million or decrease by \$8.0 million.

For a discussion of the interest rate risks related to the current capital and credit markets, see Part I, Item 1A, “Risk Factors” and Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

See the Index to Financial Statements at page F-1 of this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As of the end of the period covered by this report, management, including our principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures. Based upon, and as of the date of, the evaluation, our principal executive officer and principal financial officer concluded that the disclosure controls and procedures were effective as of the end of the period covered by this report to ensure that information required to be disclosed in the reports we file and submit under the Exchange Act is recorded, processed, summarized and reported as and when required. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports we file and submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and our principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Management’s Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934, as amended.

In connection with the preparation of our Form 10-K, our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2018. In making that assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control-Integrated Framework* (2013).

Based on its assessment, our management believes that, as of December 31, 2018, our internal control over financial reporting was effective based on those criteria. There have been no changes in our internal control over financial reporting that occurred during the quarter ended December 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Directors and Executive Officers

We have provided below certain information about our directors and executive officers.

Name and Address	Position(s)	Age ⁽¹⁾
Peter M. Bren	President and Director	85
Charles J. Schreiber, Jr.	Chairman of the Board, Chief Executive Officer and Director	67
Jeffrey K. Waldvogel	Chief Financial Officer, Treasurer and Secretary	41
Stacie K. Yamane	Chief Accounting Officer and Assistant Secretary	54
Barbara R. Cambon	Independent Director	65
Jeffrey A. Dritley	Independent Director	61
Stuart A. Gabriel, Ph.D.	Independent Director	65

⁽¹⁾ As of March 1, 2019.

Peter M. Bren is our President, a position he has held since January 2010, and one of our directors, a position he has held since July 2018. He is also Chairman and President of our advisor and President of KBS REIT II, positions he has held for these entities since October 2004 and August 2007, respectively. In February 2019, Mr. Bren was elected as a director of KBS REIT II. Mr. Bren is President and a director of KBS Growth & Income REIT, positions he has held since January 2015 and July 2017, respectively. Mr. Bren was also President of KBS REIT I, a position he held from June 2005 until its liquidation in December 2018, and was President and a director of KBS Legacy Partners Apartment REIT, positions he held from August 2009 and July 2009, respectively, until its liquidation in December 2018. Other than de minimis amounts owned by family members or family trusts, Mr. Bren indirectly owns and controls a 33 1/3% interest in KBS Holdings LLC, which is the sole owner of our advisor and our dealer manager. KBS Holdings is a sponsor of our company and is or was a sponsor of KBS REIT I, KBS REIT II, KBS Strategic Opportunity REIT, KBS Legacy Partners Apartment REIT, KBS Strategic Opportunity REIT II and KBS Growth & Income REIT, which were formed in 2009, 2005, 2007, 2008, 2009, 2013 and 2015, respectively.

Mr. Bren is Chairman and President of KBS Realty Advisors LLC and is a principal of Koll Bren Schreiber Realty Advisors, Inc., each an active and nationally recognized real estate investment advisor. These entities are registered as investment advisers with the SEC. The first investment advisor affiliated with Messrs. Bren and Schreiber was formed in 1992. As of December 31, 2018, KBS Realty Advisors, together with KBS affiliates, including KBS Capital Advisors, had been involved in the investment in or management of approximately \$25.9 billion of real estate investments on behalf of institutional investors, including public and private pension plans, endowments and foundations, institutional and sovereign wealth funds, and the investors in us, KBS REIT I, KBS REIT II, KBS Strategic Opportunity REIT, KBS Legacy Partners Apartment REIT, KBS Strategic Opportunity REIT II and KBS Growth & Income REIT.

Mr. Bren oversees all aspects of KBS Capital Advisors' and KBS Realty Advisors' operations, including the acquisition, management and disposition of individual investments and portfolios of investments for KBS-sponsored programs and KBS-advised investors. He also directs all facets of KBS Capital Advisors' and KBS Realty Advisors' business activities and is responsible for investor relationships.

Mr. Bren has been involved in real estate development, management, acquisition, disposition and financing for more than 40 years and with the acquisition, origination, management, disposition and financing of real estate-related debt investments for more than 30 years. Prior to taking his current positions as Chairman and President of KBS Capital Advisors and KBS Realty Advisors, he served as the President of The Bren Company, was a Senior Partner of Lincoln Property Company and was President of Lincoln Property Company, Europe. Mr. Bren is a member of the UCLA Anderson School of Management Board of Advisors and is a founding member of the Richard S. Ziman Center for Real Estate at the UCLA Anderson School of Management.

The board of directors has concluded that Mr. Bren is qualified to serve as one of our directors for reasons including his extensive industry and leadership experience. With more than 40 years of experience in real estate development, management, acquisition, disposition and financing and more than 30 years of experience with the acquisition, origination, management, disposition and financing of real estate-related debt investments, Mr. Bren has the depth and breadth of experience to implement our business strategy. As our President and a principal of our advisor, Mr. Bren is well-positioned to provide the board of directors with insights and perspectives on the execution of our business strategy, our operations and other internal matters. Further, as a principal of KBS-affiliated investment advisors; as President and a director of KBS REIT II and KBS Growth & Income REIT; as a former President and director of KBS Legacy Partners Apartment REIT; and as a former President of KBS REIT I, Mr. Bren brings to the board demonstrated management and leadership ability.

Charles J. Schreiber, Jr. is our Chairman of the Board, our Chief Executive Officer and one of our directors, positions he has held since January 2010, January 2010 and December 2009, respectively. He is also the Chief Executive Officer of our advisor and Chairman of the Board, Chief Executive Officer and a director of KBS Growth & Income REIT, positions he has held for these entities since October 2004 and January 2015, respectively. Mr. Schreiber is Chairman of the Board, Chief Executive Officer and a director of KBS REIT II, positions he has held since August 2007, August 2007 and July 2007, respectively. Mr. Schreiber was Chief Executive Officer and a director of KBS REIT I from June 2005 until its liquidation in December 2018. Other than de minimis amounts owned by family members or family trusts, Mr. Schreiber indirectly owns and controls a 33 1/3% interest in KBS Holdings LLC, which is the sole owner of our advisor and our dealer manager. KBS Holdings is a sponsor of our company and is or was a sponsor of KBS REIT I, KBS REIT II, KBS Strategic Opportunity REIT, KBS Legacy Partners Apartment REIT, KBS Strategic Opportunity REIT II and KBS Growth & Income REIT, which were formed in 2009, 2005, 2007, 2008, 2009, 2013 and 2015, respectively.

Mr. Schreiber is the Chief Executive Officer of KBS Realty Advisors LLC and is a principal of Koll Bren Schreiber Realty Advisors, Inc., each an active and nationally recognized real estate investment advisor. These entities are registered as investment advisers with the SEC. The first investment advisor affiliated with Messrs. Bren and Schreiber was formed in 1992. As of December 31, 2018, KBS Realty Advisors, together with KBS affiliates, including KBS Capital Advisors, had been involved in the investment in or management of approximately \$25.9 billion of real estate investments on behalf of institutional investors, including public and private pension plans, endowments and foundations, institutional and sovereign wealth funds, and the investors in us, KBS REIT I, KBS REIT II, KBS Strategic Opportunity REIT, KBS Legacy Partners Apartment REIT, KBS Strategic Opportunity REIT II and KBS Growth & Income REIT.

Mr. Schreiber oversees all aspects of KBS Capital Advisors' and KBS Realty Advisors' operations, including the acquisition, management and disposition of individual investments and portfolios of investments for KBS-sponsored programs and KBS-advised investors. He also directs all facets of KBS Capital Advisors' and KBS Realty Advisors' business activities and is responsible for investor relationships.

Mr. Schreiber has been involved in real estate development, management, acquisition, disposition and financing for more than 40 years and with the acquisition, origination, management, disposition and financing of real estate-related debt investments for more than 30 years. Prior to teaming with Mr. Bren in 1992, he served as the Executive Vice President of Koll Investment Management Services and Executive Vice President of Acquisitions/Dispositions for The Koll Company. During the mid-1970s through the 1980s, he was Founder and President of Pacific Development Company and was previously Senior Vice President/Southern California Regional Manager of Ashwill-Burke Commercial Brokerage.

Mr. Schreiber graduated from the University of Southern California with a Bachelor's Degree in Finance with an emphasis in Real Estate. During his four years at USC, he did graduate work in the then newly formed Real Estate Department in the USC Graduate School of Business. He is currently an Executive Board Member for the USC Lusk Center for Real Estate at the University of Southern California Marshall School of Business/School of Policy, Planning and Development and serves as a member of the Executive Committee for the Public Non-Listed REIT Council for the National Association of Real Estate Investment Trusts. He is also a member of the National Council of Real Estate Investment Fiduciaries. Mr. Schreiber has served as a member of the board of directors and executive committee of The Irvine Company since August 2016, and since December 2016, Mr. Schreiber has served on the Board of Trustees of The Irvine Company.

The board of directors has concluded that Mr. Schreiber is qualified to serve as a director, Chairman of the Board and as our Chief Executive Officer for reasons including his extensive industry and leadership experience. With more than 40 years of experience in real estate development, management, acquisition and disposition and more than 30 years of experience with the acquisition, origination, management, disposition and financing of real estate-related debt investments, he has the depth and breadth of experience to implement our business strategy. He gained his understanding of the real estate and real estate-finance markets through hands-on experience with acquisitions, asset and portfolio management, asset repositioning and dispositions. As our Chief Executive Officer and a principal of our advisor, Mr. Schreiber is best-positioned to provide the board of directors with insights and perspectives on the execution of our business strategy, our operations and other internal matters. Further, as a principal of KBS-affiliated investment advisors, as Chief Executive Officer, Chairman of the Board and a director of KBS REIT II and KBS Growth & Income REIT, as a director and trustee of The Irvine Company and as former Chief Executive Officer, Chairman of the Board and a director of KBS REIT I, Mr. Schreiber brings to the board of directors demonstrated management and leadership ability.

Jeffrey K. Waldvogel is our Chief Financial Officer, a position he has held since June 2015. In July 2018, he was also elected our Treasurer and Secretary. He is also the Chief Financial Officer of our advisor and KBS REIT II, positions he has held for each of these entities since June 2015. In August 2018, Mr. Waldvogel was elected the Treasurer and Secretary of KBS REIT II. He is also the Chief Financial Officer, Treasurer and Secretary of KBS Growth & Income REIT, positions he has held since June 2015, April 2017 and April 2017, respectively. He is also the Chief Financial Officer, Treasurer and Secretary of KBS Strategic Opportunity REIT and KBS Strategic Opportunity REIT II, positions he has held for these entities since June 2015. He was Chief Financial Officer of KBS REIT I and KBS Legacy Partners Apartment REIT from June 2015 until their respective liquidations in December 2018.

Mr. Waldvogel has been employed by an affiliate of our advisor since November 2010. With respect to the KBS-sponsored REITs advised by our advisor, he served as the Director of Finance and Reporting from July 2012 to June 2015 and as the VP Controller Technical Accounting from November 2010 to July 2012. In these roles Mr. Waldvogel was responsible for overseeing internal and external financial reporting, valuation analysis, financial analysis, REIT compliance, debt compliance and reporting, and technical accounting.

Prior to joining an affiliate of our advisor in 2010, Mr. Waldvogel was an audit senior manager at Ernst & Young LLP. During his eight years at Ernst & Young LLP, where he worked from October 2002 to October 2010, Mr. Waldvogel performed or supervised various auditing engagements, including the audit of financial statements presented in accordance with GAAP, as well as financial statements prepared on a tax basis. These auditing engagements were for clients in a variety of industries, with a significant focus on clients in the real estate industry.

In April 2002, Mr. Waldvogel received a Master of Accountancy Degree and Bachelor of Science from Brigham Young University in Provo, Utah. Mr. Waldvogel is a Certified Public Accountant (California).

Stacie K. Yamane is our Chief Accounting Officer, a position she has held since January 2010. In July 2018, she was also elected our Assistant Secretary. Ms. Yamane is also the Chief Accounting Officer, Portfolio Accounting of our advisor and Chief Accounting Officer of KBS REIT II, KBS Strategic Opportunity REIT, KBS Strategic Opportunity REIT II and KBS Growth & Income REIT, positions she has held for these entities since October 2008, October 2008, August 2009, February 2013 and January 2015, respectively. From August 2009 until its liquidation in December 2018, she served as Chief Accounting Office of KBS Legacy Partners Apartment REIT; from October 2008 until its liquidation in December 2018, she served as Chief Accounting Officer of KBS REIT I. From July 2007 to December 2008, Ms. Yamane served as the Chief Financial Officer of KBS REIT II and from July 2007 to October 2008 she served as Controller of KBS REIT II; from October 2004 to October 2008, Ms. Yamane served as Fund Controller of our advisor; from June 2005 to December 2008, she served as Chief Financial Officer of KBS REIT I and from June 2005 to October 2008 she served as Controller of KBS REIT I.

Ms. Yamane also serves as Senior Vice President/Controller, Portfolio Accounting for KBS Realty Advisors LLC, a position she has held since 2004. She served as a Vice President/Portfolio Accounting with KBS-affiliated investment advisors from 1995 to 2004. At KBS Realty Advisors, from 2004 through 2015, Ms. Yamane was responsible for client accounting/reporting for two real estate portfolios. These portfolios consisted of industrial, office and retail properties as well as land parcels. Ms. Yamane worked closely with portfolio managers, asset managers, property managers and clients to ensure the completion of timely and accurate accounting, budgeting and financial reporting. In addition, she assisted in the supervision and management of KBS Realty Advisors' accounting department.

Prior to joining an affiliate of KBS Realty Advisors in 1995, Ms. Yamane was an audit manager at Kenneth Leventhal & Company, a CPA firm specializing in real estate. During her eight years at Kenneth Leventhal & Company, Ms. Yamane performed or supervised a variety of auditing, accounting and consulting engagements including the audit of financial statements presented in accordance with GAAP, as well as financial statements presented on a cash and tax basis, the valuation of asset portfolios and the review and analysis of internal control systems. Her experiences with various KBS-affiliated entities and Kenneth Leventhal & Company give her almost 30 years of real estate experience.

Ms. Yamane received a Bachelor of Arts Degree in Business Administration with a dual concentration in Accounting and Management Information Systems from California State University, Fullerton. She is a Certified Public Accountant (inactive California).

Barbara R. Cambon is one of our independent directors and is the chair of the conflicts committee, positions she has held since September 2010. Ms. Cambon is also an independent director, chair of the conflicts committee and chair of the special committee of KBS REIT II, positions she has held since March 2008, March 2008 and January 2016, respectively. She was also an independent director, chair of the conflicts committee and chair of the special committee of KBS REIT I, positions she held from June 2005, June 2005, and January 2016, respectively, until KBS REIT I's liquidation in December 2018. From April 2009 to December 2010, she served as Chief Operating Officer of Premium One Asset Management LLC, a company whose business focuses on providing investment management services to investors. From October 2003 to October 2009, she also served as a Managing Member of Snowcreek Management LLC, a real estate asset management company whose business activities focus on residential development projects for institutional investors. As Managing Member, Ms. Cambon provided asset management services to an institutional partnership investment in residential real estate development. She has been involved in the real estate investment business for over 30 years, principally working with institutional capital sources and investment programs. From November 1999 until October 2002, she served as a Principal of Los Angeles-based Colony Capital, LLC, a private real estate investment firm, and from April 2000 until October 2002, she also served as its Chief Operating Officer. Prior to joining Colony Capital in 1999, Ms. Cambon was President and founder of Institutional Property Consultants, Inc., a real estate consulting company. She is a past director and chairman of the board of the Pension Real Estate Association and past director of the National Council of Real Estate Investment Fiduciaries. Ms. Cambon serves on the Policy Advisory Board of the University of San Diego Burnham-Moores Center for Real Estate. Ms. Cambon previously served on the board of directors of Amstar Advisers, Neighborhood National Bancorp and BioMed Realty Trust, Inc. Ms. Cambon received a Master of Business Administration from Southern Methodist University and a Bachelor of Science Degree in Education from the University of Delaware.

The board of directors has concluded that Ms. Cambon is qualified to serve as an independent director and as the chair of the conflicts committee for reasons including her expertise in real estate investment and management. Ms. Cambon's over 30 years of experience investing in, managing and disposing of real estate on behalf of investors give her a wealth of knowledge and experiences from which to draw in advising our company. As former Managing Member of her own real estate asset management company, Ms. Cambon is acutely aware of the operational challenges facing companies such as ours. Further, her service as a director and chair of the conflicts committee of KBS REIT II and as a former director of KBS REIT I, Amstar Advisers, Neighborhood National Bancorp and BioMed Realty Trust, Inc., gives her additional perspective and insight into large public companies such as ours.

Jeffrey A. Dritley is one of our independent directors, a position he has held since October 2017. He is also an independent director of KBS REIT II, a position he has held since October 2017. Mr. Dritley is Founder and Managing Partner of Kearny Real Estate Company. Kearny, headquartered in Los Angeles, is a partnership of experienced real estate professionals active in the acquisition, entitlement, repositioning, development, leasing, management and disposition of large, complex commercial projects in Southern California. Since 1993, Kearny has been involved in approximately \$4.4 billion of projects including the acquisition and work-out of approximately \$2.3 billion of distressed real estate debt.

From 1993 to 2001, Mr. Dritley served as a Managing Director of Morgan Stanley, where he was responsible for the Morgan Stanley Real Estate Fund's ("MSREF") West Coast operations and was a member of the global investment committee. During his tenure, MSREF was involved in over \$3 billion of transactions, including significant acquisitions, refinancings and work-outs. From 1986 to 1993, Mr. Dritley was employed by The Koll Company, a major real estate development company in the western United States. From 1979 to 1984, Mr. Dritley was employed by Peat, Marwick, Mitchell in Kansas City and New York City.

Mr. Dritley has 30 years of experience in the real estate industry. His experience has ranged from the acquisition, entitlement, development and redevelopment of over 14 million square feet of properties in Southern California, to creating and managing an organization with over 100 employees in the United States, Europe and Asia focused on buying and restructuring non-performing loans.

From 2009 to 2016 Mr. Dritley served as a director, chairman of the compensation committee and member of the investment committee of Bixby Land Company, a private REIT with assets exceeding \$1 billion, and from 2008 to 2016, he served as a Senior Advisor to Trigate Property Partners, a real estate private equity firm that manages a partnership with CalSTRS. He also has been active in several professional organizations, including the Los Angeles County Economic Development Corporation, for which he served on the Executive Committee, the Urban Land Institute and the Los Angeles Chapter of NAIOP, of which he is a past president. His community involvement included serving on the board of the Neighborhood Youth Association in Venice, California and volunteering his time for youth sports and Boy Scouts. Mr. Dritley is a Certified Public Accountant and holds a Bachelor's Degree in Business Administration from the University of Missouri and an MBA from Harvard Business School.

The board of directors has concluded that Mr. Dritley is qualified to serve as an independent director for reasons including his expertise in real estate acquisition, restructuring and disposition. His over 30 years of experience in the real estate industry gives him significant experience that will be of great benefit to our company and make him well-positioned to advise the board of directors with respect to potential investment, restructuring and disposition opportunities. As Founder and Managing Partner of Kearny Real Estate Company, Mr. Dritley has encountered the myriad of practical, operational and other challenges that face large real estate companies like ours. Further, in the course of serving on the board of directors of Bixby Land Company and as a Senior Advisor to Trigate Property Partners, Mr. Dritley has developed strong leadership and consensus building skills that are a valuable asset to the board of directors. In addition, as a Certified Public Accountant, he possesses valuable expertise in evaluating the financial and operational results of companies such as ours.

Stuart A. Gabriel, Ph.D. is one of our independent directors and is chair of the audit committee, positions he has held since September 2010 and August 2018, respectively. Professor Gabriel is also an independent director and is chair of the audit committee of KBS REIT II, positions he has held since March 2008 and August 2018, respectively. Professor Gabriel was an independent director of KBS REIT I from June 2005 until its liquidation in December 2018. Since June 2007, Professor Gabriel has served as Director of the Richard S. Ziman Center for Real Estate and Professor of Finance and Arden Realty Chair at the UCLA Anderson School of Management. Prior to joining UCLA he was Director and Lusk Chair in Real Estate at the USC Lusk Center for Real Estate, a position he held from 1999 to 2007. Professor Gabriel also served as Professor of Finance and Business Economics in the Marshall School of Business at the University of Southern California, a position he held from 1990 to 2007. He received a number of awards at UCLA and USC for outstanding graduate teaching. In 2004, he was elected President of the American Real Estate and Urban Economics Association. Professor Gabriel serves on the editorial boards of seven academic journals. He is also a Fellow of the Homer Hoyt Institute for Advanced Real Estate Studies. Since March 2016, Professor Gabriel has served on the board of directors of KB Home and is a member of its audit committee. Professor Gabriel has published extensively on the topics of real estate finance and urban and regional economics. His teaching and academic research experience include analysis of real estate and real estate capital markets performance as well as structured finance products, including credit default swaps, commercial mortgage-backed securities and collateralized debt obligations. Professor Gabriel serves as a consultant to numerous corporate and governmental entities. From 1986 through 1990, Professor Gabriel served on the economics staff of the Federal Reserve Board in Washington, D.C. He also has been a Visiting Scholar at the Federal Reserve Bank of San Francisco. Professor Gabriel holds a Ph.D. in Economics from the University of California, Berkeley.

The board of directors has concluded that Professor Gabriel is qualified to serve as an independent director for reasons including his extensive knowledge and understanding of the real estate and finance markets and real estate finance products. As a professor of real estate finance and economics, Professor Gabriel brings unique perspective to the board of directors. His years of research and analysis of the real estate and finance markets make Professor Gabriel well-positioned to advise us with respect to our investment and financing strategy. This expertise also makes him an invaluable resource for assessing and managing risks facing our company. Through his experience as a director of KBS REIT II and KB Home and as a former director of KBS REIT I, he also has an understanding of the requirements of serving on a public company board.

Corporate Governance

The Audit Committee

Our board of directors has established an audit committee. The audit committee's function is to assist the board of directors in fulfilling its responsibilities by overseeing (i) our accounting and financial reporting processes, (ii) the integrity of our financial statements, (iii) our independent registered public accounting firm's qualifications, performance and independence, and (iv) the performance of our internal audit function. The audit committee fulfills these responsibilities primarily by carrying out the activities enumerated in the audit committee charter. The audit committee updated and revised the audit committee charter in August 2016. The audit committee charter is available on our website at www.kbsreitiii.com.

The members of the audit committee are Jeffrey A. Dritley and Stuart A. Gabriel, Ph.D. (chair). The board of directors has determined that all of the members of the audit committee are “independent” as defined by the New York Stock Exchange. All of the members of the audit committee have significant financial and/or accounting experience, and the board of directors has determined that all of the members of the audit committee satisfy the SEC’s requirements for an “audit committee financial expert.”

Code of Conduct and Ethics

We have adopted a Code of Conduct and Ethics that applies to all of our executive officers and directors, including but not limited to, our principal executive officer, principal financial officer and principal accounting officer. Our Code of Conduct and Ethics can be found at www.kbsreitiii.com.

ITEM 11. EXECUTIVE COMPENSATION

Compensation of Executive Officers

Our conflicts committee, which is composed of all of our independent directors, discharges our board of directors’ responsibilities relating to the compensation of our executives. However, we currently do not have any paid employees and our executive officers do not receive any compensation directly from us for services rendered to us. Our executive officers are officers and/or employees of, or hold an indirect ownership interest in, our advisor and/or its affiliates, and our executive officers are compensated by these entities, in part, for their services to us or our subsidiaries. See Part III, Item 13, “Certain Relationships and Related Transactions and Director Independence — Report of the Conflicts Committee — Certain Transactions with Related Persons” for a discussion of the fees paid to our advisor and its affiliates.

Compensation of Directors

If a director is also one of our executive officers, we do not pay any compensation to that person for services rendered as a director. The amount and form of compensation payable to our independent directors for their service to us is determined by the conflicts committee, based upon recommendations from our advisor. Two of our executive officers, Messrs. Bren and Schreiber, manage and control our advisor, and through our advisor, they are involved in recommending the compensation to be paid to our independent directors.

In order to attract and retain qualified individuals to serve as independent directors and in conjunction with the search for an independent director candidate to fill a vacancy on our board of directors at the time, the conflicts committee engaged Pearl Meyer, an independent executive compensation consultant, to conduct a review and make recommendations to the conflicts committee relating to the committee’s review of the compensation to be paid to independent directors. The conflicts committee instructed Pearl Meyer to identify a peer group of companies to determine how our independent director compensation compared to this group, to provide an analysis of the compensation paid to the independent directors of the peer group and paid to each of our independent directors and then to advise the conflicts committee with respect to such analysis. Pearl Meyer did not provide any additional services to us or the conflicts committee. Pearl Meyer was also engaged by the conflicts committee of an entity affiliated with us to provide the same analysis and advice with respect to the compensation of its independent directors. Based on consultation with and the study presented by Pearl Meyer and the recommendations contained therein, the conflicts committee’s own review of the Pearl Meyer study and the recommendation of our advisor, the conflicts committee approved a revised compensation structure for our independent directors on October 31, 2017.

We have provided below certain information regarding compensation earned by or paid to our directors during fiscal year 2018.

Name	Fees Earned or Paid in Cash in 2018	All Other Compensation	Total
Jeffrey A. Dritley	\$ 181,000	\$ —	\$ 181,000
Barbara R. Cambon	166,726	—	166,726
Stuart A. Gabriel, Ph.D.	191,000	—	191,000
Peter M. Bren ⁽¹⁾⁽²⁾	—	—	—
Peter McMillan III ⁽³⁾	—	—	—
Charles J. Schreiber, Jr. ⁽¹⁾	—	—	—

⁽¹⁾ Directors who are also our executive officers do not receive compensation for services rendered as a director.

⁽²⁾ Mr. Bren was elected to the board of directors on July 27, 2018.

⁽³⁾ Mr. McMillan’s term as a director ended on July 27, 2018.

Cash Compensation

We compensate each of our independent directors with an annual retainer of \$135,000 as well as paying compensation to our independent directors for attending meetings as follows:

- each member of the audit committee and conflicts committee is paid \$10,000 annually for service on such committees (except that the chair of each of the audit committee and conflicts committee is paid \$20,000 annually for service as the chair of such committees);
- after the tenth board of directors meeting of each calendar year, each independent director is paid (i) \$2,500 in cash for each in-person board of directors meeting attended for the remainder of the calendar year and (ii) \$2,000 in cash for each teleconference board of directors meeting attended for the remainder of the calendar year;
- after the tenth audit committee meeting of each calendar year, each member of the audit committee is paid (i) \$2,500 in cash for each in-person audit committee meeting attended for the remainder of the calendar year and (ii) \$2,000 in cash for each teleconference audit committee meeting attended for the remainder of the calendar year (except that the audit committee chair is paid \$3,000 for each in-person and teleconference audit committee meeting attended after the tenth audit committee meeting of each calendar year, for the remainder of each calendar year); and
- after the tenth conflicts committee meeting of each calendar year, each member of the conflicts committee is paid (i) \$2,500 in cash for each in-person conflicts committee meeting attended for the remainder of the calendar year and (ii) \$2,000 in cash for each teleconference conflicts committee meeting attended for the remainder of the calendar year (except that the conflicts committee chair is paid \$3,000 for each in-person and teleconference conflicts committee meeting attended after the tenth conflicts committee meeting of each calendar year, for the remainder of each calendar year).

All directors receive reimbursement of reasonable out-of-pocket expenses incurred in connection with attendance at board of directors meetings and committee meetings.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Stock Ownership

The following table shows, as of March 1, 2019, the amount of our common stock beneficially owned (unless otherwise indicated) by (1) any person who is known by us to be the beneficial owner of more than 5% of the outstanding shares of our common stock, (2) our directors, (3) our executive officers, and (4) all of our directors and executive officers as a group.

Name and Address of Beneficial Owner ⁽¹⁾	Amount and Nature of Beneficial Ownership ⁽²⁾	Percentage of all Outstanding Shares
KBS Capital Advisors LLC	20,000 ⁽³⁾	*
Barbara R. Cambon, Independent Director	—	—
Jeffrey A. Dritley, Independent Director	—	—
Stuart A. Gabriel, Ph.D., Independent Director	—	—
Peter M. Bren, President and Director	20,000 ⁽³⁾	*
Charles J. Schreiber, Jr., Chairman of the Board, Chief Executive Officer and Director	20,000 ⁽³⁾	*
Jeffrey K. Waldvogel, Chief Financial Officer, Treasurer and Secretary	—	—
Stacie K. Yamane, Chief Accounting Officer and Assistant Secretary	—	—
All executive officers and directors as a group	20,000 ⁽³⁾	*

* Less than 1% of the outstanding common stock.

⁽¹⁾ The address of each named beneficial owner is 800 Newport Center Drive, Suite 700, Newport Beach, California 92660.

⁽²⁾ None of the shares is pledged as security.

⁽³⁾ Includes 20,000 shares owned by KBS Capital Advisors, which is indirectly owned and controlled by Peter M. Bren, Keith D. Hall, Peter McMillan III and Charles J. Schreiber, Jr.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

Director Independence

A majority of our board of directors, Messrs. Dritley and Gabriel and Ms. Cambon, meet the independence criteria as specified in our charter, as set forth on Appendix A attached hereto. In addition, and although our shares are not listed for trading on any national securities exchange, two of our directors, all of the members of the audit committee and a majority of the conflicts committee are “independent” as defined by the New York Stock Exchange. The board of directors has affirmatively determined that Jeffrey A. Dritley and Stuart A. Gabriel, Ph.D. each satisfies the New York Stock Exchange independence standards. On June 13, 2018, an affiliate of our advisor offered Ms. Cambon the positions of chief executive officer and chief investment officer of the external manager of a to-be-launched KBS-sponsored fund. On June 14, 2018, Ms. Cambon verbally accepted the offer, subject to mutual agreement of written documentation of all terms. Until Ms. Cambon’s official appointment as chief executive officer and chief investment officer of the external manager, Ms. Cambon will continue to meet the independent director criteria as specified in our charter. As a result of her acceptance of this offer, our board of directors determined that Ms. Cambon was no longer “independent” as defined under the rules of the New York Stock Exchange, and Ms. Cambon resigned from the audit committee in July 2018. In addition, Ms. Cambon has agreed to recuse herself from the review, deliberation and approval of all matters that could raise a potential conflict of interest.

In determining that Professor Gabriel is independent under the New York Stock Exchange independence standards, the board of directors considered that (i) Peter M. Bren, one of our executive officers and one of our directors, is a member of the UCLA Anderson School of Management Board of Advisors and is a founding member of the Richard S. Ziman Center for Real Estate at the UCLA Anderson School of Management, (ii) Professor Gabriel is a Director of the Richard S. Ziman Center for Real Estate and Professor of Finance and Arden Realty Chair at the UCLA Anderson School of Management and (iii) in March 2012, Mr. Bren pledged a gift of \$1.25 million to the Richard S. Ziman Center for Real Estate at the UCLA Anderson School of Management. The contribution by Mr. Bren was made over five years in the amount of \$250,000 per year. In addition, the board of directors considered that in 2017 Mr. Bren made an additional contribution to the Richard S. Ziman Center for Real Estate at the UCLA Anderson School of Management in the amount of \$250,000. Because these contributions were made to a tax exempt entity and the contributions did not exceed \$250,000 in any year, the board of directors determined that these contributions were not material and Professor Gabriel met the New York Stock Exchange independence standards.

Report of the Conflicts Committee

Review of Our Policies

The conflicts committee has reviewed our policies and determined that they are in the best interest of our stockholders. Set forth below is a discussion of the basis for that determination.

Offering Policy. We continue to offer shares under our dividend reinvestment plan. In some states, we will need to renew the registration statement annually or file a new registration statement to continue our dividend reinvestment plan offering. We may terminate our dividend reinvestment plan offering at any time. For the year ended December 31, 2018, the costs of raising capital in our dividend reinvestment plan offering represented less than 1% of the capital raised.

Acquisition and Investment Policies. We have invested all of the net proceeds of our now-terminated primary initial public offering in a diverse portfolio of real estate investments. From time to time, and based upon asset sales, availability under our debt facilities or market conditions, we may seek to make additional real estate investments.

Other than our investments in joint ventures for the development of Hardware Village and Village Center Station II, we have made investments in core real estate properties, which are generally lower risk, existing properties with at least 80% occupancy and minimal near-term lease rollover. Our primary investment focus has been core office properties located throughout the United States, though we may also invest in other types of properties. Our core property focus in the U.S. office sector has reflected a more value-creating core strategy. In many cases, these properties have slightly higher (10% to 15%) vacancy rates and/or higher near-term lease rollover at acquisition than more conservative value-maintaining core properties. These characteristics may provide us with opportunities to lease space at higher rates, especially in markets with increasing absorption, or to re-lease space at higher rates, bringing below-market rates of in-place expiring leases up to market rates. Many of these properties required or will require a moderate level of additional investment for capital expenditures and tenant improvement costs in order to improve or rebrand the properties and increase rental rates. Thus, we believe these properties provide an opportunity for us to achieve more significant capital appreciation by increasing occupancy, negotiating new leases with higher rental rates and/or executing enhancement projects.

We generally hold fee title to the real estate properties in our portfolio. We have also made investments through joint ventures and in the future we may enter into other joint ventures, partnerships and co-ownership arrangements (including preferred equity investments) or participations for the purpose of obtaining interests in real estate properties and other real estate investments.

We may make adjustments to our target portfolio based on real estate market conditions and investment opportunities. We will not forego a good investment because it does not precisely fit our expected portfolio composition. We believe that we are most likely to meet our investment objectives through the careful selection and underwriting of assets. When making an acquisition, we will emphasize the performance and risk characteristics of that investment, how that investment will fit with our portfolio-level performance objectives, the other assets in our portfolio and how the returns and risks of that investment compare to the returns and risks of available investment alternatives. Thus, to the extent that our advisor presents us with what we believe to be good investment opportunities that allow us to meet the REIT requirements under the Internal Revenue Code of 1986, as amended, our portfolio composition may vary from what we currently expect. In fact, we may invest in whatever types of real estate or real estate-related assets we believe are in our best interests. However, we will attempt to construct a portfolio that produces stable and attractive returns by spreading risk across different real estate investments.

As of March 8, 2019, we owned 28 office properties and one mixed-use office/retail property and we had entered into a consolidated joint venture to develop and subsequently operate the Hardware Village apartment project, which is currently under construction.

Borrowing Policies. We have financed our real estate acquisitions to date with a combination of the proceeds received from our now-terminated initial public offering and debt. We may use proceeds from borrowings to: finance acquisitions of new properties or assets or for originations of new loans; pay for capital improvements, repairs or tenant build-outs to properties; refinance existing indebtedness; pay distributions; or provide working capital. Our investment strategy is to utilize primarily secured and possibly unsecured debt to finance our investment portfolio.

We expect that our debt financing and other liabilities will be between 45% and 65% of the cost of our tangible assets (before deducting depreciation and other non-cash reserves). There is no limitation on the amount we may borrow for the purchase of any single asset. We limit our total liabilities to 75% of the cost (before deducting depreciation and other non-cash reserves) of our tangible assets, meaning that our borrowings and other liabilities may exceed our maximum target leverage of 65% of the cost of our tangible assets without violating these borrowing restrictions. We may exceed the 75% limit only if a majority of the conflicts committee approves each borrowing in excess of this limitation and we disclose such borrowings to our stockholders in our next quarterly report with an explanation from the conflicts committee of the justification for the excess borrowing. To the extent financing in excess of this limit is available on attractive terms, the conflicts committee may approve debt in excess of this limit. From time to time, our total liabilities could also be below 45% of the cost of our tangible assets due to the lack of availability of debt financing. As of January 31, 2019, our borrowings and other liabilities were approximately 63% of both the cost (before deducting depreciation and other noncash reserves) and book value (before deducting depreciation) of our tangible assets, respectively.

Disposition Policies. We generally intend to hold our core properties for three to seven years, which we believe is a reasonable period to enable us to capitalize on the potential for increased income and capital appreciation of properties. However, economic and market conditions have influenced us to hold certain real estate properties for different periods of time. Our advisor develops a well-defined exit strategy for each investment we make and periodically performs a hold-sell analysis on each investment. These periodic analyses focus on the remaining available value enhancement opportunities for the investment, the demand for the investment in the marketplace, market conditions and our overall portfolio objectives to determine if the sale of the investment, whether via an individual sale or as part of a portfolio sale or merger, would generate a favorable return to our stockholders. We may sell an investment before the end of the expected holding period if we believe that market conditions and asset positioning have maximized its value to us or the sale of the investment would otherwise be in the best interest of our stockholders.

We sold one office property during the year ended December 31, 2018.

Policy Regarding Working Capital Reserves. We establish an annual budget for capital requirements and working capital reserves that we update periodically during the year. We may also use proceeds from our dividend reinvestment plan offering, cash on hand, proceeds from asset sales, debt proceeds and cash flow from operations to meet our needs for working capital and to build a moderate level of cash reserves.

Policies Regarding Operating Expenses. Under our charter, we are required to limit our total operating expenses to the greater of 2% of our average invested assets or 25% of our net income for the four most recently completed fiscal quarters, as these terms are defined in our charter, unless the conflicts committee has determined that such excess expenses were justified based on unusual and non-recurring factors. Operating expenses for the four fiscal quarters ended December 31, 2018 did not exceed the charter-imposed limitation. For the four consecutive quarters ended December 31, 2018, total operating expenses represented approximately 1.0% and 24% of our average invested assets and our net income, respectively.

Policy Regarding Transactions with Related Persons

Our charter requires the conflicts committee to review and approve all transactions between us and our advisor, any of our officers or directors or any of their affiliates. Prior to entering into a transaction with a related party, a majority of the conflicts committee must conclude that the transaction is fair and reasonable to us. In addition, our Code of Conduct and Ethics lists examples of types of transactions with related parties that would create prohibited conflicts of interest and requires our officers and directors to be conscientious of actual and potential conflicts of interest with respect to our interests and to seek to avoid such conflicts or handle such conflicts in an ethical manner at all times consistent with applicable law. Our executive officers and directors are required to report potential and actual conflicts to the Compliance Officer, currently our advisor's Chief Audit Executive, via the Ethics Hotline or directly to the audit committee chair, as appropriate.

Certain Transactions with Related Persons

The conflicts committee has reviewed the material transactions between our affiliates and us since the beginning of 2018 as well as any such currently proposed material transactions. Set forth below is a description of such transactions and the conflicts committee's report on their fairness.

We have entered into agreements with certain affiliates pursuant to which they provide services to us. Peter M. Bren, Keith D. Hall, Peter McMillan III and Charles J. Schreiber, Jr. control and indirectly own KBS Capital Advisors, our advisor, and KBS Capital Markets Group, our dealer manager. Messrs. Bren and Schreiber are also two of our executive officers and two of our directors. Our advisor has three managers: an entity owned and controlled by Mr. Bren; an entity owned and controlled by Messrs. Hall and McMillan; and an entity owned and controlled by Mr. Schreiber.

Our Relationship with KBS Capital Advisors. Since our inception, our advisor has provided day-to-day management of our business. Among the services that are provided or have been provided by our advisor under the terms of the advisory agreement are the following:

- finding, presenting and recommending to us real estate and real estate-related investment opportunities consistent with our investment policies and objectives;
- structuring the terms and conditions of our investments, sales and joint ventures;
- acquiring properties and other investments on our behalf in compliance with our investment objectives and policies;
- sourcing and structuring our loan originations and acquisitions;
- arranging for financing and refinancing of our properties and our other investments;
- entering into leases and service contracts for our properties;
- supervising and evaluating each property manager's performance;
- reviewing and analyzing the properties' operating and capital budgets;
- assisting us in obtaining insurance;
- generating an annual budget for us;
- reviewing and analyzing financial information for each of our assets and our overall portfolio;
- formulating and overseeing the implementation of strategies for the administration, promotion, management, operation, maintenance, improvement, financing and refinancing, marketing, leasing and disposition of our properties and other investments;
- performing investor-relations services;
- maintaining our accounting and other records and assisting us in filing all reports required to be filed with the SEC, the IRS and other regulatory agencies;
- engaging in and supervising the performance of our agents, including our registrar and transfer agent; and
- performing any other services reasonably requested by us.

Our advisor is subject to the supervision of the board of directors and only has such authority as we may delegate to it as our agent. The advisory agreement has a one-year term expiring September 27, 2019, subject to an unlimited number of successive one-year renewals upon the mutual consent of the parties. From January 1, 2018 through the most recent date practicable, which was January 31, 2019, we compensated our advisor as set forth below.

Our advisor or its affiliates have paid, and in the future may pay, some of the offering costs related to our dividend reinvestment plan, including, but not limited to, our legal, accounting, printing, mailing and filing fees. We are responsible for reimbursing our advisor for these costs. At the end of our dividend reinvestment plan offering, our advisor has agreed to reimburse us to the extent that organization and other offering expenses exceed 2% of gross offering proceeds. No reimbursements made by us to our advisor may cause total organization and offering expenses incurred by us to exceed 15% of the aggregate gross offering proceeds as of the date of reimbursement. From January 1, 2018 through January 31, 2019, with respect to our dividend reinvestment plan, our advisor did not incur any organization and offering expenses on our behalf.

We incur acquisition and origination fees payable to our advisor equal to 1.0% of the cost of investments acquired by us, or the amount to be funded by us to acquire or originate loans, including the sum of the amount actually paid or allocated to the purchase, development, construction or improvement of such investments, acquisition and origination expenses and any debt attributable to such investments. Acquisition and origination fees relate to services provided in connection with the selection and acquisition or origination of real estate investments. During the period from January 1, 2018 through January 31, 2019, we did not acquire any investments accounted for as a business combination, but we did acquire the unaffiliated developer's 25% equity interest in Village Center Station II and we now own 100% of the property. During the period from January 1, 2018 through January 31, 2019, we capitalized an aggregate of \$1.0 million in acquisition fees related to the development of Hardware Village and our investment in Village Center Station II. We did not originate or purchase any loans from January 1, 2018 through January 31, 2019.

In addition to acquisition and origination fees, we reimburse our advisor for customary acquisition and origination expenses, whether or not we ultimately acquire the asset. From January 1, 2018 through January 31, 2019, our advisor and its affiliates did not incur any such costs on our behalf.

For asset management services, we pay our advisor a monthly fee. With respect to investments in real property, the asset management fee is a monthly fee equal to one-twelfth of 0.75% of the amount paid or allocated to acquire the investment, plus the cost of any subsequent development, construction or improvements to the property. This amount includes any portion of the investment that was debt financed and is inclusive of acquisition expenses related thereto (but excludes acquisition fees paid or payable to our advisor). In the case of investments made through joint ventures, the asset management fee is determined based on our proportionate share of the underlying investment (but excluding acquisition fees paid or payable to our advisor). With respect to investments in loans and any investments other than real property, the asset management fee is a monthly fee calculated, each month, as one-twelfth of 0.75% of the lesser of (i) the amount actually paid or allocated to acquire or fund the loan or other investment (which amount includes any portion of the investment that was debt financed and is inclusive of acquisition or origination expenses related thereto, but is exclusive of acquisition or origination fees paid or payable to our advisor) and (ii) the outstanding principal amount of such loan or other investment, plus the acquisition or origination expenses related to the acquisition or funding of such investment (excluding acquisition or origination fees paid or payable to our advisor), as of the time of calculation.

However, with respect to asset management fees accruing from March 1, 2014, our advisor agreed to defer, without interest, our obligation to pay asset management fees for any month in which our modified funds from operations ("MFFO") for such month, as such term is defined in the practice guideline issued by the IPA in November 2010 and interpreted by us, excluding asset management fees, does not exceed the amount of distributions declared by us for record dates of that month. We remain obligated to pay our advisor an asset management fee in any month in which our MFFO, excluding asset management fees, for such month exceeds the amount of distributions declared for the record dates of that month (such excess amount, an "MFFO Surplus"); however, any amount of such asset management fee in excess of the MFFO Surplus will also be deferred under the advisory agreement. If the MFFO Surplus for any month exceeds the amount of the asset management fee payable for such month, any remaining MFFO Surplus will be applied to pay any asset management fee amounts previously deferred in accordance with the advisory agreement.

Notwithstanding the foregoing, any and all deferred asset management fees that are unpaid will become immediately due and payable at such time as our stockholders have received, together as a collective group, aggregate distributions (including distributions that may constitute a return of capital for federal income tax purposes) sufficient to provide (i) an 8.0% per year cumulative, noncompounded return on such net invested capital (the “Stockholders’ 8% Return”) and (ii) a return of their net invested capital, or the amount calculated by multiplying the total number of shares purchased by stockholders by the issue price, reduced by any amounts to repurchase shares pursuant to our share redemption program. The Stockholders’ 8% Return is not based on the return provided to any individual stockholder. Accordingly, it is not necessary for each of our stockholders to have received any minimum return in order for our advisor to receive deferred asset management fees.

From January 1, 2018 through January 31, 2019, asset management fees totaled \$29.5 million. From January 1, 2018 through January 31, 2019, we paid \$26.9 million in asset management fees, \$2.3 million of which related to asset management fees incurred in prior periods. As of January 31, 2019, we had \$4.9 million of asset management fees payable related to asset management fees incurred for the months of October 2018, December 2018 and January 2019, all of which were subsequently paid as of February 28, 2019. The amount of asset management fees deferred, if any, will vary on a month-to-month basis and the total amount of asset management fees deferred as well as the timing of the deferrals and repayments are difficult to predict as they will depend on the amount of and terms of any debt we use to acquire assets, the level of operating cash flow generated by our real estate investments, and the performance of all of the real estate investments in our portfolio and other factors. In addition, deferrals and repayments may occur in the same period, and it is possible that there could be additional deferrals in the future.

Under the advisory agreement, our advisor has the right to seek reimbursement from us for all costs and expenses it incurs in connection with the provision of services to us, including our allocable share of our advisor’s overhead, such as rent, employee costs, utilities, accounting software and cybersecurity costs. With respect to employee costs, at this time our advisor only expects to seek reimbursement for our allocable portion of the salaries, benefits and overhead of internal audit department personnel providing services to us. In the future, if our advisor seeks reimbursement for additional employee costs, such costs may include our proportionate share of the salaries of persons involved in the preparation of documents to meet SEC reporting requirements. We do not reimburse our advisor for employee costs in connection with services for which our advisor earns acquisition or origination fees or disposition fees (other than reimbursement of travel and communication expenses) or for the salaries and benefits our advisor or its affiliates may pay to our executive officers. We have also agreed with our advisor to evenly divide certain costs and expenses related to our exploration and assessment of strategic alternatives. From January 1, 2018 through January 31, 2019, we reimbursed our advisor for \$3.3 million of operating expenses, including \$0.3 million of employee costs and \$2.9 million related to our exploration and assessment of strategic alternatives. We also reimburse our advisor for certain of our direct costs incurred from third parties that were initially paid by our advisor on behalf of us.

In addition, from January 1, 2018 through January 31, 2019, our advisor reimbursed us \$0.2 million for property insurance rebates.

For substantial assistance in connection with the sale of properties or other investments, we pay our advisor or one of its affiliates 1.0% of the contract sales price of each property or other investment sold; provided, however, that if, in connection with such disposition, commissions are paid to third parties unaffiliated with our advisor or one of its affiliates, the fee paid to our advisor or one of its affiliates may not exceed the commissions paid to such unaffiliated third parties, and provided further that the aggregate disposition fees paid to our advisor or one of its affiliates and unaffiliated third parties may not exceed 6.0% of the contract sales price. We will not pay a disposition fee upon the maturity, prepayment or workout of a loan or other debt-related investment, provided that if we take ownership of a property as a result of a workout or foreclosure of a loan, we will pay a disposition fee upon the sale of such property. From January 1, 2018 through January 31, 2019, we sold one office property and incurred \$0.4 million of disposition fees, all of which had been paid as of January 31, 2019.

In connection with our initial public offering, Messrs. Bren, Hall, McMillan and Schreiber agreed to provide additional indemnification to one of the participating broker-dealers. We agreed to add supplemental coverage to our directors’ and officers’ insurance coverage to insure the obligations of Messrs. Bren, Hall, McMillan and Schreiber under this indemnification agreement in exchange for reimbursement to us by Messrs. Bren, Hall, McMillan and Schreiber for all costs, expenses and premiums related to this supplemental coverage, which does not dilute the directors and officers liability insurance coverage for the KBS entities. From January 1, 2018 through January 31, 2019, our advisor had incurred \$0.1 million for the costs of the supplemental coverage obtained by us, all of which had been paid to the insurer or reimbursed to us as of January 31, 2019.

The conflicts committee considers our relationship with our advisor, our sponsor and Messrs. Bren, Hall, McMillan and Schreiber during 2018 to be fair. The conflicts committee believes that the amounts payable to our advisor under the advisory agreement are similar to those paid by other publicly offered, unlisted, externally advised REITs and that this compensation is necessary in order for our advisor to provide the desired level of services to us and our stockholders.

Our Relationship with KBS Capital Markets Group. We continue to offer shares under our dividend reinvestment plan offering. From January 1, 2018 through January 31, 2019, with respect to our dividend reinvestment plan offering, we did not reimburse our dealer manager for any expenses related to our dividend reinvestment plan offering.

We entered into a fee reimbursement agreement (the “AIP Reimbursement Agreement”) with our dealer manager pursuant to which we agreed to reimburse our dealer manager for certain fees and expenses it incurs for administering our participation in the DTCC Alternative Investment Product Platform with respect to certain accounts of our stockholders serviced through the platform. From January 1, 2018 through January 31, 2019, we incurred \$0.1 million of costs and expenses related to the AIP Reimbursement Agreement.

The conflicts committee believes that these arrangements with our dealer manager are fair. We believe that the compensation and reimbursements paid to our dealer manager have allowed us to achieve our goal of investing in a large, diversified portfolio of real estate investments.

Our Relationship with other KBS-Affiliated Entities. On May 29, 2015, our indirect wholly owned subsidiary that owns 3003 Washington Boulevard entered into a lease with an affiliate of our advisor for 5,046 rentable square feet, or approximately 2.3% of the total rentable square feet, at 3003 Washington Boulevard. The lease commenced on October 1, 2015 and terminates on August 31, 2019. The annualized base rent for the lease is approximately \$0.2 million, and the average annual rental rate (net of rental abatements) over the lease term is \$46.38 per square foot. From January 1, 2018 through January 31, 2019, we recognized \$0.3 million of rental income related to the lease.

Prior to their approval of the lease, the conflicts committee and board of directors determined the lease to be fair and reasonable to us. We expect to renew the lease in March of 2019 and the conflicts committee and board of directors have determined the terms of the proposed renewal to be fair and reasonable to us.

On January 6, 2014, we, together with KBS REIT I, KBS REIT II, KBS Strategic Opportunity REIT, KBS Legacy Partners Apartment REIT, KBS Strategic Opportunity REIT II, our dealer manager, our advisor and other KBS-affiliated entities, entered into an errors and omissions and directors and officers liability insurance program where the lower tiers of such insurance coverage are shared. The cost of these lower tiers is allocated by our advisor and its insurance broker among each of the various entities covered by the program, and is billed directly to each entity. In June 2018, we renewed our participation in the program. The program is effective through June 30, 2019. At renewal, KBS Strategic Opportunity REIT, KBS Strategic Opportunity REIT II and KBS Legacy Partners Apartment REIT elected to cease participation in the program and obtained separate insurance coverage. KBS REIT I elected to cease participation in the program at the June 2017 renewal and obtained separate insurance coverage.

The conflicts committee believes that these arrangements with other KBS-affiliated entities are fair.

From January 1, 2018 through January 31, 2019, no other transactions occurred between us and KBS REIT I (which liquidated in December 2018), KBS REIT II, KBS Strategic Opportunity REIT, KBS Strategic Opportunity REIT II, KBS Legacy Partners Apartment REIT (which liquidated in December 2018), KBS Growth & Income REIT, our dealer manager, our advisor or other KBS-affiliated entities.

Currently Proposed Transactions. There are no currently proposed material transactions with related persons other than those covered by the terms of the agreements described above.

The conflicts committee has determined that the policies set forth in this Report of the Conflicts Committee are in the best interest of our stockholders because they provide us with the highest likelihood of achieving our investment objectives.

March 12, 2019

The Conflicts Committee of the Board of Directors:
Barbara R. Cambon (chair), Jeffrey A. Dritley and Stuart A. Gabriel, Ph.D.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Independent Registered Public Accounting Firm

During the year ended December 31, 2018, Ernst & Young LLP served as our independent registered public accounting firm and provided certain tax and other services. Ernst & Young has served as our independent registered public accounting firm since our formation.

Pre-Approval Policies

In order to ensure that the provision of such services does not impair the independent registered public accounting firm's independence, the audit committee charter imposes a duty on the audit committee to pre-approve all auditing services performed for us by our independent registered public accounting firm, as well as all permitted non-audit services. In determining whether or not to pre-approve services, the audit committee considers whether the service is a permissible service under the rules and regulations promulgated by the SEC. The audit committee may, in its discretion, delegate to one or more of its members the authority to pre-approve any audit or non-audit services to be performed by our independent registered public accounting firm, provided any such approval is presented to and approved by the full audit committee at its next scheduled meeting.

For the years ended December 31, 2018 and 2017, all services rendered by Ernst & Young were pre-approved in accordance with the policies and procedures described above.

Principal Independent Registered Public Accounting Firm Fees

The audit committee reviewed the audit and non-audit services performed by Ernst & Young, as well as the fees charged by Ernst & Young for such services. In its review of the non-audit service fees, the audit committee considered whether the provision of such services is compatible with maintaining the independence of Ernst & Young. The aggregate fees billed to us for professional accounting services, including the audit of our annual financial statements by Ernst & Young for the years ended December 31, 2018 and 2017, are set forth in the table below.

	<u>2018</u>	<u>2017</u>
Audit fees	\$ 673,000	\$ 658,500
Audit-related fees	—	—
Tax fees	152,024	122,453
All other fees	1,412	285
Total	<u>\$ 826,436</u>	<u>\$ 781,238</u>

For purposes of the preceding table, Ernst & Young's professional fees are classified as follows:

- Audit fees - These are fees for professional services performed for the audit of our annual financial statements and the required review of quarterly financial statements and other procedures performed by Ernst & Young in order for them to be able to form an opinion on our consolidated financial statements. These fees also cover services that are normally provided by independent registered public accounting firms in connection with statutory and regulatory filings or engagements.
- Audit-related fees - These are fees for assurance and related services that traditionally are performed by independent registered public accounting firms that are reasonably related to the performance of the audit or review of our financial statements, such as due diligence related to acquisitions and dispositions, attestation services that are not required by statute or regulation, internal control reviews and consultation concerning financial accounting and reporting standards.
- Tax fees - These are fees for all professional services performed by professional staff in our independent registered public accounting firm's tax division, except those services related to the audit of our financial statements. These include fees for tax compliance, tax planning and tax advice, including federal, state and local issues. Services may also include assistance with tax audits and appeals before the U.S. Internal Revenue Service and similar state and local agencies, as well as federal, state and local tax issues related to due diligence.
- All other fees - These are fees for any services not included in the above-described categories.

Appendix A

Capitalized terms used herein shall have the meaning set forth in our charter.

Independent Directors. The directors of the Corporation who are not associated and have not been associated within the last two years, directly or indirectly, with the Sponsor or Advisor of the Corporation.

- (a) A director shall be deemed to be associated with the Sponsor or Advisor if he or she:
 - (i) owns an interest in the Sponsor, Advisor or any of their Affiliates;
 - (ii) is employed by the Sponsor, Advisor or any of their Affiliates;
 - (iii) is an officer or director of the Sponsor, Advisor or any of their Affiliates;
 - (iv) performs services, other than as a director, for the Corporation;
 - (v) is a director for more than three REITs organized by the Sponsor or advised by the Advisor; or
 - (vi) has any material business or professional relationship with the Sponsor, Advisor or any of their Affiliates.
- (b) For purposes of determining whether or not a business or professional relationship is material pursuant to (a)(vi) above, the annual gross revenue derived by the director from the Sponsor, Advisor and their Affiliates shall be deemed material per se if it exceeds 5% of the director's:
 - (i) annual gross revenue, derived from all sources, during either of the last two years; or
 - (ii) net worth, on a fair market value basis.
- (c) An indirect relationship shall include circumstances in which a director's spouse, parent, child, sibling, mother- or father-in-law, son- or daughter-in-law or brother- or sister-in-law is or has been associated with the Sponsor, Advisor any of their Affiliates or the Corporation.

Financial Statement Schedule

Schedule III - Real Estate Assets and Accumulated Depreciation and Amortization	F-41
---	------

All other schedules are omitted because they are not applicable or the required information is shown in the financial statements or notes thereto.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of
KBS Real Estate Investment Trust III, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of KBS Real Estate Investment Trust III, Inc. (the Company) as of December 31, 2018 and 2017, the related consolidated statements of operations, comprehensive income (loss), equity and cash flows for each of the three years in the period ended December 31, 2018, and the related notes and financial statement schedule listed in the Index at Item 15(a), Schedule III - Real Estate Assets and Accumulated Depreciation and Amortization (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2018 and 2017, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2018, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 2010.

KBS REAL ESTATE INVESTMENT TRUST III, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2018

1. ORGANIZATION

KBS Real Estate Investment Trust III, Inc. (the “Company”) was formed on December 22, 2009 as a Maryland corporation that elected to be taxed as a real estate investment trust (“REIT”) beginning with the taxable year ended December 31, 2011 and it intends to continue to operate in such manner. Substantially all of the Company’s business is conducted through KBS Limited Partnership III (the “Operating Partnership”), a Delaware limited partnership. The Company is the sole general partner of and owns a 0.1% partnership interest in the Operating Partnership. KBS REIT Holdings III LLC (“REIT Holdings III”), the limited partner of the Operating Partnership, owns the remaining 99.9% interest in the Operating Partnership and is its sole limited partner. The Company is the sole member and manager of REIT Holdings III.

Subject to certain restrictions and limitations, the business of the Company is externally managed by KBS Capital Advisors LLC (the “Advisor”), an affiliate of the Company, pursuant to an advisory agreement the Company entered into with the Advisor (the “Advisory Agreement”). On January 26, 2010, the Company issued 20,000 shares of its common stock to the Advisor at a purchase price of \$10.00 per share. As of December 31, 2018, the Advisor owned 20,000 shares of the Company’s common stock.

The Company owns a diverse portfolio of real estate investments. As of December 31, 2018, the Company owned 28 office properties and one mixed-use office/retail property and had entered into a consolidated joint venture to develop and subsequently operate a multifamily apartment project, which is currently under construction.

The Company commenced its initial public offering (the “Offering”) on October 26, 2010. Upon commencing the Offering, the Company retained KBS Capital Markets Group LLC (the “Dealer Manager”), an affiliate of the Company, to serve as the dealer manager of the Offering pursuant to a dealer manager agreement, as amended and restated (the “Dealer Manager Agreement”). The Company ceased offering shares of common stock in the primary Offering on May 29, 2015 and terminated the primary Offering on July 28, 2015.

The Company sold 169,006,162 shares of common stock in the primary Offering for gross proceeds of \$1.7 billion. As of December 31, 2018, the Company had also sold 27,926,537 shares of common stock under its dividend reinvestment plan for gross offering proceeds of \$280.9 million. Also as of December 31, 2018, the Company had redeemed 19,687,309 shares sold in the Offering for \$210.5 million.

Additionally, on October 3, 2014, the Company issued 258,462 shares of common stock for \$2.4 million in private transactions exempt from the registration requirements pursuant to Section 4(a)(2) of the Securities Act of 1933.

The Company continues to offer shares of common stock under its dividend reinvestment plan. In some states, the Company will need to renew the registration statement annually or file a new registration statement to continue its dividend reinvestment plan offering. The Company may terminate its dividend reinvestment plan offering at any time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation and Basis of Presentation

The consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) as contained within the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) and the rules and regulations of the Securities and Exchange Commission (the “SEC”).

The consolidated financial statements include the accounts of the Company, REIT Holdings III, the Operating Partnership, their direct and indirect wholly owned subsidiaries and a joint venture in which the Company has a controlling interest. All significant intercompany balances and transactions are eliminated in consolidation.

Use of Estimates

The preparation of the consolidated financial statements and accompanying notes thereto in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could materially differ from those estimates.

KBS REAL ESTATE INVESTMENT TRUST III, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

Reclassifications

Certain amounts in the Company's prior period consolidated financial statements have been reclassified to conform to the current period presentation. These reclassifications have not changed the results of operations of the prior period. During the year ended December 31, 2017, the Company classified one office property as held for sale, which the Company subsequently sold in May 2018. As a result, certain assets and liabilities were reclassified to held for sale on the consolidated balance sheets for all periods presented.

Revenue Recognition

Real Estate

The Company recognizes minimum rent, including rental abatements, lease incentives and contractual fixed increases attributable to operating leases, on a straight-line basis over the term of the related leases when collectability is reasonably assured and records amounts expected to be received in later years as deferred rent receivable. If the lease provides for tenant improvements, the Company determines whether the tenant improvements, for accounting purposes, are owned by the tenant or the Company. When the Company is the owner of the tenant improvements, the tenant is not considered to have taken physical possession or have control of the physical use of the leased asset until the tenant improvements are substantially completed. When the tenant is the owner of the tenant improvements, any tenant improvement allowance (including amounts that the tenant can take in the form of cash or a credit against its rent) that is funded is treated as a lease incentive and amortized as a reduction of revenue over the lease term. Tenant improvement ownership is determined based on various factors including, but not limited to:

- whether the lease stipulates how a tenant improvement allowance may be spent;
- whether the amount of a tenant improvement allowance is in excess of market rates;
- whether the tenant or landlord retains legal title to the improvements at the end of the lease term;
- whether the tenant improvements are unique to the tenant or general-purpose in nature; and
- whether the tenant improvements are expected to have any residual value at the end of the lease.

The Company records property operating expense reimbursements due from tenants for common area maintenance, real estate taxes, and other recoverable costs in the period the related expenses are incurred.

The Company makes estimates of the collectability of its tenant receivables related to base rents, including deferred rent receivable, expense reimbursements and other revenue or income. Management specifically analyzes accounts receivable, deferred rent receivable, historical bad debts, customer creditworthiness, current economic trends and changes in customer payment terms when evaluating the adequacy of the allowance for doubtful accounts. In addition, with respect to tenants in bankruptcy, management makes estimates of the expected recovery of pre-petition and post-petition claims in assessing the estimated collectability of the related receivable. In some cases, the ultimate resolution of these claims can exceed one year. When a tenant is in bankruptcy, the Company will record a bad debt reserve for the tenant's receivable balance and generally will not recognize subsequent rental revenue until cash is received or until the tenant is no longer in bankruptcy and has the ability to make rental payments.

Effective January 1, 2018, the Company adopted ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* ("ASU No. 2014-09"), using the modified retrospective approach, which requires a cumulative effect adjustment as of the date of the Company's adoption. Under the modified retrospective approach, an entity may also elect to apply this standard to either (i) all contracts as of January 1, 2018 or (ii) only to contracts that were not completed as of January 1, 2018. A completed contract is a contract for which all (or substantially all) of the revenue was recognized under legacy GAAP that was in effect before the date of initial application. The Company elected to apply this standard only to contracts that were not completed as of January 1, 2018.

Based on the Company's evaluation of contracts within the scope of ASU No. 2014-09, revenue that is impacted by ASU No. 2014-09 includes revenue generated by sales of real estate, other operating income and tenant reimbursements for substantial services earned at the Company's properties. The recognition of such revenue will occur when the services are provided and the performance obligations are satisfied. For the year ended December 31, 2018, tenant reimbursements for substantial services accounted for under ASU No. 2014-09 were \$7.4 million and were included in tenant reimbursements on the accompanying statements of operations.

KBS REAL ESTATE INVESTMENT TRUST III, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

Sales of Real Estate

Prior to January 1, 2018, gains on real estate sold were recognized using the full accrual method at closing when collectibility of the sales price was reasonably assured, the Company was not obligated to perform additional activities that may be considered significant, the initial investment from the buyer was sufficient and other profit recognition criteria had been satisfied. Gain on sales of real estate may have been deferred in whole or in part until the requirements for gain recognition had been met.

Effective January 1, 2018, the Company adopted the guidance of ASC 610-20, *Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets* (“ASC 610-20”), which applies to sales or transfers to noncustomers of nonfinancial assets or in substance nonfinancial assets that do not meet the definition of a business. Generally, the Company’s sales of real estate would be considered a sale of a nonfinancial asset as defined by ASC 610-20.

ASC 610-20 refers to the revenue recognition principles under ASU No. 2014-09. Under ASC 610-20, if the Company determines it does not have a controlling financial interest in the entity that holds the asset and the arrangement meets the criteria to be accounted for as a contract, the Company would derecognize the asset and recognize a gain or loss on the sale of the real estate when control of the underlying asset transfers to the buyer.

Real Estate Loan Receivable

Interest income on real estate loans receivable was recognized on an accrual basis over the life of the investment using the interest method. Direct loan origination fees and origination or acquisition costs, as well as acquisition premiums or discounts, were amortized over the term of the loan as an adjustment to interest income.

Cash and Cash Equivalents

The Company recognizes interest income on its cash and cash equivalents as it is earned and classifies such amounts as other interest income.

Real Estate

Depreciation and Amortization

Real estate costs related to the acquisition and improvement of properties are capitalized and depreciated over the expected useful life of the asset on a straight-line basis. Repair and maintenance costs are charged to expense as incurred and significant replacements and betterments are capitalized. Repair and maintenance costs include all costs that do not extend the useful life of the real estate asset. The Company considers the period of future benefit of an asset to determine its appropriate useful life. Expenditures for tenant improvements are capitalized and amortized over the shorter of the tenant’s lease term or expected useful life. The Company anticipates the estimated useful lives of its assets by class to be generally as follows:

Land	N/A
Buildings	25-40 years
Building improvements	10-25 years
Tenant improvements	Shorter of lease term or expected useful life
Tenant origination and absorption costs	Remaining term of related leases, including below-market renewal periods

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

Real Estate Acquisition Valuation

As a result of the Company's adoption of ASU No. 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*, acquisitions of real estate beginning January 1, 2017 could qualify as asset acquisitions (as opposed to business combinations). The Company records the acquisition of income-producing real estate or real estate that will be used for the production of income as a business combination or an asset acquisition. If substantially all of the fair value of the gross assets acquired are concentrated in a single identifiable asset or group of similar identifiable assets, then the set is not a business. For purposes of this test, land and buildings can be combined along with the intangible assets for any in-place leases and accordingly, most acquisitions of investment properties would not meet the definition of a business and would be accounted for as an asset acquisition. To be considered a business, a set must include an input and a substantive process that together significantly contributes to the ability to create an output. All assets acquired and liabilities assumed in a business combination are measured at their acquisition-date fair values. For asset acquisitions, the cost of the acquisition is allocated to individual assets and liabilities on a relative fair value basis. Acquisition costs associated with business combinations are expensed as incurred. Acquisition costs associated with asset acquisitions are capitalized.

The Company assesses the acquisition date fair values of all tangible assets, identifiable intangibles and assumed liabilities using methods similar to those used by independent appraisers, generally utilizing a discounted cash flow analysis that applies appropriate discount and/or capitalization rates and available market information. Estimates of future cash flows are based on a number of factors, including historical operating results, known and anticipated trends, and market and economic conditions. The fair value of tangible assets of an acquired property considers the value of the property as if it were vacant.

The Company records above-market and below-market in-place lease values for acquired properties based on the present value (using a discount rate that reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of above-market in-place leases and for the initial term plus any extended term for any leases with below-market renewal options. The Company amortizes any recorded above-market or below-market lease values as a reduction or increase, respectively, to rental income over the remaining non-cancelable terms of the respective lease, including any below-market renewal periods.

The Company estimates the value of tenant origination and absorption costs by considering the estimated carrying costs during hypothetical expected lease-up periods, considering current market conditions. In estimating carrying costs, the Company includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods.

The Company amortizes the value of tenant origination and absorption costs to depreciation and amortization expense over the remaining non-cancelable term of the leases.

Estimates of the fair values of the tangible assets, identifiable intangibles and assumed liabilities require the Company to make significant assumptions to estimate market lease rates, property-operating expenses, carrying costs during lease-up periods, discount rates, market absorption periods, and the number of years the property will be held for investment. The use of inappropriate assumptions would result in an incorrect valuation of the Company's acquired tangible assets, identifiable intangibles and assumed liabilities, which would impact the amount of the Company's net income.

Subsequent to the acquisition of a property, the Company may incur and capitalize costs necessary to get the property ready for its intended use. During that time, certain costs such as legal fees, real estate taxes and insurance and financing costs are also capitalized.

Impairment of Real Estate and Related Intangible Assets and Liabilities

The Company continually monitors events and changes in circumstances that could indicate that the carrying amounts of its real estate and related intangible assets and liabilities may not be recoverable or realized. When indicators of potential impairment suggest that the carrying value of real estate and related intangible assets and liabilities may not be recoverable, the Company assesses the recoverability by estimating whether the Company will recover the carrying value of the real estate and related intangible assets and liabilities through its undiscounted future cash flows and its eventual disposition. If, based on this analysis, the Company does not believe that it will be able to recover the carrying value of the real estate and related intangible assets and liabilities, the Company would record an impairment loss to the extent that the carrying value exceeds the estimated fair value of the real estate and related intangible assets and liabilities. The Company did not record any impairment loss on its real estate and related intangible assets during the years ended December 31, 2018, 2017 and 2016.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

Projecting future cash flows involves estimating expected future operating income and expenses related to the real estate and its related intangible assets and liabilities as well as market and other trends. Using inappropriate assumptions to estimate cash flows could result in incorrect fair values of the real estate and its related intangible assets and liabilities and could result in the overstatement of the carrying values of our real estate and related intangible assets and liabilities and an overstatement of our net income.

Insurance Proceeds for Property Damage

The Company maintains an insurance policy that provides coverage for losses due to property damage and business interruption. Losses due to physical damage are recognized during the accounting period in which they occur, while the amount of monetary assets to be received from the insurance policy is recognized when receipt of insurance recoveries is probable. Losses, which are reduced by the related probable insurance recoveries, are recorded as operating, maintenance and management expenses on the accompanying consolidated statements of operations. Anticipated proceeds in excess of recognized losses would be considered a gain contingency and recognized when the contingency related to the insurance claim has been resolved. Anticipated recoveries for lost rental revenue due to property damage are also considered to be a gain contingency and recognized when the contingency related to the insurance claim has been resolved.

Real Estate Held for Sale and Discontinued Operations

The Company generally considers real estate to be “held for sale” when the following criteria are met: (i) management commits to a plan to sell the property, (ii) the property is available for sale immediately, (iii) the property is actively being marketed for sale at a price that is reasonable in relation to its current fair value, (iv) the sale of the property within one year is considered probable and (v) significant changes to the plan to sell are not expected. Real estate that is held for sale and its related assets are classified as “real estate held for sale” and “assets related to real estate held for sale,” respectively, for all periods presented in the accompanying consolidated financial statements. Notes payable and other liabilities related to real estate held for sale are classified as “notes payable related to real estate held for sale” and “liabilities related to real estate held for sale,” respectively, for all periods presented in the accompanying consolidated financial statements. Real estate classified as held for sale is no longer depreciated and is reported at the lower of its carrying value or its estimated fair value less estimated costs to sell. Operating results of properties and related gains on sale of properties that were disposed of or classified as held for sale in the ordinary course of business during the years ended December 31, 2018, 2017 and 2016 are included in continuing operations on the Company’s consolidated statements of operations.

Investments in Unconsolidated Joint Ventures

The Company follows the equity method of accounting for investments in joint ventures over which the Company may exercise significant influence, and for investments in joint ventures that qualify as variable interest entities of which the Company is not the primary beneficiary. Under the equity method, the investment is initially recorded at cost and subsequently adjusted to reflect additional contributions or distributions and the Company’s proportionate share of equity in the joint venture’s income (loss). The Company recognizes its proportionate share of the ongoing income or loss of the unconsolidated joint venture as equity in income (loss) of unconsolidated joint venture on the consolidated statements of operations. On a quarterly basis, the Company evaluates its investment in an unconsolidated joint venture for other-than-temporary impairments. During the year ended December 31, 2018, the Company held a 75% equity interest in an unconsolidated joint venture. In October 2018, the Company acquired the joint venture partner’s 25% equity interest, resulting in the consolidation of the investment. As of December 31, 2018, there were no unconsolidated real estate joint ventures accounted for under the equity method.

Construction in Progress

Direct investments in undeveloped land or properties without leases in place at the time of acquisition are accounted for as an asset acquisition and not as a business combination. Acquisition fees and expenses are capitalized into the cost basis of an asset acquisition. Additionally, during the time that the Company is incurring costs necessary to bring these investments to their intended use, certain costs such as legal fees, real estate taxes and insurance and financing costs are also capitalized. Once construction in progress is substantially completed, the amounts capitalized to construction in progress are transferred to land and buildings and improvements and are depreciated over their respective useful lives.

KBS REAL ESTATE INVESTMENT TRUST III, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Cash equivalents may include cash and short term investments. Cash and cash equivalents are stated at cost, which approximates fair value. There are no restrictions on the use of the Company's cash and cash equivalents as of December 31, 2018.

The Company's cash and cash equivalents balance exceeds federally insurable limits as of December 31, 2018. The Company monitors the cash balances in its operating accounts and adjusts the cash balances as appropriate; however, these cash balances could be impacted if the underlying financial institutions fail or are subject to other adverse conditions in the financial markets. To date, the Company has experienced no loss or lack of access to cash in its operating accounts.

Restricted Cash

Restricted cash is composed of lender impound reserve accounts on the Company's borrowings for capital improvements.

Rents and Other Receivables

The Company periodically evaluates the collectability of amounts due from tenants and maintains an allowance for doubtful accounts for estimated losses resulting from the inability of tenants to make required payments under lease agreements. In addition, the Company maintains an allowance for deferred rent receivable that arises from the straight-lining of rents. The Company exercises judgment in establishing these allowances and considers payment history and current credit status of its tenants in developing these estimates.

Derivative Instruments

The Company enters into derivative instruments for risk management purposes to hedge its exposure to cash flow variability caused by changing interest rates on its variable rate notes payable. The Company records these derivative instruments at fair value on the accompanying consolidated balance sheets. Derivative instruments designated and qualifying as a hedge of the exposure to variability in expected future cash flows or other types of forecasted transactions are considered cash flow hedges. The change in fair value of the effective portion of a derivative instrument that is designated as a cash flow hedge is recorded as other comprehensive income (loss) on the accompanying consolidated statements of comprehensive income (loss) and consolidated statements of equity. The changes in fair value for derivative instruments that are not designated as a hedge or that do not meet the hedge accounting criteria are recorded as gain or loss on derivative instruments and included in interest expense as presented in the accompanying consolidated statements of operations.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objectives and strategy for undertaking various hedge transactions. This process includes designating all derivative instruments that are part of a hedging relationship to specific forecasted transactions or recognized obligations on the consolidated balance sheets. The Company also assesses and documents, both at the hedging instrument's inception and on a quarterly basis thereafter, whether the derivative instruments that are used in hedging transactions are highly effective in offsetting changes in cash flows associated with the respective hedged items. When the Company determines that a derivative instrument ceases to be highly effective as a hedge, or that it is probable the underlying forecasted transaction will not occur, the Company discontinues hedge accounting prospectively and reclassifies amounts recorded to accumulated other comprehensive income (loss) to earnings.

Deferred Financing Costs

Deferred financing costs represent commitment fees, loan fees, legal fees and other third-party costs associated with obtaining financing and are presented on the balance sheet as a direct deduction from the carrying value of the associated debt liability. These costs are amortized over the terms of the respective financing agreements using the effective interest method. Unamortized deferred financing costs are generally expensed when the associated debt is refinanced or repaid before maturity unless specific rules are met that would allow for the carryover of such costs to the refinanced debt. Deferred financing costs incurred before an associated debt liability is recognized are included in prepaid and other assets on the balance sheet. Costs incurred in seeking financing transactions that do not close are expensed in the period in which it is determined that the financing will not close.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

Fair Value Measurements

Under GAAP, the Company is required to measure certain financial instruments at fair value on a recurring basis. In addition, the Company is required to measure other non-financial and financial assets at fair value on a non-recurring basis (e.g., carrying value of impaired real estate loans receivable and long-lived assets). Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The GAAP fair value framework uses a three-tiered approach. Fair value measurements are classified and disclosed in one of the following three categories:

- Level 1: unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities;
- Level 2: quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations in which significant inputs and significant value drivers are observable in active markets; and
- Level 3: prices or valuation techniques where little or no market data is available that requires inputs that are both significant to the fair value measurement and unobservable.

When available, the Company utilizes quoted market prices from independent third-party sources to determine fair value and classifies such items in Level 1 or Level 2. In instances where the market for a financial instrument is not active, regardless of the availability of a nonbinding quoted market price, observable inputs might not be relevant and could require the Company to make a significant adjustment to derive a fair value measurement. Additionally, in an inactive market, a market price quoted from an independent third party may rely more on models with inputs based on information available only to that independent third party. When the Company determines the market for a financial instrument owned by the Company to be illiquid or when market transactions for similar instruments do not appear orderly, the Company uses several valuation sources (including internal valuations, discounted cash flow analysis and quoted market prices) and establishes a fair value by assigning weights to the various valuation sources. Additionally, when determining the fair value of liabilities in circumstances in which a quoted price in an active market for an identical liability is not available, the Company measures fair value using (i) a valuation technique that uses the quoted price of the identical liability when traded as an asset or quoted prices for similar liabilities when traded as assets or (ii) another valuation technique that is consistent with the principles of fair value measurement, such as the income approach or the market approach.

Changes in assumptions or estimation methodologies can have a material effect on these estimated fair values. In this regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, may not be realized in an immediate settlement of the instrument.

The Company considers the following factors to be indicators of an inactive market: (i) there are few recent transactions, (ii) price quotations are not based on current information, (iii) price quotations vary substantially either over time or among market makers (for example, some brokered markets), (iv) indexes that previously were highly correlated with the fair values of the asset or liability are demonstrably uncorrelated with recent indications of fair value for that asset or liability, (v) there is a significant increase in implied liquidity risk premiums, yields, or performance indicators (such as delinquency rates or loss severities) for observed transactions or quoted prices when compared with the Company's estimate of expected cash flows, considering all available market data about credit and other nonperformance risk for the asset or liability, (vi) there is a wide bid-ask spread or significant increase in the bid-ask spread, (vii) there is a significant decline or absence of a market for new issuances (that is, a primary market) for the asset or liability or similar assets or liabilities, and (viii) little information is released publicly (for example, a principal-to-principal market).

The Company considers the following factors to be indicators of non-orderly transactions: (i) there was not adequate exposure to the market for a period before the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets or liabilities under current market conditions, (ii) there was a usual and customary marketing period, but the seller marketed the asset or liability to a single market participant, (iii) the seller is in or near bankruptcy or receivership (that is, distressed), or the seller was required to sell to meet regulatory or legal requirements (that is, forced), and (iv) the transaction price is an outlier when compared with other recent transactions for the same or similar assets or liabilities.

December 31, 2018

Dividend Reinvestment Plan

The Company has adopted a dividend reinvestment plan pursuant to which common stockholders may elect to have all or a portion of their dividends and other distributions, exclusive of dividends and other distributions that the Company's board of directors designates as ineligible for reinvestment through the dividend reinvestment plan, reinvested in additional shares of the Company's common stock in lieu of receiving cash distributions. Participants in the dividend reinvestment plan acquire shares of the Company's common stock at a price equal to 95% of the estimated value per share of the Company's common stock, as determined by the Advisor or another firm chosen by the Company's board of directors for that purpose.

On December 8, 2015, the Company's board of directors approved an estimated value per share of the Company's common stock of \$10.04 (unaudited) based on the estimated value of the Company's assets less the estimated value of the Company's liabilities, or net asset value, divided by the number of shares outstanding, all as of September 30, 2015, with the exception of a reduction to the Company's net asset value for acquisition fees and closing costs related to a real estate acquisition that closed subsequent to September 30, 2015 and deferred financing costs related to a mortgage loan that closed subsequent to September 30, 2015. The change in the dividend reinvestment plan purchase price was effective for the January 4, 2016 dividend reinvestment plan purchase date and was effective until the estimated value per share was updated. Commencing with the January 4, 2016 purchase date and until the estimated value per share was updated, the purchase price per share under the dividend reinvestment plan was \$9.54.

On December 9, 2016, the Company's board of directors approved an estimated value per share of the Company's common stock of \$10.63 (unaudited) based on the estimated value of the Company's assets less the estimated value of the Company's liabilities, or net asset value, divided by the number of shares outstanding, all as of September 30, 2016. The change in the dividend reinvestment plan purchase price was effective for the January 3, 2017 dividend reinvestment plan purchase date and was effective until the estimated value per share was updated. Commencing with the January 3, 2017 purchase date and until the estimated value per share was updated, the purchase price per share under the dividend reinvestment plan was \$10.10.

On December 6, 2017, the Company's board of directors approved an estimated value per share of the Company's common stock of \$11.73 (unaudited) based on the estimated value of the Company's assets less the estimated value of the Company's liabilities, or net asset value, divided by the number of shares outstanding, all as of September 30, 2017, with the exception of a reduction to the Company's net asset value for deferred financing costs related to a portfolio loan facility that closed subsequent to September 30, 2017. The change in the dividend reinvestment plan purchase price was effective for the January 2, 2018 dividend reinvestment plan purchase date and was effective until the estimated value per share was updated. Commencing with the January 2, 2018 purchase date and until the estimated value per share was updated, the purchase price per share under the dividend reinvestment plan was \$11.15.

On December 3, 2018, the Company's board of directors approved an estimated value per share of the Company's common stock of \$12.02 (unaudited) based on the estimated value of the Company's assets less the estimated value of the Company's liabilities, or net asset value, divided by the number of shares outstanding, all as of September 30, 2018, with the exception of an adjustment to the Company's net asset value for the acquisition and assumed loan costs related to the Company's buyout of a joint venture partner's equity interest in a joint venture that closed subsequent to September 30, 2018 and a reduction to the Company's net asset value for deferred financing costs related to a portfolio revolving loan facility that closed subsequent to September 30, 2018. The change in the dividend reinvestment plan purchase price was effective for the January 2, 2019 dividend reinvestment plan purchase date and is effective until the estimated value per share is updated. Thus, commencing with the January 2, 2019 purchase date and until the estimated value per share is updated, the purchase price per share under the dividend reinvestment plan is \$11.42.

No selling commissions or dealer manager fees will be paid on shares sold under the dividend reinvestment plan. The board of directors of the Company may amend or terminate the dividend reinvestment plan for any reason upon 10 days' notice to participants.

Redeemable Common Stock

The Company's board of directors has adopted a share redemption program that may enable stockholders to sell their shares to the Company in limited circumstances.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

There are several limitations on the Company's ability to redeem shares under the share redemption program:

- Unless the shares are being redeemed in connection with a stockholder's death, "qualifying disability" or "determination of incompetence" (each as defined in the share redemption program, and together with redemptions sought in connection with a stockholder's death, "Special Redemptions"), the Company may not redeem shares unless the stockholder has held the shares for one year.
- During any calendar year, the share redemption program limits the number of shares the Company may redeem to those that the Company could purchase with the amount of net proceeds from the sale of shares under the dividend reinvestment plan during the prior calendar year. Notwithstanding anything contained in the share redemption program to the contrary, the Company may increase or decrease the funding available for the redemption of shares pursuant to the program upon ten business days' notice to its stockholders. The Company may provide notice by including such information (a) in a Current Report on Form 8-K or in its annual or quarterly reports, all publicly filed with the SEC or (b) in a separate mailing to its stockholders. On May 8, 2018, the Company's board of directors approved an increase of the funding available for the redemption of shares under the share redemption program by up to an additional \$10.0 million for the May 2018 redemption date, with such increased amount to be used solely for Special Redemptions. In addition, on May 8, 2018, the Company's board of directors approved the Fourth Amended and Restated Share Redemption Program (the "Fourth SRP"), which was effective June 8, 2018. The Fourth SRP provided that, for calendar year 2018 only, in addition to the number of shares that the Company could purchase with the amount of net proceeds from the sale of shares under the dividend reinvestment plan during calendar year 2017, the Company may redeem up to an additional \$42.0 million of shares, less the actual dollar amount of Special Redemptions processed on the May 2018 redemption date (such difference, the "2018 Additional Funding"); provided, however, that once the Company received requests for redemptions, whether in connection with Special Redemptions or otherwise, that if honored would result in the amount of the remaining 2018 Additional Funding being \$10.0 million or less, the remaining \$10.0 million of the 2018 Additional Funding would be reserved exclusively for Special Redemptions. The Fourth SRP also provides that during any calendar year subsequent to calendar year 2018, once the Company has received requests for redemptions, whether in connection with Special Redemptions or otherwise, that if honored, and when combined with all prior redemptions made during the calendar year, would result in the amount of remaining funds available for the redemption of additional shares in such calendar year being \$10.0 million or less, the last \$10.0 million of available funds shall be reserved exclusively for Special Redemptions.
- During any calendar year, the Company may redeem no more than 5% of the weighted-average number of shares outstanding during the prior calendar year.
- The Company has no obligation to redeem shares if the redemption would violate the restrictions on distributions under Maryland General Corporation Law, as amended from time to time, which prohibits distributions that would cause a corporation to fail to meet statutory tests of solvency.

Pursuant to the share redemption program, redemptions made in connection with Special Redemptions are made at a price per share equal to the most recent estimated value per share of the Company's common stock as of the applicable redemption date. From January 1, 2016 through June 8, 2018, the effective date of the Fourth SRP, the price at which the Company redeemed all other shares eligible for redemption was as follows:

- For those shares held by the redeeming stockholder for at least one year, 92.5% of the Company's most recent estimated value per share as of the applicable redemption date;
- For those shares held by the redeeming stockholder for at least two years, 95.0% of the Company's most recent estimated value per share as of the applicable redemption date;
- For those shares held by the redeeming stockholder for at least three years, 97.5% of the Company's most recent estimated value per share as of the applicable redemption date; and
- For those shares held by the redeeming stockholder for at least four years, 100% of the Company's most recent estimated value per share as of the applicable redemption date.

Effective June 8, 2018, all redemptions other than Special Redemptions are made at a price per share equal to 95% of the Company's most recent estimated value per share as of the applicable redemption date.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

On December 6, 2017, the Company's board of directors approved an estimated value per share of its common stock of \$11.73 (unaudited) as described above under "— Dividend Reinvestment Plan." This estimated value per share became effective for the December 2017 redemption date, which was December 29, 2017.

On December 3, 2018, the Company's board of directors approved an estimated value per share of its common stock of \$12.02 (unaudited) as described above under "— Dividend Reinvestment Plan." This estimated value per share became effective for the December 2018 redemption date, which was December 31, 2018. The Company currently expects to utilize an independent valuation firm to update its estimated value per share no later than December 2019.

For purposes of determining the time period a redeeming stockholder has held each share, the time period begins as of the date the stockholder acquired the share; provided, that shares purchased by the redeeming stockholder pursuant to the dividend reinvestment plan will be deemed to have been acquired on the same date as the initial share to which the dividend reinvestment plan shares relate. The date of the share's original issuance by the Company is not determinative.

The Fourth SRP provides that the Company's board of directors may amend, suspend or terminate the share redemption program with 10 business days' notice to the Company's stockholders and that the Company may increase or decrease the funding available for the redemption of shares pursuant to the share redemption program upon 10 business days' notice. The Company may provide this notice by including such information in a Current Report on Form 8-K or in the Company's annual or quarterly reports, all publicly filed with the SEC, or by a separate mailing to its stockholders.

The Company records amounts that are redeemable under the share redemption program as redeemable common stock in the accompanying consolidated balance sheets because the shares are mandatorily redeemable at the option of the holder and therefore their redemption is outside the control of the Company. The maximum amount redeemable under the Company's share redemption program is limited to the number of shares the Company could purchase with the amount of the net proceeds from the sale of shares under the dividend reinvestment plan during the prior calendar year. However, because the amounts that can be redeemed in future periods are determinable and only contingent on an event that is likely to occur (e.g., the passage of time), the Company presents the net proceeds from the current year dividend reinvestment plan as redeemable common stock in the accompanying consolidated balance sheets.

The Company classifies financial instruments that represent a mandatory obligation of the Company to redeem shares as liabilities. The Company's redeemable common shares are contingently redeemable at the option of the holder. When the Company determines it has a mandatory obligation to redeem shares under the share redemption program, it will reclassify such obligations from temporary equity to a liability based upon their respective settlement values.

The Company limits the dollar value of shares that may be redeemed under the program as described above. For the year ended December 31, 2018, the Company redeemed \$94.8 million of common stock, which represented all redemption requests received in good order and eligible for redemption through the December 2018 redemption date, except for 2,770,441 shares totaling \$31.6 million. The Company recorded \$31.6 million of redeemable common stock payable on the Company's balance sheet as of December 31, 2018 related to these unfulfilled redemption requests. Effective January 1, 2019, this limitation was reset, and based on the amount of net proceeds raised from the sale of shares under the dividend reinvestment plan during 2018, the Company has an aggregate of \$56.1 million available for redemptions in 2019, including the reserve for Special Redemptions (described above).

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

Related Party Transactions

The Company has entered into the Advisory Agreement with the Advisor and the Dealer Manager Agreement with the Dealer Manager. These agreements entitled the Advisor and/or the Dealer Manager to specified fees upon the provision of certain services with regard to the Offering and reimbursement of organization and offering costs incurred by the Advisor and the Dealer Manager on behalf of the Company and entitle the Advisor to specified fees upon the provision of certain services with regard to the investment of funds in real estate investments, the management of those investments, among other services, and the disposition of investments, as well as entitle the Advisor and/or Dealer Manager to reimbursement of offering costs related to the dividend reinvestment plan incurred by the Advisor and the Dealer Manager on behalf of the Company and certain costs incurred by the Advisor in providing services to the Company. In addition, the Advisor is entitled to certain other fees, including an incentive fee upon achieving certain performance goals, as detailed in the Advisory Agreement. The Company has also entered into a fee reimbursement agreement (the "AIP Reimbursement Agreement") with the Dealer Manager pursuant to which the Company agreed to reimburse the Dealer Manager for certain fees and expenses it incurs for administering the Company's participation in the DTCC Alternative Investment Product Platform with respect to certain accounts of the Company's investors serviced through the platform. The Advisor and Dealer Manager also serve or served as the advisor and dealer manager, respectively, for KBS Real Estate Investment Trust, Inc. ("KBS REIT I"), which liquidated in December 2018; KBS Real Estate Investment Trust II, Inc. ("KBS REIT II"); KBS Legacy Partners Apartment REIT, Inc. ("KBS Legacy Partners Apartment REIT"), which liquidated in December 2018; KBS Strategic Opportunity REIT, Inc. ("KBS Strategic Opportunity REIT"); KBS Strategic Opportunity REIT II, Inc. ("KBS Strategic Opportunity REIT II"); and KBS Growth & Income REIT, Inc. ("KBS Growth & Income REIT").

The Company records all related party fees as incurred, subject to any limitations described in the Advisory Agreement, the Dealer Manager Agreement or the AIP Reimbursement Agreement. See Note 9, "Related Party Transactions."

Acquisition and Origination Fees

The Company pays the Advisor an acquisition fee equal to 1.0% of the cost of investments acquired, including the sum of the amount actually paid or allocated to the purchase, development, construction or improvement of such investments, acquisition expenses and any debt attributable to such investments. With respect to investments in and originations of loans, the Company pays an origination fee equal to 1.0% of the amount to be funded by the Company to acquire or originate mortgage, mezzanine, bridge or other loans, including any expenses related to such investments and any debt the Company uses to fund the acquisition or origination of these loans. The Company does not pay an acquisition fee with respect to investments in loans.

Operating Expenses

Under the Advisory Agreement, the Advisor has the right to seek reimbursement from the Company for all costs and expenses it incurs in connection with the provision of services to the Company, including the Company's allocable share of the Advisor's overhead, such as rent, employee costs, utilities, accounting software and cybersecurity costs. Commencing January 1, 2011, the Company has reimbursed the Advisor for the Company's allocable portion of the salaries, benefits and overhead of internal audit department personnel providing services to the Company. In the future, the Advisor may seek reimbursement for additional employee costs. The Company will not reimburse the Advisor for employee costs in connection with services for which the Advisor earns acquisition, origination or disposition fees (other than reimbursement of travel and communication expenses) or for the salaries and benefits the Advisor or its affiliates may pay to the Company's executive officers. In addition, the Company reimburses the Advisor for certain of the Company's direct costs incurred from third parties that were initially paid by the Advisor on behalf of the Company. The Company and the Advisor have also agreed to evenly divide certain costs and expenses related to the Company's exploration and assessment of strategic alternatives.

Asset Management Fee

With respect to investments in real estate, the Company pays the Advisor a monthly asset management fee equal to one-twelfth of 0.75% of the amount paid or allocated to acquire the investment, plus the cost of any subsequent development, construction or improvements to the property. This amount includes any portion of the investment that was debt financed and is inclusive of acquisition expenses related thereto (but excludes acquisition fees paid or payable to the Advisor). In the case of investments made through joint ventures, the asset management fee will be determined based on the Company's proportionate share of the underlying investment.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

With respect to investments in loans and any investments other than real estate, the Company paid the Advisor a monthly fee calculated, each month, as one-twelfth of 0.75% of the lesser of (i) the amount paid or allocated to acquire or fund the loan or other investment (which amount included any portion of the investment that was debt financed and was inclusive of acquisition or origination expenses related thereto but is exclusive of acquisition or origination fees paid or payable to the Advisor) and (ii) the outstanding principal amount of such loan or other investment, plus the acquisition or origination expenses related to the acquisition or funding of such investment (but excluding acquisition or origination fees paid or payable to the Advisor), as of the time of calculation.

Pursuant to the Advisory Agreement, with respect to asset management fees accruing from March 1, 2014, the Advisor has agreed to defer, without interest, the Company's obligation to pay asset management fees for any month in which the Company's modified funds from operations ("MFFO") for such month, as such term is defined in the practice guideline issued by the Institute of Portfolio Alternatives (formerly known as the Investment Program Association) ("IPA") in November 2010 and interpreted by the Company, excluding asset management fees, does not exceed the amount of distributions declared by the Company for record dates of that month. The Company remains obligated to pay the Advisor an asset management fee in any month in which the Company's MFFO, excluding asset management fees, for such month exceeds the amount of distributions declared for the record dates of that month (such excess amount, an "MFFO Surplus"); however, any amount of such asset management fee in excess of the MFFO Surplus will also be deferred under the Advisory Agreement. If the MFFO Surplus for any month exceeds the amount of the asset management fee payable for such month, any remaining MFFO Surplus will be applied to pay any asset management fee amounts previously deferred in accordance with the Advisory Agreement.

However, notwithstanding the foregoing, any and all deferred asset management fees that are unpaid will become immediately due and payable at such time as the Company's stockholders have received, together as a collective group, aggregate distributions (including distributions that may constitute a return of capital for federal income tax purposes) sufficient to provide (i) an 8.0% per year cumulative, noncompounded return on such net invested capital (the "Stockholders' 8% Return") and (ii) a return of their net invested capital, or the amount calculated by multiplying the total number of shares purchased by stockholders by the issue price, reduced by any amounts to repurchase shares pursuant to the Company's share redemption program. The Stockholders' 8% Return is not based on the return provided to any individual stockholder. Accordingly, it is not necessary for each of the Company's stockholders to have received any minimum return in order for the Advisor to receive deferred asset management fees.

Disposition Fee

For substantial assistance in connection with the sale of properties or other investments, the Company pays the Advisor or one of its affiliates 1.0% of the contract sales price of each property or other investment sold; provided, however, that if, in connection with such disposition, commissions are paid to third parties unaffiliated with the Advisor or one of its affiliates, the fee paid to the Advisor or one of its affiliates may not exceed the commissions paid to such unaffiliated third parties, and provided further that the disposition fees paid to the Advisor or one of its affiliates and unaffiliated third parties may not exceed 6.0% of the contract sales price. The Company will not pay a disposition fee upon the maturity, prepayment or workout of a loan or other debt-related investment, provided that if the Company takes ownership of a property as a result of a workout or foreclosure of a loan, the Company will pay a disposition fee upon the sale of such property.

Income Taxes

The Company has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended. To continue to qualify as a REIT, the Company must continue to meet certain organizational and operational requirements, including a requirement to distribute at least 90% of the Company's annual REIT taxable income to stockholders (which is computed without regard to the dividends-paid deduction or net capital gain and which does not necessarily equal net income as calculated in accordance with GAAP). As a REIT, the Company generally will not be subject to federal income tax on income that it distributes as dividends to its stockholders. If the Company fails to qualify as a REIT in any taxable year, it will be subject to federal income tax on its taxable income at regular corporate income tax rates and generally will not be permitted to qualify for treatment as a REIT for federal income tax purposes for the four taxable years following the year during which qualification is lost, unless the Internal Revenue Service grants the Company relief under certain statutory provisions. Such an event could materially and adversely affect the Company's net income and net cash available for distribution to stockholders. However, the Company believes that it is organized and operates in such a manner as to qualify for treatment as a REIT.

KBS REAL ESTATE INVESTMENT TRUST III, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

The Company has concluded that there are no significant uncertain tax positions requiring recognition in its financial statements. Neither the Company nor its subsidiaries has been assessed interest or penalties by any major tax jurisdictions. The Company's evaluations were performed for all open tax years through December 31, 2018. As of December 31, 2018, the returns for calendar years 2014 through 2017 remain subject to examination by major tax jurisdictions.

Per Share Data

Basic net income (loss) per share of common stock is calculated by dividing net income (loss) attributable to common stockholders by the weighted-average number of shares of common stock issued and outstanding during such period. Diluted net income (loss) per share of common stock equals basic net income (loss) per share of common stock as there were no potentially dilutive securities outstanding during the years ended December 31, 2018, 2017 and 2016, respectively.

Distributions declared per common share were \$0.650 during the years ended December 31, 2018, 2017 and 2016, respectively. Distributions declared per common share assumes each share was issued and outstanding each day from January 1, 2016 through December 31, 2018. For each day that was a record date for distributions during the period from January 1, 2016 through December 31, 2018, distributions were calculated at a rate of \$0.00178082 per share per day. Each day during the periods from January 1, 2016 through February 28, 2016 and March 1, 2016 through December 31, 2018 was a record date for distributions.

Segments

The Company has invested in core real estate properties and real estate-related investments with the goal of acquiring a portfolio of income-producing investments. The Company's real estate properties exhibit similar long-term financial performance and have similar economic characteristics to each other. As of December 31, 2018, the Company aggregated its investments in real estate properties into one reportable business segment.

Square Footage, Occupancy and Other Measures

Square footage, occupancy, number of tenants and other measures, including annualized base rent and annualized base rent per square foot, used to describe real estate investments included in these notes to the consolidated financial statements are presented on an unaudited basis.

Recently Issued Accounting Standards Update

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)* ("ASU No. 2016-02"). The amendments in ASU No. 2016-02 change the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. ASU No. 2016-02 is effective for annual periods beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption of ASU No. 2016-02 as of its issuance is permitted. ASU No. 2016-02 requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. Upon its adoption of ASU No. 2016-02 on January 1, 2019, the Company adopted the package of practical expedients for all leases that commenced before the effective date of January 1, 2019. Accordingly, the Company 1) did not reassess whether any expired or existing contracts are or contain leases, 2) did not reassess the lease classification for any expired or existing lease, and 3) did not reassess initial direct costs for any existing leases. The Company did not elect the practical expedient related to using hindsight to reevaluate the lease term. In addition, the Company adopted the practical expedient for land easements and did not assess whether existing or expired land easements that were not previously accounted for as leases under the current lease accounting standards of Topic 840 are or contain a lease under Topic 842.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

In July 2018, the FASB issued ASU No. 2018-11, *Leases (Topic 842), Targeted Improvements* (“ASU No. 2018-11”), which provides lessors with a practical expedient, by class of underlying asset, to not separate nonlease components from the associated lease component and, instead to account for those components as a single component if the nonlease components otherwise would be accounted for under the new revenue recognition standard (Topic 606) and if certain conditions are met. Upon its adoption of the lease accounting standard under Topic 842, the Company adopted this practical expedient specifically related to its tenant reimbursements for common area maintenance which would otherwise be accounted for under the revenue recognition standard. The Company believes the two conditions have been met for tenant reimbursements for common area maintenance as 1) the timing and pattern of transfer of the nonlease components and associated lease components are the same and 2) the lease component would be classified as an operating lease. Accordingly, tenant reimbursements for common area maintenance will be accounted for as rental income on the Company’s statement of operations beginning January 1, 2019. In addition, ASU No. 2018-11 provides an additional optional transition method to allow entities to apply the new lease accounting standard at the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings. An entity’s reporting for the comparative periods presented in the financial statements in which it adopts the new lease accounting standard will continue to be reported under the current lease accounting standards of Topic 840. The Company adopted this transition method upon its adoption of the lease accounting standard of Topic 842, which did not result in a cumulative effect adjustment to the opening balance of retained earnings on January 1, 2019.

In December 2018, the FASB issued ASU No. 2018-20, *Leases (Topic 842), Narrow-Scope Improvements for Lessors* (“ASU No. 2018-20”), which permits lessors, as an accounting policy election, to not evaluate whether certain sales taxes and other similar taxes are lessor costs or lessee costs and instead to account for these costs as if they were lessee costs. In addition, ASU No. 2018-20 requires lessors to 1) exclude lessor costs paid directly by lessees to third parties on the lessor’s behalf from variable payments and 2) include lessor costs that are reimbursed by the lessee in the measurement of variable lease revenue and the associated expense. The amendments also clarify that lessors are required to allocate the variable payments to the lease and non-lease components and follow the recognition guidance in Topic 842 for the lease component and other applicable guidance, such as ASC 606, for the non-lease component. The Company made the accounting policy election related to sales taxes upon adoption of the lease accounting standard of Topic 842 on January 1, 2019.

The Company created an inventory of its leases where the Company may be a lessee to assess the potential impact to the Company’s financial statements of adopting the new lease accounting standards. The adoption of the new lease accounting standard did not have a material impact to the Company’s financial statements on January 1, 2019. Beginning January 1, 2019, the Company, as a lessor, will record legal costs incurred to negotiate an operating lease as an expense, classified as operating, maintenance, and management on the Company’s consolidated statement of operations, as these costs are no longer capitalizable under the definition of initial direct costs under Topic 842. In addition, the Company will account for new leases, including modifications of existing leases, entered into on and after January 1, 2019 under the new lease accounting standard under Topic 842 and follow the related presentation and disclosure requirements for reporting periods subsequent to January 1, 2019.

10-K

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses of Financial Instruments* (“ASU No. 2016-13”). ASU No. 2016-13 affects entities holding financial assets and net investments in leases that are not accounted for at fair value through net income. The amendments in ASU No. 2016-13 require a financial asset (or a group of financial assets) measured at amortized cost basis to be presented at the net amount expected to be collected. The allowance for credit losses is a valuation account that is deducted from the amortized cost basis of the financial asset(s) to present the net carrying value at the amount expected to be collected on the financial asset. ASU No. 2016-13 also amends the impairment model for available-for-sale securities. An entity will recognize an allowance for credit losses on available-for-sale debt securities as a contra-account to the amortized cost basis rather than as a direct reduction of the amortized cost basis of the investment, as is currently required. ASU No. 2016-13 also requires new disclosures. For financial assets measured at amortized cost, an entity will be required to disclose information about how it developed its allowance for credit losses, including changes in the factors that influenced management’s estimate of expected credit losses and the reasons for those changes. For financing receivables and net investments in leases measured at amortized cost, an entity will be required to further disaggregate the information it currently discloses about the credit quality of these assets by year of the asset’s origination for as many as five annual periods. For available-for-sale securities, an entity will be required to provide a roll-forward of the allowance for credit losses and an aging analysis for securities that are past due. ASU No. 2016-13 is effective for annual periods beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is still evaluating the impact of adopting ASU No. 2016-13 on its financial statements, but does not expect the adoption of ASU No. 2016-13 to have a material impact on its financial statements.

In November 2018, the FASB issued ASU No. 2018-19, *Codification Improvements to Topic 326, Financial Instruments-Credit Losses*, which clarified that receivables from operating leases are not within the scope of Topic 326 and instead, impairment of receivables arising from operating leases should be accounted for in accordance with Topic 842.

In August 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework -Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU No. 2018-13”). The primary focus of ASU 2018-13 is to improve the effectiveness of the disclosure requirements for fair value measurements. ASU No. 2018-13 removes the requirement to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the policy for the timing of transfers between levels and the valuation processes for Level 3 fair value measurements. It also adds a requirement to disclose changes in unrealized gains and losses for the period included in other comprehensive income for recurring Level 3 fair value measurements held at the end of the reporting period and to disclose the range and weighted average of significant unobservable inputs used to develop recurring and nonrecurring Level 3 fair value measurements. For certain unobservable inputs, entities may disclose other quantitative information in lieu of the weighted average if the other quantitative information would be a more reasonable and rational method to reflect the distribution of unobservable inputs used to develop the Level 3 fair value measurement. In addition, public entities are required to provide information about the measurement uncertainty of recurring Level 3 fair value measurements from the use of significant unobservable inputs if those inputs reasonably could have been different at the reporting date. ASU No. 2018-13 is effective for annual periods beginning after December 15, 2019, including interim periods within those fiscal years. Entities are permitted to early adopt either the entire standard or only the provisions that eliminate or modify the requirements. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. The Company is still evaluating the impact of adopting ASU No. 2018-13 on its financial statements.

3. REAL ESTATE

Real Estate Held for Investment

As of December 31, 2018, the Company's real estate portfolio held for investment was composed of 28 office properties and one mixed-use office/retail property encompassing in the aggregate approximately 11.2 million rentable square feet. In addition, the Company had entered into a consolidated joint venture to develop and subsequently operate a multifamily apartment project, which is currently under construction. As of December 31, 2018, the Company's real estate portfolio was collectively 93% occupied. The following table summarizes the Company's investments in real estate as of December 31, 2018 (in thousands):

Property	Date Acquired	City	State	Property Type	Total Real Estate, at Cost	Accumulated Depreciation and Amortization	Total Real Estate, Net

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

⁽¹⁾ On August 26, 2016, the Company, through an indirect wholly-owned subsidiary, entered into a joint venture (the “Hardware Village Joint Venture”) to develop and subsequently operate a multifamily apartment complex, located on the developable land at Gateway Tech Center. The Company owns a 99.24% equity interest in the joint venture. In July 2018, one of the two buildings consisting of 265 units was placed into service. The total real estate, at cost, for the building that was placed into service was \$68.3 million as of December 31, 2018.

⁽²⁾ On March 3, 2017, the Company acquired a 75% equity interest in an existing company and created a joint venture with an unaffiliated developer to develop and subsequently operate Village Center Station II. On October 11, 2018, the Company purchased the developer’s 25% equity interest. For more information, see Note 5, “Investment in Unconsolidated Joint Venture.”

As of December 31, 2018, the following property represented more than 10% of the Company’s total assets:

Property	Location	Rentable Square Feet	Total Real Estate, Net (in thousands)	Percentage of Total Assets	Annualized Base Rent (in thousands) ⁽¹⁾	Average Annualized Base Rent per sq. ft.	Occupancy
500 West Madison	Chicago, IL	1,457,724	\$ 365,847	11.1%	\$ 34,071	\$ 29.08	80.4%

⁽¹⁾ Annualized base rent represents annualized contractual base rental income as of December 31, 2018, adjusted to straight-line any contractual tenant concessions (including free rent), rent increases and rent decreases from the lease’s inception through the balance of the lease term.

Operating Leases

The Company’s office and office/retail properties are leased to tenants under operating leases for which the terms and expirations vary. As of December 31, 2018, the leases had remaining terms, excluding options to extend, of up to 14.8 years with a weighted-average remaining term of 4.5 years. Some of the leases have provisions to extend the term of the leases, options for early termination for all or a part of the leased premises after paying a specified penalty, and other terms and conditions as negotiated. The Company retains substantially all of the risks and benefits of ownership of the real estate assets leased to tenants. Generally, upon the execution of a lease, the Company requires a security deposit from the tenant in the form of a cash deposit and/or a letter of credit. The amount required as a security deposit varies depending upon the terms of the respective lease and the creditworthiness of the tenant, but generally is not a significant amount. Therefore, exposure to credit risk exists to the extent that a receivable from a tenant exceeds the amount of its security deposit. Security deposits received in cash related to tenant leases are included in other liabilities in the accompanying consolidated balance sheets and totaled \$11.8 million and \$11.5 million as of December 31, 2018 and 2017, respectively. No material tenant credit issues have been identified at this time. During the years ended December 31, 2018, 2017 and 2016, the Company recorded bad debt expense of \$1.2 million, \$1.9 million and \$1.3 million, respectively. As of December 31, 2018, the Company had a bad debt expense reserve of approximately \$0.5 million, which represented less than 1% of its annualized base rent.

During the years ended December 31, 2018, 2017 and 2016, the Company recognized deferred rent from tenants of \$9.1 million, \$12.4 million and \$17.2 million, respectively. As of December 31, 2018 and 2017, the cumulative deferred rent balance was \$92.8 million and \$74.4 million, respectively, and is included in rents and other receivables on the accompanying balance sheets. The cumulative deferred rent balance included \$17.2 million and \$9.3 million of unamortized lease incentives as of December 31, 2018 and 2017, respectively.

As of December 31, 2018, the future minimum rental income from the Company’s properties, excluding apartment leases, under its non-cancelable operating leases was as follows (in thousands):

2019	\$	306,808
2020		288,163
2021		263,186
2022		229,346
2023		189,991
Thereafter		557,175
	\$	<u>1,834,669</u>

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

As of December 31, 2018, the Company's office and office/retail properties were leased to approximately 850 tenants over a diverse range of industries and geographic areas. The Company's highest tenant industry concentration (greater than 10% of annualized base rent) was as follows:

Industry	Number of Tenants	Annualized Base Rent⁽¹⁾ (in thousands)	Percentage of Annualized Base Rent
Finance	152	\$ 60,016	18.6%

⁽¹⁾ Annualized base rent represents annualized contractual base rental income as of December 31, 2018, adjusted to straight-line any contractual tenant concessions (including free rent), rent increases and rent decreases from the lease's inception through the balance of the lease term.

As of December 31, 2018, no other tenant industries accounted for more than 10% of annualized base rent and no tenant accounted for more than 10% of annualized base rent.

Geographic Concentration Risk

As of December 31, 2018, the Company's net investments in real estate in California, Texas and Illinois represented 19%, 15% and 11% of the Company's total assets, respectively. As a result, the geographic concentration of the Company's portfolio makes it particularly susceptible to adverse economic developments in the California, Texas and Illinois real estate markets. Any adverse economic or real estate developments in these markets, such as business layoffs or downsizing, industry slowdowns, relocations of businesses, changing demographics and other factors, or any decrease in demand for office space resulting from the local business climate, could adversely affect the Company's operating results and its ability to pay distributions to stockholders.

Property Damage

In December 2017, 222 Main located in Salt Lake City, Utah suffered physical damages due to a broken sprinkler pipe. The Company's insurance policy provides coverage for property damage and business interruption subject to a deductible of up to \$5,000 per incident. Based on management's estimates, the Company recognized an estimated aggregate loss due to damages of \$7.9 million during the year ended December 31, 2017, which was reduced by \$7.9 million of estimated insurance recoveries related to such damages, which the Company determined were probable of collection. The aggregate net loss of \$5,000 due to damages during the year ended December 31, 2017 was classified as operating, maintenance and management expenses on the accompanying consolidated statements of operations and relates to the Company's insurance deductible. During the year ended December 31, 2018, the Company received \$4.6 million in insurance recoveries relating to the property damage. In addition, the Company reduced the estimated aggregate loss due to damages and the estimated insurance recoveries related to such damages by \$2.4 million.

During the year ended December 31, 2018, the Company recorded \$0.7 million of business interruption insurance recovery, which is included in rental income on the accompanying consolidated statements of operations. During the year ended December 31, 2018, the Company received \$1.3 million of business interruption insurance recovery, consisting of \$0.7 million of revenue related to the year ended December 31, 2017 and \$0.6 million of revenue related to the period from January through May 2018.

As of December 31, 2018, the Company recorded \$0.9 million of insurance recoveries receivable, which is included in prepaid expenses and other assets on the accompanying consolidated balance sheet.

Real Estate Sales

During the year ended December 31, 2018, the Company disposed of one office property. During the years ended December 31, 2017 and 2016, the Company did not dispose of any real estate properties.

On November 6, 2014, the Company, through an indirect wholly owned subsidiary, acquired an office property containing 220,020 rentable square feet located on approximately 13.9 acres of land in Rocklin, California (“Rocklin Corporate Center”). On May 25, 2018, the Company sold Rocklin Corporate Center to a purchaser unaffiliated with the Company or the Advisor for \$42.9 million before closing costs and credits. The carrying value of Rocklin Corporate Center as of the disposition date was \$29.7 million, which was net of \$6.0 million of accumulated depreciation and amortization. The Company recognized a gain on sale of \$11.9 million related to the disposition of Rocklin Corporate Center.

The results of operations for the property during the year ended December 31, 2018 and gain on sale as of December 31, 2018 are included in continuing operations on the Company’s consolidated statements of operations. The following table summarizes certain revenues and expenses related to this property for the years ended December 31, 2018, 2017 and 2016 (in thousands):

	Years Ended December 31,		
	2018	2017	2016
Revenues

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

5. INVESTMENT IN UNCONSOLIDATED JOINT VENTURE

On March 3, 2017, the Company, through an indirect wholly owned subsidiary, acquired a 75% equity interest in an existing company and created a joint venture (the “Village Center Station II Joint Venture”) with an unaffiliated developer, Shea Village Center Station II, LLC (the “Developer”), to develop and subsequently operate a 12-story office building and an adjacent two-story office/retail building in the Denver submarket of Greenwood Village, Colorado (together, “Village Center Station II”). The total cost of the development was \$111.2 million and the Company’s initial capital contribution to the Village Center Station II Joint Venture was \$32.3 million. The Village Center Station II Joint Venture funded the construction of Village Center Station II with capital contributions from its members and proceeds from a construction loan of \$78.5 million. The Company concluded that the Village Center Station II Joint Venture qualified as a variable interest entity (“VIE”) and determined that it was not the primary beneficiary of this VIE and to account for its investment in the project under the equity method of accounting. Village Center Station II was substantially completed in May 2018.

On October 11, 2018, the Company purchased the Developer’s 25% equity interest for \$28.2 million. Upon acquisition of the Developer’s interest, the Company accounted for Village Center Station II on a consolidated basis.

In accordance with the FASB ASC 810, *Consolidation*, upon the initial consolidation of a VIE that is not considered a business, the difference between (a) the sum of the total fair value of the consideration plus the reported amount of previously held interests and (b) the sum of the individual fair values of the net assets is recognized as a gain or loss. At acquisition, the fair value based on a third-party appraisal of Village Center Station II was \$132.1 million, which was allocated to the assets and liabilities acquired. The Company allocated \$8.6 million to land, \$109.0 million to building and improvements and \$14.5 million to tenant origination and absorption costs. The Company’s total cost basis was \$130.1 million, which includes the Company’s investment in the unconsolidated joint venture, the consideration paid to purchase the Developer’s 25% equity interest, debt assumed from the joint venture, and acquisition fees and expenses. As a result, the Company recorded a remeasurement gain of \$2.0 million as a result of change in control, which was included in equity income from unconsolidated joint venture during the year ended December 31, 2018.

The intangible assets acquired in connection with this transaction have a weighted-average amortization period as of the date of the acquisition of 9.7 years for tenant origination and absorption costs. The Company capitalized \$1.4 million of acquisition costs related to this property. During the year ended December 31, 2018, the Company recognized \$2.0 million of total revenues and \$0.8 million of operating expenses from this property.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

⁽¹⁾ Contractual interest rate represents the interest rate in effect under the loan as of December 31, 2018. Effective interest rate is calculated as the actual interest rate in effect as of December 31, 2018 (consisting of the contractual interest rate and the effect of interest rate swaps and caps, if applicable), using interest rate indices as of December 31, 2018, where applicable. For further information regarding the Company's derivative instruments, see Note 7, "Derivative Instruments."

⁽²⁾ Represents the maturity date as of December 31, 2018; subject to certain conditions, the maturity dates of certain loans may be extended beyond the dates shown.

⁽³⁾ See below, "Recent Financing Transactions - Portfolio Loan."

⁽⁴⁾ Subsequent to December 31, 2018, the Reston Square Mortgage Loan maturity date was extended to February 1, 2020.

⁽⁵⁾ On May 25, 2018, in connection with the disposition of Rocklin Corporate Center, the Company paid off the Rocklin Corporate Center Mortgage Loan.

⁽⁶⁾ Represents the payment type required under the loan as of December 31, 2018. Certain future monthly payments due under the loan also include amortizing principal payments. For more information on the Company's contractual obligations under its notes payable, see the five-year maturity table below.

⁽⁷⁾ See below, "Recent Financing Transactions - Portfolio Revolving Loan Facility."

⁽⁸⁾ See below, "Recent Financing Transactions - 201 Spear Street Mortgage Loan Refinancing."

⁽⁹⁾ On February 1, 2019, the 3001 Washington Boulevard Mortgage Loan was paid off.

⁽¹⁰⁾ As of December 31, 2018, \$49.7 million had been disbursed and \$24.3 million remained available for future disbursements, subject to certain conditions contained in the loan documents.

⁽¹¹⁾ As of December 31, 2018, the Portfolio Loan Facility was secured by RBC Plaza, Preston Commons, Sterling Plaza, One Washingtonian Center, Towers at Emeryville, Ten Almaden, Town Center and 500 West Madison. The face amount of the Portfolio Loan Facility is \$1.01 billion, of which \$757.5 million is term debt and \$252.5 million is revolving debt. As of December 31, 2018, the outstanding balance under the loan consisted of \$757.5 million of term debt and \$136.0 million of revolving debt. As of December 31, 2018, an additional \$116.5 million of revolving debt remained available for immediate future disbursements, subject to certain conditions set forth in the loan agreement. During the remaining term of the Portfolio Loan Facility, the Company has an option to increase the loan amount by up to an additional \$400.0 million in increments of \$25.0 million, to a maximum of \$1.41 billion, of which 75% would be term debt and 25% would be revolving debt, subject to certain conditions contained in the loan documents.

⁽¹²⁾ On March 3, 2017, the Company acquired a 75% equity interest in an existing company and created a joint venture with an unaffiliated developer to develop and subsequently operate Village Center Station II. On October 11, 2018, the Company purchased the unaffiliated developer's 25% equity interest. As such, the Village Center Station II Loan was included in the Company's consolidated financial statements as of December 31, 2018.

During the years ended December 31, 2018, 2017 and 2016, the Company incurred \$72.2 million, \$55.0 million and \$51.6 million of interest expense, respectively. Included in interest expense was: (i) the amortization of deferred financing costs of \$6.5 million, \$5.3 million and \$5.1 million for the years ended December 31, 2018, 2017 and 2016, respectively, and (ii) interest expense (including gains and losses) incurred as a result of the Company's derivative instruments, which reduced interest expense by \$11.1 million, reduced interest expense by \$3.1 million and increased interest expense by \$6.4 million for the years ended December 31, 2018, 2017 and 2016, respectively. Additionally, the Company capitalized \$2.8 million, \$2.4 million and \$0.2 million of interest related to construction in progress for the years ended December 31, 2018, 2017 and 2016, respectively. As of December 31, 2018 and 2017, \$6.8 million and \$6.1 million of interest expense were payable, respectively.

The following is a schedule of maturities, including principal amortization payments, for all notes payable outstanding as of December 31, 2018 (in thousands):

2019	\$	348,679
2020		1,171,460
2021		294,894
2022		256,121
2023		—
Thereafter		125,000
	<u>\$</u>	<u>2,196,154</u>

The Company's notes payable contain financial debt covenants. As of December 31, 2018, the Company was in compliance with these debt covenants.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

Recent Financing Transactions***Portfolio Revolving Loan Facility***

On October 17, 2018, the Company, through indirect wholly owned subsidiaries (each a “Portfolio Revolving Loan Facility Borrower”), entered into a three-year loan facility with an unaffiliated lender (the “Portfolio Revolving Loan Facility Lender”), for a committed amount of up to \$215.0 million (the “Portfolio Revolving Loan Facility”), of which \$107.5 million is term debt and \$107.5 million is revolving debt. At closing, \$200.0 million was available for funding under the Portfolio Revolving Loan Facility with an additional \$15.0 million available upon satisfaction of certain conditions set forth in the loan documents. At closing, \$107.5 million of the term debt and \$92.5 million of revolving debt was funded, of which approximately \$69.8 million was used to pay off the 515 Congress Mortgage Loan and approximately \$104.0 million was used to pay down one of the Company’s existing portfolio loan facilities. See “Portfolio Loan” below. The remaining amount was used to pay origination fees and accrued interest, with excess proceeds held by the Company for liquidity management. The Portfolio Revolving Loan Facility may be used for working capital, capital expenditures, real property acquisitions and other corporate purposes.

The Portfolio Revolving Loan Facility matures on November 1, 2021, with two 12-month extension options, subject to certain terms, conditions and fees as described in the loan documents. The Company will have the right to prepay all or a portion of the Portfolio Revolving Loan Facility, subject to certain expenses potentially incurred by the Portfolio Revolving Loan Facility Lender as a result of the prepayment and subject to certain conditions contained in the loan documents. During the term of the Portfolio Revolving Loan Facility, the Company has an option to increase the committed amount of the Portfolio Revolving Loan Facility up to four times with each increase of the committed amount to be at least \$15.0 million but no greater than, in the aggregate, an additional \$170.0 million so that the committed amount will not exceed \$385.0 million, of which 50% would be non-revolving debt and 50% would be revolving debt, with the addition of one or more properties to secure the loan, subject to certain terms and conditions contained in the loan documents. In addition, the Portfolio Revolving Loan Facility contains customary representations and warranties, financial and other covenants, events of default and remedies typical for this type of facility. The Portfolio Revolving Loan Facility is secured by 515 Congress, Domain Gateway, the McEwen Building, and Gateway Tech Center.

On December 18, 2018, the Portfolio Revolving Loan Facility was syndicated across five unaffiliated lenders, each becoming a Portfolio Revolving Loan Facility Lender.

KBS REIT Properties III, LLC (“REIT Properties III”), the Company’s wholly owned subsidiary, is providing a guaranty of (i) up to 25% of the committed amount under the Portfolio Revolving Loan Facility, as such amount may be adjusted from time to time pursuant to the terms of the loan documents, (ii) payment of, and agrees to protect, defend, indemnify and hold harmless each Portfolio Revolving Loan Facility Lender for, from and against, any liability, obligation, deficiency, loss, damage, costs and expenses (including reasonable attorney’s fees), and any litigation which may at any time be imposed upon, incurred or suffered by any Portfolio Revolving Loan Facility Lender because of (a) certain intentional acts committed by any Portfolio Revolving Loan Facility Borrower, (b) fraud or intentional misrepresentations by a Portfolio Revolving Loan Facility Borrower or REIT Properties III in connection with the loan documents as described in the guaranty agreement, and (c) certain bankruptcy or insolvency proceedings involving a Portfolio Revolving Loan Facility Borrower, as such acts are described in the guaranty, and (iii) upon and subject to the events and conditions described in the guaranty, payment of certain indemnity obligations of a Portfolio Revolving Loan Facility Borrower related to environmental matters.

Portfolio Loan

On October 17, 2018, in connection with entry into the Portfolio Revolving Loan Facility, the Company paid down the Portfolio Loan by approximately \$104.0 million, of which \$43.0 million was term debt and \$61.0 million was revolving debt. Domain Gateway, the McEwen Building, and Gateway Tech Center were released as collateral under the Portfolio Loan. In accordance with the terms of the Portfolio Loan, the committed amount of the Portfolio Loan was reduced from \$255.0 million to \$169.0 million, of which \$84.5 million is term debt and \$84.5 million is revolving debt. As a result of the paydown, the Portfolio Loan’s outstanding principal balance was reduced to \$84.5 million, all of which was term debt. As of December 31, 2018, the revolving debt of \$84.5 million remained available for future disbursements, subject to certain conditions set forth in the loan agreement. As of December 31, 2018, the Portfolio Loan was secured by the Tower on Lake Carolyn, Park Place Village and Village Center Station.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

201 Spear Street Mortgage Loan Refinancing

On December 18, 2018, the Company, through an indirect wholly owned subsidiary (the “201 Spear Street Borrower”), entered into a five-year mortgage loan with two unaffiliated lenders (collectively, the “201 Spear Street Mortgage Loan Lender”) for \$125.0 million (the “Refinancing”). At closing, \$125.0 million of the Refinancing was funded, of which \$100.0 million was used to pay off the existing 201 Spear Street Mortgage Loan principal balance. The remaining amount from the Refinancing was used to pay origination fees and accrued interest, with excess proceeds held by the Company for liquidity management. The Refinancing matures on January 5, 2024, with two 12-month extension options, subject to certain terms, conditions and fees as described in the loan documents. The Company will have the right to prepay all or a portion of the Refinancing on or after January 2020, subject to certain conditions contained in the loan documents.

In connection with the Refinancing, REIT Properties III is providing a guaranty of the principal balance and any interest or other sums outstanding under Refinancing in the event of: the liquidation, dissolution, receivership, conservatorship, insolvency, bankruptcy, assignment for the benefit of creditors, sale of all or substantially all assets, reorganization, arrangement, composition, or readjustment of, or other similar proceedings affecting the status, composition, identity, existence, assets or obligations of the 201 Spear Street Borrower.

7. DERIVATIVE INSTRUMENTS

The Company enters into derivative instruments for risk management purposes to hedge its exposure to cash flow variability caused by changing interest rates. The primary goal of the Company’s risk management practices related to interest rate risk is to prevent changes in interest rates from adversely impacting the Company’s ability to achieve its investment return objectives. The Company does not enter into derivatives for speculative purposes.

The Company enters into interest rate swaps as a fixed rate payer to mitigate its exposure to rising interest rates on its variable rate notes payable. The value of interest rate swaps is primarily impacted by interest rates, market expectations about interest rates, and the remaining life of the instrument. In general, increases in interest rates, or anticipated increases in interest rates, will increase the value of the fixed rate payer position and decrease the value of the variable rate payer position. As the remaining life of the interest rate swap decreases, the value of both positions will generally move towards zero.

The Company enters into interest rate caps to mitigate its exposure to rising interest rates on its variable rate notes payable. The values of interest rate caps are primarily impacted by interest rates, market expectations about interest rates, and the remaining life of the instrument. In general, increases in interest rates, or anticipated increases in interest rates, will increase the value of interest rate caps. As the remaining life of an interest rate cap decreases, the value of the instrument will generally decrease towards zero.

The following table summarizes the notional amount and other information related to the Company’s interest rate swaps and cap as of December 31, 2018 and 2017. The notional amount is an indication of the extent of the Company’s involvement in each instrument at that time, but does not represent exposure to credit, interest rate or market risks (dollars in thousands):

Derivative Instruments	December 31, 2018		December 31, 2017		Reference Rate as of December 31, 2018	Weighted-Average Fix Pay Rate	Weighted-Average Remaining Term in Years
	Number of Instruments	Notional Amount	Number of Instruments	Notional Amount			
<i>Derivative instruments designated as hedging instruments</i>							
Interest rate swaps	—	\$ —	2	\$ 118,400	(1)	(1)	(1)
<i>Derivative instruments not designated as hedging instruments</i>							
Interest rate swaps	14	\$ 1,208,957	16	\$ 1,209,643	One-month LIBOR/ Fixed at 1.39% - 2.37%	2.03%	2.9
Interest rate cap ⁽²⁾	1	\$ 100,000	—	\$ —	One-month LIBOR at 3.00%	3.00%	—

(1) Both interest rate swaps designated as hedging instruments matured during the year ended December 31, 2018.

(2) The interest rate cap terminated on January 1, 2019.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

The following table sets forth the fair value of the Company's derivative instruments as well as their classification on the consolidated balance sheets as of December 31, 2018 and 2017 (dollars in thousands):

Derivative Instruments	Balance Sheet Location	December 31, 2018		December 31, 2017	
		Number of Instruments	Fair Value	Number of Instruments	Fair Value
<i>Derivative instruments designated as hedging instruments</i>					
Interest rate swaps	Prepaid expenses and other assets, at fair value	—	\$ —	1	\$ 128
Interest rate swaps	Other liabilities, at fair value	—	\$ —	1	\$ (18)
<i>Derivative instruments not designated as hedging instruments</i>					
Interest rate swaps	Prepaid expenses and other assets, at fair value	14	\$ 15,909	10	\$ 6,386
Interest rate swaps	Other liabilities, at fair value	—	\$ —	6	\$ (1,677)
Interest rate cap	Prepaid expenses and other assets, at fair value	1	\$ —	—	\$ —

The change in fair value of the effective portion of a derivative instrument that is designated as a cash flow hedge is recorded as other comprehensive income (loss) on the accompanying consolidated statements of comprehensive income (loss) and as other comprehensive income on the accompanying consolidated statements of equity. Amounts in other comprehensive income (loss) will be reclassified into earnings in the periods in which earnings are affected by the hedged cash flows. The change in fair value of the ineffective portion is recognized directly in earnings. With respect to swap agreements that are terminated for which it remains probable that the original hedged forecasted transactions (i.e., LIBOR-based debt service payments) will occur, the loss related to the termination of these swap agreements is included in accumulated other comprehensive income (loss) and is reclassified into earnings over the period of the original forecasted hedged transaction. The change in fair value of a derivative instrument that is not designated as a cash flow hedge is recorded as interest expense in the accompanying consolidated statements of operations. The following table summarizes the effects of derivative instruments on the Company's consolidated statements of operations (in thousands):

	For the Years Ended December 31,		
	2018	2017	2016
Income statement related			
<i>Derivatives designated as hedging instruments</i>			
Amount of (income) expense recognized on interest rate swaps (effective portion)	\$ (205)	\$ 1,508	\$ 5,513
	(205)	1,508	5,513
<i>Derivatives not designated as hedging instruments</i>			
Realized loss recognized on interest rate swaps	295	5,664	2,513
Unrealized gain on interest rate swaps	(11,200)	(10,288)	(1,600)
Fair value loss on interest rate cap	8	—	3
	(10,897)	(4,624)	916
(Decrease) increase in interest expense as a result of derivatives	\$ (11,102)	\$ (3,116)	\$ 6,429
Other comprehensive income related			
Unrealized income (losses) on derivative instruments	\$ 95	\$ 900	\$ (3,582)

During the years ended December 31, 2018, 2017 and 2016, there was no ineffective portion related to the change in fair value of the derivative instruments designated as cash flow hedges.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

8. FAIR VALUE DISCLOSURES

Under GAAP, the Company is required to measure certain financial instruments at fair value on a recurring basis. In addition, the Company is required to measure other non-financial and financial assets at fair value on a non-recurring basis (e.g., carrying value of impaired real estate loans receivable and long-lived assets). Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The GAAP fair value framework uses a three-tiered approach. Fair value measurements are classified and disclosed in one of the following three categories:

- Level 1: unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities;
- Level 2: quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations in which significant inputs and significant value drivers are observable in active markets; and
- Level 3: prices or valuation techniques where little or no market data is available that requires inputs that are both significant to the fair value measurement and unobservable.

The fair value for certain financial instruments is derived using a combination of market quotes, pricing models and other valuation techniques that involve significant management judgment. The price transparency of financial instruments is a key determinant of the degree of judgment involved in determining the fair value of the Company's financial instruments. Financial instruments for which actively quoted prices or pricing parameters are available and for which markets contain orderly transactions will generally have a higher degree of price transparency than financial instruments for which markets are inactive or consist of non-orderly trades. The Company evaluates several factors when determining if a market is inactive or when market transactions are not orderly. The following is a summary of the methods and assumptions used by management in estimating the fair value of each class of assets and liabilities for which it is practicable to estimate the fair value:

Cash and cash equivalents, restricted cash, rent and other receivables, and accounts payable and accrued liabilities: These balances approximate their fair values due to the short maturities of these items.

Derivative instruments: The Company's derivative instruments are presented at fair value on the accompanying consolidated balance sheets. The valuation of these instruments is determined using a proprietary model that utilizes observable inputs. As such, the Company classifies these inputs as Level 2 inputs. The proprietary model uses the contractual terms of the derivatives, including the period to maturity, as well as observable market-based inputs, including interest rate curves and volatility. The fair values of interest rate swaps are estimated using the market standard methodology of netting the discounted fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on an expectation of interest rates (forward curves) derived from observable market interest rate curves. In addition, credit valuation adjustments, which consider the impact of any credit risks to the contracts, are incorporated in the fair values to account for potential nonperformance risk. The fair value of interest rate caps (floors) are determined using the market standard methodology of discounting the future expected cash payments (receipts) which would occur if variable interest rates rise above (below) the strike rate of the caps (floors). The variable interest rates used in the calculation of projected payments (receipts) on the caps (floors) are based on an expectation of future interest rates derived from observed market interest rate curves and volatilities.

Notes payable: The fair values of the Company's notes payable are estimated using a discounted cash flow analysis based on management's estimates of current market interest rates for instruments with similar characteristics, including remaining loan term, loan-to-value ratio, type of collateral and other credit enhancements. Additionally, when determining the fair value of a liability in circumstances in which a quoted price in an active market for an identical liability is not available, the Company measures fair value using (i) a valuation technique that uses the quoted price of the identical liability when traded as an asset or quoted prices for similar liabilities when traded as assets or (ii) another valuation technique that is consistent with the principles of fair value measurement, such as the income approach or the market approach. The Company classifies these inputs as Level 3 inputs.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

The following were the face values, carrying amounts and fair values of the Company's notes payable as of December 31, 2018 and 2017, which carrying amounts generally do not approximate the fair values (in thousands):

	December 31, 2018			December 31, 2017		
	Face Value	Carrying Amount	Fair Value	Face Value	Carrying Amount	Fair Value
Financial liabilities:						
Notes payable	\$ 2,196,154	\$ 2,184,538	\$ 2,202,587	\$ 1,956,919	\$ 1,941,786	\$ 1,950,965

Disclosure of the fair values of financial instruments is based on pertinent information available to the Company as of the period end and requires a significant amount of judgment. Low levels of transaction volume for certain financial instruments have made the estimation of fair values difficult and, therefore, both the actual results and the Company's estimate of value at a future date could be materially different.

As of December 31, 2018, the Company measured the following assets at fair value (in thousands):

	Total	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Recurring Basis:				
Asset derivatives - interest rate swap	\$ 15,909	\$ —	\$ 15,909	\$ —
Asset derivatives - interest rate cap	—	—	—	—

As of December 31, 2018, the Company measured the following asset at fair value on a nonrecurring basis (in thousands):

	Total	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Nonrecurring Basis:				
Real estate ⁽¹⁾	\$ 132,100	\$ —	\$ —	\$ 132,100

⁽¹⁾ On March 3, 2017, the Company acquired a 75% equity interest in an existing company and created a joint venture with an unaffiliated developer to develop and subsequently operate Village Center Station II. On October 11, 2018, the Company purchased the developer's 25% equity interest and accounted for Village Center Station II on a consolidated basis, recording the real estate at fair value. Amount represents the fair value of the real estate upon the acquisition of the developer's interest calculated using a discounted cash flow analysis.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

9. RELATED PARTY TRANSACTIONS

The Company has entered into the Advisory Agreement with the Advisor and the Dealer Manager Agreement with the Dealer Manager. These agreements entitled the Advisor and/or the Dealer Manager to specified fees upon the provision of certain services with regard to the Offering and reimbursement of organization and offering costs incurred by the Advisor and the Dealer Manager on behalf of the Company and entitle the Advisor to specified fees upon the provision of certain services with regard to the investment of funds in real estate investments, the management of those investments, among other services, and the disposition of investments, as well as entitle the Advisor and/or the Dealer Manager to reimbursement of offering costs related to the dividend reinvestment plan incurred by the Advisor and the Dealer Manager on behalf of the Company and certain costs incurred by the Advisor in providing services to the Company. In addition, the Advisor is entitled to certain other fees, including an incentive fee upon achieving certain performance goals, as detailed in the Advisory Agreement. The Company has also entered into the AIP Reimbursement Agreement with the Dealer Manager pursuant to which the Company agreed to reimburse the Dealer Manager for certain fees and expenses it incurs for administering the Company's participation in the DTCC Alternative Investment Product Platform with respect to certain accounts of the Company's investors serviced through the platform. The Advisor and Dealer Manager also serve or served as the advisor and dealer manager, respectively, for KBS REIT I (which liquidated in December 2018), KBS REIT II, KBS Strategic Opportunity REIT, KBS Legacy Partners Apartment REIT (which liquidated in December 2018), KBS Strategic Opportunity REIT II and KBS Growth & Income REIT.

On January 6, 2014, the Company, together with KBS REIT I, KBS REIT II, KBS Strategic Opportunity REIT, KBS Legacy Partners Apartment REIT, KBS Strategic Opportunity REIT II, the Dealer Manager, the Advisor and other KBS-affiliated entities, entered into an errors and omissions and directors and officers liability insurance program where the lower tiers of such insurance coverage are shared. The cost of these lower tiers is allocated by the Advisor and its insurance broker among each of the various entities covered by the program, and is billed directly to each entity. In June 2015, KBS Growth & Income REIT was added to the insurance program at terms similar to those described above. In June 2018, the Company renewed its participation in the program. The program is effective through June 30, 2019. At renewal, KBS Strategic Opportunity REIT, KBS Strategic Opportunity REIT II and KBS Legacy Partners Apartment REIT elected to cease participation in the program and obtained separate insurance coverage. KBS REIT I elected to cease participation in the program at the June 2017 renewal and obtained separate insurance coverage.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2018

Pursuant to the terms of these agreements, summarized below are the related-party costs incurred by the Company for the years ended December 31, 2018, 2017 and 2016, respectively, and any related amounts payable as of December 31, 2018 and 2017 (in thousands):

	Incurred Years Ended December 31,			Payable as of December 31,	
	2018	2017	2016	2018	2017
Expensed					
Asset management fees ⁽¹⁾	\$ 27,152	\$ 25,905	\$ 24,940	\$ 2,559	\$ 2,262
Reimbursement of operating expenses ⁽²⁾⁽³⁾	3,612	327	423	734	121
Real estate acquisition fees	—	—	1,473	—	—
Disposition fees ⁽⁴⁾	429	—	—	—	—
Capitalized					
Acquisition fee on development project	350	445	121	916	566
Acquisition fee on unconsolidated joint venture	674	613	—	—	290
Asset management fees on development project	—	48	38	—	—
Asset management fee on unconsolidated joint venture	—	14	—	—	—
	<u>\$ 32,217</u>	<u>\$ 27,352</u>	<u>\$ 26,995</u>	<u>\$ 4,209</u>	<u>\$ 3,239</u>

⁽¹⁾ See “Deferral of Asset Management Fees” below.

⁽²⁾ Reimbursable operating expenses primarily consists of internal audit personnel costs, accounting software and cybersecurity related expenses incurred by the Advisor under the Advisory Agreement. The Company has reimbursed the Advisor for the Company’s allocable portion of the salaries, benefits and overhead of internal audit department personnel providing services to the Company. These amounts totaled \$325,000, \$242,000 and \$217,000 for the years ended December 31, 2018, 2017 and 2016, respectively, and were the only type of employee costs reimbursed under the Advisory Agreement for the years ended December 31, 2018, 2017 and 2016. The Company will not reimburse for employee costs in connection with services for which the Advisor earns acquisition or origination fees or disposition fees (other than reimbursement of travel and communication expenses) or for the salaries or benefits the Advisor or its affiliates may pay to the Company’s executive officers. In addition to the amounts above, the Company reimburses the Advisor for certain of the Company’s direct costs incurred from third parties that were initially paid by the Advisor on behalf of the Company.

⁽³⁾ Reimbursement of operating expenses includes \$3.1 million in professional fees incurred related to the assessment of strategic alternatives for the year ended December 31, 2018. The Company and the Advisor have agreed to evenly divide certain costs and expenses related to the Company’s exploration and assessment of strategic alternatives.

⁽⁴⁾ Disposition fees with respect to real estate sold are included in the gain on sale of real estate, net, in the accompanying consolidated statements of operations.

In connection with the Offering, Messrs. Bren, Hall, McMillan and Schreiber agreed to provide additional indemnification to one of the participating broker-dealers. The Company agreed to add supplemental coverage to its directors’ and officers’ insurance coverage to insure Messrs. Bren, Hall, McMillan and Schreiber’s obligations under this indemnification agreement in exchange for reimbursement by Messrs. Bren, Hall, McMillan and Schreiber to the Company for all costs, expenses and premiums related to this supplemental coverage. During each of the years ended December 31, 2018, 2017 and 2016, the Advisor incurred \$0.1 million for the costs of the supplemental coverage obtained by the Company.

For each of the years ended December 31, 2018, 2017 and 2016, the Advisor reimbursed the Company \$0.2 million for property insurance rebates. During the year ended December 31, 2016, the Advisor and/or the Dealer Manager reimbursed the Company \$0.1 million for legal and professional fees and travel expenses.

December 31, 2018

Deferral of Asset Management Fees

Pursuant to the Advisory Agreement, with respect to asset management fees accruing from March 1, 2014, the Advisor has agreed to defer, without interest, the Company's obligation to pay asset management fees for any month in which the Company's modified funds from operations ("MFFO") for such month, as such term is defined in the practice guideline issued by the Institute for Portfolio Alternatives (formerly known as the Investment Program Association) in November 2010 and interpreted by the Company, excluding asset management fees, does not exceed the amount of distributions declared by the Company for record dates of that month. The Company remains obligated to pay the Advisor an asset management fee in any month in which the Company's MFFO, excluding asset management fees, for such month exceeds the amount of distributions declared for the record dates of that month (such excess amount, an "MFFO Surplus"); however, any amount of such asset management fee in excess of the MFFO Surplus will also be deferred under the Advisory Agreement. If the MFFO Surplus for any month exceeds the amount of the asset management fee payable for such month, any remaining MFFO Surplus will be applied to pay any asset management fee amounts previously deferred in accordance with the Advisory Agreement.

However, notwithstanding the foregoing, any and all deferred asset management fees that are unpaid will become immediately due and payable at such time as the Company's stockholders have received, together as a collective group, aggregate distributions (including distributions that may constitute a return of capital for federal income tax purposes) sufficient to provide (i) an 8.0% per year cumulative, noncompounded return on such net invested capital (the "Stockholders' 8% Return") and (ii) a return of their net invested capital, or the amount calculated by multiplying the total number of shares purchased by stockholders by the issue price, reduced by any amounts to repurchase shares pursuant to the Company's share redemption program. The Stockholders' 8% Return is not based on the return provided to any individual stockholder. Accordingly, it is not necessary for each of the Company's stockholders to have received any minimum return in order for the Advisor to receive deferred asset management fees.

As of December 31, 2018, the Company had accrued and deferred payment of \$2.6 million of asset management fees under the Advisory Agreement, which were subsequently paid in February 2019.

Lease to Affiliate

On May 29, 2015, the indirect wholly owned subsidiary of the Company that owns 3003 Washington Boulevard entered into a lease with an affiliate of the Advisor for 5,046 rentable square feet, or approximately 2.3% of the total rentable square feet, at 3003 Washington Boulevard. The lease commenced on October 1, 2015 and terminates on August 31, 2019. The annualized base rent, which represents annualized contractual base rental income as of December 31, 2018, adjusted to straight-line any contractual tenant concessions (including free rent) and rent increases from the lease's inception through the balance of the lease term, for this lease is approximately \$0.2 million, and the average annual rental rate (net of rental abatements) over the lease term is \$46.38 per square foot. During each of the years ended December 31, 2018, 2017 and 2016, the Company recognized \$0.2 million of revenue related to this lease.

Prior to their approval of the lease, the Company's conflicts committee and board of directors determined the lease to be fair and reasonable to the Company.

During the years ended December 31, 2018, 2017 and 2016, no other business transactions occurred between the Company and KBS REIT I, KBS REIT II, KBS Strategic Opportunity REIT, KBS Legacy Partners Apartment REIT, KBS Strategic Opportunity REIT II, KBS Growth & Income REIT, the Advisor, the Dealer Manager or other KBS-affiliated entities.

10. SELECTED QUARTERLY FINANCIAL DATA (UNAUDITED)

Presented below is a summary of the unaudited quarterly financial information for the years ended December 31, 2018 and 2017 (in thousands, except per share amounts):

	2018			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Revenues	\$ 104,179	\$ 107,576	\$ 106,145	\$ 108,357
Net income (loss) attributable to common stockholders	\$ 16,630	\$ 17,749	\$ (4,070)	\$ (26,982)
Net income (loss) per common share attributable to common stockholders, basic and diluted	\$ 0.09	\$ 0.10	\$ (0.02)	\$ (0.15)
Distributions declared per common share ⁽¹⁾	\$ 0.160	\$ 0.162	\$ 0.164	\$ 0.164

	2017			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Revenues	\$ 105,400	\$ 103,019	\$ 102,558	\$ 103,072
Net income (loss) attributable to common stockholders	\$ 4,986	\$ (1,568)	\$ (3,151)	\$ 1,107
Net income (loss) per common share attributable to common stockholders, basic and diluted	\$ 0.03	\$ (0.01)	\$ (0.02)	\$ 0.01
Distributions declared per common share ⁽¹⁾	\$ 0.160	\$ 0.162	\$ 0.164	\$ 0.164

⁽¹⁾ Distributions declared per common share assumes each share was issued and outstanding each day during the respective periods from January 1, 2017 through December 31, 2018. Each day during the periods from January 1, 2017 through December 31, 2018 was a record date for distributions. Distributions were calculated at the rate of \$0.00178082 per share per day.

11. COMMITMENTS AND CONTINGENCIES

Economic Dependency

The Company is dependent on the Advisor for certain services that are essential to the Company, including the identification, evaluation, negotiation, origination, acquisition and disposition of investments; management of the daily operations of the Company's investment portfolio; and other general and administrative responsibilities. In the event that the Advisor is unable to provide the respective services, the Company will be required to obtain such services from other sources.

Legal Matters

From time to time, the Company may be party to legal proceedings that arise in the ordinary course of its business. Management is not aware of any legal proceedings of which the outcome is probable or reasonably possible to have a material adverse effect on the Company's results of operations or financial condition, which would require accrual or disclosure of the contingency and possible range of loss. Additionally, the Company has not recorded any loss contingencies related to legal proceedings in which the potential loss is deemed to be remote.

Environmental

As an owner of real estate, the Company is subject to various environmental laws of federal, state and local governments. Compliance with existing environmental laws is not expected to have a material adverse effect on the Company's financial condition and results of operations as of December 31, 2018.

12. SUBSEQUENT EVENTS

The Company evaluates subsequent events up until the date the consolidated financial statements are issued.

Distributions Paid

On January 2, 2019, the Company paid distributions of \$9.8 million, which related to distributions declared for daily record dates for each day in the period from December 1, 2018 through December 31, 2018. Distributions for this period were calculated based on stockholders of record each day during this period at a rate of \$0.00178082 per share per day. On February 4, 2019, the Company paid distributions of \$9.6 million, which related to distributions in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on January 18, 2019. On March 1, 2019, the Company paid distributions of \$9.4 million, which related to distributions in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on February 18, 2019.

Distributions Authorized

On March 12, 2019, the Company's board of directors authorized a March 2019 distribution in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on March 18, 2019, which the Company expects to pay in April 2019, and an April 2019 distribution in the amount of \$0.05416667 per share of common stock to stockholders of record as of the close of business on April 18, 2019, which the Company expects to pay in May 2019.

Investors may choose to receive cash distributions or purchase additional shares through the Company's dividend reinvestment plan.

KBS REAL ESTATE INVESTMENT TRUST III, INC.

SCHEDULE III

REAL ESTATE ASSETS AND ACCUMULATED DEPRECIATION AND AMORTIZATION

December 31, 2018

(dollar amounts in thousands)

⁽¹⁾ Building and improvements includes tenant origination and absorption costs and construction in progress.

⁽²⁾ Costs capitalized subsequent to acquisition is net of write-offs of fully depreciated/amortized assets and property damage.

⁽³⁾ The aggregate cost of real estate for federal income tax purposes was \$3.8 billion (unaudited) as of December 31, 2018.

⁽⁴⁾ As of December 31, 2018, these properties served as the security for the Portfolio Revolving Loan Facility, which had an outstanding principal balance of \$200.0 million.

⁽⁵⁾ As of December 31, 2018, these properties served as the security for the Portfolio Loan Facility, which had an outstanding principal balance of \$893.5 million.

⁽⁶⁾ As of December 31, 2018, these properties served as the security for the Portfolio Loan, which had an outstanding principal balance of \$84.5 million.

⁽⁷⁾ On August 26, 2016, the Company, through an indirect wholly-owned subsidiary, entered into the Hardware Village Joint Venture to develop and subsequently operate a multifamily apartment complex, located on the developable land at Gateway Tech Center. The Company owns a 99.24% equity interest in the joint venture. In July 2018, one of the two buildings consisting of 265 units was placed into service.

⁽⁸⁾ On March 3, 2017, the Company acquired a 75% equity interest in an existing company and created a joint venture with an unaffiliated developer to develop and subsequently operate Village Center Station II. On October 11, 2018, the Company purchased the developer's 25% equity interest and accounted for Village Center Station II on a consolidated basis, recording the real estate at fair value. The initial cost to the Company of \$132.1 million reflects the fair value of the real estate upon acquisition of the developer's interest.
